## LETTER OF TRANSMITTAL

---

TREASURY DEPARTMENT,  
OFFICE OF COMMISSIONER OF INTERNAL REVENUE,  
*Washington, D. C., January 9, 1956.*

Sir: I have the honor to transmit herewith the complete report, *Statistics of Income for 1952, Part 1*, prepared in accordance with the provisions of section 63 of the Internal Revenue Code of 1939 which requires annual preparation and publication of statistical data reasonably available with respect to the operation of Federal income tax laws. Data for numerous types of income, deductions, exemptions, income tax, self-employment tax, income tax withheld on wages, payments on declaration, and other related data are shown by various classifications. These data are compiled from individual and fiduciary income tax returns for the income year 1952. Nontaxable fiduciary returns are included in the tabulations for the first time since 1939, so that full coverage of fiduciary income is included.

In addition to the current year tabulations, the report contains significant historical data and a synopsis of recent tax rates, credits, and other provisions of income tax laws.

Respectfully,

RUSSELL C. HARRINGTON,  
*Commissioner of Internal Revenue.*

Honorable G. M. HUMPHREY,  
*Secretary of the Treasury.*

## INTRODUCTION

Statistical data presented in this report cover the income year 1952. The source documents are individual income tax returns, Form 1040 and Form 1040A, and fiduciary income tax returns, Form 1041, both taxable and nontaxable. With the inclusion of the nontaxable fiduciary returns, the statistics for fiduciary returns embody comprehensive data for the income from estates and trusts. Income, deductions, exemptions, taxes, and other important information reported on these returns are presented by various classifications of taxpayers, size of income, tax status, and other relevant groupings. Gift tax returns filed for gifts made in 1952 and estate tax returns filed during 1953 were not processed by the Statistics Division; therefore no data for these returns are included in this report. Under present plans, however, both gift tax returns and estate tax returns will be processed for next year's report.

The first part of this report pertains to the individual income tax returns and contains data from Form 1040, whether short-form or long-form, and from the employee's optional returns, Forms 1040A. Although Form 1040A differs from Form 1040, it is possible to integrate the data reported on the various forms and no distinction is made in the tabulations. Current year data are presented in 13 basic tables; in addition, significant historical series for 1944 and subsequent years are given in 6 tables.

The second part of this report presents data reported on fiduciary income tax returns, Forms 1041. The current year statistics are tabulated in 8 basic tables and include data for both taxable and nontaxable fiduciary returns. This is the first year since 1939 that the nontaxable fiduciary returns have been processed by the Division. With the inclusion of the nontaxable returns, the data now show the entire income from estates and from property held in trust even though the trust income was distributable to beneficiaries to the extent that none was taxable to the fiduciary. Data characteristic of fiduciary returns differ somewhat from those for individual returns; however, statistics from fiduciary returns are presented, so far as possible, in tables similar to those for individual returns, so that these data may be associated. Two historical tables, showing data for taxable fiduciary returns only, follow the current year tabulations.

The third part of this report gives a brief synopsis of recent Federal tax laws relating to the income tax provisions that apply to individual income and fiduciary income, and to the tax on self-employment income derived by an individual from his solely owned business and his distributive share of partnership income.

At the close of the report are inserted facsimiles of the individual income tax returns, Forms 1040 and 1040A, and of the fiduciary income tax returns, Form 1041, for 1952.

Four tables from this report were published in a *Preliminary Report, Statistics of Income for 1952, Part 1*, issued in April 1955. Three of these tables contain data for individual returns and are tables 1, 4, and 12 in this complete report; the remaining table contains data for taxable and nontaxable fiduciary returns and is table 2 among the fiduciary tables of this report. Revisions in the previously published data were found necessary in compiling tables for this report.

Income Tax  
Returns*

# INDIVIDUAL INCOME TAX RETURNS FOR 1952

## MAJOR CHARACTERISTICS OF 1952

Adjusted gross income and tax liability on individual returns for 1952 continue the upward trend, resulting in the largest amounts ever to be reported. This is the first year to reflect the entire annual increase in surtax rates that became effective on November 1, 1951, under provisions of the Revenue Act of 1951.

The total tax liability for 1952 is \$28 billion of which \$0.2 billion is self-employment tax. There is an increase of \$3.6 billion, or 15 percent, in the total tax over that for 1951. A breakdown of the current year tax shows an increase in the combined normal tax and surtax as well as in self-employment tax; but there is a decrease in the alternative tax. Approximately one-third of the total tax is paid on returns with adjusted gross income under \$5,000. Only 6 percent of the tax is reported on returns showing adjusted gross income of \$100,000 or more.

Adjusted gross income reached an all-time high of \$216.1 billion, which is nearly \$13 billion, or 6 percent, more than that of the previous year. Somewhat over one-half of the adjusted gross income for 1952 is reported on returns with income under \$5,000. Adjusted gross

deficit for the current year is about \$0.8 billion; this is 5 percent larger than the 1951 deficit.

The 56.5 million individual income tax returns filed for the income year 1952 are somewhat over one million returns more than were filed for 1951. Although more than three-fourths of the 1952 returns are filed by taxpayers whose income is less than \$5,000, there are one million fewer returns in this category than last year. Taxpayers with income of \$5,000 or more in 1952 filed 2 million returns more than were filed by the same income group in 1951.

Salaries and wages for 1952 are \$174.3 billion, an increase of \$13.9 billion, and account for the major portion of the increase in adjusted gross income. There are also increases in investment income from interest, annuities, and rents and royalties. Business profit is up slightly, but dividends, statutory capital gains, partnership profit, and fiduciary income declined in 1952. Among the losses in adjusted gross income, there are larger losses from rents and royalties and business activities and a larger deduction for capital loss than were reported in the prior year.

Salaries and wages are found on 90 percent of the returns with adjusted gross income under \$5,000 as well as

INDIVIDUAL INCOME TAX RETURNS, BY INCOME GROUPS, 1952

on returns with \$5,000 or more. Dividends are reported on one out of every five returns with income of \$5,000 or more, whereas dividends are reported on about one out of 20 returns with income under \$5,000.

Almost 7 million returns show business activity of sole proprietors and 1.8 million are filed by members of partnerships; however, in some cases, business and partnership enterprises occur on the same return. Among these returns, there are four million taxpayers with self-employment tax.

There are 43.9 million taxable returns for the current year. This is 1.2 million more taxable returns than were filed for the previous year, while the nontaxable returns decreased only 146 thousand.

The standard deduction was elected on 43.7 million returns, which is 77.3 percent of all returns. This is the lowest percentage of returns ever to show this election which has been gradually declining since 1948 when 83 percent of the returns showed use of the standard deduction.

The optional tax table was used to determine the income tax liability on 36.2 million returns, or 64 percent of the total. This is the smallest proportion of the returns to show use of the optional tax since its introduction in 1944. The highest proportion was slightly over 80 percent for 1945.

Of the 12.8 million returns which have itemized non-business deductions in 1952, almost all show contributions and taxes paid. On one-half of these returns, the taxpayer's medical and dental expenses were such that he claimed a deduction. About 6 out of 10 returns have a deduction for interest paid.

The total number of exemptions claimed is 149.6 million of which 90 million are the per capita exemption for the taxpayer and on joint returns his spouse, 5.5 million are the additional exemptions for age and blindness, and

54.1 million are per capita exemption for dependents. The average number of exemptions on returns under \$5,000 adjusted gross income is 2½ exemptions per return, while on returns with \$5,000 or more income the average number of exemptions is 3½ for each return. The chief reason for this divergence is that joint returns, having at least 2 exemptions, compose 90 percent of the returns with income \$5,000 or more, but in the lower income group only 50 percent of the returns are joint returns. The average number of exemptions for joint returns as a whole is 3½ and for all other returns, as a group, the average is 1½ exemptions each.

## INCOME TAX PROVISIONS FOR 1952 INDIVIDUAL INCOME

The Internal Revenue Code of 1939 as amended by the Revenue Act of 1951, dated October 20, 1951, and by the Social Security Amendments of 1950, dated August 28, 1950, is effective for the income year 1952. Some of the amendments were applicable throughout the year 1951, others were applicable as of November 1, 1951, so that the full effect of the increase in tax rates and of other changes is reflected, for the first time, in the income and tax data for 1952.

In addition, Public Law 465-82d Congress, 2d Session, approved July 8, 1952, amended the 1939 Code in several respects, one of which is an increase in the allowable deduction for charitable contributions made by individuals. The deduction is increased to an amount not in excess of 20 percent of the adjusted gross income for taxable years beginning on or after January 1, 1952, whereas the deduction formerly was limited to 15 percent of adjusted gross income.

## RETURNS INCLUDED

Data in this report are compiled from the returns as filed by the taxpayers, prior to audit by the Internal Revenue Service, and do not reflect any changes in income, deductions, exemptions, or taxes that may result from official audit.

Individual returns used are Forms 1040 and 1040A filed by citizens and resident aliens. Included are returns for the calendar year 1952, a fiscal year ending within the period July 1952 through June 1953, and a part year with the greater number of months falling in 1952. The majority of returns are for the calendar year. Tentative returns are not included and amended returns are used only if the original returns are excluded. Returns of nonresident aliens are not included.

A return is required of every individual, including minors, who had \$600 or more of gross income for the taxable year, except that every self-employed person must file Form 1040 if he has at least \$400 of net earnings from self-employment, regardless of allowable deductions and exemptions. Many returns, not otherwise required, are filed solely to claim refund of tax overpaid by current payments; also some returns are received without any information on them.

## COMPOSITION OF ADJUSTED GROSS INCOME

In the following chart showing composition of adjusted gross income for 1952, the income base is adjusted gross income less adjusted gross deficit. Only the four major sources—salaries and wages, business, partnership, and dividends—are given a specific area, the remaining sources being grouped in the area for other income. In plotting the business area, the net profit and net loss from business are combined; similarly, the net profit and net loss from partnership are combined for the partnership area. Other income encompasses net profit and net loss from rents and royalties, net gain and net loss from sale of capital assets and other assets, net operating loss deduction, and income from interest, annuities and pensions, estates and trusts, and miscellaneous sources.

Salaries and wages, which predominate, make up 81 percent of the income and are four times greater than income from all other sources combined. Business and partnership together contribute 11 percent of the income. Dividends form only 3 percent of the total.

COMPOSITION OF ADJUSTED GROSS INCOME, 1952

## MARITAL STATUS

Among the returns for 1952, there are 33.4 million joint returns of husbands and wives; this group forms nearly 60 percent of all returns filed. The next largest group of returns is that filed by single persons not heads of household; this group of 20 million returns constitutes somewhat

Form 1040A is the employee's optional return which may be filed by persons whose gross income is less than \$5,000 consisting of wages reported on Withholding Statements (Form W-2) and not more than a total of \$100 from other wages, dividends, and interest. The income tax liability on this form is determined by the district director of internal revenue on the basis of the income reported, in accordance with optional tax table II of the 1951 act, amending the 1939 Code. The tax in this table applying to 1952 income makes allowance for the standard deduction and for exemptions. Joint returns of husband and wife may be filed on Form 1040A if their combined income meets the requirements for its use. Form 1040A cannot be used by husband and wife to report divided community income; neither can it be used by persons claiming status as head of household.

Form 1040, which may be either a long-form return or a short-form return, is used by persons who, by reason of the size or source of their income, are not permitted to use Form 1040A, and by persons who, although eligible to use Form 1040A, find it to their advantage to use Form 1040. Persons with adjusted gross income of less than \$5,000, regardless of the source, may elect to file the short-form return on which nonbusiness deductions and tax credits are not reported, the income tax being determined on the basis of adjusted gross income, by the taxpayer, from the optional tax table. If the taxpayer whose adjusted gross income is less than \$5,000 wishes to claim nonbusiness deductions in excess of the standard deduction, he must file the long-form return and compute the income tax liability on the basis of net income less allowable exemptions. Persons with adjusted gross income of \$5,000 or more are required to file the long-form return and compute the income tax liability. In computing the net income to be taxed, the taxpayer may use, in lieu of itemized nonbusiness deductions, the optional standard deduction which is the smaller of \$1,000 or an amount equal to 10 percent of the adjusted gross income, except that in the case of a married person filing a separate return, the standard deduction is \$500.

Facsimiles of the 1952 individual returns, Forms 1040 and 1040A, are presented on pages 95-126.

The table below sets forth the number of individual returns filed for 1952 on the various forms and shows whether they are taxable or nontaxable. It also indicates the returns on which the tax is determined from the optional tax table, as well as returns on which the taxpayer elected the standard deduction and returns on which the taxpayer found it to his advantage to itemize his nonbusiness deductions. The income tax liability of 36.2 million taxpayers filing Form 1040A and short-form 1040 returns is determined from the tax table. These 36.2 million returns also have the standard deduction. In addition, 7.5 million taxpayers using long-form 1040 returns elected to use the optional standard deduction, so that a total of 43.7 million returns show use of the standard deduction. On the remaining 12.8 million returns, the taxpayer itemized his deductions.

over 35 percent of the total. Of the remaining returns, 2.3 million, or 4 percent, are separate returns of husbands and wives and 0.7 million, or 1 percent, are returns of heads of household, a status created under the 1951 act and classified for the first time on 1952 returns.

**NUMBER OF RETURNS, ADJUSTED GROSS INCOME AND DEFICIT, BY MARITAL STATUS OF TAXPAYER, 1952**

Marital status	Returns		Adjusted gross income	Adjusted gross deficit
	Number	Percent of total		
Joint returns of husbands and wives.....	33,440,334	59.2	163,708,804	623,144
Separate returns of husbands and wives:				
Men.....	1,085,336	1.9	3,619,590	18,524
Women.....	1,226,430	2.2	2,815,016	7,943
Returns of heads of household:				
Men.....	342,440	.6	1,752,473	( <sup>1</sup> )
Women.....	347,025	.6	1,461,215	( <sup>1</sup> )
Returns of single persons:				
Men.....	10,970,540	19.4	23,477,822	87,179
Women.....	9,116,712	16.1	19,252,529	55,454
Total.....	56,528,817	100.0	216,087,449	797,541

<sup>1</sup> Number of returns is subject to sampling variation of more than 100 percent; therefore, data are not shown separately. However they are included in totals.

### DEDUCTION FOR MEDICAL EXPENSE

Among the taxpayers who itemized nonbusiness deductions for 1952 there are 6.4 million who claimed deductions amounting to \$2.1 billion for medical costs paid during their taxable year. This is the largest amount ever claimed on account of medical expenses and represents nearly 7 percent of the \$31.5 billion of adjusted gross income reported on returns having a medical deduction. For 1950, the last year for which the medical deduction was tabulated, the deduction is \$1.6 billion. The 1951 act liberalized the deduction for taxpayers who have attained the age of 65 before the close of their taxable year, by removing the limitation pertaining to the amount of medical deduction equal to 5 percent of the adjusted gross income; so that such taxpayers may deduct their entire medical costs, if within the maximum allowable deduction.

Medical costs to be considered for this deduction include those actually paid during the year, even though the illness occurred in a prior year, for the care of the taxpayer, his spouse, and any dependent who received over one-half of his support from the taxpayer regardless of the dependent's gross income. Medical costs include payments to physicians, dentists, nurses, hospitals, oculists, chiropractors, osteopaths, as well as cost of X-rays, medical supplies, drugs, dentures, crutches, hearing aids, and the like. Any sick, health, or hospital insurance received must be applied against the total medical expenses, after which a deduction is allowed subject to limitations. Under the 1951 act, if neither the taxpayer nor his spouse has attained the age of 65, the deduction for medical expenses is that portion of such expenses which exceed an amount equal to 5 percent of adjusted gross income; if either the taxpayer or his spouse is 65 years or over before the close of the year, the deduction is the entire amount of medical expenses for both plus the amount by which medical expenses for their dependents exceed 5 percent of adjusted gross income. However, the maxi-

mum deduction allowed in any case is limited to \$1,250 multiplied by the number of exemptions allowed for normal tax and surtax other than those for age and blindness, but not in excess of \$2,500 in the case of a single person, a head of household, or a married person filing a separate return, nor in excess of \$5,000 in the case of a joint return of husband and wife.

In the following table, the deduction for medical, dental, etc., expenses is tabulated together with the adjusted gross income reported on these returns. The medical deduction is the amount claimed by the taxpayer whether or not the deduction complies with the above provisions.

**MEDICAL DEDUCTION AND ADJUSTED GROSS INCOME BY ADJUSTED GROSS INCOME CLASSES, 1952**

Adjusted gross income classes	Number of returns	Deduction for medical, dental, etc., expenses	Adjusted gross income
		Thousand dollars	Thousand dollars

<sup>1</sup> Number of returns is subject to sampling variation of more than 100 percent; therefore, data are not shown separately. However, they are included in totals.

<sup>2</sup> Adjusted gross deficit.

<sup>3</sup> Adjusted gross income less adjusted gross deficit.

### EXPLANATION OF CLASSIFICATIONS AND TERMS

#### Classification of Individual Returns

Individual returns for 1952 are classified by adjusted gross income classes, by taxable and nontaxable returns, by standard and itemized deductions, by marital status of taxpayer, by number of exemptions other than age or blindness, and by States and Territories. Also returns are classified by the size of each specific source of income and loss comprising adjusted gross income; taxable returns are classified by types of tax liability. Returns

with itemized deductions are classified by net income classes for a frequency of returns only. Data presented under the various classifications differ, some items not being available for all classifications.

**Adjusted gross income classes.**—The amount of adjusted gross income reported on each return supplies the basis for this classification. The class intervals for 1952 are broader, in most instances, than those used in former years. Returns showing an adjusted gross deficit regardless of amount, returns that break even in adjusted gross, and returns with no information on them are designated "No adjusted gross income" and appear in aggregate as a separate class.

Returns in the two classes, no adjusted gross income and adjusted gross income under \$600, occur among the taxable returns because the self-employment tax is payable on self-employment income irrespective of the income tax. Nontaxable returns in the adjusted gross income class \$4,500 or more are considered a class unit and, in tables where the taxable and nontaxable returns are combined, the nontaxable returns in this class remain in this unit, even though they exceed the designated class limit.

**Returns with standard deduction or with itemized deductions.**—Returns with standard deduction are optional returns, Form 1040A, and short-form returns, Form 1040, on both of which the adjusted gross income is less than \$5,000 and deductions are allowed automatically through use of the tax table, and long-form returns, Form 1040, with adjusted gross income of \$5,000 or more on which the optional standard deduction is used. The standard deduction in the latter case is the smaller of \$1,000 or 10 percent of the adjusted gross income, except that on the return of a married person filing a separate return, the standard deduction is \$500.

Returns with itemized deductions are long-form returns, Form 1040, on which nonbusiness deductions allowed against adjusted gross income are reported in detail by the taxpayer or on which no deductions (standard or itemized) are reported; all returns with adjusted gross deficit whether short-form or long-form returns (with or without deductions); returns that break even in adjusted gross; and returns with no information on them.

**Taxable and nontaxable returns.**—This classification is based on the existence or nonexistence of a tax liability after tax credits. The tax liability includes the self-employment tax. Tax credits are allowed for tax paid at source on interest from tax-free covenant bonds and for income tax paid to a foreign country or a possession of the United States. However, these tax credits are allowed only to taxpayers who itemized deductions and only against the income tax. No tax credit is allowed against the self-employment tax.

Taxable returns are those showing a tax liability remaining after the allowable tax credits stated above. Returns with self-employment tax are classified as taxable even though there is no income tax.

Nontaxable returns are those without taxable self-employment income that have an adjusted gross deficit, or a breakeven in adjusted gross, or no amounts of income, or that have an adjusted gross income which when reduced by deductions (standard or itemized) and exemptions leaves no income to be taxed, or in case of remaining income, the income tax thereon is eliminated by the tax credits.

**Size of specific source.**—For the purpose of frequency distributions only, returns are classified by size of each specific source of income and loss comprising the adjusted gross income. The class intervals are sufficiently narrow to provide adequate classification of small income items.

**Net income classes.**—Returns with itemized deductions are classified on the basis of the amount of net income for a frequency distribution of these returns. Returns with net deficit, regardless of amount, are designated "No net income" and appear as the first class.

**Types of tax.**—Taxable returns are classified on the basis of three types of tax: combined normal tax and surtax, alternative tax on income containing capital gain taxed at the special rate, and self-employment tax only. The first two types of tax may be in conjunction with the self-employment tax. By so classifying the tax, the two categories—returns with normal tax and surtax, and returns with alternative tax—are maintained on the same basis as was used before the advent of self-employment tax.

Returns with normal tax and surtax include the optional returns, Form 1040A, and the short-form returns, Form 1040, on both of which the optional tax is paid in lieu of the regular normal tax and surtax. Short- and long-form returns, Form 1040, with normal tax and surtax may also have self-employment tax. Returns with normal tax and surtax include all returns with net loss from sales of capital assets and returns with net gain from such sales unless the alternative tax is imposed.

Returns with alternative tax are long-form returns, Form 1040, wherein the income includes a net long-term capital gain or an excess of net long-term capital gain over net short-term capital loss and the alternative tax is less than the regular normal tax and surtax on income which includes all net gain from sales of capital assets. Returns with alternative tax may also have self-employment tax.

Returns with only self-employment tax are returns, Form 1040, with self-employment income subject to self-employment tax but with no income tax liability.

**Marital status.**—Classification of returns for marital status of taxpayer is based on the marital status of the taxpayer at the close of the income year or on the date of the death of a spouse. The four classifications are: joint returns of husbands and wives, separate returns of husbands and wives, returns of heads of household, and returns of single persons. The last three groups are also classified as returns of men and returns of women.

Joint returns of husbands and wives are those on which a married couple report their combined income or returns

of married persons whose spouse has no income but who, nevertheless, are entitled to claim the exemption for their spouse. This group includes joint returns filed on Form 1040A despite the fact that the district director of internal revenue may have determined the minimum tax on the basis of separate incomes of husband and wife.

Separate returns of husbands and wives are returns of married persons who file a return independently from their spouse, each reporting his or her respective income and claiming his own exemption. Since the introduction of the split-income provision, the popularity of dividing community income between spouses for income tax purposes has diminished. The relatively few returns filed on a community basis are now tabulated with separate returns of husbands and wives. This group does not include joint returns, Form 1040A, even though the director determined the minimum tax on the basis of separate incomes of husband and wife. Unequal numbers of returns for men and for women result from insufficient information to identify the marital status or the sex of taxpayers and from the use of samples as a means for compiling statistical data.

Returns of heads of household are returns, Form 1040, filed by unmarried persons who furnished over half the maintenance of a home which was his residence and which he shared during the entire year with a person for whom he was entitled to an exemption, or with his unmarried child, stepchild, or grandchild even though such child was not a dependent. This is the first year for this classification.

Returns of single persons are returns of unmarried individuals who do not qualify as head of household.

**Number of exemptions other than age or blindness.**—For a frequency distribution of returns by number of exemptions, only the per capita exemption of the taxpayer, his spouse on a joint return, and each dependent is utilized. This maintains the same basis for this distribution as that used in previous years. There is a class for each of 1 through 5 and for 6 or more exemptions for all returns and for joint returns; and a class for each of 1 through 3 and 4 or more exemptions for separate returns of husbands and wives, for returns of heads of household, and for returns of single persons.

**States and Territories.**—This classification consists of the 48 States, Hawaii, and the District of Columbia. The segregation of returns on the basis of States and Territories is determined by the location of the internal revenue district in which the return is filed, except that for the District of Columbia, the segregation is determined from the address of the taxpayer. Internal revenue districts, or groups of such districts, are coextensive with States and Territories, except that the District of Columbia comprises a part of the internal revenue district of Maryland and the Territory of Alaska is a part of the internal revenue district of Washington. The sampling technique employed for obtaining statistical data does not permit separate tabulation of returns from Alaska.

## Sources Comprising Adjusted Gross Income

**Salaries and wages** also include bonuses, tips, commissions, and other kinds of compensation used by the employer to pay the employee for services rendered. Amounts paid to an employee to cover travel expenses or as reimbursed expenses are considered wages; however, travel and lodging expenses incurred by the employee while away from home overnight on his employer's business are deducted from gross salary on Form 1040, but only to the extent included in salaries and wages. Wages reported on Form 1040A are not reduced by such expenses. Enlisted military personnel exclude all compensation and commissioned officers exclude not more than \$200 of active service pay received for any month during any part of which they served in a combat zone or were hospitalized as a result of such service. Subsistence allowance for members of the armed forces, mustering-out pay, pensions of veterans, disability pay, monthly allowances for support of veterans and their dependents, and educational benefits paid to veterans are tax-exempt and, therefore, are not reported. Salaries and wages on Form 1040A exclude wages not exceeding \$100 per return upon which no income tax was withheld, the amount of which is reported as other income.

**Dividends** include foreign and domestic dividends, but exclude those received through partnerships and fiduciaries and, in adjusted gross income classes under \$5,000, exclude dividends not exceeding \$100 per return reported as other income on Form 1040A.

**Interest received** includes that from bonds, debentures, notes, mortgages, bank deposits, saving accounts, loans, and the taxable and partially tax-exempt interest on Government obligations, as well as partially tax-exempt Government interest received through partnerships and fiduciaries. However, in adjusted gross income classes under \$5,000, interest not exceeding \$100 per return reported as other income on Form 1040A is excluded.

**Annuities and pensions** include only the portion of amounts received during the year which are required to be reported in gross income. An amount equal to 3 percent of the total cost of the annuity is reported as income annually, until the aggregate of amounts received and excluded from gross income in this year and prior years equals the total cost. Thereafter, the entire amount received is taxable and must be included in gross income for the year in which it is received.

**Rents and royalties net profit** is the amount reported on returns that show a combined net profit in the schedule for these two sources of income. Rents include not only rents from real estate but also amounts received from renting any kind of property, and include the fair market value of crops received as rent from farm property. Royalties include revenue from copyrights, patents, trade-marks, formulas, natural resources under lease, and the like. Deductions against the gross income from these sources are allowed for maintenance, insurance, repairs, interest, taxes, depreciation, depletion, and other ex-

penses pertaining to the respective incomes. The net amount resulting from the operation of either source is not available. A net loss from one source offsets net profit of the other. The amount included in adjusted gross income is the net profit for the combined rents and royalties income.

**Rents and royalties net loss** is the amount reported on returns showing a net loss in the schedule for rents and royalties, neither of which is reported separately. Rents and royalties and the deductions are described briefly in the preceding paragraph. A net profit from either source offsets the net loss of the other. The net loss reported in adjusted gross income is the combined net loss from these two sources.

**Business net profit** is reported by individuals, including farmers, who are sole proprietors of a business or profession. The profit may result from one sole proprietorship activity or from several such activities carried on by the taxpayer, the combined result of which is a net profit. If there is a net loss from one of the business activities, the loss is combined with the net profit of the others and the remaining net profit is reported in adjusted gross income.

Business expenses deductible from total receipts from business activities include such items as cost of goods sold, salaries and wages of employees, interest on business debts, taxes on business and business property, bad debts arising from sales or service, depreciation and obsolescence, depletion, casualty losses on business property, rent, repairs, cost of supplies, advertising, selling expenses, insurance, and other expenses of running the business. Compensation of the sole proprietor is not allowed as a business deduction nor is the net operating loss deduction included among the business deductions.

**Business net loss** is the net result of all business or professional activities, including farmers, carried on by a sole proprietor, the combined result of which is a net loss. The loss may result from one or more businesses. In case there is a net profit from one of several activities, the profit is combined with the losses of the others and the remaining net loss is reported in adjusted gross income. Allowable expenses against the gross business receipts are mentioned in the above paragraph.

**Partnership net profit** is reported by taxpayers who are members of a partnership, syndicate, joint venture, or the like. Each member must report as income his share of the distributable net profit or loss (whether actually received or not) of each partnership of which he is a member. The amount reported as profit by the taxpayer is the net result of all his shares, the combined amount of which is a net profit. However, the taxpayer is required to exclude from his partnership profits and losses his share of partially tax-exempt Government interest and of gains and losses from sales of capital assets, these items being reported in their respective sources.

**Partnership net loss** is reported in adjusted gross income by persons who are members of a partnership, syndicate, joint venture, or the like; each member must report his

share of the distributable profit or loss (whether actually received or not). The reported net loss is the combined amount from all partnership shares, even though some shares may be net gains. Nevertheless, the taxpayer must exclude from his partnership profits and losses his share of partially tax-exempt Government interest and of capital gains and losses, these items being reported in their respective sources.

**Net operating loss deduction** reported in adjusted gross income pertains to net operating losses from business, profession, or partnership sustained after December 31, 1948, and to casualty losses from fire, flood, storm, or other casualty, or theft sustained after December 31, 1950, which result in net economic losses to the taxpayer. The amount of net operating loss deduction reported in the current year is only the portion of such losses not absorbed by the required carrybacks and carryovers into years prior to 1952.

**Net gain from sales of capital assets** is the statutory net gain from sales or exchanges of such assets, required to be included in adjusted gross income. It is the result of combining the net short-term capital gain or loss (including the capital loss carryover from the 5 preceding years) with the net long-term capital gain or loss (such gains and losses taken into account at 100 percent); however, in cases where the net long-term capital gain exceeds the net short-term capital loss, only 50 percent of the excess is included in adjusted gross income. If the net short-term capital gain exceeds the net long-term capital loss, the entire excess is included in adjusted gross income. This is the new method of reporting gains from sales of capital assets under the provisions of the 1951 act.

Short-term applies to sales of capital assets held 6 months or less and such gains and losses, together with the capital loss carryover, are merged to obtain the net short-term capital gain or loss. In determining the amount of net short-term gain or loss, the short-term gains and losses from partnerships are also included.

Long-term applies to gains and losses from sales of capital assets held more than 6 months and such gains and losses, taken into account at 100 percent, are merged to determine the net long-term capital gain or loss which also includes the net long-term capital gain or loss received through partnerships.

**Net loss from sales of capital assets** is the deductible loss from sales or exchanges of such assets allowed in computing adjusted gross income. For the purpose of determining the deduction under the provisions of the 1951 act, all short-term capital gains and losses (including the capital loss carryover from the 5 preceding years) and 100 percent of all long-term capital gains and losses are merged and the excess capital loss is allowed as a deduction to the extent of the net loss, or net income (adjusted gross income, if tax is determined from tax table) computed without regard to capital gains and losses, or \$1,000, whichever is smallest. The returns are not edited to ascertain whether or not the deduction conforms to the specified limitation and there may be cases, particularly

among returns with no adjusted gross income, where the amount deducted exceeds the limitation. Description of short- and long-term capital gains and losses are given above.

Capital loss carryover reported as a short-term capital loss on 1952 returns is the remaining net capital loss not allowed as a deduction in the 5 preceding years. The net capital loss sustained in 1952, to be used as a future carryover, is not reported as an item on the return; it is the excess of current year capital losses (at 100 percent) over the sum of (1) current year capital gains (at 100 percent) and (2) the smaller of \$1,000 or net income of the current year computed without regard to capital gains and losses. The net capital loss is carried forward as a short-term capital loss in the 5 succeeding years to the extent not eliminated in the interim.

**Net gain from sales of property other than capital assets** is that reported by taxpayers who had a net gain as the result of all their sales and exchanges of property which is not considered a capital asset. This type of gain has no reduction in contrast to that for the excess long-term capital gain.

**Net loss from sales of property other than capital assets** is reported by individuals whose losses from sales and exchanges of property that is not considered a capital asset exceeded their gains from such sales. A net loss of this type is wholly deductible in computing adjusted gross income.

**Income from estates and trusts** is the taxpayer's share of distributable income (whether actually received or not) of an estate or trust under which the taxpayer is a beneficiary. Such income, however, excludes partially tax-exempt Government interest which is reported in interest income.

**Miscellaneous income** includes alimony received, prizes, rewards, sweepstakes winnings, gambling profits, recovery of bad debts deducted in a prior year, insurance received as reimbursement for medical expenses previously deducted, and all other taxable income not separately tabulated. Also, in adjusted gross income classes under \$5,000, there are included \$21,500,000 of wages not subject to withholding of income tax, dividends, and interest, not exceeding a total of \$100 per return, reported in one sum on 429,002 optional returns, Form 1040A.

### Itemized Nonbusiness Deductions

Itemized deductions reported on long-form returns, Form 1040, are the nonbusiness deductions allowed against adjusted gross income. Itemized deductions are elected by many taxpayers instead of the optional standard deduction. (The standard deduction reported on long-form returns is not tabulated.)

**Contributions** are gifts made to organizations created in the United States or possessions thereof, or under the law of the United States, or of any State, Territory, or possession of the United States, and operated exclusively for

religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals; and gifts made to veterans' organizations or to governmental organizations for public use. Individuals who are members of a partnership may include among their contributions their pro rata share of gifts made by the partnership. For the income year 1952, the allowable deduction is limited to 20 percent of the adjusted gross income, unless the taxpayer qualified for an unlimited deduction under section 120 of the 1939 Code. The returns are not audited and it is not known whether the limitation is strictly adhered to, particularly among returns with no adjusted gross income.

**Interest paid** is that paid on personal debts, mortgages, bank loans, and installment purchases, but does not include interest on money borrowed to buy tax-exempt securities nor single-premium life insurance or endowment contracts; neither does it include interest chargeable against rent, royalties, or business income, which is reported in those schedules.

**Taxes** include personal property taxes, State income taxes, certain State and local retail sales taxes, State gasoline taxes and automobile license fees, and real estate taxes except those levied for improvement which tend to increase the value of property. Federal taxes are not deductible. Taxes paid on business property are reported in the rent and business schedules.

**Losses from fire, storm, etc.**, are the net losses on non-business property resulting from destruction by fire, storm, automobile accident, shipwreck, flood or other natural physical forces, and from losses due to theft. The deduction is limited to the net loss sustained, that is, the value of property just before the loss less salvage value and insurance or other reimbursement received.

**Medical, dental, etc., expenses** pertain to the medical expenses actually paid during the taxable year for the care of the taxpayer, his wife, and any dependent who received over one-half of his support from the taxpayer, regardless of the dependent's gross income. Any sick and health or hospital insurance received must be applied against the total expense to which it applies, after which a deduction is allowed subject to limitations. The limitations are stated under "Deduction for Medical Expense," page §8, wherein this deduction is shown with the corresponding adjusted gross income. The deduction is tabulated as reported by the taxpayer whether or not the deduction conforms to the limitations.

**Miscellaneous deductions** include all other authorized deductions not separately tabulated, such as alimony payments, expenses incurred in collection of income or for management, conservation, or maintenance of property held for the production of taxable income, amortizable bond premium, taxpayer's share of interest and taxes paid by a cooperative apartment corporation, gambling losses not in excess of gambling winnings included in income, and expenses in connection with the taxpayer's job, such as dues to unions or professional societies, tools and supplies, and fees to employment agencies.

## Measures of Individual Income

**Adjusted gross income** is defined as gross income *minus* allowable trade and business deductions, expenses of travel and lodging in connection with employment, reimbursed expenses in connection with employment, deductions attributable to rents and royalties, deductions for depreciation and depletion allowable to life tenants and income beneficiaries of property held in trust, allowable losses from sales of capital assets and other property, and a deduction equal to 50 percent of the excess of net long-term capital gain over net short-term capital loss.

**Adjusted gross deficit** occurs when the business deductions and other deductions and losses allowed for the computation of adjusted gross income, stated above, exceed the gross income.

The amounts of income, profits, and loss comprising adjusted gross income (or deficit) are the net amounts to be included, that is, gross receipts from business less trade and business expenses, salaries and wages less travel and lodging expenses in connection with employment or reimbursement expenses, gross rents and royalties less expenses attributable thereto, partnership income less expenses, gain from sales of capital assets reduced by 50 percent of the excess of net long-term capital gain over net short-term capital loss, and the allowable loss from sales of capital assets and other property. If the respective deductions are such that the net result is a loss from the source to which they relate, the net loss comprises a part of the adjusted gross income or deficit. In case a taxpayer received back pay or compensation for services rendered over a period of 36 months or more and filed under the provisions of section 107 of the 1939 Code, the amount of such income included in salary, business, or partnership is only that portion of the income allocated to the current year.

**Net income** on returns with itemized deductions is that reported on long-form returns, Form 1040, which have adjusted gross income in excess of the itemized nonbusiness deductions. Net income does not apply to 1040A returns, nor to short-form returns, Form 1040. Although long-form returns, Form 1040, on which taxpayers elected to use the optional standard deduction, do show a net income, the amount thereof is not included in the tabulated net income.

**Net deficit** on returns classified as returns with itemized deductions includes the adjusted gross deficit on short-form returns and the net deficit reported on long-form returns resulting from the combination of adjusted gross deficit and itemized deductions or from the excess of itemized deductions over adjusted gross income.

## Exemptions

Exemptions are allowed as a credit against income for purposes of both normal tax and surtax. A per capita exemption of \$600 is allowed for the taxpayer, his spouse on a joint return, and each closely related dependent (specified below) who received more than one-half of his support from the taxpayer and who had less than \$600

of gross income for the year, together with the additional exemptions allowed the taxpayer of \$600 for age 65 or over, and \$600 for blindness of the taxpayer and/or for his spouse if a joint return is filed.

Exemption for a dependent is allowable for the following close relatives specified by law: son or daughter (including legally adopted child) or descendant of either, stepchild; brother, sister, stepbrother, stepsister, half brother, half sister; parent, grandparent, or other direct ancestor; stepfather or stepmother; father-in-law, mother-in-law, brother-in-law, sister-in-law, son-in-law, or daughter-in-law; and uncle, aunt, nephew, or niece, if related by blood; provided that the dependent is a citizen or resident of the United States or a resident of Canada or Mexico.

Both the number and the amount of exemptions tabulated include the exemptions automatically allowed through use of the optional tax table, on returns Form 1040A and short-form 1040, as well as exemptions on returns of taxpayers who compute their tax on the long-form. Slight duplication of exemptions exists because of dependents who have less than \$600 of income, consisting of wages subject to withholding of income tax and who filed a return as the most convenient method of claiming the tax refund; such wages are not taxable to the dependent nor do they constitute a part of the income of the taxpayer rightfully claiming the dependent. Exemptions from both returns are included.

## Tax items

For the majority of individuals, income tax is paid, in whole or in part, on a current basis through the income tax withheld on wages and the payments made on declaration of estimated income tax by persons who are not subject to the withholding on wages or whose tax withheld is insufficient to cover the income tax liability. The self-employment tax is not paid currently; however, the current income tax payments in excess of the income tax liability are applied to the self-employment tax liability before a refund is available. If the tax withheld and payments on declaration do not cover the total tax liability, there is a balance due to be paid when the return is filed. If the tax withheld and payments on declaration exceed the total tax liability, the overpayment of tax is refundable to the taxpayer unless he signifies on a return, Form 1040, that he wishes the overpayment to be credited on his estimated income tax for the succeeding year.

**Total tax liability** contains two elements—the income tax and the self-employment tax. The income tax element is the net tax after the deduction for the two allowable tax credits. Self-employment tax is paid on self-employment income for the year, arising from certain kinds of business.

**Income tax liability before credits** is a combination of the optional tax, normal tax, surtax, and alternative tax before the deduction of the two tax credits.

**Tax credits** are allowable against the income tax for income tax paid to a foreign country or possession of the

United States (with limitations) and for income tax paid at source on interest from tax-free covenant bonds. However, these credits are available only to taxpayers who itemize their deductions.

**Income tax liability after credits** is the net income tax liability payable. It comprises the normal tax and surtax, the optional tax paid in lieu thereof, and the alternative tax on income containing long-term capital gain.

Normal tax and surtax are tabulated together and include the optional tax. The combined normal tax and surtax rates begin at 22.2 percent of the first \$2,000 of income subject to tax and increase to 92 percent of income in excess of \$200,000 on separate returns of husbands and wives and single persons not head of household, \$400,000 on joint returns of husbands and wives, and \$300,000 on returns of heads of household. The optional tax, provided in supplement T, states the income tax liability for the various adjusted gross income brackets and numbers of exemptions and may be used by taxpayers whose adjusted gross income from whatever source is less than \$5,000.

Alternative tax on income containing a net long-term capital gain or an excess of net long-term capital gain over net short-term capital loss is imposed only if the alternative tax is less than the regular normal tax and surtax on income that includes all gains from sales of capital assets. Alternative tax is the sum of (a) a partial tax computed at the regular normal tax and surtax rates on net income reduced for this purpose by an amount equal to 50 percent of the excess net long-term capital gain over net short-term capital loss, and (b) an amount equal to 26 percent of the entire excess of net long-term capital gain over net short-term capital loss. Alternative tax is not effective on separate returns of husbands and wives nor on returns of single persons not head of household with surtax net income under \$14,000; nor on joint returns with surtax net income under \$28,000 because of the split-income provision; nor on returns of heads of household with surtax net income under \$20,000.

**Self-employment tax** is based on the amount of self-employment income at the rate of 2½ percent. It is imposed whether or not there is an income tax liability. Net earnings from self-employment are a combination of gross income derived from the taxpayer's trade or business, reduced by allowable deductions, plus his share of self-employment earnings (or loss) from any partnership of which he is a member. However, farmers and most professional services are excluded from the definition of self-employment earnings; also, certain types of income and deductions are excluded, such as investment income, rents, interest, dividends, capital gains and losses, net operating loss deduction, and casualty losses. In determining the amount of self-employment income to be taxed, three factors, are considered; first, the amount of net earnings from self-employment must be \$400 or more; second, the maximum self-employment income to be taxed is \$3,600; and third, the amount of wages received from which social security tax has been withheld by an

employer. If the net earnings from self-employment are less than \$400, they are excluded from the definition of self-employment income. If social security tax has been withheld from wages, the amount of such wages is subtracted from the maximum amount of \$3,600 to determine the limit of self-employment income to be taxed. Self-employment income subject to tax is the smaller of two amounts: the excess of \$3,600 over the amount of wages subject to social security withholding, or the amount of net earnings from self-employment. No exemption is allowed against the self-employment income for purpose of determining the self-employment tax and no tax credit is allowed against the tax.

**Tax withheld** from wages during 1952 was determined by employers either from income tax withholding tables provided in the 1951 act, or by application of the 20 percent rate, prescribed therein, to the amount of wages in excess of withholding exemptions. The income tax withheld, as shown in the wage bracket withholding tables, is based on various wage levels and numbers of withholding exemptions. However, additional withholding of tax in excess of these requirements is permissible under agreement between employee and employer. The total amount of tax withheld, reported by the taxpayer, includes the over withholding of social security tax, that is, the excess over the maximum tax of \$54 withheld because the taxpayer worked for more than one employer. The amount of social security tax included is not available; it is reported with and treated in the same manner as income tax withheld from wages. The entire tax withheld is applied as a payment toward the discharge of the total tax liability.

**Payments on 1952 declaration of estimated tax** are reported by taxpayers who file returns on Form 1040. The payments reported are a combination of the payments made on the 1952 Declaration of Estimated Income Tax, Form 1040-ES, and any credit applied against the estimated income tax on account of an overpayment of the 1951 total tax liability. The combined amount of payments and credit is applied toward the discharge of the total tax liability for the current year.

**Tax due at time of filing** is the balance of tax liability remaining unpaid after the tax withheld on wages and the payments on 1952 declaration of estimated income tax have been applied against the total tax liability. This balance is paid with the filing of the income tax return after the close of the year, except that for the optional return, Form 1040A, the balance is paid upon assessment notice from the district director of internal revenue.

**Overpayment** of tax liability occurs if the tax withheld and the payments on the 1952 declaration of estimated income tax are greater than the current year total tax liability. The tax overpayment is refunded unless the taxpayer requests on Form 1040 that the overpayment be credited on his 1953 estimated income tax. The separate amounts of refund and credit are not available this year.

## DESCRIPTION OF SAMPLE AND LIMITATIONS OF DATA

**Sample design.**—The data presented for individual income tax returns for 1952 are derived from a stratified systematic sample which was selected from returns with adjusted gross income under \$50,000. Returns with adjusted gross income of \$50,000 or more were given 100 percent coverage.

The sampling strata used were based on the regular return sorting procedures used in the district directors' offices to facilitate the administrative processing of returns. The returns were sorted according to type of form used, presence or absence of business income, size of adjusted gross income, and tax status, as reported by the taxpayer. These sorts constituted effective sampling strata because the strata correlate highly with income and tax characteristics.

Within each stratum the returns were numbered consecutively. An independent systematic sample was selected from each stratum by selecting the first sample return number at random, and subsequently every *k*th return thereafter. For instance, for Forms 1040 with adjusted gross income \$10,000 to \$30,000, with *k* equal to 19 and the beginning number 6, the returns selected in the sample were numbered 6, 25, 44, 63, 82, and so on.

The following table shows the number of returns in the population, the number of returns in the sample, the prescribed sampling rate, and the actual sampling rate, by estimating strata.

NUMBER OF INDIVIDUAL INCOME TAX RETURNS FILED FOR 1952 AND NUMBER OF RETURNS IN SAMPLE BY ESTIMATING STRATUM

Estimating stratum	Number of returns filed	Number of returns in sample	Sampling percent	
			Pre-scribed	Actual
Form 1040A.....	11, 910, 472	26, 486	.233	.221
Form 1040 with adjusted gross income under \$10,000.....	42, 857, 443	93, 700	.223	.218
Form 1040 with adjusted gross income \$10,000 under \$30,000.....	1, 541, 616	76, 583	5.263	4.964
Form 1040 with adjusted gross income \$30,000 under \$50,000.....	140, 893	36, 034	25.000	25.561
Form 1040 with adjusted gross income \$50,000 or more.....	78, 393	78, 393	100.000	100.000
Grand total, all returns.....	56, 528, 817	311, 196		

**Weighting of the sample.**—The primary sources of population data were statements submitted by the district directors' offices showing the numbers of Form 1040A and Form 1040 returns filed.

Separate systems of weighting were used for the national tabulations and for the State tabulations. The weights for the national tabulations were based on nationwide stratum populations obtained by summing the stratum populations reported by the district directors' offices. The separate district office stratum populations provided the basis for independent district office weights for the State tabulations. Actual sampling rates varied enough between districts so as to warrant using two separate systems of weights.

As the result of using two weighting systems and rounded weighting factors, there exist slight discrepancies

between items distributed by states in tables 12 and 13, and corresponding items shown in the national tables.

**Sampling variability.**—The data for returns with adjusted gross income under \$50,000 are subject to sampling error. A range of 2 standard errors was used in computing the possible variation of an estimate due to sampling error. Chances are 19 out of 20 that an estimate and the actual figure that would have been obtained had all returns been counted is less than the percentage shown in the table which follows. For example, the table shows that 95 percent of the time an estimate of 10,000 returns with adjusted gross income \$10,000 to \$30,000 would be expected to have a sampling error of less than 9 percent.

The table on sampling variability applies to number of returns only. Specific consideration was not given to associated money amounts; in many instances, sampling errors of frequencies are larger than those for money amounts.

Where the number of returns are subject to a maximum variation of more than 100 percent they are not shown separately since they are considered too unreliable for general use. They are, however, included in the totals

RELATIVE ERROR OF ESTIMATED NUMBER OF RETURNS

Estimated number of returns	Relative error of estimated number of returns expressed as a percentage		
	Returns with adjusted gross income under \$10,000	Returns with adjusted gross income \$10,000 under \$30,000	Returns with adjusted gross income \$30,000 under \$50,000
1,000.....	(*)	±28	±11
5,000.....	±60	±12	±5
10,000.....	±42	±9	±4
50,000.....	±19	±4	±2
100,000.....	±14	±3	±1
500,000.....	±6	±1	-----
1,000,000.....	±4	±1	-----
2,000,000.....	±2	-----	-----

\*Relative error more than 100 percent.

**Nonsampling errors.**—In addition to sampling error, the data are subject to certain nonsampling errors. The nonsampling errors are the result of: (1) the use of un-audited tax returns as the basis for the data, resulting in underreporting and nonreporting of certain income items and overreporting of certain deduction items by the taxpayer, (2) errors made in sample selection, (3) errors resulting from the exclusion of late sample returns from the study, (4) errors in coverage, and (5) errors made in processing the data.

Sampling errors are controllable through the design and size of the sample; nonsampling errors are more difficult to control. There are no accurate measurements by which to evaluate the magnitude of the nonsampling error, but there is some evidence that in many cases the sampling error is the lesser of the two.

## TABULATED DATA

Statistical tables for individual income are tabulated in 13 basic tables for 1952. Data in tables 1 through 11 are shown on a national basis; data in tables 12 and 13 are distributed on a State basis. In seven of these tables,

taxable and nontaxable returns are presented separately and in the other six they are combined.

In table 1, the number of returns with adjusted gross income and the amounts of adjusted gross income and total tax liability are tabulated to show the distribution by adjusted gross income classes, as well as the cumulation at every income class level from the lowest class and from the highest class, together with corresponding percentages of the total. In these distributions, taxable and nontaxable returns are combined except that returns with no adjusted gross income are shown in aggregate, apart from the cumulated data.

Table 2 shows the amounts of income and loss from each of the sources comprising adjusted gross income as reported on returns with standard deduction and on returns with itemized deductions. This summarization also shows the amount of each itemized nonbusiness deduction reported on returns with itemized deductions, subdivided between returns showing adjusted gross income and returns showing no adjusted gross income. Taxable and nontaxable returns are combined.

Similar items for sources comprising adjusted gross income and for the itemized deductions are tabulated in table 3 by adjusted gross income classes. Taxable and nontaxable returns are tabulated together and the class intervals, in some instances, are broader than in subsequent basic tables.

Table 4 presents taxable and nontaxable returns separately, by adjusted gross income classes. This table shows the sources comprising adjusted gross income, itemized deductions, exemptions, income tax liability, self-employment tax, tax withheld, payments on declaration, tax due at time of filing, and tax overpayment, together with the number of returns on which each item occurs.

In table 5, the number of individual returns is distributed by adjusted gross income classes, cross classified by the size of each specific source of income and loss comprising adjusted gross income. Taxable and nontaxable returns are combined and certain of the adjusted gross income classes are merged.

Table 6 shows a frequency distribution of returns with itemized deductions by adjusted gross income classes, crossed by net income classes, in which the taxable and nontaxable returns are separate.

Taxable returns only are tabulated in table 7 by adjusted gross income classes. Here the adjusted gross income, exemptions, tax liability, tax credits, average tax, and effective tax rate are segregated by the three types of tax.

Taxable and nontaxable returns are separately tabulated in table 8 by adjusted gross income classes; and the adjusted gross income, exemptions, and total tax are shown for each of the four categories in the classification for marital status of taxpayer. In the case of separate returns of husbands and wives, returns of heads of household, and returns of single persons, the data are subdivided to show those for men and for women.

In table 9 will be found the total number of exemptions claimed, the combined number of additional exemptions claimed for age and blindness, and the number of exemp-

tions other than age and blindness, that is, the per capita exemption claimed for the taxpayer, his spouse on joint returns, and his dependents. Also, a distribution of returns is given by the number of exemptions other than age and blindness (per capita). These data are tabulated by adjusted gross income classes, taxable and nontaxable separately, for each of the four categories in the classification for marital status of taxpayer.

Table 10 presents salaries and wages, interest, and dividends by marital status of taxpayer, in addition to the exemptions and tax liability. This table is prepared on the basis of narrow adjusted gross income classes for returns under \$5,000 adjusted gross income, the class intervals being \$100 and taxable returns are separate from nontaxable returns. For returns with \$5,000 or more adjusted gross income, the class intervals agree with those in the related tables 8 and 9. Because of the sample limitations, however, it is not possible to give such great detail for the separate returns of husbands and wives, nor for the returns of heads of household and other single persons; therefore, only the totals for these groups are included.

Capital gain and loss details appear in table 11. Data for returns with a net loss from sales of capital assets are tabulated separately from returns with net gain from such sales. The latter returns are segregated to show returns with alternative tax independently from returns with normal tax and surtax; but the 32,296 returns with only self-employment tax which are included in the taxable returns with net gain from sales of capital assets are not tabulated as a separate category. In all the breakdowns, net short-term capital gain and loss (after carryover), net long-term capital gain and loss (100%), and the capital loss carryover from the 5 preceding years are tabulated. Other data include capital loss before statutory limitation regarding deductible loss, amount of capital loss deducted in computing adjusted gross income, capital gain in adjusted gross income, and the excess of net long-term capital gain over net short-term capital loss which is taxed at the special rate of 26 percent. These data are shown for taxable and for nontaxable returns by adjusted gross income classes.

Tables 12 and 13 contain data distributed by States and Territories. These tables contain only returns with adjusted gross income and the taxable and nontaxable returns are combined. In table 12, State totals for three sources of income, adjusted gross income, income tax liability, and self-employment tax are tabulated. Table 13 shows the adjusted gross income and income tax liability by 15 adjusted gross income classes, established especially for this table, which differ somewhat from the classes used in tables where data are distributed on a national basis.

In addition to the tables for 1952 data, there are six tables, numbered 14 through 19, containing historical data for 1944 and subsequent years.

Throughout the tables, values in thousand dollars and percentages are rounded and, therefore, may not add to the totals.

1. Text for individual returns for "Explanations of Classifications and Terms" and for "Description of Sample and Limitations of Data."

2. Includes nontaxable returns with adjusted gross income exceeding the class limit.

3. Includes 50,491 returns with no information reported.

4. Adjusted gross income less adjusted gross deficit.

5. Number of returns is subject to sampling variation of more than 100 percent; therefore, data are not shown separately. However, they are included in totals.

Table 4.—SOURCES OF INCOME AND LOSS, DEDUCTIONS, EXEMPTION, AND TAX ITEMS—FREQUENCIES AND AMOUNTS, BY ADJUSTED GROSS INCOME CLASSES

## PART I.—ALL RETURNS

Adjusted gross income classes	Total number of returns	Salaries and wages		Dividends		Interest received		Annuities and pensions		Rents and royalties		Net profit		Net loss

See text for individual returns for "Explanation of Classifications and Terms" and for "Description of Sample and Limitations of Data."

<sup>1</sup>Includes nontaxable returns with adjusted gross income exceeding the class limit.<sup>2</sup>Excludes returns, Form 1040A, with this source of income.<sup>3</sup>Includes 429,002 returns, 1040A, which show wages not subject to income tax withholding, dividends, and interest, not exceeding in total \$100 per return, reported in one sum.<sup>4</sup>Number of returns is subject to sampling variation of more than 100 percent; therefore, data are not shown separately. However, they are included in totals.

Table 6.—FREQUENCY DISTRIBUTION OF RETURNS BY SIZE OF NET INCOME  
(Returns with itemized deductions)

See text for individual returns for "Explanation of Classifications and Terms" and for "Description of Sample and Limitations of Data."

1 Adjusted gross deficit.

2 Adjusted gross income less adjusted gross deficit.

3 Number of returns is subject to sampling variation of more than 100 percent; therefore, data are not shown separately. However, they are included in totals.

Table 8.—ADJUSTED GROSS INCOME, EXEMPTION, AND TOTAL TAX, BY MARITAL STATUS OF TAXPAYER

Adjusted gross income classes	All returns					Joint returns of husbands and wives				Separate returns of husbands and wives						
	Total number of returns	Adjusted gross income (Thousand dollars)	Amount of exemption (Thousand dollars)	Total tax liability (after credits) (Thousand dollars)	Number of returns	Adjusted gross income (Thousand dollars)	Amount of exemption (Thousand dollars)	Total tax liability (after credits) (Thousand dollars)	Number of returns	Adjusted gross income (Thousand dollars)	Amount of exemption (Thousand dollars)	Total tax liability (after credits) (Thousand dollars)	Number of returns	Adjusted gross income (Thousand dollars)	Amount of exemption (Thousand dollars)	Total tax liability (after credits) (Thousand dollars)

See text for individual returns for "Explanation of Classifications and Terms" and for "Description of Sample and Limitations of Data."

Adjusted gross deficit.

Adjusted gross income less adjusted gross deficit.

Number of returns is subject to sampling variation of more than 100 percent; therefore, data are not shown separately. However, they are included in totals.

\*Includes 50,991 returns with no information reported.

Table 9.—EXEMPTIONS BY MARITAL STATUS OF TAXPAYER

Adjusted gross income classes	All returns													Joint returns of husband and wife	
	Total number of returns	Total number of exemptions	Returns with exemption for age and/or blindness			Number of exemptions other than age or blindness	Number of returns by number of exemptions other than age or blindness						Number of returns	Aggregate number of exemptions	
			Number of returns	Number of exemptions for age and blindness	Number of exemptions other than age or blindness		Six or more

See text for individual returns for "Explanation of Classifications and Terms" and for "Description of Sample and Limitations of Data."

<sup>1</sup>Number of returns is subject to sampling variation of more than 100 percent; therefore, data are not shown separately. However, they are included in totals.<sup>2</sup>Adjusted gross deficit.<sup>3</sup>Adjusted gross income less adjusted gross deficit.<sup>4</sup>Includes 50,991 returns with no information reported.

Table 11.—CAPITAL GAINS AND LOSSES, SHORT- AND LONG-TERM, BY ADJUSTED GROSS INCOME CLASSES

Adjusted gross income classes	Returns with net loss from sales of capital assets										Returns with net gain from sales of capital assets									
	Short-term (after carryover)					Long-term					Total (after carryover)					Long-term				
	Net loss from sales of capital assets after limitation (deducted from gross income)		Net loss from sales of capital assets after statutory limitation (deducted from gross income)		Net short-term capital gain		Net long-term capital gain (100%)		Net long-term capital loss (100%)		Net short-term capital gain		Net short-term capital loss		Net long-term capital gain (100%)		Net long-term capital loss (100%)		Net long-term capital loss (100%)

See text for individual returns for "Explanation of Classifications and Terms" and for "Description of Sample and Limitations of Data."

<sup>1</sup>Not comparable with data for prior-year tabulations for two reasons. First, Puerto Rican 1952 returns filed in Baltimore during the first-half of 1953 are included in Maryland data; but Puerto Rican returns filed in New York City during the last-half of 1953 are included in New York data. For prior-year tabulations, Puerto Rican returns were included exclusively in Maryland data. Secondly, for prior-year tabulations, overseas servicemen's returns were filed exclusively in Baltimore and were included in Maryland data. For the 1952 tabulations, these returns were filed in directors' offices of the various States and are included in the data for the respective States.

<sup>2</sup>Not comparable with data for prior-year tabulations. Includes for the first time Puerto Rican 1952 returns filed in New York City during the last-half of 1953.

<sup>3</sup>Includes Alaska.

## INDIVIDUAL INCOME TAX RETURNS FOR 1952

See text for individual returns for "Explanation of Classifications and Terms" and for "Description of Sample and Limitations of Data."

<sup>1</sup>Includes nontaxable returns with adjusted gross income exceeding the class limit.<sup>2</sup>Not comparable with data for prior-year tabulations for two reasons. First, Puerto Rican 1952 returns filed in Baltimore during the first-half of 1953 are included in Maryland data; but Puerto Rican returns filed in New York City during the last-half of 1953 are included in New York data. For prior-year tabulations, Puerto Rican returns were included exclusively in Maryland data. Secondly, for prior-year tabulations, overseas service-men's returns were filed exclusively in Baltimore and were included in Maryland data. For 1952 tabulations, these returns were filed in directors' offices of the various States and are included in the data for the respective States.<sup>3</sup>Not comparable with data for prior-year tabulations. Includes for the first time Puerto Rican 1952 returns filed in New York City during the last-half of 1953.<sup>4</sup>Includes Alaska.

<sup>1</sup>Data for 1952 not comparable with that for prior years for two reasons. First, Puerto Rican 1952 returns filed in Baltimore during the first-half of 1953 are included in Maryland data; but Puerto Rican returns filed in New York City during the last-half of 1953 are included in New York data. For years prior to 1952, Puerto Rican returns are included exclusively in Maryland data. Secondly, for years prior to 1952, overseas servicemen's returns were filed exclusively in Baltimore and are included in Maryland data. For 1952, such returns were filed in directors' offices of the various States and are included in the data for the respective States.

<sup>2</sup>Data for 1952 not comparable with that for prior years; includes for the first time Puerto Rican returns filed in New York City during the last-half of 1953.

<sup>3</sup>Includes Alaska.

Returns*

## FIDUCIARY INCOME TAX RETURNS FOR 1952

### MAJOR CHARACTERISTICS OF 1952

A total of 422,663 fiduciary income tax returns were filed for the income of estates and of property held in trust for the income year 1952, more than two-thirds of which are nontaxable. Not since 1939 have statistics been tabulated from nontaxable returns. Income from property held in trust is reported on 301,507 of these fiduciary returns and income of estates is reported on the remaining 121,156 returns.

Total income for all fiduciary returns is \$2.8 billion, slightly over half being reported on nontaxable returns. Fifty-nine percent, or \$1.6 billion, of the total income is from dividends and more than one-half of the dividend income is reported on nontaxable returns. Other important sources of income are interest, rents and royalties, and capital gains, each contributing about \$0.3 billion. Seventy-three percent of all returns have less than \$5,000 total income.

COMPOSITION OF TOTAL INCOME, 1952

In the chart above, each component part of total income for fiduciary returns represents the portion which the combined amount of net profit and net loss from the specified source is of the total income less total deficit. In the case of dividends and interest there is no loss. Gain from sale of assets includes the net gain and net loss from sales of capital assets and from property other than capital assets. Other income is a combination of the business net profit and loss, partnership net profit and loss, income from other fiduciaries, and miscellaneous income.

Fiduciary income, primarily from investments, is weighted with income from corporate stock holdings, the dividends from which comprise the largest segment of fiduciary income. Income from rental property together with royalties received is somewhat greater than the interest income. These two sources of income along with the gain from sale of property account for one-third of the fiduciary income. The largest single contributing factor in the segment for other income is partnership profit.

Returns for trusts predominate as stated above; and of the \$2.8 billion total income, \$2.3 billion are reported on returns for trusts while only \$0.5 billion are reported on returns for estates. Seventy-five percent of the income of trusts is distributable to beneficiaries but only 43 percent of income of estates is distributable. Distributable amounts are reported on approximately 300 thousand returns, 242 thousand of which are nontaxable to the fiduciary.

There are 132,927 taxable fiduciary returns. This is an increase of 16,717 returns over the number filed for 1951. The total income reported on the 1952 taxable returns is \$1.3 billion, which is an increase of \$105 million, or 9 percent, over the total income on taxable returns last year. Current year deductions of \$114 million and the \$567 million distributable to beneficiaries reduce the total income for 1952 to \$627 million net income taxable to fiduciary, which income after exemptions of \$36 million yielded income tax of \$235 million. The increase in tax over last year is \$24 million, or 11½ percent.

The total income tax liability of \$235 million consists of \$144 million normal tax and surtax and \$91 million alternative tax. The alternative tax is reported on 2,835 returns with net income taxable to fiduciary of \$169 million which includes \$93 million of capital gain; however, the special rate of 26 percent is applied to approximately \$185 million of excess net long-term capital gain over the net short-term capital loss.

Of the 132,927 taxable returns, 87,301 are returns for trusts and 45,626 are returns for estates. The returns for trusts show net income taxable to fiduciary of \$397 million, exemptions of \$9 million, and income tax liability of \$156 million; while the returns for estates show net income taxable to the fiduciary of \$230 million, exemptions of \$27 million, and income tax liability of \$79 million.

### INCOME TAX PROVISIONS FOR FIDUCIARY INCOME

Every fiduciary, or one of joint fiduciaries, is required to file an income tax return, Form 1041, for every estate for which he acts, if the gross income of the estate is \$600

or more or if any beneficiary of the estate is a nonresident alien, and for every trust for which he acts, if the net income of the trust is \$100 or more, or if the gross income is \$600 or more regardless of the amount of net income, or if any beneficiary of the trust is a nonresident alien.

Supplement E of the 1939 Code provides that the taxes imposed upon the income of individuals by chapter 1, other than the self-employment tax, shall be applicable to the income of estates and to the income from property held in trust. The tax rates, the provisions respecting gross income to be reported, the deductions with certain exceptions, and the tax credits provided for the income of individuals apply also to the income of estates and trusts.

The gross income to be reported includes the entire taxable income of the estate or trust even though a portion, or all, of the income is distributable to beneficiaries. In general, net income of an estate or trust is computed in the same manner as that of an individual, except that the deduction for contributions is not limited in amount and there is an additional deduction for the amount distributable to beneficiaries. Credit is allowed against net income taxable to fiduciary for his share of partially tax-exempt Government interest for purpose of normal tax, and there is an exemption of \$600 for estates and of \$100 for trusts for purposes of both normal tax and surtax.

The tax liability is based on the net income taxable to fiduciary less the exemption, and must be paid by the fiduciary after the close of the taxable year. Current collection of tax does not apply to fiduciary income. The normal tax and surtax rates are the same as those for a single individual who is not head of household. Tax credits are allowed for the fiduciary's share of income tax paid to a foreign country or possession of the United States and of income tax paid at source on tax-free covenant bond interest.

A synopsis of the filing requirements, exemptions, and tax rates for 1944-1952 is presented in tables A and B, pages 89-90.

## RETURNS INCLUDED

Statistics for fiduciary income tax returns are taken from the returns, Form 1041, as filed by the fiduciary, before changes or revisions in values that may be made upon official audit by the Internal Revenue Service, and do not reflect the results thereof. These statistics present a complete coverage of all fiduciary returns filed for the income year 1952, both taxable and nontaxable returns. This is the first time in many years that the tabulated data have included those from nontaxable returns.

Returns for the income year 1952 include those for the calendar year, a fiscal year ending within the period July 1952 through June 1953, and a part year return showing a greater number of months in 1952. Tentative returns are not included and amended returns are used only when the original returns are excluded. A facsimile of the fiduciary income tax return, Form 1041, is shown on pages 119-126.

## EXPLANATION OF CLASSIFICATIONS AND TERMS

### Classification of Fiduciary Returns

Fiduciary returns are classified by total income classes, by net income classes, by taxable and nontaxable returns, by types of tax, and by States and Territories; also, returns for income of trusts are distinguished from returns for income of estates. Various items are tabulated by these classifications but not all items are available for every classification.

**Total income classes.**—Returns are segregated into total income classes based on the amount of total income reported on each return. The class intervals are broader than those used in prior years; however, the intervals coincide with the adjusted gross income class intervals for individual returns in tables of this report. Returns showing a deficit in total income, regardless of amount, returns with a breakeven in total income, and returns without information are designated "No total income" and appear in aggregate under nontaxable returns.

**Net income classes.**—The amount of net income taxable to fiduciary provides the basis for this classification. Returns with net deficit regardless of amount, returns with breakeven in net income, and returns with no information are designated "No net income" and appear as a separate class. The net income class intervals are broader than in previous years, thereby reducing the number of classes.

**Taxable and nontaxable returns.**—This classification is based on the existence or nonexistence of a tax liability after tax credits. Taxable returns are those which have net income taxable to fiduciary in excess of the allowable exemption and which also have a tax liability remaining after the two tax credits relating to income tax paid at source on interest from tax-free covenant bonds and to income tax paid to a foreign country or possession of the United States. Nontaxable returns are those that show a deficit or a breakeven in total income, returns without information, and returns showing total income which when reduced by authorized deductions and exemption leaves no income to be taxed, or in case of a tax, the tax credits eliminate the tax.

**Types of tax liability.**—Returns with normal tax and surtax are distinguished from returns with alternative tax. Returns with normal tax and surtax are the taxable returns with no sales of capital assets, those with net loss from sales of capital assets, and those with net gain from such sales unless the alternative tax is imposed. Returns with alternative tax are those which have income that includes a net long-term capital gain or an excess of net long-term capital gain over net short-term capital loss and the alternative tax is less than the regular normal tax and surtax on income which includes all gains from sales of capital assets.

**Returns for trusts and for estates.**—This classification is based on the fact that certain fiduciary returns are filed for the income from property held in trust and other

fiduciary returns are filed for the income of an estate under administration.

**States and Territories.**—This distribution consists of the 48 States, Hawaii, and the District of Columbia. The segregation of returns on the basis of States and Territories is determined by the location of the internal revenue district in which the return is filed, except that for the District of Columbia, which comprises a part of the district of Maryland, the segregation is determined from the address of the fiduciary. The Territory of Alaska comprises a part of the internal revenue district of Washington and returns from Alaska are included in that district.

### Sources Comprising Total Income

The items of income, profit, and loss which comprise total income (or deficit) are the net amounts from the respective sources. Expenses of doing business have been deducted in the case of business, rents, and partnerships. Loss from sale of capital assets is only the allowable deduction; gain from sale of capital assets is the statutory amount to be reported in income.

**Dividends** include foreign and domestic dividends received, except those received through partnerships and other fiduciaries, these being reported in the respective sources.

**Interest received** is that on bank deposits, notes, corporation bonds, and mortgages, and the taxable and partially tax-exempt interest on Government obligations including such interest received through partnerships and other fiduciaries.

**Rents and royalties net profit** is the amount reported on returns showing a combined net profit from these two sources of income. Rents and royalties are reported in the same schedule and the separate incomes are not available. Gross rents include rent from real estate and any other kind of property; gross royalties include revenue from copyrights, patents, natural resources under lease, and the like. Deductions against gross receipts are allowed for taxes, interest, repairs, depreciation, depletion, and other expenses pertaining to the respective incomes. A net loss from one source offsets net profit of the other. The amount included in total income is the net profit resulting from the combined rents and royalties incomes.

**Rents and royalties net loss** is the amount reported on returns that show a net loss from the combination of the two sources. Gross rents and royalties and the allowable deductions are mentioned in the paragraph above. A net profit from one source offsets net loss of the other; the separate amounts cannot be obtained. The net loss reported in total income is the net result of these two activities.

**Trade or business net profit** is the net result of all trade and business in which the estate or trust is engaged, the combined result of which is a net profit. If there is a net loss from one activity, the loss is combined with the net profits of the others and the remaining net profit is reported in total income.

Business expenses are allowed against the gross receipts from business for the cost of goods sold, employees' salaries, interest, taxes, rent, repairs, depreciation, depletion, bad debts, and other direct operating costs. (Net operating loss deduction is not a business deduction, but is an allowable authorized deduction from total income.)

**Trade or business net loss** is the net result of all trade and business activities in which the estate or trust is engaged, the combined result of which is a net loss. In case there is a net profit from one of several activities, the profit is combined with the losses of the others and the remaining net loss is reported in total income. Allowable business deductions are mentioned in the preceding paragraph.

**Partnership net profit** is the estate's or trust's share of net profit (whether received or not) from all partnerships, syndicates, pools, etc., in which the estate or trust is a participant, the combined result of which is a net profit. However, the distributive share of partnership profit reported excludes taxable and partially tax-exempt Government interest and the net gain or loss from sales of capital assets, each being reported in its respective source.

**Partnership net loss** is the estate's or trust's share of net loss (whether received or not) from all partnerships, syndicates, pools, etc., in which the estate or trust participates, the combined result of which is a net loss. However, the distributive share of net loss reported excludes taxable and partially tax-exempt interest on Government obligations and the net gain or loss from sales of capital assets, each of which is reported in its respective income.

**Net gain from sales of capital assets** is the statutory net gain from sales or exchanges of such assets, required to be reported in total income. It is a combination of net short-term capital gain or loss (including the capital loss carryover from the 5 preceding years) and net long-term capital gain or loss (such gains and losses taken into account at 100 percent); however, in cases where the net long-term capital gain exceeds the net short-term capital loss, only 50 percent of the excess gain is included in total income. If the net short-term capital gain exceeds the net long-term capital loss, the entire amount of the excess gain is reported in total income. This is in accordance with the new provisions of the 1951 act.

Short-term applies to sales of capital assets held 6 months or less and such gains and losses, together with the capital loss carryover, are merged to obtain the net short-term capital gain or loss. In determining the amount of net short-term gain or loss, the short-term gains and losses from partnerships are also included.

Long-term applies to gains and losses from sales of capital assets held more than 6 months and such gains and losses, taken into account at 100 percent, are merged to determine the net long-term capital gain or loss which also includes the net long-term capital gain or loss received through partnerships.

**Net loss from sales of capital assets** reported in total income is the allowable loss from sales or exchanges of

capital assets which is deductible in computing net income. If the sum of all capital losses (including the capital loss carryover from the 5 preceding years) exceeds the sum of all capital gains (both short- and long-term gains and losses taken into account at 100 percent) then the excess capital loss is allowed as a deduction only to the extent of the capital loss, or net income computed without regard to capital gains and losses, or \$1,000, whichever is smallest. This is the new method provided under the 1951 act. Returns are not examined to ascertain whether or not the deduction complies with the limitation and there may be instances where the deduction exceeds the limit. Short- and long-term capital gains and losses are explained above.

Capital loss carryover reported as a short-term capital loss on 1952 returns is the remaining net capital loss not allowed as a deduction in the 5 preceding years. The net capital loss sustained in 1952, to be used as a future carryover, is not reported as an item on the return; it is the excess of current year capital losses (at 100 percent) over the sum of (1) current year capital gains (at 100 percent) and (2) the smaller of \$1,000 or net income for the current year computed without regard to capital gains and losses. The net capital loss is carried forward as a short-term capital loss in the 5 succeeding years to the extent not eliminated in the interim.

**Net gain from sales of property other than capital assets** is the net gain reported in total income on returns wherein the gains exceed the losses from sales or exchanges of property which is not considered a capital asset. There is no reduction in this net gain as compared with that of the excess long-term capital gain.

**Net loss from sales of property other than capital assets** is compiled from returns with an excess of losses over gains from sales or exchanges of property that is not considered a capital asset. Net loss from this source is deductible in full for the computation of total income.

**Income from other fiduciaries** is the estate's or trust's share, as beneficiary, of the distributable income (whether actually received or not) from another estate or trust. In entering this income, however, the fiduciary must exclude taxable and partially tax-exempt interest on Government obligations and report it with interest income.

**Miscellaneous income** includes taxable income from sources other than those tabulated.

### Deductions

**Interest paid** is that paid or accrued on debts, mortgages, and bank loans; it excludes interest reported in schedules for rents and business, and interest on indebtedness incurred to purchase a single-premium life insurance or endowment contract, or securities yielding wholly tax-exempt income.

**Taxes** paid during the year include State and local income taxes, real estate taxes except those assessed against local benefits which tend to increase the value of property assessed. Taxes paid to a foreign country or possession of the United States are not allowed as a de-

duction if a foreign tax credit is claimed. Taxes on rented property and business operations are reported in those schedules.

**Miscellaneous deductions** are the authorized deductions other than interest and taxes; they include bad debts, net operating loss deduction, losses from fire, storm, shipwreck, or other casualty, or from theft which are not compensated for by insurance or otherwise, and expenses incurred for the production of taxable income or for the management and maintenance of property held for the production of taxable income.

### Measures of Fiduciary Income

**Total income** of an estate or trust is a combination of the net profit and loss from rents and royalties, trade or business, and partnerships, the statutory gain from sales of capital assets and other property, and the deductible loss from sales of capital assets and other property, together with the income from dividends, interest, other fiduciaries, and miscellaneous income reported on each return. (Total income is an approximation of the adjusted gross income on individual returns.)

**Total deficit** occurs on a return for an estate or trust if the net losses from rents and royalties, business, and partnerships, and the deductible losses from sales of capital assets and other property exceed the positive items of income.

**Balance income** is reported on returns with an excess of total income over authorized deductions, such as interest, taxes, and casualty losses. It is the amount available for payment of income tax and for distribution to beneficiaries or for accumulation, according to the trust instrument in the case of a trust or the directives of the will or the jurisdictional court in the case of an estate.

**Balance deficit** exists on returns where the authorized deductions for interest, taxes, etc., exceed the total income, also, where there is a deficit in total income which deficit is increased by deductions if reported.

**Net income taxable to fiduciary** is the amount of income for the current year that remains in the hands of the fiduciary after allowable deductions and setting aside the amount distributable to beneficiaries. This net income, reduced by credits for partially tax-exempt income and exemption, is the basis for the tax liability of the fiduciary.

**Net deficit** occurs on returns that have (1) deficit in total income which deficit is increased by deductions and amount distributable to beneficiaries (if any), or (2) total income which when reduced by deductions and/or amount distributable to beneficiaries results in a net deficit.

### Amount Distributable and Exemptions

**Amount distributable to beneficiaries** is the amount allotted to the beneficiaries, whether distributed or not. It is the total amount which, pursuant to the terms of the will (or court) or of the instrument creating the trust, is paid to, or set aside for, or becomes payable to, legatees,

heirs, and beneficiaries. Charitable and similar organizations are beneficiaries as well as individuals. Many returns show that the entire balance income is distributable. On some returns, the amount distributable to beneficiaries is greater than the balance income; on others, there is an amount distributable even though a balance deficit is reported. This is probably due to the fact that the amount distributable includes income not required to be reported for income tax purposes, such as wholly tax-exempt interest, 50 percent of the excess of net long-term capital gain over net short-term capital loss, and other differences arising from the variations between income tax provisions and accounting procedures under the trust instrument in the case of a trust or under the local judicial requirements in the case of an estate.

**Exemption** is allowed against net income taxable to fiduciary for purposes of both normal tax and surtax. In the case of an estate, the exemption is \$600 and, in the case of a trust, the exemption is \$100.

### Tax Liability

**Tax liability** is the amount of income tax payable after the two tax credits allowed for income tax paid at source on interest from tax-free covenant bonds and for income tax paid to a foreign country or possession of the United States. This is the combined normal tax and surtax or the alternative tax on income containing an excess of long-term capital gain.

Normal tax and surtax are not tabulated separately. The combined rates begin at 22.2 percent of the first \$2,000 of income subject to tax in the hands of the fiduciary and increase to 92 percent of income in excess of \$200,000.

Alternative tax on income that includes net long-term capital gain or an excess of net long-term capital gain over net short-term capital loss is payable only if this tax is less than the regular normal tax and surtax. The alternative tax is computed in the same manner as for individual income and is not effective on returns with surtax net income under \$14,000.

### DESCRIPTION OF SAMPLE AND LIMITATIONS OF DATA

**Sample design.**—Data presented for fiduciary income tax returns for 1952 are based on a probability sample selected from returns with total income under \$30,000, and from a complete coverage of returns with total income \$30,000 or more. Over 54,000 returns were selected from nearly 423,000 fiduciary income tax returns in the population.

Nontaxable returns with total income under \$30,000 were sampled in each district director's office. Within each district director's office these returns were assigned consecutive serial numbers as a part of the regular returns processing operation. A systematic sample was selected

by withdrawing return number 7 and every 9th return thereafter. This sample, which was approximately an eleven percent sample, was selected from a population of nearly 283,000 returns.

Taxable returns with total income under \$30,000 were sampled at a ten percent rate in Washington. This sample was selected from a population of over 125,000 returns, and was stratified as follows:

Taxable returns with total income under \$30,000

- a. Taxable assessable—fully paid
- b. Taxable assessable—insufficient or no payment
- c. Taxable assessable—installment privilege

Taxable and nontaxable returns with total income of \$30,000 or more were selected one hundred percent. This area accounts for over 14,000 returns.

**Weighting of the sample.**—The primary source of population data were statements submitted by the district directors' offices showing the number of Form 1041 returns filed for tax year 1952.

Separate systems of weighting were used for the national tabulations and for the State tabulations; the weights for the national tabulations were based on nationwide stratum populations obtained by summing the stratum populations reported by the district directors' offices. The separate district office stratum populations provided the basis for independent district office weights for the State tabulations. Actual sampling rates varied enough between districts to warrant using two separate systems of weights.

As the result of using two weighting systems and rounded weighting factors, there exist slight discrepancies between items distributed by States in table 8, and corresponding items shown in the national tables.

**Sampling variability.**—Data presented for taxable and nontaxable returns with total income under \$30,000 are subject to sampling error. A range of 2 standard errors was used in computing the possible variation of an estimate due to sampling error. Chances are 19 out of 20 that an estimate and the actual figure that would have been obtained had all returns been counted is less than the percentage shown in the table which follows. For example, the table shows that 19 out of 20 times an estimate shown of 5,000 returns with total income under \$30,000 will have a maximum sampling variability of + or - 9 percent.

This table, which shows the relative error of estimates, applies to number of returns only. Specific consideration was not given to associated money amounts. Frequencies which were subject to a maximum sampling variability of more than one hundred percent and associated data are not shown separately since they are considered too unreliable for general use; they are, however, included in the totals.

The sampling variability of the estimate presented in table 3, has not been determined. Since no sampling controls were instituted with respect to net income, and frequencies are not associated with the amounts of income

and deductions shown, there may be considerable sampling error in the data shown on this table.

**RELATIVE ERROR OF ESTIMATED NUMBER OF RETURNS  
WITH TOTAL INCOME UNDER \$30,000**

<i>Estimated number of returns</i>	<i>Relative error in percent</i>
50	± 90
100	± 64
500	± 29
1, 000	± 20
5, 000	± 9
10, 000	± 6

**Nonsampling errors.**—In addition to sampling error, the data are subject to certain nonsampling errors. The nonsampling errors are the result of: (1) the use of unaudited tax returns as the basis for the data, resulting in underreporting and nonreporting of certain income items and overreporting of certain deduction items by the taxpayer, (2) errors made in sample selection, (3) errors resulting from the exclusion of late sample returns from the study, (4) errors in coverage, and (5) errors made in processing the data.

Sampling errors are controllable through the design and size of the sample; nonsampling errors are more difficult to control. There are no accurate measurements by which to evaluate the magnitude of the nonsampling error, but there is some evidence that in many cases the sampling error is the lesser of the two.

**TABULATED DATA**

Data for fiduciary returns are tabulated as nearly as possible to conform with tabulations for individual returns in this report; however, in view of the fact that there are different features on the two returns and variations in the method of reporting certain items common to both forms, the two series are not precisely comparable.

Data for the 1952 fiduciary returns are presented in 8 basic tables. In all but two of these tables, data are distributed by total income classes. Total income, being similar in concept to the adjusted gross income on individual returns, supplies a basis for classification whereby data for fiduciary returns may be associated with that for individual returns, bearing in mind the diversity of the two series. Taxable and nontaxable returns are shown separately except in tables 1 and 8.

In table 1, the number of fiduciary returns, amount of total income, and tax liability are tabulated to show the distribution by total income classes, as well as the cumu-

lation at each income class level from the lowest class and at each income class level from the highest class, together with corresponding percentages of the total. Taxable and nontaxable returns are combined except that returns with no total income are shown apart from the cumulations.

Table 2 presents the amount of each source of income or loss comprising total income, the deductions, balance income, amount distributable to beneficiaries, net income taxable to fiduciary, exemption, and tax liability. This table also gives the frequency distributions of returns for the various items tabulated.

Data in tables 3 and 4 are distributed by net income classes. Table 3 shows the amount of each source of income or loss comprising total income, the deductions, balance income, amount distributable to beneficiaries, net income taxable to fiduciary, exemption, and tax liability. In table 4, there is a frequency distribution of returns by total income classes cross classified by net income classes.

Data relating to taxable returns are tabulated in table 5; and the data are shown for returns with normal tax and surtax separately from returns with alternative tax.

Details pertaining to capital gains and losses are shown in table 6. Returns with a deduction for net loss from sales of capital assets are tabulated independently from returns showing a net gain from such sales. Returns with net gain from sales of capital assets are further segregated to show returns with normal tax and surtax separately from those with alternative tax. In all categories, the net short-term capital gain and loss, the net long-term capital gain and loss (100%), and the capital loss carry-over from 1947-51 are tabulated. In addition, there is shown the capital loss before application of the statutory limitation as well as the allowable loss deducted in computing total income, the amount of capital gain included in total income, and the excess of net long-term capital gain over net short-term capital loss which is taxed at the special 26-percent rate.

In table 7, several items are tabulated separately for trusts and for estates. Table 8 presents certain sources of income and the tax liability for each State and Territory. Returns with no total income are excluded from table 8.

Historical data for the period 1944 through 1952 are assembled in tables 9 and 10.

Throughout the tables, values in thousand dollars and percentages are rounded and, therefore, may not add to the totals.

See text for fiduciary returns for "Explanations and Terms" and for "Description of Sample and Limitations of Data." Number of returns is subject to sampling variability of more than 100 percent; therefore, the data are not shown separately. However, they are included in the totals.

1. Less than \$500.

2. Includes 8,984 returns with no information reported.

3. Deficit in total income.

4. Total income less deficit in total income.

5. Excludes 8,984 returns with no information reported.

6. Excludes returns with balance income completely distributable, leaving neither net income nor deficit.

Table 3.—SOURCES OF INCOME AND LOSS, DEDUCTIONS, EXEMPTION, AND TAX, BY NET INCOME CLASSES

Table A.—REQUIREMENTS FOR FILING RETURNS AND EXEMPTIONS UNDER THE INDIVIDUAL AND FIDUCIARY INCOME TAX LAW, 1944-52<sup>1</sup>

Federal tax law: Revenue acts amending Code <sup>2</sup> (date of enactment)	Income year	Gross income <sup>3</sup> requirements for filing returns <sup>4</sup>	Exemptions <sup>5</sup>				
			For married couple filing jointly	For single person, <sup>6</sup> married persons filing separately, or fiduciary <sup>7</sup>	For each dependent <sup>8</sup>	For taxpayer and/or spouse	
						65 years of age or older	Blind
Revenue Act of 1951 (Oct. 20, 1951)	1948-52	Dollars <sup>9</sup> 600	Dollars 1,200	Dollars 600	Dollars 600	Dollars 600	Dollars 600
Revenue Act of 1950 (Sept. 23, 1950)							
Revenue Act of 1948 (Apr. 2, 1948)							
Revenue Act of 1945 (Nov. 8, 1945)	1944-47	500	10 1,000	500	500		
Individual Income Tax Act of 1944 (May 29, 1944)							

<sup>1</sup> For income years 1913-43, see Statistics of Income for 1950, Part 1, pages 308-309.

<sup>2</sup> Revenue acts passed after Feb. 10, 1939 (the date of the enactment of the Internal Revenue Code of 1939) are not complete taxing statutes in themselves, but consist of amendments to the Code. There is no one effective date for all provisions of each act; some of the provisions are retroactive, others apply to the current tax period, while still others are effective for future taxable years.

<sup>3</sup> Gross income, in general, includes all gains, profits, and income derived from any source whatever except such as is specifically exempt from income tax. Section numbers refer to the 1939 Code.

(a) The following items, under certain conditions, are among the exclusions from gross income for the entire period beginning 1944 or before:

Proceeds of life insurance policies paid upon the death of the insured. (Sec. 22 (b) (1).)

Wholly tax-exempt interest. (Sec. 22 (b) (4).)

Value of property acquired by gift, bequest, devise, or descent. (Sec. 22 (b) (3).)

Amounts received as return of premiums paid under life insurance, endowment, or annuity contracts. (Reg. 111, 29.22 (a)-12.)

Compensation for injuries or sickness. (Sec. 22 (b) (5).)

Payments, except retirement pay, made to or on account of a beneficiary under any of the laws relating to veterans. (Public Law 262, 74th Cong.)

Rental value of a dwelling house furnished to a minister of the gospel. (Sec. 22 (b) (6).)

Receipts of shipowners' mutual protection and indemnity associations. (Sec. 116 (g).)

Income from sources within a possession of the United States, but not received within the United States, of citizens (except beginning in 1951, an employee of the United States or any agency thereof) deriving a large percentage of their gross income from sources within the possession. (Sec. 251.)

Earned income from sources outside the United States. (Also see note 4 (f).) (Sec. 116 (a).)

Compensation of employees of foreign governments or of the Commonwealth of the Philippines. (Sec. 116 (h).)

Benefits received under the Railroad Retirement Act.

Income exempt under treaty. (Sec. 22 (b) (7).)

Amounts received under Federal old-age and survivors insurance benefits, Title II, Social Security Act. (Income Tax Ruling 3447, 1941.)

Improvements by lessee on lessor's property. (Sec. 22 (b) (11).)

Disability pay for sickness or injury resulting from active service in the armed forces of any country. (Sec. 22 (b) (5).)

Mustering-out payments with respect to service in the military or naval forces of the United States. (Sec. 22 (b) (14).)

Compensation for services of a minor is excluded from the gross income of the parent (reported on the minor's return if required to be filed). (Sec. 22 (m).)

(b) The following items, under certain conditions, are among the exclusions from gross income for part of the period 1944 through 1952:

1944 through 1948—

Compensation received by noncommissioned personnel for active service in the military or naval forces of the United States. (Prior to enactment of the Revenue Act of 1945 and Public Law 384, 80th Congress, only \$1,500 during 1944. The additional exclusions, made retroactive, are not reflected in the salary tabulated in Statistics of Income for 1944.) (Sec. 22 (b) (13).)

Active service pay, not exceeding \$1,500, of commissioned officers in the military or naval forces of the United States. (Sec. 22 (b) (13).)

1950 and thereafter—

Beginning June 25, 1950, all pay of enlisted men and warrant officers and the first \$200 per month paid to commissioned officers for active service in combat zones (designated by the President). (Sec. 22 (b) (13).)

1951 and thereafter—

Amounts, not exceeding \$5,000, paid by an employer, under a contract, to the beneficiaries of a deceased employee. (Sec. 22 (b) (1).)

(c) The following items are among those included in gross income but subject to special provisions under section 107 (only that portion of income allocated to the current income year is tabulated in Statistics of Income):

Compensation earned from personal services covering a period of 36 months or more.

Income from an artistic work or invention covering a period of 36 months or more.

Back pay.

<sup>4</sup> (a) A citizen or resident of the United States may elect to pay the optional tax (see table B, note 4 (d)) and be relieved from computing his tax liability if his gross income is less than \$5,000 and consists entirely of wages subject to withholding or of such wages and not more than a total of \$100 of other income from wages, dividends, and interest; in such cases, the tax is computed by the district directors of internal revenue. A married couple electing to pay the optional tax computed by the director may file a joint return if their combined incomes do not exceed the preceding limitations (see (b) below); the optional tax is not allowed if either spouse itemizes deductions.

(b) The amount of income for which married persons are required to file a return is the separate gross income of husband or wife. Husband and wife file separate returns unless the combined income is included in a joint return; a joint return may be filed even though one spouse has no income; a joint return may not be filed if either spouse is a nonresident alien or if the husband and wife have different taxable years except, beginning in 1948, if one or both die during the year and the survivor does not remarry.

Marital status is determined as of the last day of the taxable year or as of the date of death if one spouse dies during the year.

(c) A person with less than the required amount of gross income, which includes wages subject to withholding, should file a return to claim refund of tax withheld unless such income is included in a joint return. Also, an individual with less than the indicated amount of gross income should file to claim refund of payments made on declaration of estimated tax.

(d) The requirements for filing a fiduciary income tax return are the same as for a single person except that a return is required for every estate or trust of which any beneficiary is a nonresident alien and that a return must be filed by every trust having a net income of \$100 or more or the indicated gross income regardless of amount of net income. Net income means net income taxable to the fiduciary and is the amount of income remaining in the hands of the fiduciary after deductions for allowable expenses and for amount distributable to beneficiaries.

(e) Returns are permitted for a fiscal year other than that ending Dec. 31, except on Form W-2 for 1944-47 or on Form 1040A for 1948 and subsequent years.

(f) The Internal Revenue Code of 1939 provides other filing requirements as follows:

Citizens deriving a large percentage of their gross income from possessions. (Sec. 251 (g) and 251 (j).)

Nonresident citizens with earned income from sources outside the United States. (Sec. 51 (a), 116 (a), and 116 (h).)

Nonresident aliens. (Sec. 217.)

Servicemen abroad or in combat areas. (Sec. 53 and 3804.)

Minors. (Sec. 51 (a) and 22 (m).)

<sup>5</sup> Exemptions for citizens and resident aliens are termed "normal-tax exemption" and "surtax exemption" for 1944-45 and "exemption" for 1946 and thereafter. Beginning 1948, additional exemptions are allowed for age 65 or more and for blindness of the taxpayer and/or spouse (if a joint return is filed).

Exemption is allowed as a credit against net income (see table B, note 4 (a)) for purposes of both normal tax and surtax, except that for 1944-45 on a joint return where the adjusted gross income (see table B, note 4 (b)) of one spouse is less than \$500 the normal-tax exemption is \$500 plus the adjusted gross income of such spouse.

Marital status is determined as of the close of the taxable year, or if one spouse dies during the year as of the time of such death, and no proration of exemption is required.

For exemption status of nonresident aliens, see Statistics of Income, Part 1, 1950, page 315, note 20.

<sup>6</sup> For taxable years beginning after Oct. 31, 1951, the exemption for a head of household (defined in note 7, table B) is that for a single person.

<sup>7</sup> A credit of \$100 against the net income of a trust is substituted for the exemption.

<sup>8</sup> For 1944-50, an exemption is allowed citizens and resident aliens for each closely related dependent specified by law over half of whose support was received from the taxpayer and whose gross income for the taxable year is less than \$500; beginning 1951, the gross income limitation is \$600.

Credits for dependents are allowed for surtax only, 1944-45, and for both normal tax and surtax, 1946 and thereafter.

The credit for dependents is not applicable to citizens deriving a large percentage of their gross income from sources within a possession of the United States.

<sup>9</sup> Beginning 1951, for persons having net earnings of \$400 or more from self-employment, see table D.

<sup>10</sup> The exemption is \$500 for each spouse, except that for 1944-45 on joint returns where adjusted gross income (see table B, note 4 (b)) of one spouse is less than \$500, the normal-tax exemption is \$500 plus the adjusted gross income of such spouse.

Table B.—NORMAL TAX RATES AND MINIMUM AND MAXIMUM SURTAX RATES UNDER THE INDIVIDUAL AND FIDUCIARY INCOME TAX LAW, 1944-52<sup>1</sup>

Federal tax law: Revenue acts amending Code <sup>2</sup> (date of enactment)	Income year <sup>3</sup>	Tax rate <sup>4</sup>					
		Normal tax rate <sup>5</sup>	Graduated surtax rates <sup>6</sup> at—			Combined normal tax and surtax rates <sup>9</sup> at—

Individual Income Tax Act of 1944 (May 29, 1944)-----	Calendar years 1944-1945-----						

<sup>1</sup> For income years 1913-43, see Statistics of Income for 1950, Part 1, pages 308-309 and 318-321.

<sup>2</sup> Revenue Acts passed after Feb. 10, 1939 (the date of the enactment of the Internal Revenue Code of 1939) are not complete taxing statutes in themselves, but consist of amendments to the Code. There is no one effective date for all provisions of each act; some of the provisions are retroactive, others apply to the current tax period, while still others are effective for future taxable years.

<sup>3</sup> In the case of a rate change during fiscal years not shown, the total tax is prorated; for fiscal years beginning before Oct. 1, 1950, and ending after Sept. 30, 1950, a tentative tax is computed under the law in effect for each taxable year and the two tentative taxes are then prorated according to the number of calendar months before Oct. 1, 1950 and after Sept. 30, 1950; similarly, for fiscal years beginning before Nov. 1, 1951 and ending after Oct. 31, 1951, the tentative taxes are prorated according to the number of months before Nov. 1, 1951 and after Oct. 31, 1951.

<sup>4</sup> (a) Tax rates are applied to *net income* after deducting the credits against net income, as explained in notes 5 and 6; the tax thus computed is before the tax credits listed in note 10. Net income means the excess of gross income over deductions as defined in the various revenue acts. For net income for fiduciary returns, see table A, note 4 (d).

An optional standard deduction is provided in lieu of nonbusiness deductions. If the adjusted gross income (see note 4 (b)) is less than \$5,000, the standard deduction is approximately 10 percent thereof and is allowed automatically through use of the optional tax. If the adjusted gross income is \$5,000 or more, the standard deduction for 1944-47 is \$500 and for 1948 and thereafter is the smaller of \$1,000 or 10 percent of the adjusted gross income, except that for a married person filing a separate return the standard deduction is \$500. A married person is not allowed the standard deduction if his spouse itemizes deductions. Citizens deriving a large percentage of their income from sources within a possession of the United States are not allowed the standard deduction. (In Statistics of Income neither the net income nor the standard deduction is tabulated for those individuals who elect the standard deduction.) No deductions are reported on Form W-2 for 1944-47 or Form 1040A for 1948 and thereafter and no nonbusiness deductions on short-form 1040; however, the optional tax on such returns makes allowance for deductions. (See note 4 (d).)

Variations in other deductions provided by the 1939 Code occurred between 1944 and 1952 with respect to:

Amortization of emergency facilities. (Sec. 23 (t) and 172.) (The amount of amortization deduction, tabulated separately in Statistics of Income for 1945 only, is included in business deductions.)

Loss on sale or exchange of capital assets. (See table C.)

Net operating loss. (Sec. 23 (s) and 170.) (The net operating loss deduction, tabulated separately among business deductions in Statistics of Income for 1945 only and among sources of income and loss for 1951 and thereafter, is only the amount carried forward.)

Medical expenses. (Sec. 23 (x).)

Blindness. (Sec. 25 (b) and 23 (y).)

Bad debts. (Sec. 23 (k).)

Charitable and other contributions. (Sec. 23 (o).)

(b) Adjusted gross income means gross income minus certain of the deductions (other than allowable nonbusiness expenses which are deductible from the adjusted gross income to arrive at net income) allowed by section 23 in computing net income as follows:

Trade and business deductions of a taxpayer other than an employee.

Expenses of travel, meals, and lodging incurred by an employee while away from home in connection with employment.

Reimbursed expenses in connection with employment.

Deductions attributable to rents and royalties.

Depreciation and depletion allowed a life tenant or income beneficiary of property held in trust.

Allowable losses from a sale or exchange of property.

For taxable years beginning after Oct. 19, 1951, 50 percent of the excess of net long-term capital gain over net short-term capital loss.

(c) Before 1948, on a joint return of married persons, tax rates are applied to the combined incomes. For 1948 and thereafter, the combined normal tax and surtax is *twice* the combined normal tax and surtax that would be determined if the total net income of husband and wife and the applicable credits against net income, listed in notes 5 and 6, were reduced by *one-half*.

(d) In lieu of the normal tax and surtax imposed by sections 11 and 12 of the 1939 Code, a citizen or resident may elect to pay the *optional tax* under section 400 (also see table A, note 4 (a)) if his adjusted gross income is less than \$5,000. The optional tax or the standard deduction is not allowed to either husband or wife if the net income of one of the spouses is determined without regard to the standard deduction. Beginning 1951, a head of household loses a possible benefit if he files Form 1040A since his optional tax is computed by the district director of internal revenue without regard to his status as head of household. The optional tax makes allowance for exemptions and standard deduction. Ten percent of the midpoint of each income bracket is allowed for the deductions, after which the tax is computed in the regular manner and rounded to the nearest dollar.

The optional tax table for 1952 is among the facsimiles of return forms on page 98. For tables 1941-50, see Statistics of Income for 1950, pages 323-328.

In case of an optional tax change during a fiscal year, the optional tax is prorated in the same manner as provided for the regular tax. The optional tax is applicable for taxable years of less than 12 months if the short period is not due to a change in accounting period.

(e) For 1946 through calendar year 1950, the normal tax and surtax rates result in tentative normal tax and surtax (see note 9).

<sup>5</sup> The normal tax rate is applied to the balance of net income after deducting the following *credits* (however, for optional tax paid in lieu of normal tax and surtax, see note 4 (d)):

(a) Normal-tax exemption (for taxpayer and spouse), 1944-45, and all exemptions, 1946 and thereafter.

(b) Dividends on share accounts in Federal savings and loan associations issued prior to Mar. 28, 1942.

(c) Interest on obligations issued after Sept. 1, 1917 and before Mar. 1, 1941, by the United States or any instrumentality thereof (other than Treasury notes of the National defense series) to the extent that such interest is required to be included in gross income.

<sup>6</sup> Surtax rates are applied to surtax net income which for 1944-45 is net income less surtax exemption (for taxpayer, spouse, and dependents), and for 1946 and thereafter is net income less all exemptions.

If taxpayer elects to pay the alternative tax, net income subject to surtax does not include net long-term capital gain or the excess of net long-term capital gain over net short-term capital loss for taxable years beginning before Oct. 20, 1951, nor 50 percent of the excess long-term capital gain thereafter (see table C).

<sup>7</sup> A head of household status is applicable for taxable years beginning after Oct. 31, 1951 and receives approximately one-half of the benefits of income-splitting accorded to a married couple filing a joint return. A head of household is an unmarried individual who furnishes over one-half of the maintenance of a home which is the principal residence of his unmarried descendant or stepchild or of any person whom he claims as a dependent.

<sup>8</sup> Before 1948, the lowest bracket of surtax net income for a married couple filing jointly is \$2,000, and the highest bracket is \$200,000.

<sup>9</sup> For 1946 through calendar year 1950, the combined rates shown are after *tax reductions*, and the rates so computed are rounded. For 1946 and 1947, the tentative normal tax and surtax are reduced by 5 percent thereof. For taxable years beginning after Dec. 31, 1947 and ending before Oct. 1, 1950, the combined tentative normal tax and surtax is reduced by 17 percent of the first \$400, plus 12 percent of the next \$99,600, plus 9.75 percent of the excess over \$100,000. For calendar year 1950, the combined normal tax and surtax is reduced by 13 percent of the first \$400, plus 9 percent of the next \$99,600, plus 7.3 percent of the excess over \$100,000.

<sup>10</sup> The rate limitation shown is the combined normal tax and surtax after tax reduction, if any (see note 9), but before *tax credits*, as percent of net income. The tax credits relate to income tax paid at source on interest from tax-free covenant bonds and to income tax paid to a foreign country or possession of the United States. (Sections 32, 31, 168, 216, and 251 (h) of the 1939 Code.)

Table C.—PROVISIONS PERTAINING TO CAPITAL GAINS AND LOSSES UNDER THE INDIVIDUAL AND FIDUCIARY INCOME TAX LAW, 1944-52<sup>1</sup>

Federal tax law: Revenue acts amending Code <sup>2</sup> (date of enactment)	Income year	Definition of capital assets	Period held	Percentage of gain or loss taken into account	Treatment of capital gain <sup>3</sup>	Treatment of capital loss <sup>3</sup>
Revenue Act of 1951 (Oct. 20, 1951).	Taxable years beginning after Oct. 19, 1951.	<p>(1) All property, whether or not connected with trade or business, <i>except</i>:</p> <p>(a) stock in trade or other property which would properly be included in inventory,</p> <p>(b) property held primarily for sale to customers in ordinary course of trade or business,</p> <p>(c) property used in trade or business of a character which is subject to allowance for depreciation,</p> <p>(d) real property used in trade or business,</p> <p>(e) Government obligations issued on or after Mar. 1, 1941, on a discount basis and payable without interest at a fixed maturity date not exceeding 1 year from date of issue, and</p> <p>(f) a copyright, a literary, musical, or artistic composition, or similar property (but not a patent or invention) created by the taxpayer.</p> <p>(2) Gains and losses are considered as from capital assets, under certain conditions, with respect to:</p> <p>(a) Worthless stock and other securities. (Sec. 23 (g) (2) and 23 (k) (2)).</p> <p>(b) Nonbusiness bad debts. (Sec. 23 (k) (4)).</p> <p>(c) Retirement of certain bonds, etc. (Sec. 117 (f)).</p> <p>(d) Short sales. (Sec. 117 (g) and 117 (l)).</p> <p>(e) Failure to exercise options. (Sec. 117 (g)).</p> <p>(f) Sale, exchange, and involuntary conversion of property used in trade or business<sup>4</sup>, and involuntary conversion of capital assets, all held more than 6 months, if gains exceed losses. (Sec. 117 (j)).</p> <p>(g) Sales or exchanges of securities by dealers, only if identified for investment.<sup>5</sup> (Sec. 117 (n).)</p> <p>(h) Certain termination payments to employee. (Sec. 117 (p).)</p> <p>(i) Total distribution of employees' trust on separation. (Sec. 165 (b).)</p> <p>(3) Gains and losses are <i>not</i> considered as from capital assets, under certain conditions, with respect to:</p> <p>(a) Tax-exempt sale or exchange of residence. (Sec. 112 (n).)</p> <p>(b) Certain gains from sale or exchange of amortized emergency facilities. (Sec. 117 (g) (3).)</p> <p>(c) Property referred to in item (2) (f) above, if losses exceed gains.</p> <p>(d) Gain from certain sales or exchanges of stock in a collapsible corporation. (Sec. 117 (m).)</p> <p>(e) Gain from sale or exchange of depreciable property between spouses or between an individual and a controlled corporation. (Sec. 117 (o).)</p> <p>(f) Loss from wash sales of stock or securities, not deductible. (Sec. 118.)</p>	<p>Short-term: 6 months or less.</p> <p>Long-term: More than 6 months.</p>	<p>100-----</p> <p>100-----</p>	<p>{ Net short-term capital gain is fully taxable at the normal tax and surtax rates.</p> <p>{ If the net long-term capital gain exceeds the net short-term capital loss, there is allowed as a deduction from gross income an amount equal to 50 percent of the excess long-term gain. The entire excess is taxed at 26 percent<sup>6</sup> if the alternative tax is less than the regular normal tax and surtax. Alternative tax is computed on net income reduced for this purpose by 50 percent of the excess long-term capital gain, at regular normal tax and surtax rates, plus 26 percent<sup>6</sup> of the excess long-term gain.</p>	<p>{ Net loss from sales of capital assets resulting from the combination of net short- and long-term gain and loss is allowable as a deduction for the current year to the extent of \$1,000 or the net income (computed without regard to capital gain or loss), whichever is smaller. The amount <i>not</i> allowable in the current year is the "net capital loss" to be carried forward as a short-term capital loss in each of the five succeeding years to the extent that such carry-over exceeds the total net capital gains<sup>7</sup> of any taxable years intervening between the year in which the net capital loss arose and such succeeding years. If tax is determined from optional tax table, adjusted gross income is substituted for net income for the limitation on capital loss deduction and for the computation of net capital gain.<sup>7</sup></p>
Revenue Act of 1950 (Sept. 23, 1950). Individual Income Tax Act of 1944 (May 29, 1944).	Taxable years beginning before Oct. 20, 1951.	<p>Same as 1951 act except:</p> <p>(1) (f) was added for taxable years beginning after Sept. 23, 1950,</p> <p>(2) (g) was added for transactions made after Nov. 19, 1951,</p> <p>(2) (h) was added for taxable years beginning after 1950,</p> <p>(3) (a) was added for taxable years ending after 1950,</p> <p>(3) (b) was added for taxable years ending after 1949,</p> <p>(3) (d) was added for gains realized after 1949, and</p> <p>(3) (e) was added for transactions made after May 3, 1951.</p>	<p>Short-term: 6 months or less.</p> <p>Long-term: More than 6 months.</p>	<p>100-----</p> <p>50-----</p>	<p>{ Net short-term capital gain is fully taxable at the normal tax and surtax rates.</p> <p>{ Net long-term capital gain or the excess of net long-term capital gain over net short-term capital loss is taxed at 50 percent, if such tax plus the tax on net income reduced by such capital gain (alternative tax) is less than the regular tax on net income; otherwise, such capital gain is taxed at normal tax and surtax rates.</p>	<p>{ Same as 1951 act.</p>

<sup>1</sup> For income years 1922-43, see Statistics of Income for 1950, Part 1, pages 330-331.

<sup>2</sup> Revenue Acts passed after Feb. 10, 1939 (the date of the enactment of the Internal Revenue Code of 1939) are not complete taxing statutes in themselves, but consist of amendments to the Code. There is no one effective date for all provisions of each act; some of the provisions are retroactive, others apply to the current tax period, while still others are effective for future taxable years.

<sup>3</sup> These treatments apply to the net amount, that is, the net gain or the net loss, of each taxpayer, resulting from the sales of all capital assets in a similar category.

<sup>4</sup> "Property used in trade or business" includes real property and depreciable property not inventoriable or held primarily for business sale, all held more than 6 months; *excludes* items (1) (f), (3) (b),

and (3) (e) in the table; includes cutting of certain timber (also coal, beginning 1951) disposed of by the owner under a contract by which he retains an economic interest in such property; certain unharvested crops for taxable years beginning after 1950, and livestock held for draft, breeding, or dairy purposes for 12 months or more (6 months, for taxable years beginning before 1951).

<sup>5</sup> Effective for transactions made after Nov. 19, 1951.

<sup>6</sup> 25 percent for taxable years beginning after Oct. 19, 1951, and before Nov. 1, 1951.

<sup>7</sup> Net capital gain is the excess of (1) the sum of the gains from sales or exchanges of capital assets, plus net income of the taxpayer (computed without regard to capital gains or losses) or \$1,000, whichever is smaller, over (2) the losses from such sales or exchanges.

Table D.—REQUIREMENTS FOR FILING RETURNS AND TAX RATE UNDER THE SELF-EMPLOYMENT TAX LAW, 1951-52

Federal tax law: Acts amending Code <sup>1</sup> (date of enactment)	Income year	Self-employment net earnings <sup>2</sup> requirements for filing returns <sup>3</sup>	Maximum amount subject to self-employment tax	Tax rate on self-employment income <sup>4</sup>
Social Security Act Amendments of 1950 (Aug. 28, 1950)	1951-52	Dollars 400	Dollars 3,600	Percent 2½

<sup>1</sup> Acts containing amendments to the Internal Revenue Code enacted Feb. 10, 1939. There is no one effective date for all provisions of each act; some of the provisions are retroactive, others apply to the current tax period, while still others are effective for future taxable years.

<sup>2</sup> Net earnings from self-employment is gross income derived from trade or business less allowable deductions attributable thereto plus share of partnership income (or loss). Excludes income from services as public official, railroad worker, minister or member of religious order, or employee, and income from farming, certain professions, interest and dividends received from securities and real estate rentals except those of dealers, and gain or loss from sale or exchange of capital assets and from disposition of other property. Net operating losses and business property casualty losses are not allowable deductions. Net earnings of less than \$400 are excluded from self-employment income and not subject to tax.

<sup>3</sup> Beginning 1951, a citizen or resident of the United States, or a resident of the Virgin Islands or of Puerto Rico, having net earnings from self-employment of \$400 or more is required to file a return.

The amount of income for which married persons are required to file a return is the separate net earnings of husband or wife. The self-employment tax of husband and wife filing a joint return is the sum of the taxes computed on the separate self-employment income of each spouse.

Returns are permitted for a fiscal year other than that ending Dec. 31.

Members of the Armed Forces may defer filing returns under certain conditions. (Sec. 53 and 3804 of the 1939 Code.)

<sup>4</sup> Self-employment income is the amount of the net earnings from self-employment not in excess of \$3,600 minus any wages received from which social security tax has been withheld by the employer.

# U. S. INDIVIDUAL INCOME TAX RETURN

FOR CALENDAR YEAR 1952

# 1952

or taxable year beginning \_\_\_\_\_, 1952, and ending \_\_\_\_\_, 195

Do not write in these spaces

Serial  
No.

(Cashier's Stamp)

Name \_\_\_\_\_  
(PLEASE PRINT. If this is a joint return of husband and wife, use first names of both)

HOME ADDRESS \_\_\_\_\_  
(PLEASE PRINT. Street and number or rural route)

(City, town, or post office)

(Postal zone number)

(State)

Social Security No. \_\_\_\_\_ Occupation \_\_\_\_\_

**Your  
exemp-  
tions**

--- Please Attach All Original W-2 Forms Here ---

**Your  
in-  
come**

**How to  
figure  
the tax**

**Tax  
due or  
refund**

1. List your name. If your wife (or husband) had no income, or if this is a joint return, list also her (or his) name.

A \_\_\_\_\_  
B \_\_\_\_\_  
(Your wife's name—do not list if exemption is claimed on another return)

- C. List names of your children (including stepchildren and legally adopted children) with 1952 gross incomes of less than \$600 who received more than one-half of their support from you in 1952. See Instructions.

Check below if at the end of your taxable year you or your wife were—

65 or over ☐ Blind ☐  
65 or over ☐ Blind ☐

On lines A and B below—

If neither 65 nor blind write the figure 1  
if either 65 or blind write the figure 2  
if both 65 and blind write the figure 3

Number of exemptions for you .....  
Number of her (or his) exemptions .....

Name—and address if different from yours

Enter number of children listed .....

- D. Enter number of exemptions claimed for close relatives listed in Schedule I on page 2 .....

- E. Enter total number of exemptions claimed in A to D above .....

2. Enter your total wages, salaries, bonuses, commissions, and other compensation received in 1952, before payroll deductions. Persons claiming traveling or reimbursed expenses, see Instructions.

Print Employer's Name	Where Employed (City and State)	Total Wages	Income Tax Withheld
		\$	\$

Enter total →

3. If you received dividends, interest, or any other income, give details on page 2 and enter the total here .....

4. Add income shown in items 2 and 3, and enter the total here .....

(Before figuring your tax, see Schedule J for "Head of Household." If you claim such status, check here ☐.)  
IF YOUR INCOME WAS LESS THAN \$5,000.—Use the tax table on page 4 unless you itemize deductions. The table allows about 10 percent of your income for charitable contributions, interest, taxes, medical expenses, etc. If your deductions exceed 10 percent, it will usually be to your advantage to itemize them and compute your tax on page 3.  
IF YOUR INCOME WAS \$5,000 OR MORE.—Compute tax on page 3. Use standard deduction or itemize deductions, whichever is to your advantage.

5. (A) Enter your tax from table on page 4, or from line 13, page 3.

- (B) Enter your self-employment tax from line 35, separate Schedule C.

\$ .....  
Enter total here →

6. How much have you paid on your 1952 income tax?

- (A) By tax withheld (in item 2, above). Attach Original Forms W-2.

- (B) By payments on 1952 Declaration of Estimated Tax (include any overpayment on your 1951 tax not claimed as a refund).

\$ .....  
Enter total here →

7. If your tax (item 5) is larger than payments (item 6), enter balance of tax due here. This balance must be paid in full with return .....

8. If your payments (item 6) are larger than your tax (item 5), enter the overpayment here .....

Enter amount of item 8 you want \$ ..... \$ .....  
(Refunded) (Credited on 1953 estimated tax)

Do you owe any prior year Federal tax for which you have been billed? (Yes or No) ..... Is your wife (or husband) making a separate return for 1952? (Yes or No) ..... If "yes," write her (or his) name .....

If you have filed a return for a prior year, state latest year ..... Where filed? .....

To which director's (formerly collector's) office did you pay amount claimed in item 6 (B), above? .....

I declare under the penalties of perjury that this return (including any accompanying schedules and statements) has been examined by me and to the best of my knowledge and belief is a true, correct, and complete return.

(Signature of person, other than taxpayer, preparing this return) (Date)

(Signature of taxpayer) (Date)

(Name of firm or employer, if any)

(Signature of taxpayer's wife or husband if this is a joint return) (Date)

To assure split-income benefits, husband and wife must include all their income and, even though only one has income, BOTH MUST SIGN.

# THESE ARE YOUR Income Tax Forms for 1952

*and helpful information  
on how to prepare your  
U. S. Income Tax Return  
on Form 1040*

This pamphlet of official instructions will help you prepare your return. It summarizes the most important requirements of the law and regulations. It calls your attention to exemptions and deductions to which you are entitled and which reduce your tax. If you need more information, inquire at the nearest office of a director of internal revenue. If you desire a more detailed publication, you can obtain a booklet entitled, "Your Federal Income Tax," for 25 cents from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

# HOW TO FILE YOUR RETURN

## *Who Must File*

Everyone—adult or child—who had \$600 or more gross income in 1952 must file. For requirements respecting self-employment tax, see page 7.

## *Why You Must File a Return*

Most of your tax is withheld from your wages every payday or paid on Declarations of Estimated Tax every quarter. However, the law requires you to file an annual return to determine whether you owe more or you should get a refund.

## *When To File*

Between January 1 and March 15, 1953. Try to avoid the last-minute rush. Those few individuals who keep books on a fiscal year basis must file by the fifteenth day of the third month after the close of their years.

## *How To Pay*

Any balance of tax shown to be due in item 7, page 1, of your return on Form 1040 must be paid in full with your return. You may pay cash, or by check or money order. Checks or money orders should be made payable to "Director of Internal Revenue."

## *How To Sign*

You have not filed a legal return unless you sign it. If you and your wife are filing a joint return, both of you

must sign. You do not need to have your return notarized, since your signature has the same legal effect as swearing to the truthfulness of your return.

## *Where To Get Forms*

As far as practical, the Director mails forms directly to taxpayers. If you need additional forms you can get them from any director's office, and also at most banks and post offices. Many employers also keep forms for the convenience of employees.

## *Where To Get Help*

After reading these instructions you should be able to prepare your own return, unless you had complicated problems. If you do need help, you can get it at any director's office. For example, you may need advice in connection with filing a return for a decedent.

## *Your Rights of Appeal*

If you believe there is an error in any bill, statement, or refund in connection with your tax, you are entitled to present your reasons to the Director and have the matter reconsidered. Also, if any audit or investigation causes proposed changes in your tax, to which you do not agree, you are entitled to have the matter reconsidered by the Director. If agreement is not reached, the Director will advise you of further appeal rights.

# HOW TO CHOOSE YOUR RETURN FOR SIMPLICITY AND LOWEST TAX

## *The Three Types of Returns*

In an effort to fit the tax returns to the differing needs of the more than 50,000,000 persons who must file them, three types of returns have been provided—Form 1040A, Short-Form 1040, and Long-Form 1040.

The law expects you to pay your correct tax—no more—no less. It will pay you to think for a moment which of these three types of returns is the best and easiest form in your case. To do this you need to consider the size of your income, the sources of your income, your eligibility to deduct travel and reimbursed expenses from wages (see page 5), and the size of your nonbusiness deductions, such as contributions, medical expenses, etc. (listed in detail on pages 10 and 11). The tax table used in computing the tax on Form 1040A and Short-Form 1040 automatically allows you approximately 10 percent of your income to cover your nonbusiness deductions.

## *Income Less Than \$5,000*

1. *Form 1040A*.—This is the simplest return of the three. If you file this form, you do not need to figure your own tax. From your answers to the questions, the Director will figure your tax for you, and send you a bill or a refund. If your total income was less than \$5,000 and consisted entirely of wages reported on Withholding Statements (Forms W-2), or of such wages and not more than \$100 total of other wages, dividends, and interest, you may use Employee's Optional Income Tax Return (Form 1040A). If (1) you had any income from other sources, such as annuities, rents, royalties, a business or profession, farming, trans-

actions in securities or other property, partnerships, estates, and trusts, or (2) if you claim the status of head of a household, you may not use Form 1040A but must file your return on Form 1040. You cannot deduct travel or reimbursed expenses from your wages if you file Form 1040A.

2. *Short-Form 1040*.—Form 1040 may be used either as a short form or as a long form. The short form is simpler than the long form. It differs from Form 1040A in that (a) you must find your own tax; (b) you may include income from sources not eligible for Form 1040A; and (c) you may deduct travel and reimbursed expenses from your wages. Therefore, if your income was less than \$5,000 and you do not desire to itemize nonbusiness deductions (contributions, interest, etc.), find your tax from the table on the back of the form, tear off the first sheet and file it as a short form.

3. *Long-Form 1040*.—If your nonbusiness deductions are more than 10 percent of your income, you will ordinarily save money by itemizing your deductions on Long-Form 1040. You will then figure your tax according to the computation on page 3, and file the entire form, which is called a long-form return. If your nonbusiness deductions are so close to 10 percent that you are in doubt which is the better form, try both the short form and the long form to make sure.

## *Income of \$5,000 or More*

If your income was \$5,000 or more, you must use Long-Form 1040. However, in that case, you can either take a standard deduction or itemize and claim your actual deductions. You should compare your actual deductions with

the amount the standard deduction allows you. If actual deductions exceed the standard deductions, you will save tax by electing to itemize them. If you are single, or if you are married and file a joint return, the standard deduction is 10 percent of your income but not more than \$1,000. If husband and wife file separate returns and each had income of \$5,000 or more, the standard deduction is a flat \$500 for each.

### *Married Persons—Joint or Separate Return*

*Are you married?*—If you were a married person on Dec. 31, 1952, you are considered married for the entire year 1952. If you were divorced or legally separated on or before December 31, you are considered single for the entire year. If your wife or husband died during the year, you are considered married for the entire year, and may file a joint return.

*Separate or Joint Returns.*—If husband and wife have separate income (for example, if both work), they may file separate returns or a joint return. A separate return accounts only for the exemptions, income, and deductions of one person. If married persons living in community property States file separate returns, each must report half of any community income. A joint return accounts for the exemptions, income, and deductions of both husband and wife. A husband and wife may file a joint return even though one of them had no income. A joint return may not be filed if either husband or wife was a nonresident alien at any time during the taxable year.

*How To Make a Separate Return.*—To file separate returns, husband and wife must each have income under the laws of their State and they must fill out separate forms. The "split income" provisions of the Federal tax law do not apply to separate returns. When filing separate returns, the husband and wife should each claim the deductions for those allowable expenses paid with his or her own funds. (In community property States, deductions resulting from payments made out of funds belonging jointly to husband and wife may be divided half and half.) If one itemizes and claims actual deductions, instead of using the tax table or the "standard deduction", then both must itemize and claim actual deductions on Long-Form 1040 returns.

*How To Make a Joint Return.*—You can make a joint return by including all exemptions, income, and deductions of both husband and wife. In the heading of the return, list both names (for example: "John H. and Mary D. Doe"). Both must sign the return.

*Advantages of a Joint Return.*—The present law usually makes it advantageous for married couples to file joint returns. The law provides a "split income" method of figuring the tax on a joint return which often results in a lower tax

than would result from separate returns. If you make a joint return on Form 1040A, the Director will figure your tax both on the separate and the joint basis, and give you the benefit of the lower figure. If you file Form 1040—either the short or long form—a joint return usually will result in as low as or a lower tax than separate returns. There are some cases, when husband and wife both have income, where separate returns result in a lower total tax than joint returns. *Joint Tax or Refund.*—When husband and wife sign a joint return, each assumes full legal responsibility for the entire tax, and if one fails to pay, the other must pay it. If they are entitled to a refund, the check will be made out to them jointly.

### *Unmarried persons—Heads of Household*

The law provides a special tax treatment for any individual who qualifies as a "Head of a Household."

If you are not married (or legally separated) at the end of your taxable year, you qualify as a "Head of a Household" provided you furnish over half the maintenance of a home which is your principal residence and which, except for temporary absences, you share during the entire taxable year with—

(a) Any person for whom you are entitled to an exemption, or

(b) Your unmarried child, grandchild, or stepchild, even though such child is not a dependent.

If you are married to a nonresident alien at any time during your taxable year but otherwise meet the foregoing tests, you are considered a "Head of a Household" since you are not permitted to file a joint return.

If your wife or husband (not a nonresident alien) dies during the taxable year, you do not qualify as a "Head of a Household" since in such case you are generally entitled to file a joint return.

If you claim the status of "Head of a Household," you are required to fill in Schedule J on page 2 of your return.

The cost of maintaining a household includes expenditures for such items as:

1. Maintenance of the dwelling and premises. For example, rent (or if the taxpayer owns his home, real estate taxes and interest on a mortgage on the home), insurance of the dwelling and premises, repairs, upkeep, and domestic help.

2. Utilities. For example, gas, telephone, electricity, water, and fuel.

3. Food consumed in the home.

The cost of maintaining a household shall be computed without regard to the value of personal services rendered by a member of the household, including the taxpayer.

## HOW TO CLAIM YOUR EXEMPTIONS

### *Exemptions for You and Wife*

*For You.*—You, as the taxpayer, are always entitled to at least one exemption for yourself. If, at the end of your taxable year, you were blind or were 65 or older, you get two exemptions for yourself. If you were both blind and 65 or over, you get three exemptions.

*For Your Wife.*—You get exemptions for your wife (or husband) if you and she are filing a joint return. If you file a separate return, you may claim her exemptions only if she had no income and was not claimed as a dependent on

another taxpayer's return for 1952. Otherwise, your wife's exemptions are like your own—one if she was neither blind nor 65; two if she was either blind or 65; three if she was both blind and 65.

*In Case of Death.*—If wife or husband died during 1952, the exemption for age or blindness is determined as of the date of death.

*Proof of Blindness.*—If totally blind, attach a statement of such fact to the return. If partially blind, attach a statement from a qualified physician or a registered optometrist that (1) central visual acuity did not exceed 20/200 in the

better eye with correcting lenses, or (2) that the widest diameter of the visual field subtends an angle no greater than 20°.

### Exemptions for Your Children

You get only one exemption for each child (the additional exemption for age or blindness applies only to you and your wife but not to dependents). The law puts very exact limitations on who is a dependent. Each child must meet *all four* of the following tests for the taxable year:

1. Did not have \$600 or more gross income, and
2. Received more than one-half of his or her support from you (or from husband or wife if this is a joint return), and
3. Is not claimed as an exemption on the return of her husband (or his wife), and
4. Was either a citizen of the United States or a resident of the United States, Canada, or Mexico.

### Exemptions for Your Relatives

You get one exemption for each dependent close relative. The law puts very exact limitations on who may be claimed

as a dependent close relative. Each must meet *all five* of the following tests for the taxable year:

1. Did not have \$600 or more gross income, and
2. Received more than one-half of his or her support from you (or from husband or wife if this is a joint return), and
3. Is not claimed as an exemption on the return of her husband (or his wife), and
4. Was either a citizen of the United States or a resident of the United States, Canada, or Mexico, and
5. Is related to you (or to husband or wife if this is a joint return) in one of the following ways:

Mother	Stepbrother	Son-in-law
Father	Stepsister	Daughter-in-law
Grandmother	Stepmother	Uncle—
Grandfather	Stepfather	Aunt—
Brother	Mother-in-law	Nephew—
Sister	Father-in-law	Niece—
Grandson	Brother-in-law	(but only if related
Granddaughter	Sister-in-law	by blood)

## HOW TO REPORT YOUR INCOME

### What Income Is Taxed

The law says all kinds of income are subject to tax with specific exceptions. This means that all income which is

not specifically exempt must be included in your return, even though it may be offset by expenses and other deductions. On the other hand, exempt income should be omitted from your return altogether.

#### Examples of Income Which Must Be Reported

Wages, salaries, bonuses, commissions  
Tips and gratuities for services rendered  
Dividends and other earnings from investments  
Interest from bonds, loans  
Industrial, civil service and other pensions, annuities, endowments  
Rents, and royalties from property, patents, copyrights  
Profits from business or profession  
Profit from sale of real estate, securities, autos  
Your share of partnership profits  
Your share of estate or trust income  
Contest prizes  
Gambling winnings

#### Examples of Income Which Should Not Be Reported

Armed forces pay due to active service in a combat zone or while hospitalized from such service after June 24, 1950—enlisted men's entire service pay for each month; officers' service pay up to \$200 for each month. Your service withholding statement (Form W-2) does not include this non-taxable service pay but shows only the pay you need report  
All Government payments and benefits made to veterans and their families, except nondisability retirement pay and interest on terminal leave bonds  
Dividends on veterans' Government insurance  
Federal and State social security benefits  
Railroad Retirement Act benefits  
Gifts, inheritances, bequests  
Workmen's compensation, insurance, damages, etc., for bodily injury or sickness  
Interest on State and municipal bonds; certain Federal bonds issued before March 1, 1941  
Life insurance proceeds upon death

### Wages, Salaries, Etc.

Even though tax has been withheld by your employer, the law requires you to report all your wages, salaries, fees, commissions, bonuses, and all other payments for your personal services.

**Report Total Wages Before Pay-Roll Deductions.**—When your employer deducts taxes, insurance, union dues, savings bond subscriptions, social security, pension fund contributions, community chest, or other items from your pay, these amounts are still part of your wages. The law requires you to report your total wages in the amount that would have been paid if your employer had not made any deductions.

**Tips and Gratuities.**—The law requires you to include in your wages all tips, gratuities, bonuses, and similar payments whether you get them from a customer or from your

employer. Legally, these are not "gifts," even though people sometimes mistakenly call them by that name.

**Payment in Merchandise, etc.**—If your employer pays part or all of your wages in merchandise, services, stock, or other things of value, you must determine the fair market value of such items and include it in your wages.

**Meals and Living Quarters.**—If solely for the convenience of your employer, you are required to live or eat on his premises and the living quarters and meals are not furnished as compensation, they are not to be reported in your return. For example, a maidservant who is required to live in her employer's home is not taxable on the value of the meals and lodging furnished her. A special provision of law also exempts a clergyman from paying tax on the value of a parsonage furnished for his use by his church.

**Travel Expenses of Employees.**—The law provides special

deductions for the expenses of travel, meals, and lodging while away from home in connection with your employer's business. Traveling "away from home" means going away from the city or town where you normally work and remaining away at least overnight. If you choose to live away from the city where you regularly work, or do not transfer your home when your employer transfers your work to a different city, the law does not allow any "travel deduction" resulting from your choice of residence.

"Travel expenses" means the cost of transportation fares, meals, and lodging while away from home on your employer's business. It also includes porters' tips, hire of public stenographers, baggage charges, and similar expenses necessary to travel. Entertainment expenses cannot be included in "travel expenses." You cannot deduct laundry and other personal expenses. Any amount paid to you to cover "travel expenses" must be included in your wages. You can deduct your full "travel expenses" from your wages before writing the balance of your wages in item 2, page 1, Form 1040. You must attach a statement to your return explaining in detail the expenses you deducted.

*Reimbursed Expenses Other Than Travel.*—If your employer pays you an "expense account" or otherwise reimburses you for money spent for him (other than "travel expenses"), you should add these payments to your wages, and then subtract your actual expenses but not more than the reimbursements. Enter the balance in item 2, page 1, Form 1040, and attach a detailed statement in explanation. Any allowable expense in excess of the reimbursed amount must be treated as "Other Expenses" discussed below.

*Other Expenses of Employees.*—On page 1 of Form 1040, the law allows only "travel" and "reimbursed" expenses to be deducted from wages, as explained in the two preceding paragraphs. If you file Form 1040A or a Short-Form 1040, or if you take the standard deduction on a Long-Form 1040, you receive an allowance for deductions which takes the place of all other employment expenses and nonbusiness deductions. On the other hand, if you itemize your deductions on a Long-Form 1040, you can deduct the cost of tools, materials, dues to unions and professional societies, entertaining customers, and other expenses which are ordinary and necessary in connection with your employment. These items may be itemized and deducted on page 3 under the heading "Miscellaneous."

*Going to and From Work.*—The law regards the cost of going to and from work as your personal expense, and never allows you to deduct such costs, no matter how far you live from work, or how expensive the transportation may be.

## Dividends

If you own stock in a corporation or association, the payments you receive on your stock out of earnings and profits are called dividends and must be reported in your tax return. Usually dividends are paid in cash, but if paid in merchandise or other property, they are taxable at their fair market value.

If, however, a distribution is not paid from earnings and profits, it is not taxable as a dividend. Such distributions are treated as reductions of the cost or other basis of your stock. These distributions are not taxable until they exceed your cost or other basis. After you have received full repayment of your cost or other basis, you must include any additional receipts as gains from the sale or exchange of property for which special tax treatment is provided.

In some cases a corporation distributes both a dividend and a repayment of capital at the same time. When these mixed distributions are made, the check or notice will usu-

ally show the dividend and the capital repayment separately. In any case, you must report the dividend portion as income.

A distribution in the form of shares of stock in the same corporation is not taxable if it does not change your proportionate interest in the corporation; as, for example, where each holder of common stock receives one additional share of the same class of common stock for each share he owns. A stock distribution is taxable if it changes the stockholder's proportionate interest in the corporation. If so, the fair market value of the new stock must be reported as dividend income.

Dividends on shares of stock issued before March 28, 1942, by Federal land banks, national farm loan associations, and Federal Reserve banks are not taxable. If the shares were issued on or after that date, the dividends are taxable.

If you own shares in a Federal savings and loan association, see next section.

You should itemize in Schedule A dividends received unless you are engaged in the trade or business of buying and selling stock to customers. In such case, you should report dividends received from such stock in separate Schedule C.

## Interest

You must include in your return any interest you receive or is credited to your account and which can be withdrawn by you. All interest from bonds, debentures, notes, savings accounts, or loans is taxable, except for certain governmental issues as described below.

*State and Municipal Bonds and Securities.*—The interest on these obligations is completely exempt from tax.

*U. S. Government Bonds and Securities.*—The interest on obligations issued on or after March 1, 1941, is fully taxable.

If you own United States Savings or War bonds (Series A to F, inclusive), the gradual increase in value of each bond (as shown in the table on its back) is considered "interest," but you need not report it in your tax return until you cash the bond. Matured Series E bonds continue to earn interest until cashed. However, you may at any time elect to report each year the annual increase in value, but if you do so you must report in the first year the entire increase to date and must continue to report the annual increase each year.

If you own U. S. Savings bonds or Treasury bonds issued prior to March 1, 1941, you can exclude from your tax return the interest on any \$5,000 principal value of such bonds (valuing Savings bonds at cost and Treasury bonds at face value).

On certain United States securities the interest is subject to surtax rates but is exempt from normal tax rates. The entire interest from such securities should be included on page 2 of the return. If you file Form 1040A or Short-Form 1040, the standard deduction of approximately 10 percent includes this normal tax exemption. If you file a Long-Form 1040 and itemize deductions, you may make an adjustment for these securities in line 6, 7, or 8 (c), page 3. This adjustment is allowed only on the following securities:

(A) U. S. Savings bonds and Treasury bonds in excess of \$5,000 issued before March 1, 1941;

(B) Obligations of instrumentalities of the U. S. (except Federal land banks, intermediate credit banks, and joint stock land banks) issued before March 1, 1941;

(C) Dividends on shares of Federal savings and loan associations if the shares were issued before March 28, 1942.

You should itemize in Schedule B interest received, unless you are engaged in the business of buying and selling securi-

ties. In such case, you should report interest received in separate Schedule C.

### ***Business or Profession***

The law taxes a business or profession on its profits—not its total receipts. Therefore, separate Schedule C is provided to help you subtract your costs from your receipts.

Generally, the costs you can deduct are the ordinary and necessary expenses of doing business—cost of merchandise, salaries, interest, taxes, rent, repairs, and incidental supplies. In the case of capital investments and improvements in depreciable property, such as buildings, machines, fixtures, and similar items having a useful life of more than one year, the law provides an annual depreciation allowance as the method of recovering the original capital cost tax-free. For further information on depreciation, see page 9.

In the case of capital investments and improvements in nondepreciable property, such as land, the law does not provide for any annual depreciation allowance.

If some of your expenses are part business and part personal, you can deduct the business portion but not the personal portion. For instance, a doctor who uses his car half for business can deduct only half the operating expenses of the car.

If in your business, you suffer a loss from the loan of cash or property, you can deduct the "bad debt" in the year in which it became worthless, but not in any other year. If a business debt becomes partially worthless, you can deduct the portion actually charged off on your books. Uncollected bills for services, like doctors' bills, cannot be deducted unless the anticipated income was reported in your current or previous tax return.

### ***Farming***

For the assistance of farmers, a separate schedule, Form 1040F, is provided and must be used by all farmers who report on a cash basis. This form is optional with farmers who keep books on an accrual basis.

Farmers should report as business income all Government payments, such as milk subsidy and conservation payments and amounts received under the Soil Conservation and Domestic Allotment Act, as amended, the Price Adjustment Act of 1938, section 303 of the Agricultural Adjustment Act, as amended, and the Sugar Act of 1937. Farmers who include in their income loans from the Commodity Credit Corporation should attach a statement explaining the details.

Farmers who market produce through a cooperative should add to the sales price of the produce, or to ordinary income, any patronage dividends received in the taxable year as a result of such transactions. Farmers who buy, through a cooperative, implements, gasoline, seed, fertilizer, or other items for use in their business should either reduce their deductions for such items by the amount of patronage dividends received or add patronage dividends to income. Patronage dividends received as rebates for purchases of items not used in your business should be omitted from your tax return. Patronage dividends are considered paid to you when remitted in cash, merchandise, stock certificates, or when credited to your account.

For further information relating to farm income and expense, see instructions on page 4 of Form 1040F.

### ***Partnerships***

A partnership or similar business firm (not a corporation) does not pay income tax in the firm's name. Therefore, each partner must report in his personal tax return his share of his partnership's income and pay tax on it.

Include in Schedule C Summary, page 2 of Form 1040, your share of the net profit (whether actually received by you or not) or the net loss of a partnership, joint venture, or the like, whose taxable year ends within the year covered by your return. In computing the amount of the net income or loss of the partnership or other organization, do not include:

(a) Interest on obligations of the United States or its instrumentalities which is exempt from normal tax (see Interest). Your share of this interest should be reported in Schedule B, page 2, of your return.

(b) Deductions and credits for contributions, income taxes paid to a foreign government, and income taxes paid at the source on tax-free covenant bond interest. If you itemize your deductions on Long-Form 1040, your share of these items should be entered on page 3.

(c) Capital gains or losses. Your share of these should be reported by you in separate Schedule D.

Your share of partnership gains and losses from transactions described in subsections (j) and (k) of section 117 of the Internal Revenue Code should be aggregated with your gains and losses from like transactions to determine whether you are entitled to the benefits of such subsections.

If the partnership is engaged in a trade or business, the individual partner may be subject to the self-employment tax on his share of the partnership's self-employment income. In such a case the partner's share of partnership self-employment net earnings (or loss) should be entered on line 29, separate Schedule C.

### ***Net Operating Loss Deduction***

If, in 1952, your business or profession lost money instead of making a profit or you had a casualty loss, you can apply these losses against your other 1952 income. If these losses exceed your other income, the excess or "net operating loss" may be carried backward to offset your income for 1951, and any remaining excess may be carried over to the years 1953–1957, inclusive. If a carry-back entitles you to a refund of 1951 taxes, ask the Director for Form 1045 to claim quick adjustment. For further information, see section 122 of the Internal Revenue Code.

If you claim a net operating loss deduction on line 5 of Schedule C Summary, page 2, of Form 1040, you should file a concise statement setting forth the amount of the net operating loss deduction claimed and all material and pertinent facts relative thereto, including a detailed statement showing the computation of the net operating loss deduction.

### ***Self-employment Tax***

Every self-employed individual will have to file an annual return of his self-employment income on Form 1040 if he has at least \$400 of net earnings from self-employment in a taxable year, even though he may not have sufficient income to otherwise require the filing of an income tax return.

If your income is derived solely from salary or wages, or from dividends and interest on investments, capital gains, annuities, or pensions, you will have no self-employment income and, therefore, will have no self-employment tax to pay.

Generally, if you carry on a business as a sole proprietor, or if you render service as an independent contractor, or as a member of a partnership or similar organization, you will have self-employment income.

The computation of your self-employment tax is made on separate Schedule C which, with attached Schedule C-a, should be filed with your income tax return on Form 1040. The self-employment tax is a part of your income tax and any balance of tax shown to be due in item 7, page 1 of your

return on Form 1040 must be paid in full with your return.

Any declaration of estimated tax required to be filed need not include estimated tax on self-employment income.

For further information relating to the self-employment tax, see instructions on page 4 of separate Schedule C.

## *Sale and Exchange of Property*

If you sell your house, car, furniture, securities, real estate, or any other kind of property, the law requires you to report any profit in your tax return. Because of the many special rules for taxing the profit and deducting the loss from such transactions, a special form, Schedule D, is provided for your convenience. The results computed from this form must be shown on page 2 of Form 1040 and the separate schedule attached.

*What Are Capital Gains?*—In general, capital gains are profits from selling or exchanging any kind of property except certain kinds when they are used or held in your trade or business. For more specific information regarding capital gains and losses and gains and losses from the sale or exchange of other property, see instructions on the back of Schedule D.

*Sale of Homes, Etc.*—**GENERAL RULE**—The law requires you to report any gains from the sale or exchange of your residence or other nonbusiness property, but does not allow you to claim any loss from the sale of a home or other asset which was not held for the purpose of producing income. However, your gain from the sale of such property is the difference between the sales price and your original cost plus the cost of permanent improvements without reduction of such costs by depreciation.

**SPECIAL RULE FOR SALE OF RESIDENCE AT A GAIN.**—If you sold or exchanged your residence during 1952 at a gain and within one year after (or before) the sale you purchased and occupied another residence, none of the gain is taxable if the cost of the new residence equals or exceeds the sale price of the old residence. See, however, instructions below for information to be furnished. If instead of purchasing another residence you begin construction of a new residence either before the sale of your old residence or within one year after the sale and occupy it not later than 18 months after the sale, none of the gain upon the sale is taxable if your cost of construction actually taking place and land actually acquired within the period beginning one year before the sale and ending 18 months after the sale equals or exceeds the sale price of the old residence.

If the sale price of your old residence exceeds the cost of your new residence, the gain on the sale is taxable to the extent of such excess. For example, if you sell for \$15,000 a residence which cost you \$10,000 and purchase a new residence for \$14,000, \$1,000 of the \$5,000 gain on the sale of your old residence is taxable.

To determine the gain on the sale of your new residence, reduce its cost by the gain from the sale of your old residence which was not taxable. For example, if you sell your new residence which cost \$14,000 for \$16,000 and the non-taxable gain on your old residence was \$4,000, your gain on the sale of the new residence is \$6,000, since the cost of \$14,000 is reduced by \$4,000.

Specific rules apply where (a) a part of your old or new residence is used for rental or business purposes, (b) you sell within one year more than one property used as your principal residence, (c) the ownership by husband and wife of the old and new residence is not identical, (d) you own more than one residence at the same time, or (e) the acquisition of the new residence occurred because of a casualty

such as fire, or of condemnation proceedings which affected your old home.

If you sold or exchanged your residence during 1952, report the details of the sale in separate Schedule D. If you do not intend to replace, or the period for replacement has passed, report the gain in the regular manner. If you have acquired and occupied your new residence, enter in column 8 of Schedule D only the amount of taxable gain, if any, and attach statement showing the purchase price, date of purchase, and date of occupancy.

If you are undecided or have decided to replace, you should enter "none" in column 8 of Schedule D. When you do replace within the required period, you should advise the director, giving full details. When you decide not to replace, or the period has passed, you should file an amended return.

The running of the 1-year period or the 18-month period will be suspended during the time, if any, in which you serve on active duty in the Armed Forces after the date of sale of the old residence and before January 1, 1954, pursuant to a call or order for an indefinite period or for more than 90 days. This suspension applies only where your service begins before the end of the 1-year period or the 18-month period, and cannot extend the period beyond a date which falls 4 years after the date of sale.

*Nonbusiness Bad Debts.*—If you fail to collect a personal loan, you can list the bad debt as a "short-term capital loss" provided the loan was made with a true expectation of collecting. So-called loans to close relatives, which are really in the nature of gifts, must not be listed as deductible losses.

## *Annuities and Pensions*

If you paid part or all the cost of an annuity, pension, endowment, or similar contract, you are entitled to recover your cost tax-free, but must report a certain amount of your annual receipts as income. For your convenience in figuring the capital and income portions of your annuity or pension, Schedule E has been provided on page 2 of Form 1040. If you are receiving payments on more than one pension or annuity, you should fill out a similar schedule for each one.

*The 3-Percent Rule.*—In general, each payment to you is partly repayment of your cost and partly interest on your money. You must report as income each year an amount at least equal to 3 percent of all the money you paid toward your pension or annuity.

The difference between the total payments you received during the year and 3 percent of your cost is the amount of your capital recovery which you exclude from income until your full cost has been recovered tax-free. However, if the 3-percent figure is larger than the actual amounts you received during the year, then report the actual amount received.

*After You Recover Cost.*—As soon as you have recovered your cost tax-free (usually within the first few years), then everything you receive must be reported as income. From then on, you can report your full pension or annuity receipts in line 6 of Schedule E without filling out the other lines of the schedule.

*Employer's Contributions.*—Many employers contribute part or all of the cost of pensions for their employees. Usually, these contributions are not taxed as current wages, and such contributions are not considered part of the cost to employees. Therefore, in figuring the exempt or taxable portion of your pension, count only costs which you paid personally or through deductions from your pay.

*Part-Year Annuities.*—If your payments started after Jan-

uary 1952, instead of reporting 3 percent, take  $\frac{1}{12}$  of this 3% of cost and multiply it by the number of months for which you received payments in 1952.

**Joint and Survivorship Annuities.**—If, after the death of one annuitant, another person continues to receive the annuity payments, the new recipient must continue to report income in the same manner as the deceased annuitant. If, however, the death occurred after Dec. 31, 1950, the value of the annuity on the date of death, if includible in the estate, will be considered the cost to the survivor.

### Rents and Royalties

If you are not engaged in the trade or business of selling real estate to customers and receive rent from property owned or controlled by you, or if you receive royalties from inventions, copyrights, mineral leases, and similar rights, you must report in Schedule F on page 2 of Form 1040 the total amount received. If crops or other property, instead of cash, were received as rent, their fair market value should be reported. Crops received as rent under a crop-sharing arrangement should be reported as income in the year of disposal.

You are entitled to various deductions which are indicated in the schedule. In the case of buildings you can deduct depreciation, as explained on this page. You can also deduct depreciation on a patent or copyright. In the case of mineral, oil, gas, or timber properties, you can deduct a special allowance called "depletion." For details of depletion allowance, see sections 23 (m) and 114 of the Internal Revenue Code.

You can also deduct all ordinary and necessary expenses on the property such as taxes, interest, repairs, insurance, agent's commissions, maintenance, and similar items. However, you cannot deduct any capital investments or improvements. For example, if you are a landlord, you can deduct the cost of minor repairs but not the cost of major improvements such as a new roof or remodeling.

Expenses, depreciation, and depletion should be listed in total in the columns provided in Schedule F.

**If You Rent Part of Your House, Etc.**—If you rent out only part of your property, you deduct only a similar portion of the expenses. For example, if you rent out one-half of your home, and live in the other half yourself, you can deduct only one-half of the depreciation and other expenses.

Room rent and other space rentals should be reported as business income in separate Schedule C if services are rendered to the occupant.

If you are engaged in the trade or business of selling real estate to customers, you should also report rentals received in separate Schedule C.

### Estates and Trusts

If you receive or are entitled to receive income from an estate or trust, you must report in your personal tax return any of its income which you have received or are entitled to receive. The administrator, executor, or trustee should advise you what to report.

Include in Schedule G of your return your share of the distributable income (whether actually received by you or not) of an estate or trust whose taxable year ends within the year covered by your return. In computing the amount of the net income of the estate or trust for this purpose, do not include:

(a) Interest on obligations of the United States or its instrumentalities which is exempt from normal tax (see Interest). Your share of this interest should be reported in Schedule B, page 2, of your return.

(b) Income taxes paid to a foreign government and in-

come taxes paid at the source on tax-free covenant bond interest. If you itemize your deductions on Long-Form 1040, your share of these items should be entered on page 3.

### Other Income

If you cannot find any specific place on your tax return to list some type of income, you should put it in Schedule G, page 2. For example, this is the proper place to report amounts received as alimony or separate maintenance under a court decree; rewards or prizes; recoveries of bad debts, taxes, losses, etc., which reduced your tax in a prior year, and health and accident insurance benefit payments received by you as reimbursements for medical expenses which reduced your tax in a prior year.

### How To Figure Depreciation

As already indicated, in figuring your profit from rents, royalties, businesses and professions, the law does not allow you to deduct the full cost of your capital investments or improvements in the year made. In the case of capital investments and improvements in depreciable property, such as buildings, machines, fixtures, and similar items having a useful life of more than one year, the law provides an annual depreciation allowance as the method of recovering the original capital cost tax-free. This means that you can spread the cost over as many years as it is expected to be useful. These rules apply to a profession the same as to a business. For instance, a lawyer can deduct the cost of his law books and a doctor can deduct the cost of his instruments only through the depreciation allowance.

**What Is "Useful Life"?**—The useful life of a building, machine, or similar property depends on how soon it will become obsolete, on the quality of materials and construction, climate, hard usage, and other factors. Past engineering experience provide reasonable estimates for figuring depreciation. Comprehensive tables of "average useful lives" of various kinds of buildings, machines, and equipment in many industries and businesses have been published in an official booklet called Bulletin F which you can buy for 30 cents from the Superintendent of Documents, Government Printing Office, Washington, D. C. The bases of the depreciation allowance are explained in section 114 of the Internal Revenue Code.

**Figuring the Deduction.**—Once you make a reasonable estimate of the useful life of your property, you may divide its cost less salvage value, if any, by the number of years of such useful life, and that is the amount you can deduct during each of these years. For example, suppose you own a house which has an estimated useful life of 40 years. If you rent the house to someone else, you can deduct from your rental income  $2\frac{1}{2}$  percent of its cost (excluding the land cost) each year for 40 years.

### Cash or Accrual Accounting

Your return must be on the "cash basis" unless you keep accounts on the "accrual basis." "Cash basis" means that all items of taxable income actually or constructively received during the year (whether in cash or property or services) and only those amounts actually paid during the year for deductible expenses are shown. Income is "constructively" received when the amount is credited to your account, or set aside for you, and may be drawn upon by you at any time. Thus, constructive receipts include uncashed salary or dividend checks, bank interest credited to your account, matured bond coupons, and similar items which you can immediately turn into cash. The "accrual basis" means that you report income when earned, even though not received, and deductible expenses when incurred, even though not paid within the taxable period.

## Information Reports

Every person who made payments of salary, wages, commissions, interest, rents, alimony, or other fixed or determinable income of \$600 or more during the calendar year 1952 to an individual, partnership, or fiduciary, must make a return on Forms 1096 and 1099. If a portion of such salary or wage payments was reported on a Withholding Statement (Form W-2), only the remainder must be reported on Form 1099.

## Declarations of Estimated Tax

Because the withholding tax on wages is not sufficient to keep many taxpayers—particularly business owners, professional persons, investors, and landlords—paid up on their income tax, the law requires them to file Declarations of Estimated Tax and to make quarterly payments in advance

of the annual income tax return. Such persons, therefore, must not only file their 1952 income tax returns, but also declarations for 1953 on Form 1040-ES by March 15. Specifically, the declaration is required of anyone who expects to receive (a) 1953 wages exceeding \$4,500 plus \$600 multiplied by the number of his exemptions (for example, \$5,100 for a single person with no dependents, or \$5,700 for a married man, with no dependents, whose wife has no income); or (b) 1953 income of more than \$100 from all sources other than wages subject to withholding, provided his total income is expected to be \$600 or more.

Farmers who are required to file declarations may postpone filing until next January 15; furthermore, if they file their final return and pay the tax due by January 31, they may omit the declaration.

The Director will mail Form 1040-ES to persons who filed taxable declarations last year. Others needing this form may obtain it upon request.

# HOW TO CLAIM NONBUSINESS DEDUCTIONS

## Contributions

If you itemize deductions on a Long-Form 1040, you can deduct gifts to religious, charitable, educational, scientific, or literary organizations, and organizations for the prevention of cruelty to children and animals, except when the organization is operated for personal profit, or to conduct propaganda or otherwise attempt to influence legislation. You can deduct gifts to fraternal organizations if they are to be used for charitable, religious, etc., purposes. You can also deduct gifts to veterans' organizations, or to a governmental agency which will use the gifts for public purposes. A contribution may be made in money or property (not services), but if in property, then the amount of the contribution is measured by the fair market value of the property at the time of the contribution.

However, deductions for contributions may not exceed 20 percent of your adjusted gross income (item 4, page 1).

The law does not allow deductions for gifts to individuals, or to other types of organizations, however worthy.

While you can deduct gifts to the kind of organizations listed above, you cannot deduct dues or other payments to them for which you receive personal benefits. For example, you can deduct gifts to a YMCA but not dues.

Some examples of the treatment of contributions are:

### You CAN Deduct Gifts To:

Churches, including assessments	Boy Scouts, Girl Scouts
Red Cross, Salvation Army	Tuberculosis societies (Christmas seals)
American Legion, VFW, DAV	American Cancer Society
Nonprofit schools and hospitals	Community chests

### You CANNOT Deduct Gifts to:

Relatives, friends, other individuals	Social clubs
Propaganda organizations	Labor unions
Political organizations or candidates	Chambers of commerce

## Interest

If you itemize deductions on a Long-Form 1040, you can deduct interest you paid on your personal debts, such as bank loans or home mortgages. Interest paid on business debts should be reported in separate Schedule C or Schedule F, page 2, of Form 1040. Do not deduct interest paid on money borrowed to buy tax-exempt securities, single-premium life insurance or endowment contracts, or interest paid on behalf of another person unless you were legally

liable to pay it. In figuring the interest paid on a mortgage or an installment contract, be careful to distinguish between the amount specifically charged as interest and other items such as carrying charges, taxes, or insurance. Following are examples of the treatment of interest paid:

### You CAN Deduct Interest On:

Your personal note to a bank or an individual	Delinquent taxes
A mortgage on your house	Installment contract if interest is specifically charged
A life insurance loan, if you pay the interest in cash	

### You CANNOT Deduct Interest On:

Indebtedness of another person, when you are not legally liable for payment of the interest	A life insurance loan, if interest is added to the loan and you report on the cash basis
A gambling debt or other non-enforceable obligation	

## Taxes

If you itemize deductions on a Long-Form 1040, you can deduct most non-Federal taxes paid by you. You can deduct State income taxes, personal property taxes, and real estate taxes (except those assessed for pavements or other local improvements which tend to increase the value of your property). You can deduct State or local retail sales taxes if under the laws of your State they are imposed directly upon the consumer, or if they are imposed on the retailer (or wholesaler in case of gasoline taxes) and the amount of the tax is separately stated by the retailer to the consumer.

Do not deduct on page 3 any nonbusiness Federal taxes, or any taxes paid in connection with a business or profession which are deductible in separate Schedule C or Schedule F, page 2, of Form 1040. Following are examples of the treatment of some common taxes:

### You CAN Deduct:

Personal property taxes	Auto license fees
Real estate taxes	State capitation or poll taxes
State income taxes	State gasoline taxes
State or local retail sales taxes	

### You CANNOT Deduct:

Any Federal excise taxes on your personal expenditures, such as taxes on theater admissions, furs, jewelry, cosmetics, railroad tickets, telephone, etc.	Hunting licenses, dog licenses
Federal social security taxes	Auto inspection fees
	Water taxes
	Taxes paid by you for another person

## Casualty Losses and Thefts

If you itemize deductions on a Long-Form 1040, you can deduct your net loss from the destruction of your property in a fire, storm, automobile accident, shipwreck, or other losses caused by natural forces. Damage to your car by collision or accident can be deducted if due merely to faulty driving but cannot be deducted if due to a willful act or negligence for which you are responsible. You can also deduct losses due to theft, but not losses due to mislaying or losing articles.

You should determine the amount of any casualty loss by comparing the fair market value of the property just before and just after the casualty. This loss, or the original cost of the property less depreciation, whichever is lower, should then be reduced by any insurance or other reimbursement to arrive at your deductible loss. Attach a statement explaining your computation.

If your 1952 casualty losses exceed your 1952 income, the excess may be carried back as a "net operating loss" to offset your income for 1951, and any remaining excess may be carried over to the years 1953-1957, inclusive.

Following are examples of the treatment of losses arising from some causes:

### You CAN Deduct Losses On:

Property such as your home, clothing, or automobile destroyed or damaged by fire	Property, including cash, which is stolen from you
Loss or damage of property by flood, lightning, storm, explosion, or freezing	Damage to your auto by accident, if not due to your willful negligence

### You CANNOT Deduct Losses On:

Personal injury to yourself or another person	Damage by insects, rust, or gradual erosion
Accidental loss by you of cash or other personal property	Animals or plants damaged or destroyed by disease
Property lost in storage or in transit	

## Medical and Dental Expenses

If you itemize deductions on a Long-Form 1040 you can deduct, within the limits described below, the net amount you paid for medical or dental expenses for yourself, your wife, or any dependent who received over one-half of his support from you. If you pay medical expenses for one of your children who gets over half of his support from you, you can deduct the payments even though the child earned \$600 or more and therefore you cannot claim an exemption for him in item 1, page 1, of your return.

You can deduct payments to doctors, dentists, nurses, hospitals, etc., provided the payments are for the prevention, cure, correction, or alleviation of a bodily condition. If you pay someone to perform both nursing and domestic duties, you can deduct only that part of the cost which is for nursing.

You can deduct the cost of eyeglasses, artificial teeth, crutches, braces, hearing aids, X-rays, ambulance service, medicine, and similar items.

You can deduct the cost of necessary travel in connection with medical treatment, but you cannot deduct any other travel even if it benefits your health.

**Limitations.**—The law allows you to deduct only those medical and dental expenses which exceed 5 percent of your adjusted gross income (item 4, page 1). (If either you or your wife were 65 or over, you may claim the entire amount of your medical expenses for you and your wife, plus that portion of your medical expenses for dependents which

exceeds 5 percent of your adjusted gross income.) Your deduction must be reduced by any insurance, compensation, or other reimbursement you receive for these expenses. Furthermore, the law limits the deduction to a maximum of (a) \$1,250 if you claim only one exemption (item 1, page 1); (b) if you are a single person or a married person filing a separate return and claim more than one exemption, \$2,500; (c) if you are a married couple filing a joint return, \$2,500 if two exemptions are claimed, \$3,750 if three exemptions are claimed, and \$5,000 if four or more exemptions are claimed. (Do not count exemptions for age or blindness.)

### You CAN Deduct Cost Of:

Payments to doctors, dentists, nurses, and hospitals	Eyeglasses and artificial teeth
Drugs, medical or surgical appliances, braces, etc.	X-ray examinations or treatment
Travel necessary to get medical care	Premiums on health and accident insurance, and hospital or medical insurance

### You CANNOT Deduct Cost Of:

Funeral expenses	Travel ordered or suggested by your doctor for rest or change
Cemetery plot	Premiums on life insurance
Illegal operations or drugs	

## Miscellaneous

If you itemize deductions on a Long-Form 1040, you can deduct several other types of expenses under the heading "miscellaneous."

If you work for wages or a salary, you can deduct the ordinary and necessary expenses which you incur for your employer's benefit. For example, if your job requires you to furnish small tools, you can deduct their cost. Do not deduct on page 3 expenses for travel, meals, and lodging away from home, or reimbursed expenses, which should be deducted in item 2, page 1, Form 1040. You cannot deduct any expenses which are for your own convenience or benefit.

If you have investments (such as income-producing securities or real estate) which are not part of your business or profession, you can deduct the cost of protecting, or managing your investments. For example, you can deduct the rental cost of a safety-deposit box in which you keep securities, but not the cost of a box used merely for jewelry, insurance policies, and other valuables.

If you are divorced or legally separated and are making periodic payments of alimony or separate maintenance under a court decree, you can deduct these amounts. However, you cannot deduct lump-sum settlements, or any voluntary payments not under a court order.

You may not deduct gambling losses in excess of gambling winnings.

If you have bought bonds for more than their face value, you can deduct an amortized portion of the premium. See section 125 of the Internal Revenue Code for details.

If you are a tenant-stockholder in a cooperative apartment corporation, you can deduct your share of its payments for interest and real-estate taxes.

Examples of the treatment of expenses in connection with your job are:

### You CAN Deduct Cost Of:

Safety equipment	Entertaining customers
Dues to union or professional societies	Tools and supplies
	Fees to employment agencies

### You CANNOT Deduct Cost Of:

Travel to and from work	Nursemaid, even if she enables parent to work
Entertaining friends	Educational expenses
Bribes and illegal payments	

# HOW TO FIGURE YOUR TAX

## Using the Tax Table

To save arithmetic for the average taxpayer, the law provides a table which shows the correct tax for any income up to \$5,000. If you file Form 1040A, the Director uses this table to determine your tax for you. If you file a Short-Form 1040 you will find the table on the back of the form (page 4), and determine your tax yourself. The table is based on the same rates used in a Long-Form 1040 computation. The table makes allowance for your exemptions, for any split-income benefits due married couples filing joint returns, for benefits due heads of household, and also for an allowance of about 10 percent of your income for nonbusiness deductions on account of contributions, interest, taxes, medical expenses, etc. If your actual deductions are larger than 10 percent of your income, you have the right to file a Long-Form 1040 and claim them.

To find your tax in the table, read down the shaded columns until you find the line that covers your income. For example, if your income was \$3,275, you should use

the line which is for incomes of at least \$3,250 but less than \$3,300. When you find the proper income line, read across to the column which is headed by a number which equals the number of your exemptions. Remember, you listed your exemptions in item 1, page 1, of Form 1040. Using the same example, suppose you had 4 exemptions. Reading across the \$3,250-\$3,300 income line to column No. 4, you find the tax is \$122.

## Making a Long-Form Computation

To make a long-form computation of tax on page 3 of Form 1040—

1. Start with your adjusted gross income.
2. Subtract your itemized nonbusiness deductions or the standard deduction.
3. Subtract your exemptions (\$600 each).
4. If the remainder is \$2,000 or less, compute your tax on line 6; otherwise, use the tax rate schedule below to compute your tax on line 7 or 8.

## 1952 Tax Rate Schedule

Use this schedule to compute your tax to be entered on either line 7 or line 8 (b), page 3, of the return:

### I. FOR ALL TAXPAYERS EXCEPT HEAD OF HOUSEHOLD

If the amount in line 5 or 8 (a) is: Enter in line 7 or 8 (b):

Not over \$2,000	22.2% of the amount on line 5 or 8 (a)
Over \$2,000 but not over \$4,000	\$444, plus 24.6% of excess over \$2,000
Over \$4,000 but not over \$6,000	\$936, plus 29% of excess over \$4,000
Over \$6,000 but not over \$8,000	\$1,516, plus 34% of excess over \$6,000
Over \$8,000 but not over \$10,000	\$2,196, plus 38% of excess over \$8,000
Over \$10,000 but not over \$12,000	\$2,956, plus 42% of excess over \$10,000
Over \$12,000 but not over \$14,000	\$3,796, plus 48% of excess over \$12,000
Over \$14,000 but not over \$16,000	\$4,756, plus 53% of excess over \$14,000
Over \$16,000 but not over \$18,000	\$5,816, plus 56% of excess over \$16,000
Over \$18,000 but not over \$20,000	\$6,936, plus 59% of excess over \$18,000
Over \$20,000 but not over \$22,000	\$8,116, plus 62% of excess over \$20,000
Over \$22,000 but not over \$26,000	\$9,356, plus 66% of excess over \$22,000
Over \$26,000 but not over \$32,000	\$11,996, plus 67% of excess over \$26,000
Over \$32,000 but not over \$38,000	\$16,016, plus 68% of excess over \$32,000
Over \$38,000 but not over \$44,000	\$20,096, plus 72% of excess over \$38,000
Over \$44,000 but not over \$50,000	\$24,416, plus 75% of excess over \$44,000
Over \$50,000 but not over \$60,000	\$28,916, plus 77% of excess over \$50,000
Over \$60,000 but not over \$70,000	\$36,616, plus 80% of excess over \$60,000
Over \$70,000 but not over \$80,000	\$44,616, plus 83% of excess over \$70,000
Over \$80,000 but not over \$90,000	\$52,916, plus 85% of excess over \$80,000
Over \$90,000 but not over \$100,000	\$61,416, plus 88% of excess over \$90,000
Over \$100,000 but not over \$150,000	\$70,216, plus 90% of excess over \$100,000
Over \$150,000 but not over \$200,000	\$115,216, plus 91% of excess over \$150,000
Over \$200,000	\$160,716, plus 92% of excess over \$200,000

### II. FOR HEAD OF HOUSEHOLD ONLY

If the amount in line 5 is:

Enter in line 7:

Not over \$2,000	22.2% of the amount on line 5
Over \$2,000 but not over \$4,000	\$444, plus 23.4% of excess over \$2,000
Over \$4,000 but not over \$6,000	\$912, plus 27% of excess over \$4,000
Over \$6,000 but not over \$8,000	\$1,452, plus 29% of excess over \$6,000
Over \$8,000 but not over \$10,000	\$2,032, plus 34% of excess over \$8,000
Over \$10,000 but not over \$12,000	\$2,712, plus 35% of excess over \$10,000
Over \$12,000 but not over \$14,000	\$3,412, plus 41% of excess over \$12,000
Over \$14,000 but not over \$16,000	\$4,232, plus 44% of excess over \$14,000
Over \$16,000 but not over \$18,000	\$5,112, plus 47% of excess over \$16,000
Over \$18,000 but not over \$20,000	\$6,052, plus 48% of excess over \$18,000
Over \$20,000 but not over \$22,000	\$7,012, plus 52% of excess over \$20,000
Over \$22,000 but not over \$24,000	\$8,052, plus 54% of excess over \$22,000
Over \$24,000 but not over \$28,000	\$9,132, plus 57% of excess over \$24,000
Over \$28,000 but not over \$32,000	\$11,412, plus 60% of excess over \$28,000
Over \$32,000 but not over \$38,000	\$13,812, plus 63% of excess over \$32,000
Over \$38,000 but not over \$44,000	\$17,592, plus 66% of excess over \$38,000
Over \$44,000 but not over \$50,000	\$21,552, plus 71% of excess over \$44,000
Over \$50,000 but not over \$60,000	\$25,812, plus 72% of excess over \$50,000
Over \$60,000 but not over \$70,000	\$33,012, plus 73% of excess over \$60,000
Over \$70,000 but not over \$80,000	\$40,312, plus 77% of excess over \$70,000
Over \$80,000 but not over \$90,000	\$48,012, plus 79% of excess over \$80,000
Over \$90,000 but not over \$100,000	\$55,912, plus 81% of excess over \$90,000
Over \$100,000 but not over \$150,000	\$64,012, plus 85% of excess over \$100,000
Over \$150,000 but not over \$200,000	\$106,512, plus 88% of excess over \$150,000
Over \$200,000 but not over \$300,000	\$150,512, plus 91% of excess over \$200,000
Over \$300,000	\$241,512, plus 92% of excess over \$300,000

**Adjustment for Partially Tax-Exempt Interest.**—If you itemize your deductions, the tax to be entered on line 6, 7, or 8 (c), page 3, should be reduced by 3% of any partially tax-exempt interest included in line 3, or 3% of line 5, whichever amount is the lesser. If you so reduce your tax, attach a statement. Items to be considered in the adjustment on either line 6, 7, or 8 (c) are (a) interest on the excess over \$5,000 of United States Savings bonds (at cost) and Treasury bonds (at face value) issued prior to March 1, 1941; (b) interest on obligations of instrumentalities of the United States issued prior to March 1, 1941 (other than Federal land banks, Federal intermediate credit banks, and joint-stock land banks); and (c) dividends on share accounts in Federal savings and loan associations if the shares were issued prior to March 28, 1942.

## Your Tax Due or Refund

**Credit for Withholding Tax.**—To assure credit for any tax withheld from your wages, itemize the taxes withheld as item 2, page 1, and report the total amount as item 6 (A), and be sure to attach all Original Withholding Statements (Form W-2) received from your employers for the year. If you have lost any Withholding Statements, ask your employer for a copy. If you cannot, for any reason, furnish

Withholding Statements for all taxes withheld from you, attach an explanation.

**Credit for F. I. C. A. Tax.**—If more than \$54 of F. I. C. A. employee tax was withheld during 1952 because you worked for more than one employer, the excess may be claimed as a credit against income tax. Enter any excess of F. I. C. A. tax withheld over \$54 in the "Income Tax Withheld" column of item 2, page 1, and write "F. I. C. A. tax" in the "Where Employed" column. Compute the credit separately for husband and wife, if this is a joint return.

**Credit for Estimated Tax Payments.**—If you paid any estimated tax on a Declaration of Estimated Tax (Form 1040-ES) for 1952, report the total of such payments as item 6 (B) on page 1. If on your 1951 return you had an overpayment which you chose to apply on your 1952 tax include this in item 6 (B).

**Balance of Tax or Refund.**—After figuring your tax either from the tax table or from the long-form computation, enter the amount as item 5 (A), page 1. Enter as item 5 (B) the amount of your self-employment tax shown on line 35, separate Schedule C. Show as item 7 any balance you owe, or as item 8 the amount of any overpayment due you after taking credit for the amounts entered as item 6. If you have overpaid, you can choose, by showing below item 8, the amount you wish to receive as a refund, or the amount of overpayment you wish credited to your 1953 estimated tax.

SCHEDULE C (Form 1040)  
U. S. Treasury Department  
Internal Revenue Service

# PROFIT (OR LOSS) FROM BUSINESS OR PROFESSION

# 1952

(For Computation of Self-Employment Tax, see Page 3)

For Calendar Year 1952 or taxable year beginning \_\_\_\_\_, 1952, and ending \_\_\_\_\_, 195

Name and Address (from Form 1040) \_\_\_\_\_

(Partnerships and joint ventures should file on Form 1065)

(I) Principal business activity (see instructions) \_\_\_\_\_  
(Retail trade, wholesale trade, lawyer, etc.) (Principal product or service)  
(II) Business name \_\_\_\_\_ (III) FICA employer identification number, \_\_\_\_\_  
if any (see instructions) \_\_\_\_\_  
(IV) Business address (see instructions) \_\_\_\_\_  
(Street and number or rural route) (City, town, post office) (County) (State)

(V) Were you the sole proprietor of this business in 1951? Yes ☐ No ☐. If "No," check whether this business in 1952 became a successor to a corporation ☐, a partnership ☐, another sole proprietorship ☐, or started as an entirely new business ☐. Where applicable, give name of such predecessor \_\_\_\_\_

**Do NOT include cost of goods withdrawn for personal use or deductions not connected with your business or profession**

1. Total receipts from business or profession. . . . . \$ \_\_\_\_\_

**COST OF GOODS SOLD**

2. Inventory at beginning of year. . . . . \$ \_\_\_\_\_

3. Merchandise bought for manufacture or sale. . . . . \_\_\_\_\_

4. Cost of labor. . . . . \_\_\_\_\_

5. Material and supplies. . . . . \_\_\_\_\_

6. Other costs (explain in Schedule C-2). . . . . \_\_\_\_\_

7. Total of lines 2 to 6. . . . . \$ \_\_\_\_\_

8. Less inventory at end of year. . . . . \_\_\_\_\_

9. Net cost of goods sold (line 7 less line 8). . . . . \_\_\_\_\_

## Schedule C-2. EXPLANATION OF LINES 6, 18, AND 21

Line or Column No.	Explanation	Amount	Line or Column No.	Explanation	Amount
		\$ _____			\$ _____

## INSTRUCTIONS

Page 2

If you owned a business, or practiced a profession, you should fill in separate Schedule C on other side and enter the net profit (or loss) on line 1, Schedule C Summary, page 2, Form 1040.

Separate Schedule C should include income from (1) sale of merchandise, or products of manufacturing, mining, and construction; (2) business service; and (3) professional service. In general, you should report any income in the earning of which you have incurred expenses for material, labor, supplies, and the like. A farmer keeping his books of account on the accrual basis may include the income in such schedule from the sale of products of agriculture in lieu of including such income in Form 1040F.

**Principal Business Activity.**—The principal business activity is the one which accounts for the largest percentage of your total receipts. State the general classification of such activity, as well as the principal product or service. For example, "Wholesale food," "Retail apparel," "Manufacturing furniture," "Transportation by truck," "Real estate agent," "Doctor," etc.

**Employer Identification Number.**—This is the number given on line 10, Form 941, Employer's Quarterly Tax Return under Federal Insurance Contributions Act (F. I. C. A.), which you file as an employer.

**Business Address.**—Do not use home address as business address unless business is actually conducted from home.

**Total Receipts.**—You should include all income derived from your trade or business. In determining the amount to be entered as total receipts, you should subtract from your total income such items as cost of returned goods, rebates, and allowances from the sale price or service charge.

**Cost of Goods Sold.**—If you are engaged in a trade or business in which the production, purchase, or sale of merchandise is an income-producing factor, you should, in order to reflect the gross profits correctly, take an inventory of merchandise on hand at the beginning and end of the taxable year. Generally, the bases of valuation most commonly used by business concerns and which meet the requirements of the applicable law and regulations are (a) cost and (b) cost or market, whichever is lower. The basis properly adopted for the first year is controlling, and a change can be made only after permission is secured from the Commissioner. Application for permission to change the basis of valuing inventories must be made in writing and filed with the Commissioner within 90 days after the beginning of the taxable year in which it is desired to effect a change. You should enter the letters "C" or "C or M" immediately before the amount column, if inventories are valued at either cost, or cost or market, whichever is lower.

Other bases of valuing or methods of inventorying material or merchandise are provided in the cases of dealers in securities, farmers, miners, and manufacturers who by a single process produce more than one product, and retail merchants using the "retail method."

Another special method based on cost is the elective method which is allowable only if you file an application on Form 970 with your return for the first year of election. The requirements with respect to the adoption and use of the elective inventory method are set forth on such form. Thereafter, you should attach a separate schedule showing: (a) A summary of all inventories; (b) with respect to inventories computed under the elective method, if any, the computation of quantities and cost by acquisition levels.

**Installment Sales.**—If you use the installment method of reporting income from sales, you should attach to your return a schedule showing separately for the years 1949, 1950, 1951, and 1952 the following: (a) Gross sales; (b) cost of goods sold; (c) gross profits; (d) percentage of profits to gross sales; (e) amounts collected; and (f) gross profits on amount collected.

**Salaries and Wages.**—You should enter all salaries and wages not included as "Cost of Labor" under "Cost of Goods Sold." Do not deduct any salary or wages for your own services or services of others not performed in connection with your business.

**Rent on Business Property.**—Rents paid or accrued on business property in which you have no equity are deductible. Do not include rent for a building, or any part, which you occupy solely for residential purposes.

**Interest on Business Indebtedness.**—Interest on business indebtedness to others is deductible. Do not include interest to yourself on capital invested in or advanced to the business.

**Taxes on Business and Business Property.**—Include taxes paid or accrued on business property or incurred for carrying on your business. Federal import duties and Federal excise and stamp taxes

are deductible if paid or incurred in carrying on a trade or business. Do not include taxes assessed against local benefits of a kind tending to increase the value of the property assessed, as for paving, sewers, etc.

**Losses of Business Property.**—You may deduct losses of business property by fire, storm, or other casualty, or theft, not compensated by insurance or otherwise and not made good by repairs claimed as a deduction. Attach a statement showing a description of the property, date acquired, cost, subsequent improvements, depreciation allowable since acquisition, insurance, salvage value, and deductible loss.

**Bad Debts Arising From Sales or Services.**—Include debts, or portions thereof, arising from sales or professional services that have been reflected in income, which have been definitely ascertained to be worthless, or such reasonable amount as has been added to a reserve for bad debts within the taxable year. A debt previously deducted as bad which reduced your tax in a prior year, if subsequently collected, must be returned as income for the year in which collected.

**Depreciation and Obsolescence.**—You may deduct a reasonable allowance for exhaustion, wear and tear, and obsolescence of property used in the trade or business. If the property was acquired by purchase on or after March 1, 1913, the amount of depreciation should be determined upon the basis of the original cost (not replacement cost) of the property, and the probable number of years remaining of its expected useful life. In case the property was purchased prior to March 1, 1913, the amount of depreciation will be determined in the same manner, except that it will be computed on its original cost, less depreciation sustained prior to March 1, 1913, or its fair market value as of that date, whichever is greater. The capital sum to be recovered should be charged off ratably over the useful life of the property.

If a deduction is claimed on account of depreciation you should fill in Schedule C-1. In case obsolescence is included, state separately amount claimed and basis upon which it is computed. Land values or cost must not be included in this schedule, and where land and buildings were purchased for a lump sum, the cost of the building subject to depreciation must be established. The adjusted property accounts and the accumulated depreciation shown in the schedule should be reconciled with those accounts as reflected on your books.

**Repairs.**—You may deduct the cost of incidental repairs, including labor, supplies, and other items, which do not add to the value or appreciably prolong the life of the property. Expenditures for new buildings, machinery, equipment, or for permanent improvements or betterments which increase the value of the property are chargeable to capital accounts. Expenditures for restoring or replacing property are not deductible, since such expenditures are chargeable to capital accounts or to depreciation reserve depending on how depreciation is charged on your books.

**Depletion of Mines, Oil and Gas Wells, Timber, Etc.**—If a deduction is claimed on account of depletion, you should procure from the director Form M (mines and other natural deposits), Form O (oil and gas), or Form T (timber), fill in and file with return. If complete valuation data have been filed with questionnaire in previous years, then file with your return information necessary to bring depletion schedule up to date, setting forth, in full, statement of all transactions bearing on deductions from or additions to value of physical assets during the taxable year with explanation of how depletion deduction for the taxable year has been determined.

**Amortization.**—You are entitled, at your election, to a deduction with respect to the amortization of the adjusted basis of any emergency facility the construction, reconstruction, erection, or installation of which was completed after December 31, 1949, or the acquisition of which occurred after December 31, 1949, and with respect to which the Government has issued a certificate of necessity. A statement of the pertinent facts should be filed with the taxpayer's election to take amortization deduction with respect to such facility. (See section 124A of the Internal Revenue Code and the regulations issued thereunder.)

**Other Business Deductions.**—You should include all ordinary and necessary business expenses for which no space is provided in the schedule. Any deduction claimed should be explained in Schedule C-2. Do not include cost of business equipment or furniture, expenditures for replacements, or for permanent improvements to property, nor personal living and family expenses.

**Net Operating Loss Deduction.**—Any net operating loss deduction should be entered in Schedule C Summary, Form 1040, instead of in this schedule.

**COMPUTATION OF SELF-EMPLOYMENT TAX**

## PURPOSE OF THIS FORM

**Schedule C (Form 1040).**—Schedule C serves two purposes. First, it provides for the determination of net profit (or loss) from business or profession to be used in computing income tax. Second, it provides for the computation of the self-employment tax in accordance with Subchapter E, Chapter 1 of the Internal Revenue Code, as added by the Social Security Act Amendments of 1950.

**Schedule C-a (Form 1040).**—The lower portion of page 3, Schedule C, which is designated as Schedule C-a (Form 1040), is designed to provide the Social Security Administration with the information on self-employment income necessary for old-age and survivors insurance purposes.

## INSTRUCTIONS

### SELF-EMPLOYMENT TAX

In general, every individual deriving income during the taxable year from a trade or business carried on by him or from a partnership of which he is a member is subject to the self-employment tax, the computation of which is made on lines 24 through 35.

"Net earnings from self-employment" (line 30) is the gross income derived by an individual from any trade or business carried on by him, less the allowable deductions attributable to such trade or business, plus his share of self-employment net earnings (or loss) from a partnership of which he is a member.

### EXCLUSIONS

In determining the amount of net earnings from self-employment report on line 27 income from the following sources or deductions attributable thereto:

1. **Certain professions.**—Income from the performance of service as a physician, lawyer, dentist, osteopath, veterinarian, chiropractor, naturopath, optometrist, Christian Science practitioner, architect, certified public accountant, accountant registered or licensed as an accountant under State or municipal law, full-time practicing public accountant, funeral director, or professional engineer; or income from the performance of such service by a partnership;

2. **Religious services.**—Income from the performance of service by a duly ordained, commissioned, or licensed minister of a church in the exercise of his ministry or by a member of a religious order in the exercise of duties required by such order;

3. **Farming.**—Income from farming or from any other business in which, if the business were carried on exclusively by employees, the major portion of the services would constitute agricultural labor;

4. **Employees and public officials.**—Income from the performance of service as:

- (a) a public official, including a notary public;
- (b) an employee or employee representative under the railroad retirement system; or
- (c) an employee. "Employee" includes among others:
  - (1) an agent-driver or commission driver engaged in distributing meat, vegetable, fruit, and bakery products, beverages (other than milk), or laundry or dry-cleaning services;
  - (2) a full-time life insurance salesman;
  - (3) a home worker performing work subject to licensing requirements under State law; and
  - (4) traveling or city salesmen generally, engaged upon a full-time basis for their principals (except for sideline sales activities on behalf of another person).

**NOTE.**—The income of an employee over the age of 18 from the sale of newspapers or magazines to an ultimate consumer is subject to the self-employment tax if the income consists of retained profits from such sales.

5. **Real estate rentals.**—Rentals from real estate, except rentals received in the course of a trade or business as a real estate dealer. Payments for the use or occupancy of rooms or other space where services are also rendered to the occupant, such as rooms in hotels, boarding houses, apartment houses furnishing hotel services, tourist camps, tourist homes, or space in parking lots, warehouses, or storage garages do not constitute rentals from real estate and therefore are included in determining net earnings from self-employment;

6. **Interest and dividends.**—Dividends on shares of stock, and interest on bonds, debentures, notes, certificates, or other evidences of indebtedness, issued with interest coupons or in registered form

by a corporation, or by a government or political subdivision thereof, unless received in the course of a trade or business as a dealer in stocks or securities; and

7. **Property gains and losses.**—Gain or loss (A) from the sale or exchange of a capital asset, (B) to which section 117(j) is applicable, or (C) from the sale, exchange, involuntary conversion, or other disposition of property if such property is neither (a) stock in trade or other property of a kind which would properly be includible in inventory if on hand at the close of the taxable year, nor (b) property held primarily for sale to customers in the ordinary course of the trade or business.

**Net operating losses.**—In determining the net earnings from self-employment, no deduction for net operating losses of other years shall be allowed.

### MORE THAN ONE TRADE OR BUSINESS

If an individual is engaged in more than one trade or business, his net earnings from self-employment are the aggregate of his net earnings from self-employment of each trade or business carried on by him. Thus, the loss sustained in one trade or business will operate to reduce the income derived from another trade or business.

### JOINT RETURNS

Where husband and wife file a joint return, page 3 of Schedule C (Form 1040) should show the name of the one with self-employment income. Where husband and wife each have self-employment income, a separate Schedule C must be attached for each. In such cases the total of amounts shown on line 23 of each separate schedule should be entered on line 1, Schedule C Summary, page 2, Form 1040, and the aggregate self-employment tax (line 35) should be entered as item 5(B), page 1, Form 1040.

### COMMUNITY INCOME

For the purpose of computing net earnings from self-employment, if any of the income from a trade or business is community income, all the income from such trade or business is considered the income of the husband unless the wife exercises substantially all the management and control of the trade or business, in which case all of such income is considered the income of the wife.

If separate returns are filed by the husband and wife, a complete Schedule C should be attached to the return of the one with self-employment income. Community income included on such a schedule must, however, be allocated between the two returns (on line 1, Schedule C Summary, page 2, Form 1040) on the basis of the community property laws.

In computing his aggregate net earnings from self-employment, a partner should include his entire share of such earnings from a partnership. No part of that share may be attributed to the partner's wife (or husband) even though the income may, under State law, be community income.

### SCHEDULE C-a (Form 1040)

To assure proper credit to your account, be sure to enter your name and social security account number on Schedule C-a (Form 1040) exactly as they are shown on your social security card. If you do not have a social security account number, you must get one in time to enable you to file your return on or before the due date. These account numbers are obtainable from any of the approximately 500 Social Security Administration Field Offices throughout the country. The telephone directory or your local post office will give you the address. Do not delay filing your return beyond the due date even though you have not obtained your social security account number.

Regardless of whether a joint or separate returns on Form 1040 are filed by husband and wife, Schedule C-a (Form 1040) should show only the name of the one with the self-employment income.

**INSTRUCTIONS—(References are to the Internal Revenue Code)**

**GAINS AND LOSSES FROM SALES OR EXCHANGES OF CAPITAL ASSETS AND OTHER PROPERTY.**—Report details in schedule on other side.

**"Capital assets" defined.**—The term "capital assets" means property held by the taxpayer (whether or not connected with his trade or business) but does NOT include—

- (a) stock in trade or other property of a kind properly includible in his inventory if on hand at the close of the taxable year;
- (b) property held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business;
- (c) property used in the trade or business of a character which is subject to the allowance for depreciation provided in section 23 (1);
- (d) real property used in the trade or business of the taxpayer;
- (e) certain government obligations issued at a discount and maturing within one year of issue;
- (f) certain copyrights or artistic compositions, etc.

If the total of the distribution to which an employee is entitled under an employees' pension, bonus, or profit-sharing trust plan meeting the requirements of section 165 (a) is received by the employee in one taxable year, on account of the employee's separation from the service, the aggregate amount of such distribution, to the extent it exceeds the amounts contributed by the employee, shall be treated as a long-term capital gain. If distribution is in securities of employer corporation, see section 165 (b).

A capital gain dividend, as defined in section 362 (relating to tax on regulated investment companies), shall be treated by the shareholder as a long-term capital gain.

Gain on sale of depreciable property between husband and wife or between a shareholder and a "controlled corporation" shall be treated as ordinary gain. See section 117 (o).

Section 117 (j), in effect, provides that gains and losses from transactions covered by that section shall be treated as gains and losses from the sale or exchange of capital assets held for more than six months if the aggregate of such gains exceeds the aggregate of such losses. If the aggregate of such gains does not exceed the aggregate of such losses, such gains and losses shall not be treated as gains and losses from the sale or exchange of capital assets. Thus, in the event of a net gain, all these transactions should be entered in the "long-term capital gains and losses" portion of Schedule D on the other side. In the event of a net loss, all these transactions should be entered in the "property other than capital assets" portion of Schedule D, or in other applicable schedules on Form 1040.

Section 117 (j) deals with gains and losses arising from—

- (a) sale, exchange, or involuntary conversion, of land (including in certain cases unharvested crops sold with the land) and depreciable property used in the trade or business and held for more than 6 months,
- (b) sale, exchange, or involuntary conversion of livestock held for draft, breeding, or dairy purposes (but not including poultry) and held for 1 year or more,
- (c) the cutting of timber or the disposal of timber or coal to which section 117 (k) applies, and
- (d) the involuntary conversion of capital assets held more than 6 months.

See sections 117 (j) and (k) for specific conditions applicable.

**Kind of property listed.**—State following facts: (a) For real estate (including owner-occupied residences), location and description of land and improvements; (b) for bonds or other evidences of indebtedness, name of issuing corporation, particular issue, denomination, and amount; and (c) for stocks, name of corporation, class of stock, number of shares, and capital changes affecting basis (including nontaxable distributions).

**Basis.**—In determining gain or loss in case of property acquired after February 28, 1913, use cost, except as otherwise provided in section 113. The basis of the property acquired by gift after December 31, 1920, is the cost or other basis to the donor in the event of gain, but, in the event of loss, it is the lower of either such donor's basis or market value of property on date of gift. The basis of property acquired by inheritance is the fair market value of the property at time of acquisition which generally is the date of death. In the case of sales and exchanges of automobiles and other such non-income-producing properties, the basis for determining gain is the original cost plus the cost of permanent improvements thereto. No losses are recognized for income tax purposes on the sale and exchange of such non-income-producing

properties. In determining GAIN in case of property acquired before March 1, 1913, use the cost or the fair market value as of March 1, 1913, adjusted as provided in section 113 (b), whichever is greater, but in determining LOSS use cost so adjusted.

**Sale of home, etc.**—See page 8 of Form 1040 instructions for special rules applicable to sale or exchange of your residence.

**Losses on securities becoming worthless.**—If (a) shares of stock become worthless during the year or (b) corporate securities with interest coupons or in registered form become worthless during the year, and are capital assets, the loss therefrom shall be considered as from the sale or exchange of capital assets as of the last day of such taxable year.

**Nonbusiness debts.**—If a debt, such as a personal loan but not (a) a debt evidenced by a corporate security with interest coupons or in registered form and (b) a debt the loss from the worthlessness of which is incurred in the trade or business, becomes totally worthless within the taxable year, the loss resulting therefrom shall be considered a loss from the sale or exchange, during the taxable year, of a capital asset held for not more than 6 months. Enter such loss in column 8 (describe in column 1) of schedule of short-term capital gains and losses on other side.

**Classification of capital gains and losses.**—The phrase "short-term" applies to gains and losses from the sale or exchange of capital assets held for 6 months or less; the phrase "long-term" to capital assets held for more than 6 months.

**Treatment of capital gains and losses.**—Short-term capital gains and losses will be merged to obtain the net short-term capital gain or loss. Long-term capital gains and losses (taken into account at 100 percent) will be merged to obtain the net long-term capital gain or loss. If the net short-term capital gain exceeds the net long-term capital loss, 100 percent of such excess shall be included in income. If the net long-term capital gain exceeds the net short-term capital loss, 50 percent of such excess shall be included in income.

**Limitation on allowable capital losses.**—If the sum of all the capital losses exceeds the sum of all the capital gains (all such gains and losses to be taken into account at 100 percent), then such capital losses shall be allowed as a deduction only to the extent of (1) current year capital gains plus (2) the smaller of either the net income of the current year (or adjusted gross income if tax table is used) computed without regard to capital gains or losses, or \$1,000. The excess of such allowable losses over the sum of items (1) and (2) above is called "capital loss carry-over." It may be carried forward and treated as a short-term capital loss in succeeding years. However, the capital loss carry-over of each year should be kept separate, since the law limits the use of such carry-over to the five succeeding years. Therefore, in offsetting your capital gain and income of 1952 by prior year loss carry-overs, use any capital loss carry-over remaining from 1947 before using any such carry-over from 1948 or subsequent years. Any 1947 carry-over which cannot be used in 1952 must be excluded in determining total loss carry-over to 1953 and subsequent years.

**Collapsible corporations.**—Gain from the sale or exchange of stock of a collapsible corporation is not a capital gain. (See section 117 (m).)

**"Wash sales" losses.**—Losses from the sale or other disposition of stocks or securities are not deductible (unless sustained in connection with the taxpayer's trade or business), if, within 30 days before or after the date of sale or other disposition, the taxpayer has acquired (by purchase or by an exchange upon which the entire amount of gain or loss was recognized by law), or has entered into a contract or option to acquire, substantially identical stock or securities.

**Losses in transactions between certain persons.**—No deduction is allowable for losses from sales or exchanges of property directly or indirectly between (a) members of a family, (b) a corporation and an individual owning more than 50 percent of its stock (liquidations excepted), (c) a grantor and fiduciary of any trust, or (d) a fiduciary and a beneficiary of the same trust.

**Nondeductible losses.**—Losses from the sale or exchange of property are not deductible unless they are incurred in trade or business or in transactions entered into for profit.

**ALTERNATIVE TAX.**—If the net long-term capital gain exceeds the net short-term capital loss, or in the case of only a long-term capital gain, taxpayers (a) filing separate returns with surtax net income exceeding \$14,000, (b) filing joint returns with surtax net income exceeding \$28,000, or (c) filing as a head of household with surtax net income exceeding \$20,000 should compute the alternative tax (see computation of alternative tax on other side). The alternative tax, if less than the tax computed on page 3 of Form 1040, shall be the tax liability.

		(a) Have gross income of \$600 or more?	(b) Reside in your home?	(c) Receive entire support from you?	You (and your wife if this is a joint return)	Others, and by dependent from own funds
					\$	\$

Enter here and as item 1 D on other side the number of close relatives claimed above . . . . . **INSTRUCTIONS FOR FILING YOUR INCOME TAX RETURN**

**Who Must File.**—Every citizen or resident of the United States—whether an adult or minor—who had gross income of \$600 or more in 1952 must file a Federal income tax return on Form 1040A or Form 1040.

A single person with less than \$600 gross income should file a return to get a refund if tax was withheld. A married person with income less than her (or his) own personal exemption(s) should always file a joint return with husband or wife to get the smaller tax or larger refund for the couple. No refund can be made unless a return is filed.

**Who May Use Optional Return Form 1040A.**—If your total gross income was less than \$5,000 and consisted entirely of wages reported on Withholding Statements (Forms W-2), or of such wages and not more than \$100 total of other wages, dividends, and interest, you may use Form 1040A. A husband and wife may file a joint return on Form 1040A if their combined incomes do not exceed these limits. If you had any income from other sources, such as annuities, rents, royalties, a business or profession, farming, sale or exchange of personal or real property, partnerships, estates, and trusts, you may not use Form 1040A but must file your return on Form 1040. Likewise, Form 1040 must be used (1) in making a separate return of a married person domiciled in a community property State, (2)

where husband or wife itemizes deductions, or (3) if taxpayer claims the status of head of a household.

If you use Form 1040A, the Director of Internal Revenue will compute the tax and send you either a check for any refund due you or a bill for any amount you owe. The Director will compute your tax from the table provided by law which allows \$600 for each exemption and about 10 percent of your total income for charitable contributions, interest, taxes, casualty losses, medical expenses, and miscellaneous items. *If your deductions amount to more than 10 percent of your income, it will generally be to your advantage to use Form 1040 and itemize them.*

**Married Couple—Advantage of Joint Return.**—A husband and wife may make a joint return even though one has no income. To assure any benefits of the split-income provisions, they should file a joint return. *Both husband and wife must sign a joint return.* A joint return on Form 1040A never results in more tax than separate returns because the tax is computed by the Director on the combined incomes or on the separate incomes, whichever results in the smaller tax or larger refund for the couple. Both husband and wife are responsible for any tax which is due on a joint return, and any refund check will be addressed to both.

**Where and When To File Your Return.**—File your return with the Director (formerly Collector) of Internal Revenue for your district, between January 1 and March 15, 1953.

**YOUR EXEMPTIONS AND INCOME**

**1. Your Exemptions.** A and B. *For yourself and wife.*—Fill in items 1 A and B on other side to receive credit for your exemption and that of your wife (or husband). Marital status, age, and blindness must be determined as of December 31, 1952. However, if the husband or wife died during 1952, the exemptions of the deceased should be determined as of the date of death instead of December 31. If totally blind, attach a statement of such fact to the return. If partially blind, attach a statement from a qualified physician or a registered optometrist that (1) central visual acuity did not exceed 20/200 in the better eye with correcting lenses or (2) that the widest diameter of the visual field subtends an angle no greater than 20 degrees.

**C. For children.**—Fill in item 1 C on other side to receive credit for your dependent children. To qualify, *each* must meet *all four* of the following tests for 1952:

1. Did not have \$600 or more gross income, and
2. Received more than one-half of his or her support from you (or from husband or wife if this is a joint return), and
3. Is not claimed as an exemption on the return of her husband (or his wife), and
4. Was either a citizen of the United States or a resident of the United States, Canada, or Mexico.

**D. For close relatives.**—Fill in Schedule A, above, to receive credit for dependent close relatives. To be listed, *each* must meet *all four* tests shown in Instruction 1 C. *In addition*, each must be related to you (or to husband or wife if this is a joint return) in one of the following ways:

Mother	Grandson	Mother-in-law	Uncle—
Father	Granddaughter	Father-in-law	Aunt—
Grandmother	Stepbrother	Brother-in-law	Nephew—
Grandfather	Stepsister	Sister-in-law	Niece—
Brother	Stepmother	Son-in-law	<i>but only if related by blood</i>
Sister	Stepfather	Daughter-in-law	

**2 and 3. Your Income.**—Enter in item 2 on other side wages shown on all your 1952 Forms W-2 before payroll deductions.

Enter in item 3 on other side the total of interest, dividends, and any wages not shown on Forms W-2. If a joint return is filed, enter total of such interest, dividends, and wages of both husband and wife. Include in this item all "tips" and so-called "gifts" which are really compensation for services. Also include the difference between the purchase price and the redemption price of any United States Savings Bonds cashed in 1952.

**Nontaxable income.**—You should exclude from your income any items exempt from tax, such as social security benefits, sickness and injury benefits, life insurance proceeds, dividends on veterans' Government insurance, mustering-out pay, and Government contributions to monthly family allowances.

**Combat service.**—If in 1952 you served as a member of the Armed Forces in a combat zone or were hospitalized from combat zone service after June 24, 1950, part of your active service pay is not taxable. Your service withholding statement (Form W-2) does not include this nontaxable pay but shows only pay you need report. Enter this figure in item 2.

**F. I. C. A. Tax Credit.**—If more than \$54 of F. I. C. A. employee tax was withheld during 1952 *because you worked for more than one employer*, the excess may be claimed as a credit against income tax. Enter any excess of F. I. C. A. tax withheld over \$54 in "Income Tax Withheld" column of item 2 on other side and write "F. I. C. A. tax" in "Where employed" column. Compute the credit separately for husband and wife, if this is a joint return.

**Your Rights of Appeal.**—If you believe there is an error in any bill, statement, refund, or audit adjustment in connection with your tax, you are entitled to present your reasons to the Director and have the matter reconsidered. If agreement on audit adjustments is not reached, the Director will advise you of further appeal rights.

**QUESTIONS**

- Was an income tax return filed for the preceding year?  
..... If so, to which director's (formerly collector's)  
office was it sent? .....
- Date estate or trust was created .....
- If copy of will or trust instrument and statement required  
under General Instruction I have been previously  
furnished, state when and where filed .....
- Check whether this return was prepared on the cash ☐  
or accrual ☐ basis.
- Did the estate or trust at any time during the taxable year  
own directly or indirectly any stock of a foreign corpora-  
tion or of a personal holding company as defined in  
section 501 of the Internal Revenue Code? (Answer  
"Yes" or "No") ..... If answer is "Yes," attach  
list showing name and address of each such corporation  
and amount of stockholdings.
- If return is for a trust, state name and address of grantor  
.....
- If return is for an estate, has a United States Estate Tax  
Return been filed? (Answer "Yes" or "No") .....  
If answer is "No," will such a return be filed? "Yes" ☐  
"No" ☐ "Uncertain" ☐ (Check which.)

**DECLARATION (See Instruction F)**

I declare under the penalties of perjury that this return (including any accompanying schedules and statements) has been examined by me, and to the best of my knowledge and belief, is a true, correct, and complete return.

# U. S. Fiduciary Income Tax Return ON FORM 1041

*It will be helpful to read General Instructions A to N before commencing to fill in returns, and to read Specific Instructions in connection with filling in the items to which they refer.*

## GENERAL INSTRUCTIONS

**A. Who must use Form 1041.**—Every fiduciary, or at least one of joint fiduciaries (except a receiver appointed by authority of law in possession of only a part of the property of an individual), must make an income tax return on Form 1041 for:

(1) Every estate for which he acts, if (a) the gross income of such estate for the taxable year is \$600 or over, or (b) any beneficiary is a nonresident alien.

(2) Every trust for which he acts, if (a) the net income for such trust for the taxable year is \$100 or over, or (b) the gross income is \$600 or over regardless of the amount of net income, or (c) any beneficiary is a nonresident alien.

(See also General Instruction N.)

**B. Fiduciary returns on Form 1040 or Form 1040A.**—(1) An executor or administrator must make a return, on Form 1040 or Form 1040A, if the gross income of a decedent to the date of his death was \$600 or more.

(2) A fiduciary, including the guardian of a minor and the guardian or committee of an insane person, who has charge of the income of an individual, must make a return of income on Form 1040 or Form 1040A if a return is required for such individual.

**C. Returns for nonresident alien beneficiaries.**—(1) *United States business.*—If a citizen or resident fiduciary has the distribution of the income of an estate or trust, any beneficiary of which is a nonresident alien engaged in trade or business within the United States at any time within the taxable year, the fiduciary shall make a return on Form 1040B for such nonresident alien and pay any tax shown thereon to be due.

(2) *No United States business.*—A citizen or resident fiduciary having the distribution of the income of an estate or trust is required to make a return on Form 1040NB (and to pay any tax shown to be due thereon) for any beneficiary who is a nonresident alien not engaged in trade or business within the United States at any time within the taxable year if (a) such beneficiary has for the taxable year not more than \$15,400 gross income the tax on which is not limited by tax convention, and/or gross income (regardless of amount) the tax on which is limited by tax convention, and if (b) the entire amount of the tax on the income payable to such beneficiary has not been withheld at the source. Such fiduciary is also required to make a return on Form 1040NB—a for any such beneficiary who has for the taxable year more than \$15,400 gross income the tax on which is not limited by tax convention, and to pay any tax shown thereon to be due.

(3) *Duty of filing returns.*—If the beneficiary appoints a person in the United States to act as his agent for the purpose of rendering income tax returns, the fiduciary shall be relieved from the necessity of filing Form 1040B, Form 1040NB, or Form 1040NB—a, as the case may be. In such a case the fiduciary shall make a return on Form 1041 and attach thereto a copy of the notice of appointment of such agent. The fiduciary shall make a return on Form 1042 of the tax at the rates in effect when the payment is made on the entire amount of income payable to the beneficiary.

**D. Period to be covered by return.**—Returns shall be filed for the calendar year 1952 or other taxable years beginning in 1952. The established accounting period must be adhered to for all years, unless permission is received from the Commissioner to make a change. An application for a change in the accounting period shall be made on Form 1128 and forwarded to the Commissioner of Internal Revenue, Washington 25, D. C., at least 60 days prior to the close of the fractional part of the year for which a return would be required to effect the change.

**E. When and where the return must be filed.**—Returns must be filed on or before the 15th day of the fourth month following the close of the taxable year of the estate or trust with the director of internal revenue for the district in which the fiduciary resides or has his principal place of business. In case the fiduciary has no legal residence or place of business in the United States, the return should be forwarded to the Director of Internal Revenue, Baltimore 2, Md.

**F. Declarations.**—The return must be signed by the individual fiduciary, or by the authorized officer of the organization receiving or having custody or control and management of the income of the estate or trust. If two or more individuals act jointly as fiduciaries, the return may be signed by any one of them.

Where the return is actually prepared by some person or persons other than the fiduciary, such person or persons must also sign the declaration at the bottom of the fourth page of the return.

**G. When and to whom the tax must be paid.**—The tax of a trust must be paid in full when the return is filed. The tax of an estate must be paid in full when the return is filed or in four equal installments as follows: On or before the 15th day of the fourth, seventh, tenth, and thirteenth month following the close of the taxable year. If any installment is not paid on or before the date fixed for payment, the whole amount of tax unpaid shall be paid upon notice and demand by the director.

The tax may be paid in cash or by check or money order drawn to the order of "Director of Internal Revenue."

**H. Penalties.**—Severe penalties are provided by law for failure to file a required return, for filing late, and for filing a false or fraudulent return.

**I. Copy of will or trust instrument.**—A copy of the will or trust instrument sworn to by the fiduciary as a true and complete copy in cases in which the gross income of the estate or trust is \$5,000 or over, must be filed with the fiduciary return of the estate or trust, together with a statement by the fiduciary indicating the provisions of the will or trust instrument which, in his opinion, determine the extent to which the income of the estate or trust is taxable to the estate or trust, the beneficiaries, or the grantor, respectively. If, however, a copy of the will or trust instrument, or statement relating to the provisions of the will or trust instrument, has once been filed, it need not again be filed if the fiduciary return contains a statement showing when and where it was filed. If the trust instrument is amended in any way after such copy has been filed, a copy of the amendment, together with a statement by the fiduciary, indicating the effect, if any, in his opinion, of such amendment on the extent to which the income of the trust is taxable to the trust, the beneficiaries, or the grantor, respectively, must be filed with the return for the taxable year in which the amendment was made.

**J. Basis of return.**—If the books of account of the estate or trust are kept on the accrual basis, report all income accrued, and expenses incurred. As to disallowance of deductions for unpaid expenses and interest due to certain persons, see section 24 (c). If the books are not kept on the accrual basis, or if no books are kept, make the return on the cash basis and report all income received or constructively received, such as bank interest credited to the account of the estate or trust and coupon bond interest matured, and report expenses actually paid.

**K. Income in respect of decedents.**—Amounts of gross income of a decedent, not includible in his gross income, shall be included when received in the gross income of his estate, legatee, or other person entitled to receive such amounts upon his death. Deductions specified in section 23 (a), (b), or (c) (relating to deductions for expenses, interest, and taxes) in respect of the decedent may be taken by the person receiving property of the decedent subject to the obligation for which the deduction is allowed. Similar treatment is given to the foreign tax credit provided by section 31. The deduction for percentage depletion specified in section 23 (m), not allowable to the decedent for any taxable period, may be taken by the person receiving the income in respect of the decedent to which such deduction relates. (See sections 23 (w) and 126.)

**L. Items exempt from tax.**—As to items of income exempt from tax other than those listed below, see sections 22 (b) and 116.

(1) *Interest on governmental obligations:*

(a) *Entirely exempt.*—The interest on (1) obligations of a State, Territory, or political subdivision thereof, or the District

of Columbia, or United States possessions; (2) obligations issued prior to March 1, 1941, under Federal Farm Loan Act, or under such act as amended; (3) obligations of the United States issued on or before September 1, 1917; and (4) Treasury notes issued prior to December 1, 1940, Treasury bills and Treasury certificates of indebtedness issued prior to March 1, 1941, postal savings accounts to the extent that they represent deposits made prior to March 1, 1941, adjusted service bonds, and certain other obligations of the United States.

(b) *Partially exempt.*—The interest on (1) United States savings bonds and Treasury bonds issued prior to March 1, 1941, owned in excess of \$5,000 and (2) obligations of certain instrumentalities of the United States issued prior to March 1, 1941, is subject only to surtax.

(2) *Federal savings and loan associations.*—Dividends on share accounts in Federal savings and loan associations in case of shares issued prior to March 28, 1942, are subject only to surtax.

(3) *Proceeds of insurance policies.*—The proceeds of life insurance policies, paid by reason of the death of the insured, are exempt. If any part of the proceeds is held by the insurer under an agreement to pay interest, the interest is taxable. Amounts (other than annuities) received under a life insurance or endowment policy, not payable by reason of the death of the insured, are not taxable until the aggregate of the amounts received exceeds the premiums or consideration paid for the policy.

(4) *Miscellaneous items wholly exempt from tax:*

(a) Gifts not received as a consideration for service rendered) and money and property acquired by bequest, devise, or inheritance (but the income derived therefrom is taxable);

(b) Except in the case of amounts attributable to (and not in excess of) deductions allowed under section 23 (x) in any prior taxable year, amounts received through accident or health insurance or under workmen's compensation acts, as compensation for personal injuries or sickness plus the amount of any damages received, whether by suit or agreement, on account of such injuries or sickness, and amounts received as a pension, annuity, or similar allowance for personal injury or sickness resulting from active service in the armed forces of any country;

(c) Income, other than rent, derived by a lessor of real property upon the termination of a lease, representing the value of such property attributable to buildings erected or other improvements made by the lessee; and

(d) Income attributable to the recovery during the taxable year of a bad debt, prior tax, or delinquency amount, to the extent that such debt, tax, or delinquency amount did not operate to reduce the income tax liability of the taxpayer for any prior year with respect to such debt, tax, or amounts.

M. Depreciation and depletion, and amortization of emergency facilities.—A reasonable allowance for exhaustion, wear and tear (including a reasonable allowance for obsolescence) (1) of property used in trade or business or (2) property held for the production of income, may be deducted, based on cost if acquired by purchase after February 28, 1913. If acquired before March 1, 1913, or otherwise than by purchase, see section 114.

For depletion deduction, see sections 23 (m) and 114.

Estates and trusts (provided an election is made as prescribed in section 124A (b)) are entitled to a deduction with respect to the amortization of the adjusted basis (for determining gain) of any emergency facility the construction, reconstruction, erection, or installation of which was completed after December 31, 1949, or the acquisition of which occurred after December 31, 1949, and with respect to which the Government has issued a certificate of necessity. A statement of the pertinent facts should be filed with the taxpayer's election to take amortization deductions with respect to such facility (see section 124A and the regulations issued thereunder).

N. Information at source.—Every estate or trust which made payments of salaries, wages, commissions, interest, rents, or other fixed or determinable income of \$600 or more during the calendar year 1952, to an individual, a partnership, or a fiduciary must make a return on Forms 1096 and 1099. If a portion of such salary or wage payments was reported on a Withholding Statement (Form W-2a), only the remainder must be reported on Form 1099. Distributions to beneficiaries of an estate or trust shall be reported on Form 1041 and not on Form 1099.

### SPECIFIC INSTRUCTIONS

The following instructions are numbered to correspond with item numbers on the first page of the return

1. Dividends.—Enter the total of all taxable dividends received from domestic and foreign corporations, except dividends on share accounts in Federal savings and loan associations in case of shares issued prior to March 28, 1942, which should be included in item 4.

3. Interest on tax-free covenant bonds.—Enter interest on bonds upon which a Federal income tax was paid at the source by the debtor corporation, if an ownership certificate on Form 1000 was filed with the interest coupons. The tax of 2 percent paid at the source on such interest should be allocated to the beneficiaries in column 5, Schedule G.

4. Interest on Government obligations, etc.—Interest on an aggregate of not exceeding \$5,000 principal amount of United States Savings bonds and Treasury bonds issued prior to March 1, 1941, is exempt from surtax. However, when the income of a trust is taxable to beneficiaries, as in the case of a trust the income of which is to be distributed to beneficiaries currently, each beneficiary is entitled to exemption as if he owned directly a proportionate part of the bonds held in trust. When, on the other hand, income is taxable to the trustee, as in the case of a trust the income of which is accumulated for the benefit of unborn or unascertained persons, the trust, as owner of the bonds held in trust, is entitled to the exemption on account of such ownership.

Section 23 (v) provides for the deduction of amortizable bond premium by the owner of the bond. The term "bond" means any bond, debenture, note, or certificate or other evidence of indebtedness, issued by any corporation and bearing interest (including any like obligation issued by a government or political subdivision thereof), with interest coupons or in registered form, but does not include any such obligation which constitutes stock in trade of the taxpayer or any such obligation of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or any such obligation held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business.

Amortization of bond premium is mandatory with respect to fully tax-exempt bonds. In the case of fully taxable bonds and partially tax-exempt bonds (the interest on which is subject only to surtax), the amortization of bond premium is elective as to either one or as to both. Such election shall be made by the taxpayer by taking a deduction for the bond premium on his return for the first taxable year to which he desires the election to be applicable. Attach a statement showing the computation of the deduction.

The election shall apply to all bonds with respect to which it was made and which were owned by the taxpayer at the begin-

ning of the first taxable year to which the election applies and also to all bonds of such class (or classes) thereafter acquired. The election shall be binding for all subsequent taxable years, unless, upon application by the taxpayer, the Commissioner permits the taxpayer to revoke the election.

In the case of a fully tax-exempt bond, the amortizable premium for the taxable year is an adjustment to the basis, or adjusted basis, of the bond but no deduction is allowable on account of such amortizable premium. In the case of a fully taxable bond, the amortizable premium is both an adjustment to the basis, or adjusted basis, of the bond and also a deduction. In the case of a partially tax-exempt bond, the amortizable premium for the taxable year is used for three purposes: (1) As an adjustment to the basis, or adjusted basis; (2) as a deduction; and (3) as a reduction of the credit for the interest on the bonds.

A taxpayer on the cash basis may elect, as to all non-interest-bearing obligations issued at a discount and redeemable for fixed amounts increasing at stated intervals (for example, United States Savings Bonds), to include the increase in redemption price applicable to the current year. For the year of election the total increase in redemption price of such obligations occurring between the date of acquisition and the end of the year must be included. A taxpayer so electing shall report such income as interest in item 2, 3, or 4, page 1, whichever is applicable, and attach statement listing obligations owned and computation of accrued income. An election exercised in the current year or in a prior year is binding for all subsequent years.

The fiduciary shall advise each beneficiary as to the amount of his share of these obligations and of the interest (as well as amortizable bond premium), in order that the beneficiary may include this information in his individual income tax return and determine whether such interest is subject to tax.

5. Income from partnerships and other fiduciaries.—Enter the estate's or trust's share of the profits (whether received or not) or of the losses of a partnership (including a syndicate, pool, etc., not taxable as a corporation) except the estate's or trust's distributive share of the partnership capital gains or losses which should be reported in Schedule C and included in item 7 (a), page 1, and the estate's or trust's share of the income from another estate or trust. The estate's or trust's share of interest in obligations of the United States, owned by partnerships or another estate or trust, should be included in item 4. Include in items 23 and 24, respectively, the estate's or trust's share of credits claimed for foreign income and profits taxes and Federal income taxes paid at source.

If the taxable year on the basis of which the estate's or trust's return is filed does not coincide with the annual accounting period of the partnership or other fiduciary, include in the return the distributive share of the estate or trust of the net profits for such accounting period of the partnership or other fiduciary ending within your taxable year.

6. Rents and royalties.—Fill in Schedule B giving the information requested.

If the estate or trust received property or crops in lieu of cash rents, report the income as though the rent had been received in cash. Crops received as rent on crop-share basis should be reported as income for the year in which disposed of (unless the return is on the accrual basis).

7. Gains and losses from sales or exchanges of capital assets and other property.—Report sales or exchanges of capital assets in Schedule C and sales or exchanges of other property in Schedule D, and enter the net amount of gain or loss to be taken into account in computing net income.

"Capital assets" defined.—The term "capital assets" means property held by the estate or trust (whether or not connected with the trade or business) but does NOT include—

- (a) stock in trade or other property of a kind properly includible in the inventory if on hand at the close of the taxable year;
- (b) property held by the taxpayer primarily for sale to customers in the ordinary course of the trade or business;
- (c) property used in the trade or business of a character which is subject to the allowance for depreciation provided in section 23 (1);
- (d) real property used in the trade or business of the taxpayer;
- (e) certain Government obligations issued at a discount and maturing within one year of issue;
- (f) certain copyrights or artistic compositions, etc.

If the total of the distribution to which an employee is entitled under an employees' pension, bonus, or profit-sharing trust plan meeting the requirements of section 165 (a) is received by the employee in one taxable year, on account of the employee's separation from the service, the aggregate amount of such distribution, to the extent it exceeds the amounts contributed by the employee, shall be treated as a gain from the sale or exchange of a capital asset held for more than 6 months.

A capital gain dividend, as defined in section 362 (relating to tax on regulated investment companies), shall be treated by the shareholder as gains from the sale or exchange of capital assets held for more than 6 months.

Section 117 (j), in effect, provides that gains and losses from transactions covered by that section shall be treated as gains and losses from the sale or exchange of capital assets held for more than 6 months if the aggregate of such gains exceeds the aggregate of such losses. If the aggregate of such gains does not exceed the aggregate of such losses, such gains and losses shall not be treated as gains and losses from the sale or exchange of capital assets. Thus, in the event of a net gain, all these transactions should be entered in the "long-term capital gains and losses" portion of Schedule C. In the event of a net loss, all these transactions should be entered in Schedule D, or in other applicable schedules on Form 1041.

Section 117 (j) deals with gains and losses arising from—

- (a) sale, exchange, or involuntary conversion, of land (including in certain cases unharvested crops sold with the land) and depreciable property used in the trade or business and held for more than 6 months,
- (b) sale, exchange, or involuntary conversion of livestock held for draft, breeding, or dairy purposes (but not including poultry) and held for 1 year or more,
- (c) the cutting of timber or the disposal of timber or coal to which section 117 (k) applies, and
- (d) the involuntary conversion of capital assets held more than 6 months.

See section 117 (j) and (k) for specific conditions to be met in their application.

Kind of property listed.—State following facts: (a) For real estate, location and description of land and improvements; (b) for bonds or other evidences of indebtedness, name of issuing corporation, particular issue, denomination, and amount; and (c) for stocks, name of corporation, class of stock, number of shares, and capital changes affecting basis (including nontaxable distributions).

Basis.—In determining gain or loss in case of property acquired after February 28, 1913, use cost, except as otherwise provided in section 113. The basis of the property acquired by gift after December 31, 1920, is the cost or other basis to the donor in the event of gain, but, in the event of loss, it is the lower of either such donor's basis or market value of property on date of gift. The basis of property acquired by inheritance is the fair market value of the property at time of acquisition which generally is the

date of death. In determining GAIN in case of property acquired before March 1, 1913, use the cost or the fair market value as of March 1, 1913, adjusted as provided in section 113 (b), whichever is greater, but in determining LOSS use cost so adjusted.

Losses on securities becoming worthless.—If (a) shares of stock become worthless during the year or (b) corporate securities with interest coupons or in registered form become worthless during the year, and are capital assets, the loss therefrom shall be considered as from the sale or exchange of capital assets as of the last day of such taxable year.

Nonbusiness debts.—If a debt, such as a personal loan but not (a) a debt evidenced by a corporate security with interest coupons or in registered form and (b) a debt the loss from the worthlessness of which is incurred in the trade or business, becomes totally worthless within the taxable year, the loss resulting therefrom shall be considered a loss from the sale or exchange, during the taxable year, of a capital asset held for not more than 6 months. Enter such loss in column 8 (describe in column 1) under short-term capital gains and losses on Schedule C.

Classification of capital gains and losses.—The phrase "short-term" applies to gains and losses from the sale or exchange of capital assets held for 6 months or less; the phrase "long-term" applies to capital assets held for more than 6 months.

Collapsible corporations.—Gain from the sale or exchange of stock of a collapsible corporation is not a capital gain. (See section 117 (m).)

Redemption of stock to pay death taxes.—Section 115 (g) (3) deals with redemption of stock included in an estate. List and identify such stock in the appropriate section on Schedule C, and state the name of the decedent and the director's office in which the estate tax return was filed.

"Wash sales" losses.—Losses from the sale or other disposition of stocks or securities are not deductible (unless sustained in connection with the taxpayer's trade or business), if, within 30 days before or after the date of sale or other disposition, the taxpayer has acquired (by purchase or by an exchange upon which the entire amount of gain or loss was recognized by law), or has entered into a contract or option to acquire, substantially identical stock or securities.

Losses in transactions between certain persons.—No deduction is allowable for losses from sales or exchanges of property directly or indirectly between (a) members of a family, (b) a corporation and an individual owning more than 50 percent of its stock (liquidations excepted), (c) a grantor and fiduciary of any trust, or (d) a fiduciary and a beneficiary of the same trust.

Nondeductible losses.—Losses from the sale or exchange of property are not deductible unless they are incurred in trade or business or in transactions entered into for profit.

Treatment of capital gains and losses.—Short-term capital gains and losses will be merged to obtain the net short-term capital gain or loss. Long-term capital gains and losses (taken into account at 100 percent) will be merged to obtain the net long-term capital gain or loss. If the net short-term capital gain exceeds the net long-term capital loss, 100 percent of such excess shall be included in income. If the net long-term capital gain exceeds the net short-term capital loss, 50 percent of such excess shall be included in income.

Limitation on allowable capital losses.—If the sum of all the capital losses exceeds the sum of all the capital gains (all such gains and losses to be taken into account at 100 percent), then such capital losses shall be allowed as a deduction only to the extent of (1) current year capital gains plus (2) the smaller of either the net income of the current year computed without regard to capital gains or losses, or \$1,000. The excess of such allowable losses over the sum of items (1) and (2) above is called "capital loss carry-over." It may be carried forward and treated as a short-term capital loss in succeeding years. However, the capital loss carry-over of each year should be kept separate, since the law limits the use of such carry-over to the five succeeding years. Therefore, in offsetting capital gain and income of 1952 by prior year loss carry-overs, use any capital loss carry-over remaining from 1947 before using any such carry-over from 1948 or subsequent years. Any 1947 carry-over which cannot be used in 1952 must be excluded in determining the total loss carry-over to 1953 and subsequent years.

ALTERNATIVE TAX.—If the net long-term capital gain exceeds the net short-term capital loss, or in the case of only a long-term capital gain, taxpayers with surtax net income exceeding \$14,000 should compute the alternative tax in Schedule C. The alternative tax, if less than the normal tax and surtax, shall be the tax liability.

8. Profit (or loss) from trade or business.—If the estate or trust was engaged in a trade or business during the taxable year, enter the net profit (or loss) and attach to the return a statement showing the nature of the trade or business, total receipts, cost

of merchandise bought for sale, inventories of merchandise on hand at the beginning and end of the taxable year, other items entering into cost of goods sold, net cost of goods sold, salaries and wages of employees, interest, taxes, losses, and bad debts directly attributable to the trade or business, depreciation, obsolescence, and depletion of property used in the trade or business, rent, repairs, and all other expenses in detail. A taxpayer electing to include in gross income amounts received during the year as loans from the Commodity Credit Corporation should file with the return a statement showing the details of such loans. (See section 123.)

**Inventories.**—If engaged in a trade or business in which the production, manufacture, purchase, or sale of merchandise is an income-producing factor, inventories of merchandise on hand should be taken at the beginning and end of the taxable year, which may be valued at (a) cost, or (b) cost or market whichever is lower. The basis properly adopted for the first year is controlling and a change can be made only after permission is secured from the Commissioner. Application for permission to change the basis of valuing inventories shall be made in writing and filed with the Commissioner within 90 days after the beginning of the taxable year in which it is desired to make the change. Indicate opposite the inventories in the statement submitted by the use of "C" or "C or M" whether the inventories are valued at cost, or cost or market whichever is lower. If the estate or trust elects to use the inventory method provided in section 22 (d), there should be filed an election on Form 970.

**Depreciation, etc.**—See General Instruction M in case any deduction is claimed for depreciation, obsolescence, or depletion.

**Bad debts.**—Bad debts may be deducted either (a) when they become wholly or partially worthless, or (b) by a reasonable addition to a reserve. No change of method may be made without permission of the Commissioner.

**Installment sales.**—If the installment method is used, attach to the return a schedule showing separately for the years 1949, 1950, 1951, and 1952 the following: (a) Gross sales; (b) cost of goods sold; (c) gross profits; (d) percentage of gross profits to gross sales; (e) amount collected; and (f) gross profit on amount collected. (See section 44.)

**9. Other income.**—If the estate or trust had any taxable income, space for reporting which is not provided elsewhere on page 1, enter it as item 9, and explain its nature, using a separate sheet if necessary for that purpose.

**11. Interest.**—Enter all interest paid or accrued, other than on business indebtedness (which should be deducted in computing income under item 6 or 8). Do not include interest on indebtedness incurred or continued to purchase or carry obligations, the interest upon which is wholly exempt from taxation. Any deductions on account of interest should be explained and itemized in Schedule F. Do not deduct amounts paid or accrued on indebtedness incurred or continued to purchase a single premium life insurance or endowment contract. A contract shall be considered a single premium life insurance or endowment contract if substantially all the premiums on such contract are paid within a period of 4 years from the date on which the contract is purchased.

**12. Taxes.**—Enter and explain in Schedule F taxes imposed upon the estate or trust and paid or accrued during the taxable year, not including taxes on property used in the trade or business of the estate or trust and those assessed against local benefits of a kind tending to increase the value of the property assessed. Federal import duties and Federal excise and stamp taxes are deductible only if paid or incurred in carrying on a trade or business, or in the production or collection of income, or for the management, conservation, or maintenance of property held for the production of income. Do not include Federal income taxes nor estate, inheritance, legacy, succession, gift taxes, taxes imposed upon the interest of the estate or trust as shareholder of a corporation which are paid by the corporation without reimbursement from the estate or trust. No deduction is allowable for any portion of foreign income and profits taxes if a credit is claimed in item 23. (See section 29.126-3 of Regulations 111 for rule relating to deduction for estate tax attributable to income in respect of decedent.)

**13. Other deductions authorized by law.**—Enter any other authorized deductions for which no space is provided on page 1, including net operating loss deduction allowed by section 23 (s). Every taxpayer claiming a deduction due to a net operating loss for the preceding taxable year or years shall file with his return the statement required by section 29.122-1 of Regulations 111.

Include nontrade or nonbusiness expense incurred either (a) for the production or collection of taxable income or (b) for the management, conservation, or maintenance of property held for the production of taxable income. Deductions should be explained in Schedule F.

Worthless bonds and similar obligations and nonbusiness bad debts should be included in Schedule C as losses on capital assets.

Do not deduct losses incurred in transactions which were neither connected with the trade or business of the estate or trust nor entered into for profit.

In case the estate or trust incurred expenses in connection with exempt income or owned any property the income from which is exempt, see section 24 (a) (5) and Regulations 111.

Item 13 should include losses of property not connected with the trade or business of the estate or trust sustained during the year, if arising from fire, storm, shipwreck, or other casualty, or from theft, and if not compensated for by insurance or otherwise.

Explain and itemize losses claimed in Schedule F, setting forth a description of the property, date acquired, cost, subsequent improvements, depreciation allowable since acquisition, insurance, salvage value, and deductible loss.

Amounts allowable under section 812 (b) as a deduction in computing the net estate of a decedent are not allowed as a deduction under section 23, except subsection (w), in computing the net income of the estate unless there is filed in duplicate with the return in which the item is claimed as a deduction a statement to the effect that the item has not been claimed or allowed as a deduction from the gross estate of the decedent under section 812 (b) and a waiver of any and all right to have such item allowed at any time as a deduction under section 812 (b). Clearly identify any such item in the statement and waiver and in Schedule F.

**16. Amount distributable to beneficiaries.**—Enter the total amount distributable to beneficiaries as reflected in columns 3 and 4, Schedule G. Care should be taken in filling in Schedule G so as to include as beneficiaries persons for whose benefit amounts of charitable contributions are, pursuant to the terms of the will or deed creating the trust, paid or permanently set aside during the taxable year as provided in section 162 (a). However, see sections 162 (g) and 3813 for disallowance in whole or in part of amounts otherwise allowable under section 162 (a). A trust claiming a charitable, etc., deduction under section 162 (a) for the taxable year should file information return required under section 153 (b). Obtain copy of Form 1041A from the director.

If any part of the income of the trust is taxable to the grantor under section 166 or 167, it should not be reported on Form 1041, but such income and the amount of deductions and credits applicable thereto should be shown in a separate statement to be attached to Form 1041. As to the treatment of distributions made within 65 days after the close of the taxable year, see section 162 (d).

**19. Exemptions.**—For the purpose of the normal tax and the surtax, an estate is allowed an exemption of \$600; a trust is allowed an exemption of \$100.

**21. Tax Rate Schedule.**—The schedule below shows the normal tax and surtax for the taxable year. The tax to be entered as item 21, page 1, should be reduced by 3 percent of fiduciary's share of partially tax-exempt interest reported in item 4, page 1, or 3 percent of item 20, page 1, whichever amount is the lesser. If tax is so reduced, attach statement.

If item 20, page 1 is:	Enter as item 21, page 1:
Not over \$2,000.....	22.2% of the amount in item 20.
Over \$2,000 but not over \$4,000.....	\$444, plus 24.6% of excess over \$2,000.
Over \$4,000 but not over \$6,000.....	\$936, plus 29% of excess over \$4,000.
Over \$6,000 but not over \$8,000.....	\$1,516, plus 34% of excess over \$6,000.
Over \$8,000 but not over \$10,000.....	\$2,196, plus 38% of excess over \$8,000.
Over \$10,000 but not over \$12,000.....	\$2,956, plus 42% of excess over \$10,000.
Over \$12,000 but not over \$14,000.....	\$3,796, plus 48% of excess over \$12,000.
Over \$14,000 but not over \$16,000.....	\$4,756, plus 53% of excess over \$14,000.
Over \$16,000 but not over \$18,000.....	\$5,816, plus 56% of excess over \$16,000.
Over \$18,000 but not over \$20,000.....	\$6,936, plus 59% of excess over \$18,000.
Over \$20,000 but not over \$22,000.....	\$8,116, plus 62% of excess over \$20,000.
Over \$22,000 but not over \$24,000.....	\$9,356, plus 66% of excess over \$22,000.
Over \$24,000 but not over \$26,000.....	\$10,656, plus 67% of excess over \$24,000.
Over \$26,000 but not over \$28,000.....	\$12,016, plus 68% of excess over \$26,000.
Over \$28,000 but not over \$30,000.....	\$13,436, plus 72% of excess over \$28,000.
Over \$30,000 but not over \$32,000.....	\$14,916, plus 75% of excess over \$30,000.
Over \$32,000 but not over \$34,000.....	\$16,456, plus 77% of excess over \$32,000.
Over \$34,000 but not over \$36,000.....	\$18,056, plus 80% of excess over \$34,000.
Over \$36,000 but not over \$38,000.....	\$19,716, plus 83% of excess over \$36,000.
Over \$38,000 but not over \$40,000.....	\$21,436, plus 85% of excess over \$38,000.
Over \$40,000 but not over \$42,000.....	\$23,216, plus 88% of excess over \$40,000.
Over \$42,000 but not over \$44,000.....	\$25,056, plus 90% of excess over \$42,000.
Over \$44,000 but not over \$46,000.....	\$26,956, plus 91% of excess over \$44,000.
Over \$46,000 but not over \$48,000.....	\$28,916, plus 92% of excess over \$46,000.
Over \$48,000 but not over \$50,000.....	\$30,936, plus 92% of excess over \$48,000.

**23. Income and profits taxes paid to a foreign country or United States possession.**—If, in accordance with section 131 (a), a credit is claimed for income, war-profits, and excess-profits taxes paid to a foreign country or a possession of the United States, submit Form 1116 with the return, together with the receipts for such payments. In case credit is sought for taxes accrued, the form must have attached to it a certified copy of the return on which the tax was based, and the Commissioner may require a bond on Form 1117 for the payment of any tax found due if the tax when paid differs from the credit claimed.

**24. Income tax paid at source.**—Enter the fiduciary's share of that portion of the 2 percent Federal income tax on bond interest which was paid at the source by the debtor corporation.

## LETTER OF TRANSMITTAL

---

TREASURY DEPARTMENT,  
OFFICE OF COMMISSIONER OF INTERNAL REVENUE,  
*Washington, D. C., October 25, 1955.*

SIR: In accordance with the provisions of section 63 of the Internal Revenue Code of 1939 requiring the publication annually of statistics with respect to the operation of the Federal income and profits tax laws, I have the honor to transmit herewith a report entitled *Statistics of Income for 1952, Part 2*, presenting data relative to income, deductions, assets, liabilities, credits, tax liability, and dividends paid as reported on corporation income tax returns and personal holding company returns for 1952 filed during 1953. There is also included a historical presentation of the income and of the tax liability reported by corporations for the years 1944 through 1952, and a synopsis of corporation income and profits tax rates and other provisions of the Federal tax laws affecting comparability of the historical data.

Respectfully,

T. COLEMAN ANDREWS,  
*Commissioner of Internal Revenue.*

Hon. G. M. HUMPHREY,  
*Secretary of the Treasury.*

## INTRODUCTION

Annual returns filed in compliance with Federal income tax laws offer a unique source of financial information. The *Statistics of Income, Part 2*, contains tabulations prepared from returns of corporations. All domestic and resident foreign corporations, except certain nonprofit organizations, are required to file income tax returns which show income by source, deductions, credits, and Federal income and profits taxes. Other items of importance, particularly assets and liabilities, and dividends paid, are also reported.

The first section of this report presents data on income, deductions, assets, liabilities, tax, and dividends paid classified by type of industry, size of total assets, and other pertinent classifications. The balance sheet data are shown in separate tables with related items of income, deductions, and tax. An explanation of terms is provided to show specific meaning or methods of tabulating certain items. These corporate data are reported on Forms 1120, 1120L (filed by life insurance companies), and 1120M (filed by mutual insurance companies). Although computation of insurance company tax requires special forms, items of income and deductions reported are comparable to similar items for other corporations and data from the three forms are combined in preparing the tabulations. Amounts of special adjustments to life insurance company net income are stated in the text.

The second section of the report presents data from Form 1120H, filed by a small number of personal holding companies with limited ownership which are subject to a surtax on certain undistributed net income. The tabulations show items used in development of the surtax base from net income and the additional tax liability. Personal holding companies also file the corporation income tax return, Form 1120, and their basic financial data are included in the tabulations in the first section of this report.

The third section contains historical data selected from the tabulations compiled from the corporation income tax returns, Forms 1120, 1120L, and 1120M, for the years 1944-52. Comparability of historical data is discussed in the accompanying text.

The fourth section of the report contains a synopsis of Federal tax laws affecting corporations. The synopsis tables show tax bases, rates, and other provisions useful in studying the statistics.

Facsimiles of the 1952 return forms on which corporate data are reported are inserted at the end of the report.

Selected 1952 corporation data from income tax returns, Forms 1120, 1120L, and 1120M, by 65 major industry groups, were published in a *Preliminary Report, Statistics of Income, Part 2*, in February 1955. In preparing this more detailed complete report for 1952, revisions in the preliminary data have not been found necessary.

# CORPORATION INCOME TAX RETURNS FOR 1952

## MAJOR CHARACTERISTICS OF 1952

Although the number of corporation income tax returns filed for the income year 1952 is at its highest level in income tax history, there is a reduction in corporate net income of \$5.1 billion, as compared with 1951. Corporate receipts are higher by 2.8 percent than for 1951, but deductible corporate expenditures are up 4.1 percent, reducing substantially the net income tax base in 1952.

Corporate income and expense data on tax returns indicate that despite an advance of gross sales and receipts for 1952, profit margins are being reduced by more rapidly advancing costs. The relative size of annual expenses and deductions, Federal income and profits tax liability, and compiled net profit after taxes is illustrated for 1952 in the accompanying chart.

Expenses and deductions for 1952 are \$493 billion, or 92.7 percent of compiled receipts. The remaining 7.3 percent of compiled receipts is about equally divided between \$19.6 billion of compiled net profit after taxes and \$19.1 billion paid to the Federal Government in the form of income and profits taxes. Income taxes account for \$17.6 billion of the total tax, the excess profits tax being only \$1.6 billion. Compiled net profit after taxes is \$279.2 million greater than net income after taxes because it includes tax-exempt interest received.

The total number of corporation income tax returns filed for 1952 is 705 thousand. Returns filed by active corporations total 672 thousand, of which more than one-third report net deficits, aggregating \$2 billion. The

net income reported by 443 thousand active corporations is \$4.9 billion, or 11 percent, less than the amount for 1951. The decline in net income represents in effect a reduction in the 1952 tax base; the deficit level in 1952 represents, through loss carryback and carryover provisions, reductions in past and future year tax bases. Net income is defined as current-year net income before the deduction of net operating loss for certain other years and before certain credits allowable against net income.

The 1952 total tax liability of corporation returns with net income is \$19.1 billion as compared with \$22.1 billion for 1951. As shown in the accompanying table, **income tax** liability of \$17.6 billion is reported on 404 thousand of the 443 thousand returns with net income. These 404 thousand returns may or may not have an excess profits tax. The remaining 39 thousand returns with net income have no income tax because of (1) the deduction from current-year net income of the net operating loss for certain other years, (2) three special credits against current-year net income relating to dividends received from corporations that are themselves subject to tax, dividends paid on certain preferred stock of public utilities, and a portion of the income of Western Hemisphere trade corporations, and (3) credit against net income for partially tax-exempt interest received on certain United States obligations issued prior to March 1, 1941. The income tax liability for 1952 is 10 percent less than for 1951.

## NUMBER OF RETURNS, NET INCOME OR DEFICIT, AND TAXES, CORPORATION RETURNS, 1952 AND 1951

Items	1952	1951	Increase or decrease (-)	
			Number or amount	Per cent
Total number of returns .....	705,497	687,310	18,187	3
Active corporations:				
Number of returns .....	672,071	652,376	19,695	3
Returns with net income:				
Number of returns .....	442,577	439,047	3,530	1
Net income .....	40,431,697	45,333,173	-4,901,476	-11
Income tax:				
Number of returns .....	403,544	403,409	135	-----
Amount .....	17,596,969	19,623,441	-2,026,472	-10
Excess profits tax:				
Number of returns .....	30,991	40,746	-9,755	-24
Amount .....	1,550,725	2,458,676	-907,951	-37
Returns with no net income:				
Number of returns .....	229,494	213,329	16,165	8
Deficit .....	1,975,518	1,787,583	187,935	11
Number of returns of inactive corporations .....	33,426	34,934	-1,508	-4

See p. 24 for "Explanation of Terms" and p. 23 for "Description of the Sample and Limitations of Data."

The **excess profits** tax liability of \$1.6 billion for 1952 is reported on 31 thousand returns. Compared with 1951, there was a decrease of 24 percent in the number with excess profits tax liability and a decrease of 37 percent in the amount of the excess profits tax. The major reasons for these decreases are: (1) a 10 percent decrease

in returns with net income over \$25,000, and (2) a higher ratio of excess profits credit to excess profits net income for 1952. Returns with net income under \$25,000, which increased about 4 percent, are not generally subject to the excess profits tax. Excess profits credit determined by use of a base period net income remains constant despite decreases in current-year net income, and excess profits credit based on invested capital reflects increases in aggregate total assets. All returns with excess profits tax also have income tax liability.

Corporation returns filed for 1952 include 33.4 thousand returns of inactive (nonoperating) corporations which were in existence in 1952 and which were therefore required to file. Approximately 33 to 36 thousand inactive corporations have filed annually since 1944.

Compiled receipts of all corporations for 1952 are \$531.3 billion, of which a small portion, \$279.2 million, is tax-exempt interest income on corporate holdings of Government obligations. Compiled receipts is a gross measure of corporate income from all sources. Included are both net short-term and long-term capital gains reduced respectively by net long-term and short-term capital losses, and corporate net gains from sale of property other than capital assets.

Compiled deductions totaling \$492.6 billion is a measure of deductible corporate expenditure during 1952. Corporations paid out over \$5 billion as interest payments on debt outstanding. Deductions of over \$11 billion represent corporate taxes paid to State and local governments, and certain taxes, other than income and excess profits taxes, paid to the Federal Government. Depreciation and depletion allowances account for \$9.6 billion and \$2.1 billion, respectively. Advertising expenditures deductible for tax purposes total over \$5 billion during 1952.

The manufacturing industry plays an important role in the corporate income and tax changes in the United States, since it accounts for about 50 percent of compiled receipts and net income, and about 60 percent of the total tax liability for all corporations. For 1952, the manufacturing net income drops 17 percent below that of 1951 and the current year manufacturing deficits increase by 21 percent. Total tax liability for manufacturing for 1952 is almost 20 percent less than for 1951, a decrease which alone accounts for more than 93 percent of the total tax loss for all corporations.

Yearly changes for manufacturing, compared with those for the seven other industry groups, are presented in the following chart which relates to compiled receipts and net income. All industries obtained larger total receipts for 1952 than for 1951. However, 5 of the industry divisions, manufacturing, trade, mining, agriculture, and services, reported lower net earnings for 1952 than for 1951. Gains in 1952 net income are reported by construction, public utility, and financial corporations.

The comparison of 1952 with 5 years ago appears in the lower half of the chart. For all industries, the 1952 compiled receipts show greater increases over 1948 than over 1951. The 1952 net income is lower than the 1948

net income for trade, mining, agriculture, and services. Also, for two of these industries, trade and mining, the 1952 net income shows a greater decrease over 1948 than over 1951. Manufacturing is the only industry division with 1952 net income higher than 1948 net income but lower than 1951 net income.

### CHANGES IN THE INTERNAL REVENUE CODE OF 1939 TAX RATES

The returns are filed under the provisions of the Internal Revenue Code of 1939 as amended. The latest revenue act amending the Code is that of 1951 which increased the normal-tax rate to 30 percent and the maximum tax rate on long-term capital gains to 26 percent, and established an 18-percent ceiling rate for the excess profits tax. These rates became effective April 1, 1951, for taxable years other than the calendar year

1951 (for which intermediate rates were provided) and thus did not become fully effective until 1952. A comparison of the tax rates in effect for returns tabulated for this report and those tabulated for the 1951 report are shown in the following table.

TAX RATES, 1952 AND 1951

Tax	Tax rates applicable to returns, Form 1120, tabulated for—			
	1952 Statistics of Income (all returns)	1951 Statistics of Income		
		Calendar year returns	Fiscal year returns with months in following periods (prorated tax)	
			Apr. 1, 1951 through June 30, 1952	July 1, 1950 through Mar. 31, 1951
	(Percent)	(Percent)	(Percent)	(Percent)
Maximum*	70	68	70	62
Normal tax	30	28¾	30	25
Surtax on surtax net income in excess of \$25,000	22	22	22	22
Consolidated return tax (computed on entire amount of surtax net income)	2	2	2	2
Excess profits tax (computed on the adjusted excess profits net income)	30	30	30	30
Ceiling tax (computed on the excess profits net income):				
Excess profits tax and consolidated return tax*	18	17¼	18	
Total normal tax, surtax, and excess profits tax				62
			Taxable year beginning—	
			After Mar. 31, 1951	Before April 1, 1951
Maximum tax on long-term capital gains...	26	25	(Percent) 26	(Percent) 25

\*The rates shown may vary slightly with respect to consolidated returns as a result of the method of determining the excess profits tax ceiling when a consolidated return is filed.

#### MUTUAL SAVINGS BANKS, BUILDING AND LOAN ASSOCIATIONS

The tax-exempt status of certain mutual savings banks, building and loan associations, savings and loan associations, and cooperative banks is rescinded with respect to the income tax by section 313 of the Revenue Act of 1951, effective for taxable years beginning on or after January 1, 1952. The organizations affected are mutual savings banks not having a capital stock represented by shares, domestic building and loan associations and savings and loan associations substantially all the business of which is confined to making loans to members, and cooperative banks without capital stock organized and operated for mutual purposes and without profit. These organizations were formerly exempt from income and profits taxes under sections 101 (2), (4), and (15) of the Internal Revenue Code (1939). The exemption from the excess profits tax is continued under section 454 as amended by the 1951 act.

Certain mutual, nonprofit corporations or associations without capital stock organized prior to September 1, 1951, to provide insurance and reserve funds for the above organizations, and certain credit unions retain tax-exempt status under section 101 (4) as amended by the Revenue Act of 1951.

Mutual savings banks conducting separate life insurance departments, with separate accounts, are required to compute for such departments a separate net income and tax, using the provisions and tax rates provided for life insurance companies (page 22). This partial tax is added to and reported with the tax computed for the banking business. Mutual savings banks with a net deficit may, under this tax provision, report income tax based on income from the life insurance department. In tabulating data for this report the life insurance department accounts are combined with those of the banking department.

Data from returns, Form 1120, filed by mutual savings banks are included in the major group "Finance: Banks and trust companies," and a new minor group, "Mutual savings banks," is provided for presentation of selected items. Data for building and loan associations, savings and loan associations, and cooperative banks are included in the major group "Finance: Credit agencies other than banks," and selected data are shown separately in a new minor group, "Savings and loan, building and loan associations."

The data tabulated for these new minor industrial groups are from returns filed for taxable years beginning on or after January 1, 1952, by the corporations formerly exempt from income taxation under section 101 of the 1939 Code and all other returns filed by similar corporations which never met the tax-exemption requirements. Selected items for minor industrial groups appear in table 2.

Since the tabulations in this report cover returns ending in the period July 1952 through June 1953, and the tax exemption of mutual savings banks, building and loan associations, etc., is rescinded only for taxable years beginning on or after January 1, 1952, the data for 1952 do not represent a complete coverage of such organizations. Returns for these organizations for fiscal years ending during 1952, to which provisions of section 101 apply, are filed on Form 990 (returns used by tax-exempt organizations) and are not tabulated in this report.

#### PRESENTATION OF DATA TABULATED RETURNS INCLUDED

The returns included in this report are the corporation income tax returns filed for the calendar year ending December 31, 1952, fiscal years ending within the period July 1952 through June 1953, and part years with the greater portion of the accounting period in 1952.

The data are from corporation income tax returns, Form 1120; life insurance company income tax returns, Form 1120L; and mutual insurance company income tax returns, Form 1120M. Returns of foreign corporations engaged in trade or business within the United States are included.

The statistics are compiled from income tax returns as filed, prior to revisions that may be made as a result of audit by the Internal Revenue Service and prior to

changes which may result from carrybacks after the returns are filed.

Tentative returns are excluded from all tabulations and amended returns are used only if the original returns are excluded. Returns of inactive corporations are excluded from all tables, except the first text table on page 5, the table for fiscal year returns on page 22, and the second table for personal holding companies presented in a separate section of the report.

Returns of income taxable under section 101 (12) (B) and Supplement U, filed on Forms 990-C and 990-T, by organizations exempt from corporate taxation under section 101 of the 1939 Code, are excluded from this report.

#### DESCRIPTION OF TABLES

The general-purpose tables presented in each *Statistics of Income, Part 2*, cover financial data reported annually on corporation income tax returns. The detailed tabulations of items and classifications are presented in 14 basic tables, 13 of which are published each year. Basic table 1, in which number of returns, net income or deficit, tax, and dividends paid are classified by States, now is prepared biennially and does not appear in this report. Also, summary tables and charts are presented throughout the text of each volume. Major trends, for the years 1944-52, can be obtained from the historical tables on pages 125 to 148.

Basic tables 2-10 include many items of assets, liabilities, income and deductions, as well as profits, statutory net income, tax liability, and dividends paid. The data are classified by 9 industrial divisions, 65 major industry groups, 205 minor industry groups, 10 size classes of total assets, 13 size classes of net income or deficit, and type of tax liability.

Additional data from returns with excess profits net income in excess of \$25,000 are tabulated in basic tables 2a and 8a. Number of returns, net income, selected excess profits data, and tax are given by major and minor industrial groups in table 2a, and by method of excess profits credit computation and by size of net income in table 8a.

Data from consolidated returns, filed for affiliated groups of corporations, are tabulated separately in table 4a, by industrial divisions, and in table 5a, by size of total assets.

Information reported on fiscal year and part year returns are included in all tabulations, and also separate tabulations of selected items from these returns appear as text tables. In all tables, values in thousand dollars are rounded and, therefore, may not add to the totals.

The amounts tabulated for income tax and excess profits tax are before any deduction for credit claimed for income and profits taxes paid to foreign countries or United States possessions.

#### NUMBER OF RETURNS, TOTAL COMPILED RECEIPTS, NET INCOME OR DEFICIT, AND TAXES, BY INDUSTRIAL DIVISIONS, 1952

Industrial divisions	Total number of returns	Returns with net income							Returns with no net income			
		Returns		Total compiled receipts	Net income	Taxes			Returns		Total compiled receipts	Deficit
		Number	Percent of division total			Total tax	Income tax	Excess profits tax	Number	Percent of division total

See p. 24 for "Explanation of Terms" and p. 23 for "Description of the Sample and Limitations of Data."

#### SUMMARY DATA FOR EACH CLASSIFICATION

##### RETURNS WITH NET INCOME AND WITH NO NET INCOME

An important classification of the returns in this volume is the distinction between returns with net income and returns with no net income. The basis for this classification is the current year net income or deficit, i. e., the difference between the total income and total deductions as reported on the return, exclusive of the net operating loss deduction. Returns with total deductions (exclusive of the net operating loss deduction) equal to or exceeding total income are classified as returns with no net income.

The number and percent of returns with net income

and with no net income in each of the nine industrial divisions are given in the preceding table. For 1952, about 66 percent of all returns report net income. The finance division has the largest percentage of returns with net income, and the mining and quarrying division the lowest. The "Nature of business not allocable" group, which contains corporations which cannot be classified in any of the other eight specified groups, does not contain a representative distribution of the returns.

#### RETURNS WITH BALANCE SHEETS

Returns with apparently complete balance sheet data number 615,698, or 92 percent of all returns filed by active corporations. The high ratio of the number of returns with balance sheets, for each industrial division,

is portrayed in the chart below. Manufacturing corporations lead with 95 percent of the number of returns showing balance sheets. In three other industrial divisions, construction, trade, and finance, 90 percent or more of the returns have balance sheets.

An unusually high portion of compiled receipts also occurs on returns with balance sheets. As the following chart shows, over 98 percent of compiled receipts for five industrial groups, public utilities, manufacturing, finance, trade, and construction, is reported on returns with balance sheets. This record is an unusually good one, since these five groups combined account for over 95 percent of the compiled receipts and the net income for all returns for 1952.

Total assets, reported as of December 31, 1952, or close of fiscal year nearest thereto, amount to almost \$722 billion. Assets of less than \$50,000 are reported by 253,029 corporations, while assets of \$100 million or more are reported by 854 corporations.

Balance sheets are available for 95 percent of returns with net income and 86 percent of returns with deficit. As shown in the first following table, this percentage is somewhat lower for returns with net income or deficit under \$5,000, but it is 100 percent for 512 returns with net income or deficit of \$10 million or more.

Returns with balance sheets have other outstanding characteristics. In addition to the high percentages of number of returns, compiled receipts, and net income mentioned above, these returns also account for 99 percent of compiled net profit or net loss, and the total tax liability for 1952. The amounts of each item of receipts and deductions, as well as total tax liability and dividends paid, are given in the second following table.

The 56,373 returns for which the balance sheet data are entirely lacking or are fragmentary are classified as returns with no balance sheets. Income, deduction, and tax data from these returns are excluded when such data are shown in association with balance sheet items.

### NUMBER OF RETURNS WITH BALANCE SHEETS, BY NET INCOME AND DEFICIT CLASSES, 1952

Net income and deficit classes	Returns with net income			Returns with no net income		
	Number of returns	Number of balance sheets	Percent of returns with balance sheets	Number of returns	Number of balance sheets	Percent of returns with balance sheets
Under \$5,000	207,201	189,029	91.2	170,947	143,599	84.0
\$5,000 under \$10,000	61,780	59,253	95.9	24,844	22,705	91.4
\$10,000 under \$15,000	37,136	35,909	96.7	11,014	10,024	91.0
\$15,000 under \$20,000	27,752	27,078	97.6	5,680	5,176	91.1
\$20,000 under \$25,000	26,357	25,801	97.9	3,612	3,338	92.4
\$25,000 under \$50,000	33,470	32,895	98.3	7,628	7,179	94.1
\$50,000 under \$100,000	20,623	20,319	98.5	3,231	3,081	95.4
\$100,000 under \$250,000	15,064	14,878	98.8	1,867	1,774	95.0
\$250,000 under \$500,000	5,968	5,886	98.6	389	381	97.9
\$500,000 under \$1,000,000	3,243	3,182	98.1	184	171	92.9
\$1,000,000 under \$5,000,000	3,020	2,990	99.0	84	82	97.6
\$5,000,000 under \$10,000,000	455	446	98.0	10	10	100.0
\$10,000,000 or more	508	508	100.0	4	4	100.0
Total	442,577	418,174	94.5	229,494	197,524	86.1

See p. 24 for "Explanation of Terms" and p. 23 for "Description of the Sample and Limitations of Data."

### RECEIPTS AND DEDUCTIONS, BY RETURNS WITH OR WITHOUT BALANCE SHEETS, 1952

Items	Aggregate	Returns with balance sheets	Returns with no balance sheets
1 Number of returns	672,071	615,698	56,373
(Thousand dollars)			
2 Receipts:			
3 Gross sales	429,513,705	424,669,963	4,843,742
3 Gross receipts from operations	79,804,962	78,694,733	1,110,229
Interest on Government obligations (less amortizable bond premium):			
4 Wholly taxable	1,931,648	1,917,749	13,899
5 Subject to surtax only	115,303	115,007	296
6 Wholly tax-exempt	279,196	278,351	845
7 Other interest	7,155,214	7,097,239	57,975
8 Rents	4,137,173	4,008,531	128,642
9 Royalties	538,158	526,660	11,498
10 Net short-term capital gain reduced by any net long-term capital loss	25,306	24,528	778
11 Net long-term capital gain reduced by any net short-term capital loss	1,353,588	1,311,692	41,896
12 Net gain, sales other than capital assets	486,261	466,590	19,671
13 Dividends, domestic corporations	2,350,246	2,325,478	24,768
14 Dividends, foreign corporations	547,695	544,420	3,275
15 Other receipts	3,068,843	3,030,198	38,645
16 Total compiled receipts	531,307,298	525,011,139	6,296,159
17 Deductions:			
18 Cost of goods sold	330,821,084	326,886,742	3,934,342
18 Cost of operations	45,365,688	44,710,198	655,490
19 Compensation of officers	8,430,011	8,282,246	147,765
20 Rent paid on business property	4,485,249	4,406,438	78,811
21 Repairs	5,067,860	5,017,115	50,745
22 Bad debts	940,537	928,879	11,658
23 Interest paid	5,013,243	4,948,830	64,413
24 Taxes paid	11,696,794	11,572,804	123,990
25 Contributions or gifts	398,579	396,085	2,494
26 Depreciation	9,604,404	9,492,670	111,734
27 Depletion	2,126,452	2,112,882	13,570
28 Amortization	831,310	827,309	4,001
29 Advertising	5,026,771	4,876,661	50,110
30 Amounts contributed under pension plans	2,551,840	2,538,428	13,412
31 Amounts contributed under other employee benefit plans	630,420	627,675	2,745
32 Net loss, sales other than capital assets	329,443	314,102	15,341
33 Other deductions	59,252,238	58,465,344	786,894
34 Total compiled deductions	492,571,923	486,504,408	6,067,515
35 Compiled net profit or net loss (16 less 34)	38,735,375	38,506,731	228,644
36 Net income or deficit (35 less 6)	38,456,179	38,228,380	227,799
37 Net operating loss deduction	395,748	381,057	14,691
38 Income tax	17,596,969	17,464,824	132,145
39 Excess profits tax	1,550,725	1,537,527	13,198
40 Total tax	19,147,694	19,002,351	145,343
41 Compiled net profit less total tax (35 less 40)	19,587,681	19,504,380	83,301
42 Dividends paid:			
42 Cash and assets other than own stock	11,262,757	11,196,079	66,678
43 Corporation's own stock	1,363,620	1,360,145	3,475

See p. 24 for "Explanation of Terms" and p. 23 for "Description of the Sample and Limitations of Data."

## INDUSTRIAL CLASSIFICATION

The industrial classification consists of 9 divisions, 65 major groups, and 205 minor groups, based, in general, on the Standard Industrial Classification issued by the Division of Statistical Standards, Bureau of the Budget, Executive Office of the President. Since the Standard Industrial Classification is designed on an establishment basis, it was necessary to reduce greatly the number of groups and to make changes in the contents of the groups in order to adapt the Standard Classification to the corporation income tax returns which are filed on an ownership basis. A change in the industrial classification between 1951 and 1952 is made to provide minor group segregation of (1) banks and trust companies other than mutual savings banks, (2) mutual savings banks, and (3) savings and loan, building and loan associations. Included in the last two groups are returns for taxable years beginning on or after January 1, 1952, of corporations whose tax-exempt status was abolished by the Revenue Act of 1951. See page 6, "Changes in the Internal Revenue Code."

The industrial classification is based on the business

activity reported on the return. When multiple businesses are reported, the classification is determined by the business activity which accounts for the largest percentage of total receipts. Therefore, the industrial groups do not reflect pure industry classifications.

In analyzing data compiled from returns classified under the major group "Insurance carriers and agents," the special provisions of law affecting life insurance companies, described on page 22 should be noted.

The relative importance of the nine industrial divisions in these corporation statistics is given for 1944-52 in the following chart. Net income (less deficit) is used as the basis of comparison.

Corporate net income of \$38.5 billion for 1952 is almost 12 percent less than the \$43.5 billion level reached in 1951, but represents a gain of about 12 percent over the 1948 net income. The 1949 net income of \$28 billion represented a decrease of 18 percent below the \$34 billion reported for the previous year 1948. However, an immediate recovery was made, since for 1950 the aggregate net income of \$43 billion was 51 percent above that for 1949. All industry divisions revealed increased

NET INCOME, BY INDUSTRIAL DIVISIONS, 1944-1952

net income for 1950, while only finance made a gain for 1949. The 1952 net income of \$38 billion is 36 percent above the \$28 billion reported for 1949.

For 1944-52, the net income for manufacturing comprises over one-half of the aggregate net income for all corporations, except for the years 1945 and 1946. For 1952, the four industrial divisions manufacturing, trade, finance, and public utilities account for 94 percent of the aggregate net income.

Net income of \$139 million reported by the agriculture industry for 1952 is a decrease of 46 percent over the 1951 net income of \$259 million and a drop of 53 percent from the agricultural peak of \$294 million for 1950. In the 9-year period 1944-52 agricultural net income rose 83 percent through 1948, and, in spite of a 19 percent slump for 1949, had gained 146 percent by 1950. The 1951-52 drop brings the 1952 net income down to within 16 percent of the 1944 amount.

Compared with 1944, the 1952 net income for the construction and mining industries show large increases of 330 percent and 209 percent, respectively. A comparable figure for manufacturing shows that net income for 1952 was 37 percent higher than for 1944. The mining and quarrying industry reached its highest point in 1948 with net income equal to over three-and-one-half times the 1944 net income. The \$599 million net income for the construction industry for 1952 is the highest reported to date.

#### TOTAL ASSETS CLASSES

The returns for which balance sheets are available are segregated into 10 classes by size of total assets as of December 31, 1952, or close of fiscal year nearest thereto. The total assets classes are based on the net amount of total assets, after reserves for depreciation, depletion, amortization, and bad debts.

Of the returns for 1952 with balance sheets, 485,000, or 79 percent, show total assets under \$250,000. The total assets for these corporations are only 5 percent of the \$722 billion of total assets reported for all corporations. In contrast to this group of the smallest corporations, the companies with total assets of \$100 million or more number only 854, but they account for 52 percent of the total assets for all corporations in the United States (see basic table 5, pages 72-73).

The number of returns in each assets size class has increased substantially since 1944. Probably the most outstanding increase relates to the returns with total assets between \$50,000 and \$500,000 (see historical table 11, pages 125-126). This group more than doubled in number from 140,000 in 1944 to 285,000 in 1952. Evidently a great many corporations of this size were either incorporated for the first time or increased their total assets to more than \$50,000.

For corporations of all sizes, the postwar growth of the size of total assets has been steady and remarkable. The following chart depicts the growth since 1944 for each of the years 1948, 1951, and 1952. For the two lowest classes "under \$250,000" and "\$250,000 under \$500,000," total assets about doubled between 1944 and

1952. For the largest class, with total assets of \$100 million or more, the assets increased from \$219 billion for 1944 to \$379 billion for 1952.

#### NET INCOME AND DEFICIT CLASSES

The returns are segregated into 13 classes by size of net income or deficit. This classification is based on the net income or deficit for the current year before any net operating loss deduction.

Many corporations have a small current-year net income. As given in the table on page 9, 207,000, or 47 percent of all 1952 active corporations with net

income have a net income of less than \$5,000. However, there are 28,000 returns with net income of \$100,000 or more, of which 508 returns show net income of \$10 million or more.

Returns with a current year deficit number 229,000 for 1952. Most of these, 74 percent, have a deficit under \$5,000. Deficits of over \$100,000 occur on 2,500 returns, of which four returns have a deficit of \$10 million or more.

#### CONSOLIDATED RETURNS

A consolidated return, which *may* be filed for a group of affiliated corporations, is based on the principle of levying the tax on the combined net income of two or more integrated concerns.

Corporations included in an affiliated group for income and profits tax purposes must be connected through stock ownership with a common parent corporation which owns stock of at least one member of the group equal to (a) at least 95 percent of the voting power of all classes of stock, and (b) at least 95 percent of each class of nonvoting stock (except stock which is limited and preferred as to dividends). In addition, these same proportions of the stock of each other member of the group must be owned by one or more of the corporations within the group. An additional tax, equal to 2 percent of the surtax net income, is imposed on corporations *electing* to file consolidated returns.

A synopsis of the Federal tax laws under which consolidated returns were elected to be filed for the years 1944 through 1952 appears on page 154.

Consolidated returns were filed for 2,169 affiliated groups. The data cover 9,019 subsidiary corporations *in addition to* the common parent corporations. These returns show compiled receipts of \$54 billion, net income less deficit of \$4 billion, and total assets of \$73 billion. Income and profits taxes on the 1952 consolidated returns, including the additional 2 percent surtax, amount to \$1.7 billion. About 72 percent of the 1952 consolidated returns have a predominant business activity classified as manufacturing, trade or finance.

The number of corporations filing consolidated returns for 1952 increased by 12 percent over 1951 (see following table). Likewise, the number of subsidiaries included therein increased by 19 percent between the 2 years. Similar data for manufacturing, the industrial group with the largest number of consolidated returns, show increases of 24 percent in number of consolidated returns and 24 percent in the number of subsidiaries included therein.

#### NUMBER OF CONSOLIDATED RETURNS AND SUBSIDIARIES, BY INDUSTRIAL DIVISIONS, 1952 AND 1951

Industrial divisions	Number of consolidated returns		Number of subsidiaries	
	1952	1951	1952	1951
All industrial divisions.....	2,169	1,940	9,019	7,551
Agriculture, forestry, and fishery.....	17	18	69	55
Mining and quarrying.....	91	87	346	253
Construction.....	98	96	272	255
Manufacturing.....	665	535	2,402	1,932
Public utilities.....	189	173	1,076	1,065
Trade.....	479	426	1,807	1,379
Finance, insurance, real estate, and lessors of real property.....	423	412	1,605	1,423
Services.....	204	184	1,435	1,176
Nature of business not allocable.....	3	9	7	12

See p. 24 for "Explanation of Terms." Data not subject to sampling variability since all these returns were tabulated.

#### TYPE OF TAX LIABILITY

Taxable returns are classified in basic table 8, page 104, according to those with income tax liability and those with both income tax and excess profits tax liability. A corporation with net income is not subject to the excess profits tax if (1) the adjustments under section 433 result in excess profits net income of \$25,000 or less, (2) the credits allowed under section 431 are greater than the excess profits net income, or (3) it is exempt under section 454 of the 1939 Code.

A secondary classification is also used in basic table 8 to permit segregation of returns showing the alternative income tax. This tax is available to corporations with a net capital gain which results from the *excess* of "net long-term capital gain" over "net short-term capital loss." The alternative tax results in a somewhat lower income tax than would otherwise be imposed, since it consists of a tax at the regular income tax rates on the amount of income in excess of the net capital gain *plus* a tax of 26 percent on net capital gain.

Of the 404,000 taxable 1952 returns, 373,000 returns have income tax *only*, while a much smaller number, 31,000, have *both* income and excess profits tax. Since more of the latter group have higher incomes, \$8,395 million, or 48 percent, of the total income tax liability of \$17,597 million is reported on these 31,000 returns.

The total income tax of \$17,597 million contains an alternative income tax of \$11,138 million. If the alternative tax had not been in effect, the income tax liability would have been increased by \$223 million, or 1 percent, to \$17,820 million.

#### EXCESS PROFITS NET INCOME AND METHODS OF CREDIT COMPUTATION

The excess profits net income is derived from the net income by making certain adjustments consisting principally of the exclusion of capital gains and losses, both long- and short-term, and dividends received from foreign and domestic corporations. (For specific adjustments in arriving at the excess profits net income see facsimile of Schedule EP, Form 1120, page 175). An excess profits credit based on net income of the base period or on invested capital, and an adjustment for unused excess profits credit from prior years are allowed in arriving at the adjusted excess profits net income on which the excess profits tax is imposed. A minimum credit of \$25,000 makes the excess profits tax ineffective for returns on which the excess profits net income is \$25,000 or less. Methods of computing the excess profits credit follow, and data are tabulated for these returns separately in basic tables 2a and 8a on pages 36-41 and 105-107.

#### Income method

The excess profits credit determined under the income method is based on the average excess profits net income for the base period years 1946-49. It is, in general, the sum of (a) 83 percent of the average base period net income, plus (b) 12 percent of the base period capital addition, plus (c) 12 percent of the capital addi-

tion (or minus 12 percent of the net capital reduction) for the taxable year. Three principal rules are provided for determining the average base period net income. They are:

(a) *General average.*—The general average base period net income is the average excess profits net income for the 3 years of the base period, selected under prescribed rules, which produce the highest base period net income.

(b) *Alternative based on growth.*—The alternative average base period net income is determined from the income experience of the last 12 or 24 months of the base period, or the 12 months beginning July 1, 1949, and ending June 30, 1950, whichever is highest. In certain cases the last 6 months of 1948 may be substituted for the last 6 months of 1949. This alternative method is restricted to companies meeting prescribed tests with respect to size of total assets and increases in gross receipts, payroll, or sales of a product not generally available before January 1, 1946. Under this method credit for base period capital addition is disallowed.

(c) *Industry rate of return.*—The average base period net income may be determined by use of an industry rate of return, in lieu of the taxpayer's own experience, for all or part of the base period, by certain corporations with abnormalities or changes in product, services, or capacity during the base period, new corporations, and those belonging to a depressed industry subgroup. The industry rates of return and the adjusted rates for depressed industry subgroups are shown on pages 204 and 202-203, respectively, facsimile of Instructions for Schedule EP, Form 1120. Special rules are provided for credit for capital additions.

### Invested capital method

The excess profits credit based on invested capital is, in general, computed by applying the following rates to the amount of invested capital:

First \$5,000,000, 12 percent;

Next \$5,000,000, 10 percent; and

Over \$10,000,000, 8 percent.

The amount of invested capital used in this computation may be based either on assets or on the historical invested capital. An alternative method is provided for certain regulated public utilities.

(a) *Assets.*—Invested capital determined by the "assets" method consists generally of the sum of (1) the excess of total assets over total liabilities at the beginning of the taxable year, (2) 75 percent of the average borrowed capital for the year, and (3) the recent loss adjustment. This amount is increased by certain new capital acquired during the year and decreased by certain capital distributions during the year. Credit for capital added since the beginning of the first taxable year ending after June 30, 1950, by corporations with invested capital over \$5 million, is computed at 12 percent.

(b) *Historical.*—The historical invested capital consists, in general, of money and property previously paid in for stock, or as paid-in surplus, or as a contribution to capital, plus the accumulated earnings and profits of the corporation as of the beginning of the taxable year, plus 75 percent of the average daily borrowed capital.

(c) *Alternative excess profits credit of regulated public utilities.*—This credit, in general, consists of the amount of the corporation's normal tax and surtax plus 6 percent or 7 percent (depending upon the type of utility) of the sum of the adjusted invested capital and the average borrowed capital for the taxable year, reduced by interest on borrowed capital for the taxable year. An adjustment is made for inadmissible assets.

### Minimum credit

The 1939 Code provides a minimum excess profits credit of \$25,000. When the amount of the credit computed under either of the above methods, plus the unused excess profits credit adjustment, is less than \$25,000, the credit may be raised to this amount.

Table A.—NUMBER OF RETURNS, NET INCOME OR DEFICIT, AND TAXES—FISCAL YEAR RETURNS, BY MONTH IN WHICH FISCAL YEAR ENDED

Fiscal year ending	Total number of returns	Returns with net income				Returns with no net income	
		Number of returns	Net income (Thousand dollars)	Income tax (Thousand dollars)	Excess profits tax (Thousand dollars)	Number of returns	Deficit (Thousand dollars)
	(1)	(2)	(3)	(4)	(5)	(6)	(7)

## FISCAL YEAR RETURNS

Fiscal year returns, which number 257,000, are segregated for the tabulation of the preceding tables A-D. The number of returns, net income or deficit, and tax, by month in which fiscal year ended, are shown in table A. Returns with net income and with no net income are classified by major industrial groups and by month in which fiscal year ended in tables B and C. Table B contains number of returns and net income or deficit, and table C, for returns with balance sheets, shows number of returns and total assets. Table D classifies these returns by size of net income or deficit and shows number of returns, net income or deficit, and tax.

Fiscal year returns in this report are those ending in the period July 1952 through June 1953. Data from these returns are included in all tabulations except the table for part year returns below.

## PART YEAR RETURNS

Part year return data are summarized below. These 33,000 returns are filed for a period of less than 12 months and represent reorganizations, newly organized businesses, liquidations, and changes from calendar year to fiscal year basis, or vice versa. Part year returns with the greater part of the income period in 1952 are included in all tabulations in this volume, except those for fiscal year returns, A through D, above.

## PART YEAR RETURNS OF CORPORATIONS, 1952

Total number of returns.....	32,981
Returns with net income:	
Number of returns.....	15,232
Net income..... thousand dollars.....	335,695
Income tax..... thousand dollars.....	131,433
Excess profits tax..... thousand dollars.....	12,855
Total tax..... thousand dollars.....	144,288
Returns with no net income:	
Number of returns.....	17,749
Deficit..... thousand dollars.....	107,039

See p. 24 for "Explanation of Terms" and p. 23 for "Description of the Sample and Limitations of Data."

## LIFE INSURANCE COMPANIES

The amendments introduced by the Revenue Act of 1951 with respect to taxation of life insurance companies, applicable only to the tax year 1951, are extended to cover the 1952 tax year by Public Law 468, 82d Congress.

Life insurance companies are required to report only their investment income, i. e., interest, dividends, and rents, and may deduct only expenses incident thereto and wholly tax-exempt interest in arriving at net income. The deductions reported are taxes and depreciation, tabulated under their respective titles, and investment and real estate expenses, tabulated as "Other deductions." Companies deriving a portion of their income from contracts other than life insurance, annuities, or noncancelable health and accident insurance make an adjustment to the normal-tax net income for certain non-life insurance reserves. Companies earning less than 105 percent of their required interest are allowed a reserve interest credit (computed under the provisions of section 203A (b) of the 1939 Code) against the net income for income tax purposes. In lieu of the regular normal tax and surtax rates, the 1952 adjusted normal-tax net income is taxed at 3¾ percent on the first \$200,000 and 6½ percent on the amount in excess of \$200,000. For the excess profits tax, a deduction based on a reserve and other policy liability credit, adjusted for nonlife insurance reserves, is allowed, and the regular corporate excess profits tax is imposed.

Returns of 882 life insurance companies show net investment income of \$2,204,091,000. When reduced by the net deficit of \$240,000 reported on 38 returns, the net investment income of the life insurance group as a whole is \$2,203,851,000.

The adjustment for nonlife insurance reserves, representing additional taxable income derived from nonlife insurance business, is \$21,644,000 (before multiplication required by law as an offset to the life insurance company tax rate). Of this amount \$21,532,000 is reported on returns with balance sheets.

Companies reporting net income but earning less than 105 percent of their required interest claimed a reserve interest credit against net income of \$36,019,000, with \$30,923,000 of this amount appearing on returns with balance sheets. Income tax of \$144,098,000 and excess profits tax of \$34,000 is reported.

The 1952 figures, as compared with those for 1951, show an increase of 11 percent in net investment income for the group, a 20-percent increase in taxable income from nonlife insurance business, and a total tax increase of 13 percent. Claims for reserve interest credit declined 21.8 percent from the \$46,036,000 claimed in 1951.

### DESCRIPTION OF THE SAMPLE AND LIMITATIONS OF DATA

A probability sample was used as the basis of data tabulated from 1952 corporation tax returns. More than 170,000 returns were selected in 64 District Directors' offices. These represented approximately one-fourth of the 705,500 corporate returns in the population.

#### NATURE OF SAMPLE

Returns were selected at three sampling rates: 100 percent, 20 percent, and 10 percent. The 100 percent area, which accounted for 106,957 returns and which reflects a reduction of 133,000 returns from 1951, consisted of the following five groups of returns:

1. Taxable returns with total income of \$200,000 and over.
2. Returns with total assets of \$500,000 and over:
  - a. Taxable returns with total income under \$200,000.
  - b. Nontaxable returns.
3. Taxable and nontaxable consolidated returns.
4. Returns of life insurance companies (Form 1120L).
5. Returns of mutual insurance companies (Form 1120M).

In addition, personal holding company returns, Form 1120H, were included 100 percent. The data for these returns were not included in the preliminary tabulations but appear in this report.

The 20 percent sample was selected from a population of 38,830 returns, and was stratified as follows:

- Returns with total assets between \$250,000 and \$500,000:
- a. Taxable returns with total income under \$200,000.
  - b. Nontaxable returns.

The 10 percent area with a population of 559,710 returns was stratified as follows:

- Returns with total assets under \$250,000:
- a. Taxable returns with total income under \$200,000.
  - b. Nontaxable returns.

A major change in the 1952 sample design was that the industry stratification used in the 1951 sample design could no longer be used because of decentralization of sample selection. The 1951 sample was selected in

Washington from the total population sent to the National Office. Sampling in the National Office permitted extensive stratification and close, immediate sample selection control. The 1952 sample, however, was selected in the District Directors' offices. Field sample selection required a change in the sample design, sampling procedures, and sample controls in order to make selection administratively feasible.

Since there was no stratification by industry group, the number of returns in each industry group is now subject to sampling error. In the 1951 sample, 100 percent coverage of returns in 141 of these groups eliminated sampling errors in the number of returns in those groups.

As a result of the inclusion of a large number of returns and classes of returns in the 100-percent area, there is little sampling variation in the number of returns and dollar amounts derived *primarily* from these returns. The 100-percent coverage of returns in 1952 accounts for about 90 percent of both total assets and total net income of the entire population and 40 percent of total deficit income.

The maximum sampling variabilities in the basic statistical totals for all industrial groups combined are as follows:

	Percent
Total number of returns.....	± 0.15
Total net income.....	± 0.10
Total deficit income.....	± 0.70
Total assets.....	± 0.20

These limits would, in the long run, be exceeded in about 5 out of 100 similar samples of the 1952 corporation returns.

Sampling variabilities for selected items within an illustrative minor industry group, "Special industry machinery manufacturing," are shown below as plus or minus percentages of the actual values.

Item	Percentage variation	
	Returns with net income	Returns with no net income
Number of returns.....	± 4	± 8
Gross sales.....	± 3	± 15
Gross receipts.....	± 3	± 100
Compensation of officers.....	± 7	± 25
Net income or deficit.....	± 2	± 12
Tax liability.....	± 2	---
Total assets.....	± 2	± 10

#### OTHER LIMITATIONS OF DATA

In addition to sampling variation, the data are subject to errors resulting from underreporting and nonreporting, population coverage, sample selection, and data processing. Reporting biases and undercoverage are more serious errors than those associated with selection of sample and processing operations; the latter are more easily controlled. There is no simple method for controlling nonsampling bias comparable to that for controlling random variability.

A very substantial number of corporations, particularly large and medium sized, engage extensively in activities generally recognized to be in two or more

industries. On the other hand, in classifying corporations by industrial groups, the entire experience of each corporation is shown in the single class which accounts for the largest percent of total receipts. Consequently, statistics shown for industrial classes include data which do not relate to the industry indicated, but rather reflect other activities of corporations whose principal business was reported to be in the industry shown.

Use of tabulations is also limited by changes in tax laws which adversely affect year-to-year comparability and historical trend analysis.

## EXPLANATION OF TERMS

The following definitions apply particularly to current year data, but in most instances are also applicable to items shown in the historical tables 11-16. When used with historical data, the "Comparability of Historical Data," pages 121-124 and "Synopsis of Federal Tax Laws," pages 151-157, should also be consulted.

**Accounts and notes payable**, shown in table 6, consists of bonds, notes, and mortgages payable with original maturity of less than 1 year and accounts payable.

**Adjusted excess profits net income.** See "Excess profits income and credits."

**Alternative tax** consists of a tax of 26 percent of net long-term capital gain reduced by any net short-term capital loss, plus normal tax and surtax at the usual rates on the balance of normal-tax and surtax net incomes, and is reported only if it is less than the regular normal tax and surtax. Alternative tax is tabulated in "Income Tax." (See *Synopsis of Federal Tax Laws, 1944-52*, Table A, for maximum tax rate on long-term gain prior to 1952.)

**Amortization of emergency facilities** for 1952 is the deduction provided by section 124A of the Internal Revenue Code (1939) with respect to the amortization over a 60-month period of emergency facilities constructed or acquired after December 31, 1949, and certified as necessary in the national defense.

**Assets and liabilities** are tabulated as of December 31, of the tax year or close of fiscal year nearest thereto. Adjustments are made in tabulating the data as follows: (1) reserves for depreciation, depletion, bad debts, etc., reported under liabilities, are transferred to the appropriate asset reserve accounts, and (2) deficit in surplus, reported under assets, is transferred to liabilities as a negative amount. "Total assets" and "Total liabilities" are decreased by the amounts of such adjustments.

**Bonds and mortgages payable** shown in table 6 are those with original maturity of 1 year or more.

**Capital assets**, reported on the balance sheet and tabulated as "Gross capital assets," consists of (1) depreciable tangible assets such as buildings, manufacturing and transportation facilities, furniture and fixtures, (2) depletable tangible assets—natural resources, and (3) intangible assets such as patents, franchises, formulas, leaseholds, goodwill, and trade-marks. In table 6 the amounts tabulated as "Capital assets less reserves" also include land.

Treatment of gain or loss from the sale or exchange of these properties is shown under "Capital gain or loss" and "Net gain or loss from sales other than capital assets."

**Capital gain or loss** is the gain or loss from sale or exchange of "Capital assets" as defined by section 117 of the 1939 Code, and the *aggregate net gain* from sale or exchange of certain "property used in the trade or business" and from involuntary conversion of such property and of "Capital assets" held for more than 6 months.

An alternative tax may be computed for returns with a net long-term capital gain in excess of net short-term capital loss.

Losses from sale or exchange of capital assets are allowed only to the extent of capital gains, but a net capital loss, reduced by capital gains in intervening years, may be carried over to the five succeeding taxable years. An aggregate net loss from sale or exchange of "property used in the trade or business" and from involuntary conversion of such property and of "capital assets" is treated as an ordinary loss.

In computing capital gains and losses—

"Capital assets" (as defined by section 117) consists of all property held by taxpayer *except*: (1) property properly includible in inventory, or property held primarily for sale in the ordinary course of trade or business; (2) depreciable property and real property used in trade or business; (3) Government obligations issued on or after March 1, 1941, on a discount basis and payable without interest at a fixed maturity date not exceeding 1 year from date of issue; and (4) certain copyrights, literary, musical, or artistic compositions or similar properties.

"Property used in the trade or business" means real property and depreciable property, used in the business and held for more than 6 months (but not certain copyrights, etc.), and certain timber, coal, unharvested crops, and livestock.

"Short-term" pertains to gains or losses from property held 6 months or less; "long-term" to property held over 6 months.

Capital gains and losses are treated historically in Table B, of the *Synopsis of Federal Tax Laws*.

**Capital stock** shown in table 6 consists of both preferred and common stock.

**Compiled receipts.** See "Total compiled receipts."

**Consolidated returns** are defined in text, page 12. See also *Synopsis of Federal Tax Laws 1944-52*, Table C, page 154.

**Contributions or gifts.** This deduction is limited by law to 5 percent of net income as computed without the benefit of this deduction.

**Cost of goods sold and cost of operations.** Identifiable amounts of taxes, depreciation, depletion, amortization, advertising, pension and other benefit plan contributions reported in these costs are transferred to their specific headings. For years prior to 1951 only amortization and pension plan contributions were so treated.

"Cost of goods sold" is reported for transactions in which inventories are an income-determining factor; "Cost of operations" is reported for all other transactions.

**Deficit.** See "Net income or deficit."

**Dividends paid in cash and assets other than own stock** exclude liquidating dividends.

**Dividends received.** "Dividends, domestic corporations" consists of dividends received from domestic corporations subject to income taxation under chapter 1 of the Internal Revenue Code (1939) reported in columns 2 and 3, schedule C, page 2, Form 1120 for 1952. "Dividends, foreign corporations" is the amount reported in column 4 of schedule C.

Credits against the net income are allowed with respect to dividends from these domestic corporations and certain dividends from foreign corporations doing a substantial volume of business within the United States. (No credit was allowed for dividends from foreign corporations prior to 1951.)

Dividends from other corporations, reported in column 5 of schedule C, are included in "Other receipts." Such dividends include those from China Trade Act corporations, and corporations deriving a large percentage of their gross income from sources within a possession of the United States, and dividends on share accounts in Federal savings and loan associations issued after March 28, 1942.

**Employee benefit plans** other than those within the purview of section 23 (p) of the 1939 Code include insurance plans, noninsured death benefits, health, accident, and other welfare benefits deductible under section 23 (a). Such amounts were formerly tabulated in "Other deductions."

**Excess profits income and credits.** The **adjusted excess profits net income** is the excess profits net income less the sum of the excess profits credit and the unused excess profits credit adjustment. Where the provisions of section 430 (e) (maximum tax for new corporations) are applicable, the excess profits tax is computed directly from the excess profits net income and the amounts of excess profits credit and adjusted excess profits net income are not always reported. For part year returns, the amount of adjusted excess profits net income has been placed on an annual basis.

The **excess profits credit** is the current year credit against the excess profits net income. Methods of computing the credit are shown on pages 12-13.

The **excess profits net income** is obtained from the net income by eliminating or adjusting certain items of income and deductions, consisting principally of the exclusion of capital gains and losses, both long- and short-term, and dividends received from foreign and domestic corporations. For part year returns, the amount of excess profit net income has been placed on an annual basis.

The **unused excess profits credit adjustment** is the carryover of unused excess profits credit from preceding taxable years as reported on the return and does not take into account revisions that may subsequently be made as

a result of a carryback from the succeeding year. Unused excess profits credit accrues when the allowable credit for a tax year exceeds the excess profits net income for such year computed without regard to the net operating loss deduction. Unused credit is first carried back as an offset to the excess profits net income of the first preceding year and the remainder is carried forward to succeeding taxable years. The carryforward period is 5 years.

**Excess profits tax** for 1952 is the tax imposed by section 430 of the Internal Revenue Code (1939) upon the adjusted excess profits net income. The excess profits tax tabulated for 1952 is *after* the limitations provided by sections 430 (a) (1) (C) and 430 (e), and *after* adjustments provided by sections 430 (d), 450, 456, and 457, but *before* adjustments under section 452 and *before* credit for taxes paid to a foreign country. For excess profits tax imposed in prior years, see Historical Section.

**Gross receipts from operations** consists of amounts received from transactions in which inventories are not an income-determining factor. Cost of operations is shown as a deduction.

**Gross sales** consists of amounts received for goods, less returns and allowances, in transactions where inventories are an income-determining factor. Cost of goods sold is shown as a deduction.

**Inactive corporations** are those reporting no item of income or deduction. Such returns are filed in accordance with the regulation that a corporation having an existence during any portion of a taxable year is required to file a return. Returns of inactive corporations are not included in the various tabulations, but the number filed is shown in the summary data, page 5.

**Income tax** consists of normal tax, surtax, and alternative tax. Tabulated with the income tax for returns with net income is a small amount of tax reported on returns with no net income under the special provisions applicable to certain mutual insurance companies, other than life or marine.

The income tax tabulated is *before* credit for foreign taxes paid.

**Industrial divisions and groups.** See description of this classification, pages 10-11.

**Interest on Government obligations.** Interest on obligations of the United States issued after September 1, 1917 (other than postal savings certificates for deposits made before March 1, 1941), and on obligations of corporations organized under act of Congress is exempt from taxation only to the extent provided by the act authorizing issuance of the obligation.

Interest reported on obligations described on lines 10 (a) and (b), page 1, Form 1120 for 1952, is subject to surtax only. That reported on obligations described on line 10 (c) is wholly taxable.

Wholly tax-exempt interest, received on obligations of States, Territories, or political subdivisions thereof, the District of Columbia, or United States possessions, and from certain obligations of the United States or its instrumentalities is reported as item 19, schedule M, page 4,

Form 1120 for 1952. The amounts tabulated are less amortizable bond premium.

**Investments.** "Investments, Government obligations" consists of obligations of all governmental units within the United States, its possessions and Territories. Where investments are not segregated as between "Government" and "Other" the entire amount is included in "Other investments." In table 6, "Investments" is the total amount of investments, both Government and non-Government.

**Liabilities.** See "Assets and liabilities."

**Net gain or loss, sales other than capital assets** is the net gain or loss from the sale or exchange of (1) depreciable and real property used in trade or business, (2) short-term noninterest-bearing Government obligations issued on or after March 1, 1941, on a discount basis, (3) certain copyrights, literary, musical, or artistic compositions, or similar properties, and (4) securities by dealers. (See "Capital gain or loss" for treatment of certain depreciable and real property used in trade or business and held over 6 months.)

**Net income or deficit** is the difference between the total income and the total deductions reported, exclusive of the net operating loss deduction.

**Net operating loss deduction** consists of the net operating loss carryover reported on the return and does not take into account a carryback of net operating loss from a succeeding tax year which may subsequently be made.

The net operating loss is the excess of the deductions allowed by chapter 1 of the 1939 Code over the gross income after certain adjustments. A loss is first carried back against the net income of certain preceding taxable years and the excess, if any, may then be carried over to certain succeeding taxable years.

A net operating loss sustained in a taxable year beginning in 1948 or 1949 could be carried back 2 years, and carried forward 3 years. For taxable years beginning after December 31, 1949, the carryback period is 1 year and the carryover 5 years.

**Number of returns excludes** returns of inactive corporations, except in the text table, page 5, and Historical Table 11 where "Total number of returns" includes returns of inactive corporations.

**Number of subsidiaries** consists of the number of affiliated corporations *other than* the common parent corporations which are included in consolidated income tax returns.

**Other assets** are those not reported separately on the return and include sinking funds; other funds; deferred charges; organization expenses; prepaid and suspense items; interest, discount, coupons, and dividends receivable; and guaranty deposits. "Other assets" of life insurance companies includes market value of real estate and bonds and stocks in excess of book value; interest, rents, and premiums due; and agents' balances.

**Other deductions** includes (1) negative amounts reported under income, (2) losses by abandonment, fire, storm, shipwreck, or other casualty (including war losses), and theft, (3) salaries and wages not deducted elsewhere on the return, and (4) amounts not otherwise reported, such as: Administrative, general, and office expenses; bonuses and commissions; delivery charges; freight and shipping expenses; payments in connection with lawsuits; research expenses; sales discount; selling costs; travel expenses; unrealized profits on installment sales; and Federal Deposit Insurance Corporation assessments reported by banks.

**Other liabilities** includes deferred and suspense items; accrued expenses; dividends payable; funds held in trust; borrowed securities; outstanding coupons and certificates; and overdrafts. "Other liabilities" of life insurance companies includes the net value of outstanding policies and annuities, and borrowed money. "Other liabilities" of banks includes deposits (time, savings, demand, etc.) and bank notes in circulation.

**Other receipts** includes amounts not elsewhere reported on the return such as: Profit from sales of commodities other than the principal commodity in which the corporation deals; income from minor operations; bad debts recovered; cash discounts; income from claims, license rights, judgments, and joint ventures; net amount under operating agreements; net profit from commissaries; profit on dealing in futures; profit on prior years' collections (installment basis); profit on purchase of corporation's own bonds; recoveries of bonds, stocks, and other securities; refunds for cancellation of contracts, for insurance, management expenses, and processing taxes; and income from sales of scrap, salvage, or waste.

**Part year returns** are described in text, page 22.

**Pension plans** include pension, annuity, stock bonus, profit-sharing, or other deferred compensation plans, contributions to which are deductible by the employer under section 23 (p) of the 1939 Code.

**Rents** received consist of gross amounts. Depreciation, repairs, interest, taxes, and other expenses, which are deductible from gross rents, are included in the respective deduction items.

**Repairs** is the cost of incidental repairs, including labor and supplies, which do not add materially to the value of the property or appreciably prolong its life.

**Returns with no net income** are those returns with total deductions (exclusive of the net operating loss deduction) equal to or exceeding total income.

**Royalties** consists of gross amounts received. Depletion based on royalties is reported in deductions.

**Surplus and undivided profits** consists of paid-in or capital surplus and earned surplus and undivided profits. In table 6 the amounts tabulated for this item

also include surplus reserves. "Deficit" consists of negative amounts of earned surplus and undivided profits.

**Taxes paid** excludes (1) Federal income and excess profits taxes, (2) estate, inheritance, legacy, succession, and gift taxes, (3) income and profits taxes paid to a foreign country or possession of the United States if any portion is claimed as a tax credit, (4) taxes assessed against local benefits, (5) Federal taxes paid on tax-free

covenant bonds, and (6) unidentifiable amounts of taxes reported in "Cost of goods sold" and "Cost of operations."

**Total compiled receipts** excludes nontaxable income other than tax-exempt interest on certain Government obligations. For items included, see table 3 or Historical Table 13.

**Unused excess profits credit adjustment.** See "Excess profits income and credits."

## TABLES FOR CORPORATION INCOME TAX RETURNS, 1952

	Page
1. Number of returns, net income or deficit, taxes, and dividends paid— all returns, by States and Territories (not prepared for 1952) . . .	30
2. Number of returns, total compiled receipts, net income or deficit, taxes, and dividends paid—all returns, by major and minor in- dustrial groups . . . . .	31
2a. Number of returns, net income, selected excess profits data, and taxes—returns with excess profits net income over \$25,000, by major and minor industrial groups . . . . .	36
3. Receipts and deductions—all returns, by major industrial groups . .	42
4. Assets and liabilities, receipts and deductions—returns with balance sheets, by major industrial groups . . . . .	54
4a. Assets and liabilities, receipts and deductions—consolidated returns with balance sheets, by industrial divisions . . . . .	70
5. Assets and liabilities, receipts and deductions—returns with bal- ance sheets, by total assets classes . . . . .	72
5a. Assets and liabilities, receipts and deductions—consolidated re- turns with balance sheets by total assets classes . . . . .	74
6. Selected assets, liabilities, and receipts—returns with balance sheets, by total assets classes and major industrial groups . . . . .	76
7. Number of returns, net income or deficit, taxes, and dividends paid— all returns, by net income and deficit classes and industrial divisions . . . . .	102
8. Type of tax liability—all returns, by net income and deficit classes . .	104
8a. Number of returns, net income, selected excess profits data, and taxes—returns with excess profits net income over \$25,000, by method of excess profits credit computation and net income classes . . . . .	105
9. Dividends received and interest received on Government obliga- tions—all returns, by net income and deficit classes . . . . .	108
10. Dividends paid—all returns, by net income and deficit classes . . .	109

## CORPORATION INCOME TAX RETURNS FOR 1952

Table 1.—NUMBER OF RETURNS, NET INCOME OR DEFICIT, TAX, AND DIVIDENDS PAID—ALL RETURNS BY STATES AND TERRITORIES

This table is not prepared for 1952. Table was published in *Statistics of Income for 1951, Part 2*, and will also be published in *Statistics of Income for 1953, Part 2*.

Table 2.—NUMBER OF RETURNS, TOTAL COMPILED RECEIPTS, NET INCOME OR DEFICIT, TAXES, AND DIVIDENDS PAID—ALL RETURNS, BY MAJOR AND MINOR INDUSTRIAL GROUPS

	Total number of returns	Returns with net income					Returns with no net income					
		Total compiled receipts (Thousands of dollars)	Net income (Thousands of dollars)	Taxes		Dividends paid in cash and assets other than own stock (Thousands of dollars)	Total compiled receipts (Thousands of dollars)	Deficit (Thousands of dollars)	Dividends paid in cash and assets other than own stock (Thousands of dollars)			
				Total tax (Thousands of dollars)	Income tax (Thousands of dollars)							
	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)
1 All industrial groups.....	672,071	442,577	486,441,344	40,431,697	19,147,694	17,596,969	1,550,725	11,153,098	229,494	44,865,954	1,975,518	129,659

## CORPORATION INCOME TAX RETURNS FOR 1952

Table 2.—NUMBER OF RETURNS, TOTAL COMPILED RECEIPTS, NET INCOME OR DEFICIT, TAXES, AND DIVIDENDS PAID—ALL RETURNS, BY MAJOR AND MINOR INDUSTRIAL GROUPS—Continued

		Returns with net income				Returns with no net income			
		Total number of returns	Total compiled receipts (Thousand dollars)	Net income (Thousand dollars)	Taxes	Dividends paid in cash and assets other than own stock (Thousand dollars)	Number of returns	Total compiled receipts (Thousand dollars)	Dividends paid in cash and assets other than own stock (Thousand dollars)
		(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
Manufacturing—Continued									
64	Lumber and wood products, except furniture.....	5,934	3,920	5,060,647	411,894	164,367	159,303	5,064	88,432
65	Logging camps, logging contractors, sawmills, and planing mills.....	1,036	1,996	2,854,457	277,946	100,150	100,251	1,209	691,207
66	Millwork, plywood, and prefabricated structural wood products.....	1,301	865	1,257,541	76,634	36,158	33,937	2,221	208,501
67	Wooden containers.....	536	397	491,482	31,624	15,276	14,520	1,026	35,806
68	Other wood products.....	1,061	662	1,573,867	25,690	11,473	10,865	608	75,724
69	Furniture and fixtures.....	4,733	3,109	3,003,258	213,781	111,916	100,317	11,599	383,179
70	Furniture—household, office, public building, and professional.....	3,472	2,274	2,527,063	184,096	98,076	87,926	10,150	329,290
71	Partitions, shelving, lockers, and office and store fixtures.....	562	399	203,664	12,897	6,320	5,665	655	19,059
72	Window and door screens, shades, and venetian blinds.....	554	324	226,280	13,533	5,838	5,256	582	17,160
73	Other furniture and fixtures.....	145	112	46,251	3,255	1,682	1,470	212	7,670
74	Paper and allied products.....	2,809	2,025	7,523,728	967,088	534,073	480,242	53,831	347,653
75	Pulp, paper, and paperboard.....	423	320	4,373,919	665,244	368,695	332,779	35,916	106,036
76	Paper bags and paperboard containers and boxes.....	1,329	969	1,821,898	187,834	103,498	91,359	12,139	115,440
77	Pulp goods and other converted paper products.....	1,057	736	1,327,911	114,010	61,880	56,104	5,776	126,177
78	Printing, publishing, and allied industries.....	13,455	9,672	7,251,273	324,523	299,551	299,551	24,972	722,531
79	Newspapers.....	2,822	2,078	2,709,761	299,117	154,605	143,042	11,563	182,487
80	Periodicals.....	1,389	959	1,032,064	83,098	42,541	38,017	4,524	140,516
81	Books.....	709	389	564,851	50,416	24,700	23,401	1,299	76,034
82	Commercial printing, including lithographing.....	5,772	4,231	2,114,084	153,639	74,854	68,615	6,239	258,962
83	Other printing and publishing.....	2,330	1,766	602,255	42,631	18,513	17,447	1,066	45,780
84	Printing, publishing, and allied industries not allocable.....	433	249	228,258	18,998	9,310	9,029	281	18,792
85	Chemicals and allied products.....	7,628	4,655	17,451,511	2,297,826	1,276,566	1,117,635	158,931	616,639
86	Industrial inorganic chemicals.....	318	196	1,270,042	149,537	80,951	73,627	7,324	2,208
87	Industrial organic chemicals, including plastic materials, synthetic rubber, and synthetic fibers.....	520	308	3,266,797	775,111	454,917	363,406	91,511	68,802
88	Soap and glycerin, cleaning and polishing preparations, etc.....	1,611	915	1,702,282	272,962	144,855	134,638	10,217	90,479
89	Paints, varnishes, lacquers, etc.....	1,019	782	1,979,306	131,051	68,241	63,953	4,288	59,158
90	Perfumes, cosmetics, and other toilet preparations.....	569	273	399,384	39,939	21,395	19,131	2,264	42,395
91	Fertilizers.....	395	341	885,855	62,400	31,924	29,524	2,198	41,301
92	Flax and fats, animal and vegetable, except edible cooking oils.....	512	273	1,550,997	50,098	24,589	24,151	438	8,540
93	Other chemical products.....	1,266	810	1,465,580	176,351	98,072	85,681	12,386	222,627
94	Chemicals and allied products not allocable.....	331	173	3,180,328	526,405	293,110	266,872	26,238	74,142
95	Petroleum and coal products.....	697	476	24,482,556	661,833	1,768,903	650,285	11,548	12,692
96	Petroleum refining.....	290	186	23,427,045	1,680,726	614,950	606,562	8,388	483,694
97	Other petroleum and coal products.....	407	290	1,055,511	88,177	46,883	43,723	3,160	2,702
98	Rubber products.....	734	523	4,818,770	387,998	219,817	191,458	28,359	128,412
99	Tires and inner tubes.....	35	33	3,889,406	315,648	180,910	156,167	24,743	11,484
100	Other rubber products, including rubberized fabrics and clothing.....	699	490	929,364	72,350	38,907	35,291	3,616	116,928
101	Leather and products.....	2,921	1,908	2,954,884	134,440	65,961	61,879	4,082	379,815
102	Leather, tanned, curried, and finished.....	438	240	522,160	20,564	9,020	8,963	57	393,354
103	Footwear, except rubber.....	1,074	828	1,893,793	89,086	44,588	42,127	2,461	93,354
104	Other leather products.....	1,405	840	538,931	24,790	12,353	10,789	1,564	191,010
105	Stone, clay, and glass products.....	4,209	2,988	5,328,165	669,465	374,283	330,369	43,914	300,048
106	Glass and glass products.....	635	482	1,331,277	166,601	92,473	82,380	10,993	102,966
107	Cement (hydraulic).....	88	73	650,684	145,621	85,305	74,779	10,526	15,534
108	Structural clay products.....	670	500	627,280	56,607	28,093	26,479	1,614	37,112
109	Pottery and related products.....	445	254	297,910	21,760	11,025	10,291	734	60,075
110	Concrete, gypsum, and plaster products.....	1,386	1,000	968,500	115,994	63,307	56,507	7,250	4,311
111	Cut-stone and stone products.....	363	245	64,563	3,120	1,145	1,091	54	4,588
112	Abrasives, asbestos, and other nonmetallic mineral products.....	622	434	1,387,951	160,162	92,935	79,292	13,643	13,959
113	Primary metal industries.....	2,948	2,299	20,044,826	1,728,335	957,365	862,350	95,015	24,069
114	Iron and steel foundries.....	157	146	11,482,433	846,625	432,076	426,958	25,118	386,447
115	Smelting, refining, rolling, drawing, and alloying of nonferrous metals.....	874	647	1,776,827	179,394	105,104	89,287	15,817	11,872
116	Nonferrous foundries.....	391	320	4,380,219	445,217	245,050	218,620	26,430	110,019
117	Primary metal industries not allocable.....	762	557	630,100	38,250	19,953	17,499	2,454	106,946
118	Primary metal industries.....	727	612	1,631,391	199,062	121,856	99,857	23,999	35,834
119	Primary metal industries not allocable.....	37	17	143,856	19,787	13,326	10,129	3,197	12,795
120

<sup>1</sup>For treatment of life insurance companies, see text, p. 22.<sup>2</sup>Sample variability of this item is too large to warrant showing it separately. However, this value is included in each total.<sup>3</sup>Income tax of mutual savings banks includes tax of separate life insurance departments computed at the special rates provided for life insurance companies by the Internal Revenue Code (1939).

NOTE: See p. 24 for "Explanation of Terms" and p. 23 for "Description of the Sample and Limitations of Data."

Table 2a.—NUMBER OF RETURNS, NET INCOME, SELECTED EXCESS PROFITS DATA, AND TAXES—RETURNS WITH EXCESS PROFITS NET INCOME OVER \$25,000, BY MAJOR AND MINOR INDUSTRIAL GROUPS

Returns with excess profits tax liability													Returns with no excess profits tax liability				
Major industrial groups	Number of returns	Net income (Thousand dollars)	Excess profits net income (Thousand dollars)	Excess profits credit (Thousand dollars)	Unused excess profits credit adjustment (Thousand dollars)	Taxes			Adjusted excess profits net income (Thousand dollars)	Number of returns	Excess profits net income (Thousand dollars)	Excess profits credit (Thousand dollars)	Unused excess profits credit adjustment (Thousand dollars)				
						Total tax (Thousand dollars)	Income tax (Thousand dollars)	Excess profits tax (Thousand dollars)

<sup>1</sup>For treatment of life insurance companies, see text, p. 22.<sup>2</sup>Capital stock which is not definitely designated as either common or preferred is tabulated under common stock.<sup>3</sup>Sample variability of this item is too large to warrant showing it separately. However, this value is included in each total.<sup>4</sup>Loss or deficit.<sup>5</sup>Loss after total tax payment.

NOTE: See p. 24 for "Explanation of Terms" and p. 23 for "Description of the Sample and Limitations of Data."

Table 4a.—ASSETS AND LIABILITIES, RECEIPTS AND DEDUCTIONS—CONSOLIDATED RETURNS WITH BALANCE SHEETS, BY INDUSTRIAL DIVISIONS

## PART I.—ALL CONSOLIDATED RETURNS

RETURNS, SUBSIDIARIES, ASSETS, LIABILITIES, RECEIPTS, DEDUCTIONS, COMPILED NET PROFIT OR NET LOSS, NET INCOME OR DEFICIT, TAXES, AND DIVIDENDS PAID

Items		All returns	Returns with no balance sheets	Returns with balance sheets, by industrial divisions									Nature of business not allocable
				All industrial divisions	Agricul- ture, forestry, and fishery	Mining and quarrying	Construc- tion	Manufac- turing	Public utilities	Trade	Finance, insurance, real estate, and lessors of real property	Services

For treatment of life insurance companies, see text, p. 22.

\*Surplus deficit.

\*Loss or deficit.

\*Sample variability of this item is too large to warrant showing it separately. However, this value is included in each total.

NOTE: See p. 24 for "Explanation of Terms" and p. 23 for "Description of the Sample and Limitations of Data."

<sup>1</sup>Data from incomplete returns showing (1) excess profits tax liability but no excess profits schedule, or (2) an excess profits credit in excess of \$25,000 with credit method not shown are included in aggregate only.

<sup>2</sup>Sample variability of this item is too large to warrant showing it separately. However, this value is included in each total.

NOTE: See p. 24 for "Explanation of Terms" and p. 23 for "Description of the Sample and Limitations of Data."

ERRATA IN STATISTICS OF INCOME, PART 2  
FOR 1951

---

REVISION OF TABLE 5  
REVISION OF TABLE 6

---

---

## 1951 ERRATA

A review of the complete report, *Statistics of Income for 1951, Part 2*, following publication revealed an error in the classification of one return by size of total assets. The total assets classes affected are the \$50,000 under \$100,000 class from which data for this one return are removed, and the \$50 million under \$100 million class to which the data are added. The return is classified industrially in the major industrial group "Finance: Banks and trust companies."

The two tables which follow give revised data for tables 5 and 6 of the 1951 *Statistics of Income, Part 2*. These are the only tables affected by the change in classification. Both the originally published data and the revisions are given for each of the assets classes \$50,000 under \$100,000 and \$50 million under \$100 million. For convenience, all items contained in the stubs of the two tables are shown whether the item is affected by the revision or not. Table 5 shows aggregate data for the two assets classes for all returns with balance sheets and for all returns with net income with balance sheets. Since data are merely shifted from one class to another, the total for all assets classes is not changed.

In table 6 data are presented by major industrial groups. Revised figures are provided for the two total assets classes for the major industrial group "Finance: Banks and trust companies" and for three industrial group totals, "All industrial groups," "Total finance, insurance, real estate, and lessors of real property," and "Total finance."

These corrections have also been made in the detailed 1951 data shown in the Source Book of Statistics of Income, which is on file for public use in the Statistics Division of the Internal Revenue Service, Washington, D. C.

Revision of Table 5.—STATISTICS OF INCOME FOR 1951, PART 2, FOR TOTAL ASSETS CLASSES \$50,000 UNDER \$100,000, AND \$50,000,000 UNDER \$100,000,000, FOR ALL RETURNS WITH BALANCE SHEETS AND FOR RETURNS WITH NET INCOME

## GENERAL CHARACTERISTICS

The 4,956 corporations meeting personal holding company tests report subchapter A net income of \$242,083,000, and subchapter A deficit of \$6,529,000. Although dividend distributions and other allowable deductions of \$238,153,000 are reported, 868 corporations show undistributed subchapter A net income of \$35,431,000. Tax liability of \$1,684,000 is reported by 382 companies, 143 of which use the alternative tax computed when the maximum tax on long-term capital gain is beneficial. For 486 companies, which have \$30,901,000, or 87 percent, of the undistributed subchapter A net income, the alternative tax provisions extinguish all subchapter A tax liability. A tax credit of \$10,281,000 is claimed by the 623 companies using the alternative tax provisions and represents that portion of the maximum tax on long-term capital gain reported as income tax on the corporation income tax return, Form 1120.

Returns with subchapter A net income number 3,439, and 1,517 have subchapter A deficit or show no data. There are 2,571 corporations reporting subchapter A net income completely distributed.

These data are from the personal holding company returns, Form 1120H, filed for the calendar year 1952, fiscal years ending in the period July 1952 through June 1953, and part years with the greater part of the accounting period in 1952. Form 1120H is used for the computation of a surtax imposed on personal holding companies *in addition to* the regular normal tax and surtax computed and reported on Form 1120. This surtax, imposed by chapter 2, subchapter A, of the Internal Revenue Code (1939), is 75 percent of the first \$2,000 of undistributed subchapter A net income, plus 85 percent of the excess over \$2,000. (See also "Alternative tax" under "Explanation of terms.") Foreign corporations subject to surtax under subchapter A are described in paragraph (A), General Instructions, Form 1120H, facsimile on page 217.

Additional data from personal holding company returns, Form 1120H, are shown in the two tables below. The first table is a frequency distribution of returns with subchapter A net income by size of subchapter A net income and by returns with undistributed subchapter A net income and returns with no undistributed subchapter A net income. The second shows the principal items reported for the computation of the surtax and the surtax liability reported by type of net income.

An important factor in the analysis of the data is the increase in income tax rates under provisions of the Revenue Acts of 1950 and 1951. (See "Synopsis of Federal Tax Laws," pages 151-152.) Since the normal tax rate is now higher at all income levels than the maximum rate on long-term capital gains provided by the alternative tax provisions, the maximum tax on any such gain will be reported as income tax by a greater number of personal holding corporations having chapter 1 net income. Thus, the rate change will tend to increase

the proportion of subchapter A tax liability offset by the credit allowed for income tax imposed by chapter 1. The amount of the income tax credit will also be affected by the increase in the maximum tax rate on long-term capital gain from 25 to 26 percent, effective for taxable years beginning after March 31, 1951.

The personal holding company data are based on the returns as filed, prior to revisions that may be made as a result of audit by the Internal Revenue Service. Data from the corporation income tax returns, Form 1120, filed by these personal holding companies are included in the tabulations pertaining to Forms 1120 in the first section of this report.

Data from personal holding company returns, Form 1120H, are tabulated biennially. For years prior to 1950 the tabulations were prepared annually.

## EXPLANATION OF TERMS

(See also facsimile of return, Form 1120H, pages 215-218)

**Alternative tax.** The alternative tax available to corporations reporting net capital gain composed of net long-term capital gain reduced by any net short-term capital loss is applicable to the personal holding company surtax under section 117 of the 1939 Code. The alternative tax computed in lieu of the surtax by personal holding companies consists of the maximum tax of 26 percent on net capital gain as defined above, plus tax at the 75- and 85-percent surtax rates on undistributed subchapter A net income in excess of the net capital gain, less a credit for income tax under chapter 1 attributable to such net capital gain. Capital gain and loss provisions of the Internal Revenue Code (1939) are shown in the Synopsis of Laws, Table B, page 153.

**Chapter 1 net income** is the net income of the corporation reported under the provisions of chapter 1 of the Internal Revenue Code (1939). It is the gross income subject to income taxation less the allowable deductions, including the net operating loss deduction, and is reported as item 34, page 1, of the corporation income tax return, Form 1120. This net income is used as the base in computing the subchapter A net income and is entered as item 1, page 1, of the personal holding company return, Form 1120H.

**Credit for income tax under chapter 1** is allowed with respect to income tax paid on certain net capital gain under the provisions of section 117 which provides a maximum tax of 26 percent on such gains. See alternative tax.

**Personal holding company.** Corporations meeting the following tests with respect to gross income and stock ownership are classed as personal holding companies:

(1) *Gross income test*—

(a) At least 80 percent of the gross income is personal holding company income, or

(b) At least 70 percent of the gross income is personal holding company income, and the

company was classed as a personal holding company in a prior taxable year (but subsequent to 1936), unless (i) the company did not meet the stock ownership test for one intervening year, or (ii) less than 70 percent of the gross income was personal holding company income for three consecutive years.

(2) *Stock ownership test*—more than 50 percent in value of the outstanding stock is owned, directly or indirectly, by or for not more than five individuals at some time during the last half of the taxable year.

The following types of corporations are specifically excluded from classification as personal holding companies by section 501 (b) of the 1939 Code: (1) corporations exempt from taxation under section 101; (2) banks, as defined in section 104; (3) life insurance companies; (4) surety companies; (5) foreign personal holding companies as defined in section 331; and (6) certain finance companies, personal finance and small loan companies, and loan and investment companies.

**Personal holding company income** is, in general, that portion of the gross income which consists of (1) dividends, interest (other than interest constituting rent under (7)), royalties (other than mineral, oil, or gas royalties), and annuities; (2) gains from stock and security transactions, except in the case of regular dealers; (3) gains from futures transactions in commodities; (4) income from estates and trusts; (5) income from personal service contracts; (6) amounts received as compensation for a shareholder's use of corporation property; (7) rents, unless constituting 50 percent or more of the gross income; and (8) mineral, oil, or gas royalties, unless such royalties constitute 50 percent or more of the gross income, and unless the deductions allowable for expenses under section 23 (a) (other than compensation for personal services rendered by shareholders) constitute 15 percent or more of the gross income.

**Subchapter A net income** is derived from the chapter 1 net income by making adjustments for:

(1) *Deductions not allowed*—

(a) Expenses and depreciation attributable to property owned or operated by the corporation to the extent that they exceed income from

such property. This adjustment is not required if the propriety of the deduction can be established under section 505.

(b) Contributions or gifts deducted under section 23 (q). (This adjustment is made to facilitate computation of the more liberal deduction allowed in computing the subchapter A net income (see 2 (c) below).)

(c) Net operating loss deduction.

(2) *Additional deductions*—

(a) Federal income and profits taxes to the extent not allowed in computing chapter 1 net income (but not surtax on corporations improperly accumulating surplus and surtax on personal holding companies).

(b) Income and profits taxes paid to a foreign country or United States possession and not deducted in computing chapter 1 net income.

(c) Contributions or gifts of the kind allowable in computing net income, but not in excess of 15 percent of the net income after adjustments shown in 2 (a) and (b) and before this deduction. This deduction is not allowable if a deduction is made under 2 (d).

(d) Amounts paid in liquidation of liability of corporation based on liability of a decedent to make contributions or gifts. This deduction is limited to certain corporations organized prior to January 1, 1936, and to liability incurred by decedent prior to January 1, 1934.

**Undistributed subchapter A net income** is derived from the subchapter A net income by deducting (1) the amount of dividends paid credit provided in section 27 (a) (1) and (2), computed without the benefit of the credit for interest on certain Government obligations; (2) amounts used or irrevocably set aside to pay or to retire indebtedness of any kind incurred prior to January 1, 1934, if such amounts are reasonable with reference to the size and terms of such indebtedness; and (3) certain dividends paid after the close of the taxable year and before the 15th of the third month following the close of the taxable year. Amounts deductible under (1) and (3) are computed as provided in section 504 (a) and (c).

Table A.—NUMBER OF PERSONAL HOLDING COMPANY RETURNS WITH SUBCHAPTER A NET INCOME, BY CLASSES

Subchapter A net income classes	Number of returns with subchapter A net income		
	Total	With undistributed subchapter A net income	With no undistributed subchapter A net income
	(1)	(2)	(3)
Under \$5,000.....	1,625	279	1,346
\$5,000 under \$10,000.....	368	78	290
\$10,000 under \$25,000.....	483	115	368
\$25,000 under \$50,000.....	356	117	239
\$50,000 under \$100,000.....	240	93	147
\$100,000 under \$500,000.....	309	156	153
\$500,000 under \$1,000,000.....	33	16	17
\$1,000,000 under \$5,000,000.....	20	13	7
\$5,000,000 or more.....	5	1	4
Total.....	3,439	868	2,571

NOTE: See p. 24 for "Explanation of Terms." Data not subject to sampling variability since all these returns were tabulated.

Table B.—INCOME, DEDUCTIONS, CREDITS, AND TAX—PERSONAL HOLDING COMPANY RETURNS, BY TYPE OF INCOME

Items	All returns	Returns with chapter 1 net income				Returns with no chapter 1 net income			
		Total	With subchapter A net income		With no subchapter A net income	Total	With subchapter A net income		With no subchapter A net income

# CORPORATION INCOME TAX RETURNS

## FOR 1944-52

### HISTORICAL DATA

	Page
Introduction.....	121
Description of tables.....	121
Comparability of historical data.....	121
Tables:	
11. Number of returns, by income and deficit status, and by net income, deficit, and total assets classes.....	125
12. Number of returns, total compiled receipts, net income or deficit, taxes, dividends paid, and total assets, by income and deficit status.....	127
13. Receipts and deductions—all returns.....	129
14. Assets and liabilities, receipts and deductions—returns with balance sheets.....	131
15. Number of returns, total compiled receipts, net income or deficit, and taxes—all returns, by major industrial groups and by income and deficit status.....	133
16. Number of returns and subsidiaries, total compiled receipts, net income or deficit, net operating loss deduction, and taxes, by income and deficit status—consolidated returns.....	148

## INTRODUCTION

The historical data presented in this volume are selected from the tabulations prepared from corporation income tax returns for the years 1944 through 1952 and published in *Statistics of Income, Part 2*, for those years. The tables are preceded by a discussion of the comparability of the statistics during that period. This discussion is supplemented by the material presented in the "Synopsis of Federal Tax Laws, 1944-52," pages 150-157 of this volume.

Data with respect to income and tax of corporations first became available in 1909 when an excise tax measured by the income of corporations was imposed by the Tariff Act of 1909. Selected data were published in the annual reports of the Commissioner of Internal Revenue for the years 1909 through 1915.

Following adoption of the 16th amendment to the Constitution a direct income tax was imposed, and 3 years later the Revenue Act of 1916 directed that statistics concerning the operation of the income tax laws were to be published annually. The first volume of *Statistics of Income* was published for the income year 1916.

In the 44 years that a tax based on corporate income has been in effect, corporations have reported income and profits tax liability of \$190 billion. The annual tax liability, which in 1909 was not quite \$21 million, had risen to \$19 billion by 1952. During this period the number of reporting corporations rose from 262,490 to 705,497, and the annual reported net income rose from \$3,590 million to \$38,456 million. Selected historical data for each of the years 1909 through 1949 were published in *Statistics of Income for 1949, Part 2*.

## DESCRIPTION OF TABLES

The historical tabulations are presented in tables 11 through 16, pages 125-148, Table 11 shows the number of returns, by income or deficit status, and by net income, deficit, and total assets classes. Table 12 gives the number of returns, total compiled receipts, net income or deficit, taxes, dividends paid, and total assets, by income and deficit status.

The number of returns, items of receipts and deductions, compiled net profit or net loss, net income or deficit, taxes, and dividends paid are shown in table 13 for all returns and for returns with net income. For returns with balance sheets, these items, together with items of assets and liabilities, are given in table 14 for all returns and for returns with net income.

Data by major industrial groups are presented in table 15. Items shown are the number of returns, total compiled receipts, net income or deficit, and taxes. Data for returns with net income and returns with no net income are given separately.

Table 16 presents data for returns filed on a consolidated basis and shows the number of returns and sub-

sidiaries, total compiled receipts, net income or deficit, and taxes, by net income and deficit status.

## COMPARABILITY OF HISTORICAL DATA

The comparability of corporate statistics derived from income tax returns over a period of years is affected by a number of factors. Changes in income tax law affecting the data can be traced through a historical period and the effect estimated, but the effects resulting from a change in method of filing or in the classification of a return because of changed status of a company are more difficult to identify and appraise. Some of the factors affecting comparability are discussed in the following paragraphs. This discussion covers both broad areas of data and specific items.

## Advertising

This deduction, shown in historical tables 13 and 14, was included in "Other deductions" for 1944.

## Amendments to the Internal Revenue Code (1939)

During the period 1944-52 the 1939 Code was amended by the Tax Adjustment Act of 1945, the Revenue Acts of 1945, 1950, and 1951, and the Excess Profits Tax Act of 1950. The synopsis of laws, pages 150-157, shows a comparison of tax rates and bases, provisions pertaining to capital gains and losses and provisions pertaining to consolidated returns for the years 1944-52.

Other specific items affected by these amendments to the 1939 Code are listed as separate paragraphs in this discussion.

## Amortization

In historical tables 13 and 14 the amortization deduction for 1950-52 is provided by section 124A of the 1939 Code and is applicable to the cost of emergency facilities necessary for national defense and acquired or completed during the emergency period beginning January 1, 1950. For 1944-49 this deduction was authorized by section 124 of the Code (1939) and was applicable to cost of emergency facilities acquired or completed during the emergency period beginning January 1, 1940. On September 29, 1945, the President proclaimed the ending of the emergency period defined in section 124. As a result, taxpayers holding certified emergency facilities on which the 60-month amortization period had not expired could elect to terminate the amortization period as of September 30, 1945, and recompute the amortization deduction for each tax year involved, on the basis of the actual number of months in the shortened period. Thus, the amortization deductions reported on the 1945 returns are, in many instances, the increased amounts based on the shortened period, whereas the amounts reported on returns for 1944 are based on a 60-month period.

## Consolidated returns

Election to file, or to discontinue filing, a consolidated return results in relocation, classification-wise, of data

for the companies included in the affiliated group. For example, industrial classification is based on the principal source of the collective receipts reported on the return. Thus, for a consolidated return, data for companies which, if nonconsolidated returns were filed, would fall in several industrial groups are contained in one industry classification. Use of the consolidated return also eliminates from the data reported profit or loss on inter-company transactions. Table C of the "Synopsis of Federal Tax Laws" shows the provisions of law governing election and discontinuance of filing consolidated returns.

### Cost of goods sold and Cost of operations

Beginning 1951 these items are reduced by any identifiable amounts of taxes, depreciation, depletion, amortization, and pension plan contributions included therein. Such items are transferred to their respective headings. For years prior to 1951, only amortization and pension plan contributions were so treated.

### Depreciation and depletion

See "Cost of goods sold and Cost of operations" above.

### Employee benefit plans (other than pension plans, etc.)

The deduction in historical tables 13 and 14 for "Amounts contributed under other employee benefit plans" was tabulated with "Other deductions" prior to 1952.

### Excess profits tax

The excess profits tax in effect for 1950-52 is that imposed by section 430 which was added to the 1939 Code by the Excess Profits Tax Act of 1950, effective July 1, 1950. The amounts tabulated are *after* limitation and certain adjustments and *before* credit for foreign taxes paid.

The excess profits tax in effect 1944-46 is that imposed by section 710 of the 1939 Code (added by the Second Revenue Act of 1940) and is the tax shown in historical tables 12 through 16 for the year 1946. For 1944-45 the excess profits tax compiled for the historical tables consists of the excess profits tax imposed by section 710 and the declared value excess-profits tax imposed by section 600 of the 1939 Code under the tax provisions of the National Industrial Recovery Act of 1933. The amounts of declared value excess-profits tax included in the data are shown in footnotes to the historical tables.

The excess profits tax tabulated for 1945-46 is the amount reported on the corporation excess profits tax return less the 10 percent credit. For 1944 it is the amount reported on the excess profits tax return less the credit for debt retirement and the net postwar refund (see synopsis of laws note 5 (a), page 156). The amounts tabulated for each of the 3 years 1944-46 are also *before* the amount deferred under section 710(a)(5) (relating to abnormalities under section 722) and *before* credit for foreign taxes paid, but are *after* any adjustments reported on the returns under other relief provisions.

Effective January 1, 1946, the corporate excess profits tax under section 710 was repealed. The amount of tax

shown for 1946 is limited to 11,053 taxable excess profits tax returns, filed for fiscal years ending within the period July through November 1946, on which an excess profits tax liability is reported for the portion of the accounting period in 1945. The declared value excess-profits tax imposed by section 600 was repealed, effective with respect to income-tax taxable years ending after June 30, 1946.

### Industrial classification

The Industrial Classification used in classifying income tax returns was revised in 1948 to conform, in general, to recent revisions in the Standard Industrial Classification. A comparison of the industrial classifications used for Statistics of Income for 1947 and 1948 is shown on pages 425-450, *Statistics of Income for 1948, Part 2*.

The changes in comparability of data caused by shifts of single industrial activities from one group to another cannot be adequately measured due to the broad groupings used in tabulating the data and due to the commingling on one return of data from various activities which results from the filing of income tax returns on an ownership basis.

Where transfer of entire minor industrial groups or combination of two or more major groups made possible the improvement of comparability between the 1948-52 data and the 1944-47 data, adjustments were made in compiling the historical data by major industrial groups in table 15. These adjustments are as follows:

#### MINING AND QUARRYING

*Nonmetallic mining and quarrying.*—For 1944-47 data, two major groups "Nonmetallic mining and quarrying" and "Mining and quarrying not allocable" are combined.

#### MANUFACTURING

*Textile-mill products.*—For 1944-47 the two major groups "Cotton manufactures" and "Textile-mill products, except cotton" are combined.

*Lumber and wood products, except furniture; Furniture and fixtures.*—Adjustments have been made in the 1948-52 data by transferring data for "Other wood products" from "Lumber and wood products, except furniture" to the major group "Furniture and fixtures." Adjustments have been made for 1944-47 by transferring "Wooden containers" from "Furniture and finished lumber products" to "Lumber and timber basic products" and by transferring "Matches" from "Furniture and finished lumber products" to "Other manufacturing."

*Primary metal industries and Fabricated metal products (except ordnance, machinery, and transportation equipment).*—For 1948-52 data the two major groups "Primary metal industries" and "Fabricated metal products, except ordnance, machinery, and transportation equipment" are combined. The 1944-47 data are obtained by combining the two major groups "Iron, steel,

and products" and "Nonferrous metals and their products," the former group having been adjusted to exclude the five minor groups comprising "Ordnance and accessories" for 1948-52, and the latter group having been adjusted to exclude "Clocks and watches" and "Jewelry (except costume), silverware, plated ware."

*Ordnance and accessories.*—Ordnance and accessories became a major group in 1948. The data shown for 1944-47 have been extracted from the major group "Iron, steel, and products," where data for "Ordnance and accessories" were tabulated as five minor groups.

*Scientific instruments; photographic equipment; watches, clocks; and other.*—For 1948-52 data the two major groups "Scientific instruments; photographic equipment; watches, clocks" and "Other manufacturing" are combined. The 1944-47 data are obtained by (1) combining the two major groups "Other manufacturing" and "Manufacturing not allocable" and (2) by adding thereto "Clocks and watches" and "Jewelry (except costume), silverware, plated ware" (transferred from "Nonferrous metals and their products") and "Watches" (transferred from "Furniture and finished lumber products").

#### PUBLIC UTILITIES

*Electric and gas utilities and Other public utilities.*—For 1944-47 "Electric and gas utilities," which appears as a major group for the first time in 1948, has been extracted from "Other public utilities."

#### TRADE: RETAIL

*Automotive dealers and filling stations.*—For 1944-47 the two major groups "Automotive dealers" and "Filling stations" are combined.

*Building materials and hardware.*—For 1944-47 the two major groups "Hardware" and "Building materials, fuel, and ice" are combined.

*Other retail trade.*—For 1944-47 data the three major industrial groups "Other retail trade," "Package liquor stores," and "Retail trade not allocable" are combined.

#### FINANCE

*Credit agencies other than banks.*—For 1944-47 data the three major industrial groups "Long-term credit agencies, mortgage companies, except banks," "Short-term credit agencies, except banks" and "Finance not allocable" are combined.

*Holding and other investment companies.*—For 1944-47 data the three major industrial groups "Investment trusts and investment companies," "Other investment companies, including holding companies," and "Other finance companies" are combined.

#### SERVICES

*Other services, including schools.*—For 1944-47 data the two major industrial groups "Other service, including schools," and "Service not allocable" are combined.

Comparability of industrial data may also be affected by shifts in the industrial classification of an individual corporation whose major source of income has changed, and by a change from filing a consolidated return to filing separate returns, or vice versa, by a group of affiliated corporations. For provisions controlling the filing of consolidated returns see "Synopsis of Federal Tax Laws," table C, page 154.

#### Insurance carriers

The Revenue Act of 1951 amended the 1939 Code with respect to credits and tax rates applicable to income of life insurance companies. Provisions of law affecting life insurance companies are shown in the "Synopsis of Federal Tax Laws," footnotes 4 (g) and 5 (b), page 156.

#### Interest received on Government obligations, subject to surtax only

This interest consists of interest on United States savings bonds and Treasury bonds owned in principal amount of over \$5,000 issued prior to March 1, 1941, and interest on obligations of instrumentalities of the United States (other than obligations of Federal land banks, joint stock land banks, and Federal intermediate credit banks) issued prior to March 1, 1941. For 1945 and 1944, amounts shown include interest subject to surtax only and interest subject to declared value excess-profits tax and surtax. "Interest on United States savings bonds and Treasury bonds owned in principal amount of over \$5,000 issued prior to March 1, 1941" was subject to declared value excess-profits tax and surtax. The amounts of such interest reported for 1945 and 1944 are shown in footnotes to the historical tables. The interest tabulated is less amortizable bond premium.

#### Net income or deficit

Net income or deficit for 1946-52 is the difference between the total income and the total deductions reported, exclusive of the net operating loss deduction; for 1944-45 is the amount reported for declared value excess-profits tax computation, adjusted by excluding net operating loss deduction and adding Government interest subject to surtax only and excess of net long-term capital gain over net short-term capital loss. These adjustments make the amounts tabulated during the two periods comparable.

#### Net operating loss deduction

This deduction in historical tables 13 and 14 is the net operating loss carryover as defined in section 122 of the 1939 Code, and does not take into account whatever revisions may subsequently be made as the result of any carryback of net operating loss from the succeeding tax year. The net operating loss deduction in any

taxable year is first used as a carryback and, to the extent not so used, may be used as a carryover. The net operating loss for 1950-52 may be carried back for 1 preceding year and carried over for 5 succeeding years; for 1948-49, the carryback is for 2 years, and the carryover for 3 years; for 1944-47, the carryback is for 2 years and the carryover for 2 years, however, for corporations commencing business after December 31, 1945, the 1947 carryover is for 3 years. The net operating loss deduction has *not* been taken into consideration in computing the net income as tabulated in *Statistics of Income*.

**Other deductions**

For 1944-51 this item, in historical tables 13 and 14, includes "Amounts contributed under other employee benefit plans" which is tabulated separately for 1952.

For 1944 "Other deductions" also included "Advertising" and "Amounts contributed under pension plans, etc." which are tabulated separately for 1945-52.

**Pension plans, amounts contributed under**

This item, shown in historical tables 13 and 14, was included in "Other deductions" for 1944.

**Sampling of returns**

Beginning 1951 corporate data are based on a probability sample of the returns filed. A description of the sample and the sampling variability to be expected for any year may be found in the volume of *Statistics of Income, Part 2*, for that year. For the period 1944-50, data were tabulated from all returns filed.

**Taxes paid**

See "Cost of goods sold and Cost of operations" above.

Table 11.—NUMBER OF RETURNS, BY INCOME AND DEFICIT STATUS, AND BY NET INCOME, DEFICIT, AND TOTAL ASSETS CLASSES

Table A.—TAX RATES UNDER CORPORATION INCOME AND PROFITS TAX LAW, 1944-52 <sup>1</sup>

Federal tax law: <sup>2</sup> Revenue Acts amending Code (date of enactment)	Income year <sup>3</sup>	Tax base by type of tax <sup>4</sup>	Tax rate <sup>5</sup> (percent)
(1)	(2)	(3)	(4)
Revenue Act of 1951 (Oct. 20, 1951).	1952	Calendar year returns and returns with fiscal year beginning in income year	
		Income tax:	
		Normal tax:	
		Normal tax net income, entire amount .....	30
		Surtax:	
		Surtax net income:	
		\$25,000 or less .....	
		Excess over \$25,000 .....	22
		Consolidated return (additional tax):	
		Surtax net income, entire amount .....	2
		Alternative tax:	
		Net long-term capital gain in excess of net short-term capital loss .....	25
		All other normal-tax net income and surtax net income .....	(Same as immediately above.)
		Excess profits tax:	
		Adjusted excess profits net income, entire amount .....	<sup>6</sup> 30
	1951	Calendar year returns	
		Income tax:	
		Normal tax:	
		Normal tax net income, entire amount .....	28 <sup>3</sup> / <sub>4</sub>
		Surtax:	
		Surtax net income:	
		\$25,000 or less .....	
		Excess over \$25,000 .....	22
		Consolidated return (additional tax):	
		Surtax net income, entire amount .....	2
		Alternative tax:	
		Net long-term capital gain in excess of net short-term capital loss .....	25
		All other normal-tax net income and surtax net income .....	(Same as immediately above.)
		Excess profits tax:	
		Adjusted excess profits net income, entire amount .....	<sup>6</sup> 30
		Returns with fiscal year beginning in 1951 <sup>7</sup>	
		<i>Period ending March 31, 1951:</i>	
		Tax bases and rates same as income year 1950 fiscal year period beginning July 1, 1950, and ending March 31, 1951.	
		<i>Period beginning April 1, 1951:</i>	
		Income tax:	
		Normal tax:	
		Normal tax net income, entire amount .....	30
		Surtax:	
		Surtax net income:	
		\$25,000 or less .....	
		Excess over \$25,000 .....	22
		Consolidated return (additional tax):	
		Surtax net income, entire amount .....	2
		Alternative tax:	
		Net long-term capital gain in excess of net short-term capital loss:	
		Taxable year beginning before April 1, 1951 .....	25
		Taxable year beginning after March 31, 1951 .....	25
		All other normal-tax net income and surtax net income .....	(Same as immediately above.)
		Excess profits tax:	
		Adjusted excess profits net income, entire amount .....	<sup>6</sup> 30
Revenue Act of 1950 (Sept. 23, 1950). Excess Profits Tax Act of 1950 (Jan. 3, 1951). Revenue Act of 1951, excess profits tax provisions only (Oct. 20, 1951).	1950	Calendar year returns	
		Income tax:	
		Normal tax:	
		Normal tax net income, entire amount .....	23
		Surtax:	
		Surtax net income:	
		\$25,000 or less .....	
		Excess over \$25,000 .....	<sup>8</sup> 19
		Consolidated return (additional tax):	
		Surtax net income, entire amount .....	2
		Alternative tax:	
		Net long-term capital gain in excess of net short-term capital loss .....	25
		All other normal-tax net income and surtax net income .....	(Same as immediately above.)
		Excess profits tax (effective July 1, 1950): <sup>9</sup>	
		Adjusted excess profits net income, entire amount .....	<sup>6</sup> 30

Table A.—TAX RATES UNDER CORPORATION INCOME AND PROFITS TAX LAW, 1944-52 <sup>1</sup>—Continued

Federal tax law: <sup>2</sup> Revenue Acts amending Code (date of enactment) (1)	Income year <sup>3</sup> (2)	Tax base by type of tax <sup>4</sup> (3)	Tax rate <sup>5</sup> (percent) (4)
	1950—Con.	Returns with fiscal year beginning in 1950 <sup>7</sup>	
		<i>Period ending June 30, 1950:</i> Tax bases and rates same as income year 1949.	
		<i>Period beginning July 1, 1950, and ending March 31, 1951:</i> Income tax:	
		Normal tax:	
		Normal tax net income, entire amount.....	25
		Surtax:	
		Surtax net income:	
		\$25,000 or less.....	20
		Excess over \$25,000:	
		Taxable year beginning before July 1, 1950.....	22
		Taxable year beginning after June 30, 1950.....	22
		Consolidated return (additional tax):	
		Surtax net income, entire amount.....	2
		Alternative tax:	
		Net long-term capital gain in excess of net short-term capital loss.....	25
		All other normal-tax net income and surtax net income.....	(Same as immediately above).
		Excess profits tax:	
		Adjusted excess profits net income, entire amount.....	<sup>6</sup> 30
		<i>Period ending after March 31, 1951:</i> Tax bases and rates same as income year 1951 fiscal year period beginning April 1, 1951, except surtax rate which is the same as that shown immediately above.	
Revenue Act of 1945 (Nov. 8, 1945).	<sup>10</sup> 1949 1948 1947 1946	Calendar year returns and returns with fiscal year beginning in income year	
		Income tax:	
		Normal tax:	
		Tax base and rates same as income year 1945.	
		Surtax:	
		Surtax net income in total amount:	
		Not over \$50,000—	
		First \$25,000.....	6
		Next \$25,000.....	22
		Over \$50,000.....	14 of entire surtax net income.
		Consolidated return (additional tax):	
		Surtax net income, entire amount.....	2
		Alternative tax:	
		Net long-term capital gain in excess of net short-term capital loss.....	25
		All other normal-tax net income and surtax net income.....	(Same as immediately above).
Revenue Act of 1943 (Feb. 25, 1944).	<sup>11</sup> 1945 1944	Income tax:	
		Normal tax:	
		Domestic corporations:	
		Normal-tax net income in total amount:	
		Not over \$50,000—	
		First \$5,000.....	15
		Next \$15,000.....	17
		Next \$5,000.....	19
		Next \$25,000.....	31
		Over \$50,000.....	24 of entire normal-tax net income.
		Foreign corporations engaged in trade or business within the United States:	
		Normal-tax net income, entire amount.....	24
		Surtax:	
		Surtax net income in total amount:	
		Not over \$50,000—	
		First \$25,000.....	10
		Next \$25,000.....	22
		Over \$50,000.....	16 of entire surtax net income.
		Consolidated return (additional tax):	
		Surtax net income, entire amount.....	2
		Alternative tax:	
		Net long-term capital gain in excess of net short-term capital loss.....	25
		All other normal-tax net income and surtax net income.....	(Same as immediately above.)
		Excess profits tax:	
		Adjusted excess profits net income, entire amount.....	<sup>6</sup> 95
		Declared value excess-profits tax:	
		Net income (for declared value excess-profits tax computation):	
		Net income in excess of 10 percent and not in excess of 15 percent of declared value of capital stock.....	6.6
		Net income in excess of 15 percent of declared value of capital stock.....	13.2

Table B.—PROVISIONS PERTAINING TO CAPITAL GAINS AND LOSSES UNDER CORPORATION INCOME AND PROFITS TAX LAW, 1944-52 <sup>1</sup>

Federal tax law: <sup>2</sup> Revenue Acts amending Code (date of enactment)	Income year <sup>3</sup>	Definition of capital assets	Period held <sup>12</sup>	Treatment of net capital gain <sup>13</sup>	Treatment of net capital loss <sup>13</sup>
(1)	(2)	(3)	(4)	(5)	(6)
Revenue Act of 1951 (Oct. 20, 1951). Revenue Act of 1950 (Sept. 23, 1950).	1950-52	<p>(1) All property, whether or not connected with trade or business, <i>except</i></p> <p>(a) Stock in trade or other property which would properly be included in inventory, or property held primarily for sale to customers in the ordinary course of trade or business.</p> <p>(b) Property used in trade or business of a character which is subject to allowance for depreciation.</p> <p>(c) Real property used in trade or business.</p> <p>(d) Government obligations issued on or after March 1, 1941, on a discount basis and payable without interest at a fixed maturity date not exceeding one year from date of issue.</p> <p>(e) Certain copyrights, literary, musical, or artistic compositions, or similar properties (but not a patent or invention).<sup>14</sup></p> <p>(2) Gains and losses are considered as from capital assets, under certain conditions, with respect to: <sup>15</sup></p> <p>(a) Retirement of certain bonds, etc.</p> <p>(b) Short sales.</p> <p>(c) Failure to exercise options.</p> <p>(d) Involuntary conversion and sale or exchange of certain business property, if a net gain is realized.<sup>15</sup></p> <p>(e) Securities held for investment by security dealers.<sup>17</sup></p> <p>(f) Worthless stocks and other securities.</p> <p>(3) Gains and losses are not considered as from capital assets, under certain conditions, with respect to: <sup>15</sup></p> <p>(a) Certain gain on property to which amortization deduction (sec. 124A) is applicable.</p> <p>(b) Net loss from sales or exchanges of certain bonds, etc., by banks.</p> <p>(c) Involuntary conversion and sale or exchange of certain business property if a net loss is realized.<sup>16</sup></p> <p>(d) Certain sales or exchanges of stock in a collapsible corporation.</p> <p>(e) Certain sales or exchanges of depreciable property of a controlled corporation.<sup>18</sup></p> <p>(f) Wash sales of stock or securities.</p>	<p>Short-term: 6 months or less.</p> <p>Long-term: More than 6 months.</p>	<p>Included in net income and taxed at regular rates unless the net long-term capital gain exceeds the net short-term capital loss in which case the <i>alternative tax</i> may be used if it is less than the regular tax. The <i>alternative tax</i> is the sum of (1) the regular tax on net income reduced by the amount of the excess of net long-term capital gain over net short-term capital loss and (2) 25 percent of such excess (taxable years beginning after March 31, 1951, 26 percent of such excess).</p> <p>Excluded from the excess profits net income for taxable years ending after June 30, 1950.</p>	<p>Carried forward and treated as a net short-term capital loss (deductible against any capital gains) for a period not to exceed 5 years.</p> <p>Capital gains and losses are excluded in the computation of the excess profits net income for taxable years ending after June 30, 1950.</p>
Revenue Act of 1943 (Feb. 25, 1944).	1944-49	<p>Same as 1950-52, except:</p> <p>1(e), 2 (e), and 3 (e) are not applicable.</p> <p>3(a) and 3(d) are applicable after December 31, 1949, with respect to taxable years ending thereafter.</p>	Same as 1950-52. ....	<p>Same as 1950-52, <i>except</i> that for 1944-1945 the excess of net long-term capital gain over net short-term capital loss is excluded from net income for declared value excess-profits tax. The treatment for income tax purposes is not affected by this change.</p>	Same as 1950-52.

For footnotes, see p. 155.

Table C.—CONSOLIDATED INCOME AND PROFITS TAX RETURNS—PROVISIONS FOR FILING AND TAX RATES, 1944-52<sup>1</sup>

Federal tax law: <sup>2</sup> Revenue Acts amending Code (date of enactment) (1)	Income year <sup>3</sup> (2)	Type of tax for which a consolidated return was permitted (3)	Type of corporation permitted to file a consolidated return (4)	Criterion of affiliation (5)	Consolidated return required or optional (6)	Tax rate (7)
Revenue Act of 1951 (Oct. 20, 1951). Excess Profits Tax Act of 1950 (Jan. 3, 1951, effective as of July 1, 1950). Revenue Act of 1950 (Sept. 23, 1950).	1950-52	Income tax, and excess profits tax imposed by sec. 430 of the Internal Revenue Code (1939).	Any corporation <i>except</i> : (1) Corporations exempt under 1939 Code sec. 101. (2) Life and mutual insurance companies, but they were considered as includible corporations if two or more such companies alone filed a consolidated return and each was subject to tax under the same section of chapter 1 of the 1939 Code. (3) Foreign corporations other than certain Canadian and Mexican corporations. <sup>19</sup> (4) Corporations subject to section 251 (relative to income from sources within possessions of the United States). (5) Corporations organized under the China Trade Act, 1922. (6) Regulated investment companies (taxable under supplement Q of 1939 Code). (7) Personal service corporations, personal holding companies, foreign trade corporations as defined in 1939 Code section 454(f), and certain air mail carriers as defined in 1939 Code section 454(g); but such a corporation may be included in a consolidated return if it has filed a consent to be treated as an includible corporation. (8) Regulated public utilities which elect to compute their excess profits credit under the alternative method provided for such companies in sec. 448 of the Internal Revenue Code (1939). However, two or more such companies <i>alone</i> may file a consolidated return.	One or more chains of includible corporations connected through stock ownership with a common parent corporation which is an includible corporation if (1) stock possessing at least 95 percent of the voting power of all classes of stock and at least 95 percent of each class of the nonvoting stock of each of the includible corporations (except the common parent corporation) is owned directly by one or more of the other includible corporations; and (2) the common parent corporation owns directly stock possessing at least 95 percent of the voting power of all classes of stock and at least 95 percent of each class of the nonvoting stock of at least one of the other includible corporations. The term "stock" does not include nonvoting stock which is limited and preferred as to dividends.	Optional upon consent of all members of affiliated group. Election is binding for subsequent taxable years of the affiliated group unless (1) a corporation (other than one created directly or indirectly by a member of the group) becomes an affiliate during a subsequent taxable year, (2) the Commissioner, for good cause, grants permission to change, or (3) amendment to the Code or regulations makes filing of consolidated returns less advantageous to affiliated groups as a class. Because of such amendments affiliated groups filing consolidated returns for the preceding taxable year were given new option with respect to— First return due to be filed after July 16, 1953. First taxable year ending after March 31, 1951. First taxable year ending after June 30, 1950.	Same as nonconsolidated returns plus 2 percent of surtax net income. However, if Western Hemisphere trade corporations are included, the 2 percent additional tax is applied on the amount by which the consolidated corporation surtax net income of the affiliated group exceeds the portion of the consolidated corporation surtax net income attributable to the Western Hemisphere trade corporation. (See table A, pp. 151-152.)
Revenue Act of 1945 (Nov. 8, 1945).	1946-49	Income tax.....	Same as 1950-52, (1) through (7). Substitute 1939 Code sections 727(g) and (h) for 1939 Code sections 454(f) and (g) in (7) above.	Same as 1950-52.....	See 1950-52. New option granted for the— Fiscal years ending in 1949. Calendar year or fiscal years ending in 1948. Calendar year or fiscal years ending in 1947. Calendar year or fiscal years ending in 1946.	Same as nonconsolidated returns plus an additional surtax equal to 2 percent of surtax net income. However, an adjustment to the surtax is necessary if the affiliated group includes Western Hemisphere trade corporations since such corporations are exempt from surtax. (See table A, pp. 151-152.) Same as 1946-49.
Revenue Act of 1943 (Feb. 25, 1944).	1944-45	Income tax, and excess profits tax under sec. 710 of Code.	Same as 1946-49.....	Same as 1950-52.....	See 1950-52. New option granted for the— Fiscal years ending in 1945, unless, under an extension of time, the fiscal 1944 return was not required to be filed until after March 1, 1945. Calendar year 1944.	

<sup>1</sup>For footnotes, see p. 155.

## Footnotes for synopsis of laws tables

<sup>1</sup> For income years 1909 through 1943, see *Statistics of Income for 1950, Part 2*, pp. 247-282.

<sup>2</sup> Returns for 1944-52 are filed under the provisions of the Internal Revenue Code approved February 10, 1939, and the various amendments thereto. There is no one effective date for all provisions of a revenue act amending the Code—some of the provisions may be retroactive, some apply to the current tax period, and some to a future taxable year.

<sup>3</sup> The income year is the calendar year and fiscal years beginning therein.

<sup>4</sup> The tax bases are, in general, the same for all corporations and are derived from the corporation's net income after allowance of certain credits. Net income is the gross income less the deductions allowed. (See secs. 22 and 23 of the 1939 Code.) Treatment of the net operating loss deduction, derivation of the tax bases from net income, and significant variations in the bases applicable to certain classes of corporations are shown in (a) through (k) below.

(a) The net operating loss deduction is allowed as a deduction against the gross income by sec. 23 (s) of the 1939 Code. The net

income as tabulated in *Statistics of Income* is the net income for the current year, i. e., before deduction due to prior year loss. Therefore, the net operating loss deduction must be taken into account in relating the tabulated net income to the tax base. The net operating loss of any taxable year is first carried back against the net income of certain preceding taxable years and the excess, if any, may then be carried over to certain succeeding taxable years. The amount reported on the return and tabulated for *Statistics of Income* is the net operating loss carryover from prior taxable years. The carryback and carryover periods for a net operating loss sustained in 1950-52 are, carryback 1 year, carryover 5 years; 1948-49, carryback 2 years, carryover 3 years; and 1944-47, carryback 2 years, carryover 2 years, except that for corporations commencing business after December 31, 1945, the carryover for 1947 is 3 years. (For definitions and computations, including certain exceptions, additions, and limitations, see sec. 122.)

(b) Normal-tax net income and surtax net income result from application of specific credits, shown in the following table, to the net income. The credits used in deriving normal-tax net income are identified by the symbol (N) in the table column and those used in deriving surtax net income are identified by the symbol (S).

Items for which credit is allowed	Percent of item deductible as a credit for—									
	1952	1951			1950				1946-49 <sup>a c</sup>	1944-45
		Calen- dar year	Fiscal year <sup>a</sup>		Calen- dar year	Fiscal year <sup>a</sup>				
			Part prior to April 1	Part after March 31		Begin- ning after June 30 <sup>b</sup>	Beginning before July 1			
							Part prior to July 1	Part after June 30 <sup>b</sup>		
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	
1 Partially tax-exempt interest <sup>d</sup>	100 (N)	100 (N)	100 (N)	100 (N)	100 (N)	100 (N)	100 (N)	100 (N)	100 (N)	100 (N)
2 Dividends received from a domestic corporation subject to the income tax (other than dividends on certain preferred stock of a public utility). <sup>e</sup>	85 (N)(S)	85 (N)(S)	85 (N)(S)	85 (N)(S)	85 (N)(S)	85 (N)(S)	85 (N)(S)	85 (N)(S)	85 (N)(S)	85 (N)(S)
3 Dividends received on certain preferred stock of a public utility <sup>e</sup>	62 (N)(S)	61 (N)(S)	59 (N)(S)	62 (N)(S)	57 (N)(S)	59 (N)(S)	85 (N)	59 (N)(S)	85 (N)	85 (N)
4 Dividends received from certain foreign corporations doing a substantial volume of business within the United States and derived from income earned in the United States. <sup>e</sup>	85 (N)(S)	85 (N)(S)	85 (N)(S)	85 (N)(S)	None	None	None	None	None	None
5 Dividends paid on certain preferred stock of a public utility or the net income of the public utility minus the credits provided in 1 through 4 above, whichever is the lower. <sup>f</sup>	27 (N)(S)	28 (N)(S)	30 (N)(S)	27 (N)(S)	33 (N)(S)	30 (N)(S)	100 (S)	31 (N)(S)	100 (S)	100 (S)
6 Western Hemisphere trade corporation normal-tax net income computed without regard to this credit. <sup>g</sup>	27 (N)(S)	28 (N)(S)	30 (N)(S)	27 (N)(S)	33 (N)(S)	30 (N)(S)	None	31 (N)(S)	None	None
7 Adjusted excess profits net income as defined in section 710 (b). <sup>h</sup>	None	None	None	None	None	None	None	None	None	100 (N)(S)

<sup>a</sup> See footnote 7 for proration of credits.

<sup>b</sup> For credits after Mar. 31, 1951, see col. (4).

<sup>c</sup> For a fiscal year 1949 ending after June 30, 1950, see col. (8) for credits applicable after that date.

<sup>d</sup> The net income less the credit for partially tax-exempt interest is designated "Adjusted net income." (Sec. 13 (a) of 1939 Code.)

<sup>e</sup> The total credit claimed for dividends received (lines 2 through 4) may not exceed for each base: 1950-52, 85 percent of the net income adjusted by the credit for partially tax-exempt interest (line 1) but before any allowance for net operating loss deduction; 1946-49, 85 percent of the net income adjusted by the credit for partially tax-exempt interest and after the allowance of net operating loss deduction; and 1944-45, 85 percent of the net income after net operating loss deduction adjusted by the credit for income subject to the excess profits tax (line 7), plus, for normal-tax net income only, the credit for partially tax-exempt interest.

(c) Net long-term capital gain in excess of net short-term capital loss.—Capital gain and loss provisions are shown in table B of this synopsis.

(d) Consolidated return tax, imposed on an affiliated group of corporations electing to file a consolidated return as an addition to the surtax, is not effective with respect to Western Hemisphere trade corporations included in the affiliated group. Net income of such corporations was exempt from surtax 1944-49 and beginning 1950 is exempt from the 2 percent addition to the surtax. (See Regulations 129, sec. 24.30 (b)).

(e) The adjusted excess profits net income for 1950-52 is the excess profits net income less the amounts of the excess profits credit and the unused excess profits credit adjustment. A minimum credit of \$25,000 is provided. Excess profits net income and methods of credit computation for the taxable year 1952 are discussed on pages 12-13. The only change between 1950-51 and 1952 is a reduction in the percentage of average base period net income used in computing the excess profits credit under the income credit method. For the period July 1, 1950 through June 30, 1951, this percentage is 85 percent. Beginning July 1, 1951 it is 83 percent. The credit is prorated for fiscal years beginning before and ending after July 1,

<sup>f</sup> For treatment of dividends paid with respect to dividends unpaid and accumulated for prior taxable years, and for definitions of public utility and preferred stocks as used for this credit, see sec. 26 (h) of the Code (1939).

<sup>g</sup> A domestic corporation, all of whose business is done in any country or countries of North, Central, or South America, or in the West Indies, or in Newfoundland is classified as a Western Hemisphere trade corporation if (1) 95 percent or more of its gross income for the 3-year period immediately preceding the close of the taxable year (or for such part of that period as the corporation was in existence) was derived from sources outside the United States; and (2) 90 percent or more of its gross income for such period was derived from the active conduct of a trade or business.

<sup>h</sup> For 1944-45, if the excess profits tax is computed under certain special provisions of the 1939 Code (shown in section 26 (e)), the credit is 100/95 of such tax before the application of the 80 percent limitation (footnote 6), before the credit for foreign taxes paid (footnote 5 (a)) and before any adjustment in case of position inconsistent with prior income tax liability (sec. 734).

1951, and an 84 percent intermediate rate is provided for the calendar year 1951 by the 1939 Code.

Special provisions applicable to computation of excess profits credit of certain companies are shown in *Statistics of Income for 1951, Part 2*, pages 11-12.

For 1944-45 the adjusted excess profits net income is the excess profits net income minus a specific exemption of \$10,000 (\$50,000 for certain mutual insurance companies) and minus the amounts of the excess profits credit and the unused excess profits credit adjustment. The excess profits net income is obtained from the normal-tax net income (computed without allowance of credit for income subject to excess profits tax and without allowance of dividends received credit) by making the following adjustments:

(1) Under the income credit method there are added the net short-term capital gain and the adjustment to net operating loss deduction and there is subtracted the sum of:

- Net gain from sale or exchange of capital assets.
- Income from retirement or discharge of bonds.
- Refunds and interest on Agricultural Adjustment Act taxes.
- Recoveries of bad debts.
- Dividends received credit adjustment.
- Nontaxable income of certain industries with depletable resources.

(2) Under the invested capital credit method, the excess profits net income is computed as in (1) above plus (a) 50 percent of interest on borrowed capital and (b) interest on Government obligations.

The excess profits credit provisions for the years 1944 and 1945 are alike and are discussed on pp. 64-65 of *Statistics of Income for 1945, Part 2*, (pp. 44-45 of the 1944 volume). Under these provisions the excess profits credit based on income consists of 95 percent of the average base period net income and 8 percent of the net capital addition, reduced by 6 percent of the net capital reduction. The excess profits credit based on invested capital is the sum of the following percentages:

	Percent
First \$5,000,000 of invested capital-----	8
Next \$5,000,000 of invested capital-----	6
Over \$10,000,000 of invested capital-----	5

The unused excess profits credit, which is the excess of the excess profits credit over the excess profits net income for the taxable year, is, for 1950-52, carried back as an unused excess profits credit adjustment to the first preceding taxable year, and the remainder, if any, may then be carried forward as an adjustment to succeeding years. The carryforward period is 5 years. No carryback of unused excess profits credit computed under the provisions of the Excess Profits Tax Act of 1950 may be made to taxable years ending before July 1, 1950, and no portion of the minimum \$25,000 credit may be considered as unused excess profits credit. For 1944-45 the carryback period was 2 years and the carryforward period 2 years. For computation of the unused excess profits credit adjustment for the years 1950-52, sec. 432 of the 1939 Code, and for the years 1944-45, sec. 710 (c) of such Code. The unused excess profits credit adjustment shown in *Statistics of Income* is the unused excess profits credit carryforward applicable to the year for which it is reported.

(f) *Declared value excess-profits tax*.—The net income used for the computation of this tax differs from that used for income tax by (1) the disallowance of the deduction for the declared value excess-profits tax, and (2) exclusion from gross income of the excess of net long-term capital gain over net short-term capital loss. The 85 percent credit for dividends received is allowed against the net income. This tax was imposed on corporations subject to the capital stock tax under sec. 1200 of the 1939 Code. Insurance companies were exempt. The declared value excess-profits tax was repealed, effective for income-tax taxable years ending after June 30, 1946.

(g) *Life insurance companies*.—For 1944-52 the net income reported by a life insurance company is the net investment income (the gross amount of interest, dividends, and rents less investment and real estate expenses, tax-free interest, and depreciation). Normal-tax, surtax, and excess profits tax net incomes are derived in the same manner as for other corporations, except that no deduction is allowed for a net operating loss. Before imposition of tax, however, recognition is made of requirements for reserve earnings, deferred dividends, and interest paid. In lieu of deductions for these items, for 1951-52 special income tax rates and a reserve interest credit for companies whose adjusted net income was less than 105 percent of their required interest are used. For 1944-50, a reserve and other policy liability credit based on representative data for the preceding year was allowed. These provisions are offset, in case of nonlife insurance business, by an adjustment for certain nonlife insurance reserves. In computing the excess profits net income, 1950-52 and 1944-45, a deduction based on a reserve and other policy liability credit is allowed. The regular excess profits tax rates are imposed. (Income tax rates applicable to 1951-52 are shown on p. 22 of this volume, and computation of credits and other provisions are shown in sections 201-203A of the 1939 Code.)

(h) *Mutual insurance companies*.—See footnote 5 (c).

(i) *Insurance companies other than life or mutual*.—For income and deductions, see sec. 204 of the Code (1939).

(j) *Regulated investment companies* as defined in sec. 361 of the 1939 Code may compute a tax under the provisions of Supplement Q of such Code if not less than 90 percent of certain net income is distributed to shareholders as taxable dividends. The computation of the Supplement Q net income and Supplement Q surtax net income, which are in general the same 1944 through 1952, is shown in the facsimile of Form 1120, p. 171. This computation and the tax rates, which are similar to the regular rates, are shown in sec. 362 of the 1939 Code.

(k) *Mutual savings banks conducting separate life insurance departments* compute net income and tax for such departments under the 1939 Code provisions applicable to life insurance companies (see paragraph (g) above). In tabulating the data for *Statistics of Income*, the life insurance department income and tax are added to those reported for the bank department. These banks were exempt from taxation under section 101 prior to 1952 and are now exempt from excess profits tax under section 454 of the 1939 Code.

<sup>5</sup> The tax rates shown are those applicable, in general, to all corporations, domestic and foreign. Credits against the tax and certain exceptions to the rates are shown in (a) through (i) below:

(a) *Credits against the tax*.—(1) Income and profits taxes paid to foreign countries and possessions of the United States may be used as a credit against the income and excess profits taxes in the manner and to the extent allowed by sec. 131 of the 1939 Code. The allowance of this credit, and the limitations thereon, as applicable for the year 1951, are discussed on p. 14 of *Statistics of Income for 1951, Part 2*.

(2) For 1944-45 a credit of 10 percent of the excess profits tax was allowed against the excess profits tax due for any taxable year beginning after December 31, 1943. However, the majority of the returns for 1944 was filed prior to the enactment of the law (Tax Adjustment Act of 1945) allowing this 10 percent credit and accord-

ingly the data tabulated in *Statistics of Income for 1944* reflect the post-war refund and credit for debt retirement previously in effect.

(b) *Life insurance companies*.—Beginning 1951 special income tax rates are provided. These rates, which are the same for 1951-52, are shown on p. 22 of this volume. For 1944-45, the declared value excess-profits tax is not applicable to life insurance companies.

(c) *Mutual insurance companies*, except life or marine, or fire insurance companies issuing perpetual policies.—Sec. 101 (11) of the 1939 Code exempts these companies from taxation if their gross income from interest, dividends, rents, and premiums (including deposits and assessments) does not exceed \$75,000. When such gross income exceeds \$75,000, Supplement G of the 1939 Code provides income taxation based, in general, on the regular corporate rates, but with certain alternative provisions and limitations (see sec. 207 (a) of the 1939 Code). The excess profits tax rate is the same as that for regular corporations with the exception of a limitation for companies whose gross income from the sources shown above is less than \$125,000. See sec. 430 (d) of the 1939 Code.

Mutual insurance companies are not subject to the declared value excess-profits tax, 1944-45.

(d) *Nonresident foreign corporations*, not engaged in trade or business within the United States, are taxed, under sec. 231 (a) of the 1939 Code, on income (except interest on bank deposits) from sources within the United States. The tax is 30 percent of such income except as modified by treaties with other nations. Such corporations are not subject to the excess profits and declared value excess-profits taxes. The returns of nonresident foreign corporations are not included in *Statistics of Income*.

Under the provisions of Supplement P of the 1939 Code, income of certain foreign personal holding companies is includible in the income of the shareholders and is not reported by the company for taxation.

(e) *Corporations exempt from taxation under sec. 101 of the 1939 Code*, such as labor, agricultural or horticultural organizations, certain types of cooperative and mutual organizations, corporations organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, nonprofit, civic, business, and social organizations, and for 1944-51, certain mutual savings banks, building and loan associations, and cooperative banks. Beginning with 1951 a normal tax and surtax is imposed on the unrelated business net income in excess of \$1,000 of certain of these corporations by Supplement U of the 1939 Code. The rates are similar to the regular corporate income tax rates. However, the returns filed by these corporations are not included in *Statistics of Income*.

(f) *Additional corporations exempt from the excess profits tax* (unless a member of an affiliated group of corporations filing a consolidated return).—(1) Regulated investment companies (defined in sec. 361 of the 1939 Code); (2) personal holding companies (defined in sec. 501); (3) domestic corporations if 95 percent of gross income for the 3-year period immediately preceding the close of the taxable year was derived from sources outside the United States and 50 percent of such income was derived from active conduct of a trade or business; (4) certain corporations subject to provisions of Title IV of the Civil Aeronautics Act of 1938; and (5) beginning 1952, certain mutual savings banks, building and loan associations, and cooperative banks formerly exempt from taxation under section 101. In addition, personal service corporations may elect to be exempt from the tax on excess profits, tax being imposed under Supplement S on the individual shareholders.

(g) *Western Hemisphere trade corporations* (defined in footnote "g" of note 4 (b) above) are exempt from the surtax, 1944-49. For exemption from the consolidated return tax, 1950-52, see table C of this synopsis.

(h) *Corporations subject to additional tax*.—Personal holding companies are subject to an additional surtax, imposed under ch. 2, subch. A of the 1939 Code, and based on the undistributed subch. A net income. For the years 1944-52 the tax is 75 percent of the undistributed subch. A net income not in excess of \$2,000 plus 85 percent of such income in excess of \$2,000. (See pp. 116-117 of this volume for general definitions and discussion.)

Corporations (other than personal holding companies) improperly accumulating surplus are subject to an additional surtax imposed by sec. 102 of the 1939 Code. The effects of the provisions of this section are not reflected in *Statistics of Income*.

(i) *Mutual savings banks conducting separate life insurance departments*. See note 4 (k).

<sup>6</sup> Limitations on the excess profits tax.—The excess profits tax under the Excess Profits Tax Act of 1950 became effective July 1, 1950. Ceiling rates and the alternative tax for new corporations under this act are shown on pp. 12-13 of *Statistics of Income for 1951, Part 2*. For 1944-45 the excess profits tax imposed by sec. 710 of the 1939 Code is limited to the difference between the income tax (other than that shown in footnote 5 (h)) and 80 percent of the surtax net income (computed before the credit for income subject to the excess profits tax and without regard to 80 percent of credit for dividends paid on certain preferred stock). For 1944-45 certain corporations claiming relief under the provisions of sec. 722 of the 1939 Code are permitted to defer payment of 33 percent of the reduction claimed in tax. The privilege is confined to corporations whose adjusted excess profits net income for the taxable year, computed without the benefits of sec. 722, is in excess of 50 percent of the normal-tax net income (computed without the credit for income subject to the excess profits tax). The amount tabulated for *Statistics of Income* is the excess profits tax after this deferment. The excess profits tax effective in 1944-45 was repealed January 1, 1946.

For proration of the excess profits tax, 1949-50 and 1945, see footnote 7.

For special provisions affecting certain companies, see p. 12 of *Statistics of Income for 1951, Part 2* and the 1939 Code.

<sup>7</sup> When a return is filed for a taxable year during which a change in tax rates occurs, tentative taxes are computed, applying each rate in effect during the taxable year to the entire taxable income. The amounts so determined are then prorated on the basis of the number of days in the year during which each rate is in effect. The prorated portions of the tentative taxes are then combined to determine the actual liability which is the amount tabulated in *Statistics of Income*. Since the computation of credits against net income, used in determining the normal-tax and surtax net incomes, is included in the tax computation, changes in such adjustments during the taxable year are reflected in the tentative taxes.

<sup>8</sup> A tentative surtax is computed at 19 percent of the surtax net income in excess of \$25,000. The actual liability is then determined by reducing this amount by 1 percent of the lower of (a) partially tax-exempt interest, or (b) surtax net income in excess of \$25,000.

<sup>9</sup> The excess profits tax, which becomes effective for the calendar year 1950 on July 1, 1950, is the prorated portion of the tax applicable to the number of days after June 30, 1950.

<sup>10</sup> For fiscal years beginning in 1949 and ending after June 30, 1950, the rates shown for the income year 1950 fiscal year period beginning July 1, 1950, and ending March 31, 1951, are effective after June 30, 1950. For proration of tax, see footnote 7.

<sup>11</sup> For income year 1945 returns ending after December 31, 1945, see footnote 7 for proration of surtax.

The excess profits tax effective in 1945 was repealed January 1, 1946, and the tax for fiscal year returns was prorated according to the number of days before that date.

The declared value excess-profits tax was repealed for income-tax taxable years ending after June 30, 1946, and was not subject to proration.

<sup>12</sup> For specific instructions for determination of period held with

respect to certain items in parts (2) and (3) of col. 3, see appropriate subsection of sec. 117 of the 1939 Code.

<sup>13</sup> Net capital gain is the excess of gains from sales or exchanges of capital assets over losses from such sales or exchanges. Both short- and long-term gains and losses are included. Conversely net capital loss is the excess of losses over gains.

<sup>14</sup> Effective for taxable years beginning after September 23, 1950.

<sup>15</sup> See sec. 117 (f) through (o) and sec. 23 (g), (j) and (k).

<sup>16</sup> Applicable to involuntary conversion of capital assets, involuntary conversion, sale, or exchange of real property and property subject to depreciation which was used in the trade or business, amounts received for timber and amounts received or accrued for coal after December 31, 1950, where disposal was by contract under which owner retained an economic interest, all of above property having been held for more than 6 months; timber held for more than 6 months before beginning of taxable year in which cut, if taxpayer so elects; certain unharvested crops on business real property held for more than 6 months and sold in a taxable year beginning after December 31, 1950; and livestock, except poultry, held for draft, breeding, or dairy purposes for 12 months (prior to December 31, 1950, holding period was 6 months and poultry was not excluded). Depreciable property in items 3 (a) and (e) of table are excluded.

<sup>17</sup> Applicable to sales or exchanges made after November 19, 1951.

<sup>18</sup> Applicable to sales or exchanges made after May 3, 1951.

<sup>19</sup> In the case of a domestic corporation owning or controlling, directly or indirectly, 100 percent of the capital stock (exclusive of directors' qualifying shares) of a corporation organized under the laws of Canada or of Mexico and maintained solely for the purpose of complying with the laws of such country as to title and operation of property, such foreign corporation may, at the option of the domestic corporation, be treated as a domestic corporation.

## Schedule J.—OTHER DEDUCTIONS. (See Instruction 30)

Page 2

NOTE: In the case of amounts expended for development and exploration of mines, and oil and gas wells, show separately (1) intangible drilling and development costs of oil and gas wells; (2) development expense of mines, and (3) exploration expense subject to limitation. Show separately deductions, if any, computed on ratable basis.

## Schedule K.—COMPUTATION TO DETERMINE NECESSITY FOR FILING EXCESS PROFITS TAX SCHEDULE

Line No.	Description	Amount
1.	Net income before net operating loss deduction (item 32, page 1). (Taxpayers which have elected under section 455 to accrue income from installment sales or long-term contracts, enter income so adjusted)	\$
2.	Deductions for interest (item 21, page 1) (banks should exclude interest on deposits)	
3.	Deductions on account of retirement or discharge of bonds, etc.	
4.	Deductions attributable to a grant or loan by a governmental agency to encourage mining of certain minerals	
5.	Deductions attributable to technical services rendered to related foreign corporations	
6.	In the case of banks, the excess of the deduction for bad debts under the reserve method over debts which actually became worthless during the year	
7.	Federal income and excess profits taxes paid by lessee under long-term lease	
8.	Total of lines 1 to 7, inclusive	\$
If line 8 is \$25,000 or less, Schedule EP (Form 1120) need not be filed with this return. If line 8 is over \$25,000, Schedule EP (Form 1120) must be filed.		

## TAX COMPUTATION. (See Tax Computation Instructions)

Line No.	Description	Amount
1.	Net income (item 34, page 1)	\$
2.	Less: Dividends received credit: (a) Enter 85 percent of column 2, Schedule C	\$
	(b) Enter 62 percent of column 3, Schedule C	
	(c) Enter 85 percent of dividends received from certain foreign corporations	
	Total dividends received credit. Enter sum of (a), (b), and (c), above, but not to exceed 85 percent of the excess of item 32, page 1, over the sum of items 10 (a) and 10 (b), page 1	\$
3.	Credit for dividends paid on certain preferred stock if taxpayer is a public utility	
4.	Credit for Western Hemisphere trade corporations	
5.	Surtax net income	\$
6.	Combined normal tax and surtax. If amount of line 5 is: Not over \$25,000, enter 30 percent of line 5 (32 percent if a consolidated return) Over \$25,000, compute 52 percent of line 5 (54 percent if a consolidated return). Subtract \$5,500. Enter difference	\$
7.	Less: Normal tax adjustment for partially tax-exempt interest, enter 30 percent of the sum of items 10 (a) and 10 (b), page 1, but not in excess of 30 percent of line 5	
8.	Normal tax and surtax	\$
9.	Total tax (line 8, or line 20 of separate Schedule D). Enter here and as item 35, page 1	\$

## QUESTIONS

- If this is the corporation's first return, indicate whether (a) completely new business ☐, or (b) successor to previously existing business, which was organized as (1) corporation ☐, (2) partnership ☐, or (3) sole proprietorship ☐, or (4) other (indicate) ☐. If successor to previously existing business, give name and address of the previous business organization
- Director's office where the corporation's return for the preceding year was filed
- Enter amount of income (or deficit) from item 32, page 1, Form 1120 for 1951 \$
- The corporation's books are in care of  
Located at
- Check if the corporation is a farmers' marketing or a farmers' purchasing cooperative association ☐, a consumers' cooperative association ☐, or other cooperative association ☐.
- Is the corporation a personal holding company within the meaning of section 501 of the Internal Revenue Code? (If so, an additional return on Form 1120 H must be filed.)
- Is this a consolidated return? (If so, procure from the director of internal revenue for your district Form 851, Affiliations Schedule, which shall be filled in and filed as a part of this return; each subsidiary should procure Form 1122 and file in accordance with Instruction I.)
- If this is not a consolidated return: (a) Did the corporation at any time during the taxable year own 50 percent or more of the voting stock of another corporation either domestic or foreign? (b) Did any corporation, individual, partnership, trust, or association at any time during the taxable year own 50 percent or more of the corporation's voting stock? (If either answer is "yes," attach separate schedule showing: (1) Name and address; (2) percentage of stock owned; (3) date stock was acquired; and (4) the director's office in which the income tax return of such corporation, individual, partnership, trust, or association for the last taxable year was filed.)
- Check whether this return was prepared on the cash basis ☐ or accrual basis ☐.
- Check basis of valuing or method of inventorying material or merchandise at the beginning and end of the taxable year—(a) cost ☐, (b) cost or market, whichever is lower ☐, (c) elective method provided in section 22 (d) ☐, (d) other basis or method ☐. If other basis or method is used, explain fully in separate statement, giving date inventory was last reconciled with stock (see Specific Instructions 2).
- Did the corporation make a return of information on Forms 1096 and 1099 or Form W-2a for the calendar year 1952? (see General Instruction G-(1))
- Has any transaction described in General Instruction G-(3) occurred on or after October 8, 1940? (Answer "yes" or "no")
- Has any transaction described in General Instruction G-(4) occurred on or after January 1, 1951? (Answer "yes" or "no")
- Did the corporation, during the taxable year, have any contracts or subcontracts subject to the Renegotiation Act of 1951? (Answer "yes" or "no") If answer is "yes," state the approximate aggregate gross dollar amount billed during the taxable year under all such contracts and/or subcontracts. \$ (See General Instruction G-5.)
- Did the corporation at any time during the taxable year own directly or indirectly any stock of a foreign corporation? (If so, attach statement as required by General Instruction K.)

16. Total of lines 1 to 15	\$		

# How To Prepare Your 1952 Corporation Income Tax Return ON FORM 1120

References are to the Internal Revenue Code, unless otherwise indicated

## GENERAL INSTRUCTIONS

**A. Corporations required to make a return on Form 1120.**—Every domestic and every resident foreign corporation not expressly exempt from taxation under chapter 1 (see section 101), whether or not having any net income, must file a return. The term "corporation" is defined by the Code to include associations, joint-stock companies, and insurance companies.

Receivers, trustees in dissolution, trustees in bankruptcy, and assignees, operating the property or business of corporations, must make returns of income for such corporations. If a receiver has full custody of and control over the business or property of a corporation, he shall be deemed to be operating such business or property, whether he is engaged in carrying on the business for which the corporation was organized or only in marshaling, selling, disposing of its assets for purposes of liquidation.

Effective for taxable years beginning after December 31, 1951, a mutual savings bank not having capital stock represented by shares; a domestic building and loan association, a domestic savings and loan association, a Federal savings and loan association, substantially all the business of which is confined to making loans to members; and a cooperative bank without capital stock and operated for mutual purposes and without profit are subject to income tax (except excess profits tax) and must file returns.

**B. Period to be covered by return.**—Returns shall be filed for the calendar year 1952 or fiscal year beginning in 1952 and ending in 1953. A fiscal year is an accounting period of 12 months ending on the last day of a calendar month other than December.

The established accounting period must be adhered to for all years unless permission is received from the Commissioner to make a change. An application for a change should be made on Form 1128 and forwarded to the Commissioner of Internal Revenue, Washington 25, D. C., at least 60 days prior to the close of the fractional part of the year for which a return would be required to effect the change.

**C. Basis of return.**—If your books of account are kept on the accrual basis, report all income accrued, even though it has not been actually received, and expenses incurred instead of expenses paid. If your books are not kept on the accrual basis or if you kept no books, make your return on a cash basis and report all income received or constructively received, such as bank interest credited to your account and coupon bond interest matured, and report expenses actually paid.

The following limitation on deductions for unpaid expenses and interest are applicable to taxpayers on the accrual basis.

**Section 24 (c). Unpaid expenses and interest.**—In computing net income no deduction shall be allowed under section 23 (a) relating to expenses incurred, or under section 23 (b), relating to interest accrued—

(1) If such expenses or interest are not paid within the taxable year or within two and one-half months after the close thereof; and

(2) If, by reason of the method of accounting of the person to whom the payment is to be made, the amount thereof is not, unless paid, includible in the gross income of such person for the taxable year in which or with which the taxable year of the taxpayer ends; and

(3) If, at the close of the taxable year of the taxpayer or at any time within two and one-half months thereafter, both the taxpayer and the person to whom the payment is to be made are persons between whom losses would be disallowed under section 24 (b).

**D. Filing of return and payment of tax.**—Returns of domestic and resident foreign corporations must be filed on or before the 15th day of the third month following the close of the taxable year with the director (formerly collector) of internal revenue for the district in which the corporation's principal place of business or principal office or agency is located.

The tax must be paid in full when the return is filed, or in four installments, as follows: 40 percent on or before the 15th day of the third month; 40 percent on or before the 15th day of the sixth month; 10 percent on or before the 15th day of the ninth month; and 10 percent on or before the 15th day of the twelfth month following the close of the taxable year. If any installment is not paid on or before the date fixed for its payment, the whole amount of the tax unpaid shall be paid upon notice and demand by the director. The tax may be paid by sending or bringing with the return a check or money order drawn to the order of "Director

of Internal Revenue." Do not send cash by mail, nor pay it in person except at the director's office.

**E. Declaration.**—The return must be signed by the president, vice president, or other principal officer, and by the treasurer, assistant treasurer, or chief accounting officer. When the return is actually prepared by some person or persons other than officers or employees of the corporation, such person or persons must also sign the declaration at the foot of page 1.

**F. Penalties.**—Severe penalties are imposed for failing to file a return, for late filing, and for filing a false or fraudulent return.

**G-(1). Information at the source.**—Every corporation making payments of (1) interest, rents, commissions, or other fixed or determinable income of \$600 or more during the calendar year 1952 to an individual, a partnership, or a fiduciary, or (2) salaries or wages of \$600 or more shall make a return on Forms 1096 and 1099, except that the making of such return will not be required with respect to salary or wage payments included on Form W-2, provided copies of withholding statements on Form W-2a are furnished. If a portion of such salary or wage payments was reported on a Withholding Statement (Form W-2a), only the remainder must be reported on Form 1099.

Except as stated below, the returns on Forms 1096 and 1099 shall also include dividend payments amounting to \$10 or more during the calendar year 1952 to each shareholder who is an individual (citizen or resident of the United States), a resident fiduciary, or a resident partnership any member of which is a citizen or resident. In the case of a building and loan association, a cooperative bank, a homestead association, a credit union, a savings and loan association, or a corporation described in section 101 (10), (11), (12), or (13), making a payment of a dividend or a distribution to any shareholder, an information return shall be rendered only in the case of payments totaling \$100 or more.

The returns on Forms 1096 and 1099 shall also include (except in the case of insurance companies taxable under Supplement G and corporations exempt under Section 101 (10) or (11)) patronage dividends, rebates, and refunds totaling \$100 or more during the calendar year 1952. Include all amounts allocated as patronage dividends, rebates, and refunds, whether in cash, merchandise, capital stock, revolving fund certificates, retain certificates, certificates of indebtedness, letters of advice, or in some other manner.

**G-(2). Information regarding dissolution or liquidation.**—Every corporation shall, within 30 days after the adoption by the corporation of a resolution or plan for the dissolution of the corporation or for the liquidation of the whole or any part of its capital stock, render a correct return on Form 966 to the Commissioner setting forth the terms of such resolution or plan.

Every corporation making distributions in liquidation of the whole or any part of its capital stock shall also make returns on Forms 1096 and 1099L, as required by instructions on Form 1096, for the calendar year 1952.

**G-(3). Acquisition of interest in or control of a corporation or property after October 8, 1940.**—The transactions to which reference is made in question 12 on page 3 are the following:

(a) Any acquisition, directly or indirectly, on or after October 8, 1940, by a corporation filing a return, or by any person or interest controlling it, or by any corporation or interest which it controls, of control of a corporation; or

(b) Any acquisition, directly or indirectly, on or after October 8, 1940, by a corporation filing a return, or by any corporation or interest which it controls, of property of another corporation not controlled, directly or indirectly, immediately prior to such acquisition, by such acquiring corporation or its stockholders, the basis of which property, in the hands of the acquiring corporation, is determined by reference to the basis in the hands of the transferor corporation.

For the purpose of the above, control means the ownership of stock possessing at least 50 percent of the total combined voting power of all classes of stock entitled to vote or at least 50 percent of the total value of shares of all classes of stock of the corporation.

**G-(4). Certain transfers of property on or after January 1, 1951.**—Under certain circumstances the \$25,000 exemption from surtax and the minimum excess profits credit of \$25,000 are not allowed or they may be reduced to a lesser figure.

## PAGE 2

Section 15 (c) provides that if a corporation on or after January 1, 1951, transfers all or part of its property (other than money) to another corporation which was created for the purpose of acquiring such property or which was not actively engaged in business at the time of such acquisition and if after such transfer the transferor corporation or its stockholders, or both, are in control of such transferee corporation during any part of the taxable year of such transferee corporation, the transferee corporation shall not for such taxable year be allowed either the \$25,000 exemption from surtax or the \$25,000 minimum excess profits credit provided in the last sentence of section 431, unless such transferee corporation shall establish by clear preponderance of the evidence that the securing of such exemption or credit was not a major purpose of such transfer. Rules are provided for the determination of the ownership of stock for the purposes of the subsection. For allocation of the surtax exemption and minimum excess profits credit in certain cases, see section 129 (b). For the purposes of the above, control means the ownership of stock possessing at least 80 percent of the total combined voting power of all classes of stock entitled to vote or at least 80 percent of the total value of shares of all classes of stock of the corporation.

**G-(5). Information regarding renegotiable contracts.**—Every corporation which held, during the taxable year, contracts or subcontracts which were designated as subject to the Renegotiation Act of 1951, shall, in answer to question 14, page 3, state the actual, or if not accurately determinable, its best estimate of the aggregate gross dollar amount billed during the current taxable year under all contracts and/or subcontracts. The gross contract amount billed on cost-plus-fixed-fee contracts, and not merely the fixed fee, shall be included. The term "subcontract" may be defined as any purchase order or agreement to perform all or any part of the work, or to make or furnish any article, required for the performance of another contract or subcontract.

**H. Returns of certain corporations. Domestic corporations entitled to benefits of section 251.**—Domestic corporations within the possessions of the United States (except the Virgin Islands) may report as gross income only gross income from sources within the United States, provided (a) 80 percent or more of the gross income for the 3-year period immediately preceding the close of the taxable year (or such part thereof as may be applicable) was derived from sources within a possession of the United States, and (b) 50 percent or more of the gross income for such period or such part thereof was derived from the active conduct of a trade or business within a possession of the United States. (See section 251.)

**Resident foreign corporations.**—Foreign corporations which at any time within the taxable year are engaged in trade or business within the United States shall make returns on Form 1120 of income received from sources within the United States.

**Nonresident foreign corporations.**—Foreign corporations not engaged in trade or business within the United States at any time within the taxable year are subject to tax upon gross income from sources within the United States (determined under the provisions of section 119) which is fixed or determinable, annual or periodical gains, profits, and income, and are required to make returns on Form 1120NB with respect to such income only in the event their tax liability has not been fully satisfied at the source.

**Insurance companies.**—Life insurance companies subject to tax imposed by section 201 shall make returns on Form 1120L. Mutual insurance companies subject to tax imposed by section 207 shall make returns on Form 1120M. Insurance companies described in section 204 (a) (1) and certain mutual savings banks conducting life insurance business shall make returns on Form 1120, and there should be filed with the return a copy of the 1952 annual statement approved by the National Convention of Insurance Commissioners which contains the underwriting and investment exhibit. A copy of such annual statement for 1951 should also be furnished if not filed for such year.

**Regulated investment companies.**—An investment company will not satisfy the requirements of section 361 so as to come within the term "regulated investment company" for any taxable year unless it files with its return for the taxable year an irrevocable election to be a regulated investment company. If for any given year the investment company satisfies the other requirements of section 361 it will be considered a regulated investment company.

**Personal holding companies.**—Section 500 imposes a surtax upon the undistributed subchapter A net income of corporations, classified as personal holding companies. Every personal holding company must file an additional return on Form 1120H.

Section 501 (a) (1) and (2) defines a "personal holding company" as a corporation if at least 80 percent (see modifications in section 501 (a) (1)) of its gross income for the taxable year is personal holding company income as defined in section 502, and at any time during the last half of the taxable year more than 50 percent in value of its outstanding stock is owned, directly or indirectly, by or for not more than five individuals. (See sections 500–511.)

**Foreign personal holding companies.**—Section 337 (a) requires that the undistributed supplement P net income of a foreign personal holding company, as defined in section 331, shall be included as a dividend in the gross income of the United States shareholders in the amount provided by subsection (b). Form 1120H is not required, but monthly and annual information returns on Forms 957 and 958 must be filed by the officers, directors, and certain United States shareholders as provided by sections 338 and 339.

A foreign corporation which is a personal holding company, as defined in section 501 but not within the definition of section 331, is subject to the surtax imposed by section 500 and must file an additional return on Form 1120H.

**I. Consolidated returns.**—Subject to the provisions of section 141 and the regulations, an affiliated group of corporations may make a consolidated income tax (including excess profits tax) return in lieu of separate returns. The making of a consolidated return shall be upon the condition that all corporations which at any time during the taxable year have been members of the affiliated group making a consolidated return consent to all the consolidated returns regulations prescribed under section 141 (b) prior to the last day prescribed by law for filing such return. The common parent corporation, when filing a consolidated return, shall attach thereto a schedule showing the names and addresses of all the corporations included in the return. Each subsidiary must prepare two duplicate originals of Form 1122 consenting to regulations and authorizing the making of the return on its behalf. One such form shall be attached to the consolidated return as a part thereof, and the other shall be filed, at or before the time the consolidated return is filed, in the office of the director for the subsidiary's district.

Supporting schedules shall be filed with the consolidated return. These schedules shall be prepared in columnar form, one column being provided for each corporation included in the consolidation, showing in detail the items of gross income and deductions and the computation of net income; one column for a total of like items before adjustments are made; one column for intercompany eliminations and adjustments; and one column for a total of like items after giving effect to the eliminations and adjustments. The items included in the column for eliminations and adjustments should be symbolized to identify contra items affected, and suitable explanations appended, if necessary. Similar schedules shall also contain in columnar form a reconciliation of surplus for each corporation, together with a reconciliation of the consolidated surplus.

Consolidated balance sheets as of the beginning and close of the taxable year of the group shall accompany the consolidated return in a form similar to that required for reconciliation of surplus.

**J. Surtax on improperly accumulated surplus.**—In order to prevent accumulation of earnings or profits for the purpose of enabling shareholders to avoid the surtax on individuals, section 102 provides an additional tax upon the net income of corporations formed or utilized for the purpose of such tax avoidance. This additional tax is equal to the sum of the following:

Twenty-seven and one-half percent of the amount of the undistributed section 102 net income not in excess of \$100,000, plus 38½ percent of such net income in excess of \$100,000.

**K. Stock ownership in foreign corporations.**—In addition to the information to be shown in Schedule C of the return, a corporation owning any stock of a foreign corporation must attach a statement showing the name and address of each company and the total number of shares of each class of outstanding stock owned during the taxable year. If the corporation owned 5 percent or more in value of the outstanding stock of a foreign personal holding company, attach a statement setting forth in complete detail the information required by section 337 (d).

**L. Balance sheets.**—The balance sheets, Schedule L, should agree with the books of account or any differences should be reconciled. The balance sheets for a consolidated return of affiliated corporations should be furnished in accordance with Instruction I. All corporations reporting to the Interstate Commerce Commission or to any National, State, municipal, or other public officer, may submit, in lieu of Schedule L, copies of their balance sheets prescribed by said Commission or State and municipal authorities as at the beginning and end of the taxable year.

In case the balance sheet as at the beginning of the current taxable year does not agree in every respect with the balance sheet which was submitted as at the end of the previous taxable year, the differences should be fully explained.

**M. Forms other than prescribed by return.**—Banks, insurance companies, and other corporations required to submit statements of income and expenses to any National, State, municipal, or other public officer may submit with the return a statement of income and expenses in the form furnished to such officer, in lieu of the information requested in items 1 to 34, page 1, except that a railroad company may submit with the return a statement on Form 1090. In such cases the net income will be reconciled by means of Schedule M with the net profit shown by the income and expense statement submitted, and should be entered as item 34, page 1.

## N. PRINCIPAL BUSINESS ACTIVITY

In reporting the "Principal business activity," on page 1, give the one business activity that accounts for the largest percentage of "total receipts." "Total receipts" means gross sales (line 1), plus gross receipts (line 4), plus all other income (lines 7 through 14). State the broad field of business activity as well as the specific product or service, such as "Mining copper," "Manufacturing cotton broad woven fabric," "Wholesale food," or "Retail apparel." *Where receipts are derived from two or more of the detailed industry groups listed below, show only one which is the major source of receipts.* Use the appropriate group under the heading "FINANCE" if over 50 percent of "total receipts" consists of investment income.

Enter the "business group code number" on page 1 from the following list. Give the code for the specific industry group from which the largest percentage of "total receipts" is derived.

AGRICULTURE, FORESTRY, AND FISHERIES			Code			Code			Code		
Code			254 Partitions, shelving, lockers, and office and store fixtures.			357 Office and store machines and devices.			516 Lumber, millwork, and construction materials.

									781 Motion picture production, distribution and service industries.		
									783 Motion picture theaters.		
									791 Amusement and recreation services except motion pictures.		
									801 Other services, including schools.		

## PAGE 4

## SPECIFIC INSTRUCTIONS (Numbered to correspond with item numbers on page 1 of return)

**2. Cost of goods sold.**—If the production, manufacture, purchase, or sale of merchandise is an income-producing factor in the trade or business, inventories of merchandise on hand should be taken at the beginning and end of the taxable year, which may be valued at (a) cost, or (b) cost or market, whichever is lower. The basis properly adopted is controlling until permission to change is obtained from the Commissioner. Application for permission to change the basis of valuing inventories shall be made in writing and filed with the Commissioner within 90 days after the beginning of the taxable year in which it is desired to effect a change. Enter the letters "C" or "C or M" immediately before the amount column in Schedule A, if the inventories are valued at either cost, or cost or market, whichever is lower. Indicate in answer to question 10, on page 3, the basis of valuing or method of inventorying merchandise and furnish the information required by such question. In case the inventories reported do not agree with the balance sheet, attach a statement explaining the difference.

A corporation electing to have applied the method of taking inventory provided for in section 22 (d) should file Form 970 with the return for the first year of the election. Thereafter, attach separate schedule showing: (1) a summary of all inventories; (2) with respect to inventories computed under section 22 (d), if any, the computation of the quantities and cost by acquisition levels.

**9. Interest on corporation bonds, etc.**—Enter interest on bonds, debentures, notes, or certificates or other evidence of indebtedness, issued by any corporation and bearing interest, with interest coupons or in registered form. Do not include interest on any such obligations which constitute stock in trade of the taxpayer or any such obligations of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or any such obligation held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business. Such interest should be entered in item 8. For provisions relating to amortizable bond premium by the owner of a bond, see sections 23 (v) and 125.

**10. Interest on obligations of the United States, etc.**—Enter on line 4, Schedule L, the amounts of the various obligations owned. Enter on line 19, Schedule M, all interest received or accrued during the year on the various obligations listed therein. The total amount of interest reported as item 10 (a) and (b), page 1, is allowable as a credit against net income. The amount of interest received or accrued on obligations issued on or after March 1, 1941, by the United States or any agency or instrumentality thereof should be entered as item 10 (c), page 1. For provisions relating to amortizable bond premium by the owner of a bond, see sections 23 (v) and 125.

For special rules applicable, in the case of dealers in securities, with respect to premium attributable to certain tax-exempt securities, see section 22 (o).

**Non-interest-bearing obligations issued at a discount.**—Taxpayers on the cash basis may elect, as to all non-interest-bearing obligations issued at a discount and redeemable for fixed amounts increasing at stated intervals (for example, United States Saving Bonds), to include the increase in redemption price applicable to the current year. For the year of election the total increase in redemption price of such obligations occurring between the date of acquisition and the end of the year must be included. Taxpayers so electing shall report such income as interest in item 8, 9, or 10, page 1, whichever is applicable, and attach statement listing obligations owned and computation of accrued income.

**11. Rents.**—Enter the gross amount received for the rent of property. Any expenses, including repairs, interest, taxes, and depreciation, should be included in the proper items of deductions on page 1.

**12. Royalties.**—Enter the gross amount received as royalties. If a deduction is claimed for depletion, it should be reported as item 26, page 1.

**13. Gains and losses from sales or exchanges of capital assets and other property.**—The computation of gains and losses from sales or exchanges of capital assets and property other than capital assets should be made on separate Schedule D. Every sale or exchange of property, even though no gain or loss is indicated, must be reported in detail. If for any taxable year the net long-term capital gain exceeds the net short-term capital loss, or in case of only a net-long term capital gain, a computation of the alternative tax should be made on separate Schedule D.

The results computed on separate Schedule D must be shown in appropriate items and line, pages 1 and 3 of Form 1120.

For further information relating to gains and losses from sales or exchanges of property, see instructions on back of separate Schedule D.

**14. Other income.**—List all other income not reported elsewhere in the return. War loss recoveries received during the year should be determined in accordance with section 127 (c) and the applicable regulations.

**18. Rent.**—Enter rent paid or accrued for business property in which the corporation has no equity.

**19. Repairs.**—Enter the cost of incidental repairs, including labor, supplies, and other items, which do not add to the value or appreciably prolong the life of the property. Expenditures for new buildings, machinery, equipment, or for permanent improvements or betterments which increase the value of the property are chargeable to capital account. Expenditures for restoring or replacing property are not deductible, as such expenditures are chargeable to capital accounts or to depreciation reserve, depending on how depreciation is charged on the books of the corporation.

**20. Bad debts.**—Bad debts may be treated in either of two ways—(1) by a deduction from income in respect of debts which become worthless in whole or in part, or (2) by a deduction from income of a reasonable addition to a reserve for bad debts.

A taxpayer filing a first return of income may select either of the two methods, which method must be followed in returns for subsequent years, unless permission is granted by the Commissioner to change to the other method. Application for permission to change the method shall be made in writing at least 30 days prior to the close of the taxable year for which it is desired to effect the change.

Worthless debts arising from unpaid wages, salaries, rents, and similar items of taxable income, will not be allowed as a deduction unless the income such items represent has been included in the return of income for the year for which the deduction as a bad debt is sought to be made or for a previous year.

The deduction from income of a reasonable addition to a reserve for bad debts determined under the general rules by a mutual savings bank not having capital stock represented by shares, a domestic building and loan association, and a cooperative bank without capital stock organized and operated for mutual purposes and profit cannot exceed either of the following:

(a) The amount of the taxpayer's net income computed without making any deduction for the addition to the reserve.

(b) The amount by which 12 percent of the total deposits or withdrawable accounts of depositors at the close of the taxable year exceeds the sum of its surplus, undivided profits, and reserves at the beginning of the taxable year.

In determining such deduction for a reasonable addition to a reserve for bad debts and in determining the sum of the surplus, undivided profits, and reserves there should be taken into account surplus, undivided profits, and bad debt reserves accumulated prior to the close of December 31, 1951.

**21. Interest.**—Enter interest paid or accrued on business indebtedness. Do not include in item 21 interest on indebtedness incurred or continued to purchase or carry obligations (other than obligations of the United States issued after September 24, 1917, and originally subscribed for by the taxpayer) the interest upon which is wholly exempt from taxation. (See also General Instruction C with reference to deductions for accrued interest and expenses.)

**22. Taxes.**—Enter taxes paid or accrued during the taxable year and fill in Schedule G. Do not include Federal income, war-profits, and excess-profits taxes; estate, inheritance, legacy, succession, and gift taxes; foreign or possession income taxes if any credit is claimed in item 36, page 1; taxes assessed against local benefits tending to increase the value of the property assessed; Federal taxes paid on bonds containing a tax-free covenant, nor taxes not imposed upon the taxpayer.

**23. Contributions or gifts paid.**—Enter contributions or gifts actually paid within the taxable year to or for the use of (1) the United States, any State, Territory, or any political subdivision thereof or the District of Columbia, or any possession of the United States, for exclusively public purposes; (2) a corporation, trust, or community chest, fund, or foundation, created or organized in the United States or in any possession thereof or under the law

of the United States, or of any State or Territory, or of the District of Columbia, or of any possession of the United States, organized and operated exclusively for religious, charitable, scientific, veteran rehabilitation service, literary, or educational purposes or the prevention of cruelty to children (but in the case of contributions or gifts to a trust, chest, fund, or foundation payment of which is made within a taxable year beginning after December 31, 1948, only if such contributions or gifts are to be used within the United States or any of its possessions exclusively for such purposes), no part of the net earnings of which inures to the benefit of any private shareholder or individual, and no substantial part of the activities of which is carrying on propaganda, or otherwise attempting to influence legislation; or (3) posts or organizations of war veterans, or auxiliary units of, or trusts or foundations for, any such posts or organizations, if such posts, organizations, units, trusts, or foundations are organized in the United States or any of its possessions, and if no part of their net earnings inure to the benefit of any private shareholder or individual. The amount claimed shall not exceed 5 percent of the corporation's net income as computed without the benefit of this deduction. In the case of a corporation on the accrual basis, any contribution or gift will, at the election of the taxpayer, made at the time the return is filed, be considered as paid during the taxable year if payment is actually made on or before the fifteenth day of the third month following the close of the taxable year, and if the contribution or gift has during the taxable year been authorized by the board of directors of the corporation. Do not deduct as a business expense charitable contributions which come within the above description, but which might be unallowable in whole or in part, because of the limitation contained in section 23 (q). List organizations and amounts contributed to each in Schedule H.

**24. Losses by fire, storm, shipwreck, or other casualty, or theft.**—Enter losses of property sustained during the year, arising from fire, storm, shipwreck, or other casualty, or from theft. Losses should be explained in an attached schedule setting forth a description of the property, date acquired, cost, subsequent improvements, depreciation allowable since acquisition, insurance, salvage value, and deductible loss.

**25. Depreciation.**—The amount deductible on account of depreciation is an amount reasonably measuring the portion of the investment in depreciable property (1) used in the trade or business, or (2) held for production of income, by reason of exhaustion, wear and tear, including a reasonable allowance for obsolescence, which is properly chargeable for the year. If the property was acquired by purchase on or after March 1, 1913, the amount of depreciation should be determined upon the basis of the original cost (not replacement cost) of the property, and the probable number of years remaining of its expected useful life. In case the property was purchased prior to March 1, 1913, the amount of depreciation will be determined in the same manner, except that it will be computed on its original cost, less depreciation sustained prior to March 1, 1913, or its fair market value as of that date, whichever is greater. If the property was acquired in any other manner than by purchase, see section 114. The capital sum to be recovered should be charged off ratably over the useful life of the property. Whatever plan or method of apportionment is adopted must be reasonable and must have due regard to operating conditions during the taxable year and should be described in the return. Stocks, bonds, and like securities are not subject to depreciation within the meaning of the law.

If a deduction is claimed on account of depreciation, fill in Schedule I. In case obsolescence is included, state separately amount claimed and basis upon which it is computed. Cost or value of land must not be included in this schedule, and where land and buildings were purchased for a lump sum the cost of the building subject to depreciation must be established. The adjusted property accounts and the accumulated depreciation shown in the schedule should be reconciled with those accounts as reflected on the books of the taxpayer. (See sections 23 (1) and 114.)

For treatment of depreciation allowed (in excess of amount allowable) which did not result in reduction of income or excess profits taxes, see instructions on back of separate Schedule D.

**26. Depletion of mines, oil and gas wells, timber, etc.**—If a deduction is claimed on account of depletion, procure from the collector Form M (mines and other natural deposits), Form O (oil and gas), or Form T (timber), fill in and file with return. If complete valuation data have been filed with questionnaire in previous years, then file with your return information necessary to bring your depletion schedule up to date, setting forth in full, statement of all transactions bearing on deductions from or addition to value or physical assets during the taxable year with explanation of how depletion deduction for the taxable year has been determined. (See section 23 (m) and section 114 (b).) For any taxable year ending after December 31, 1950, expenditures to be

deferred and deducted ratably under the election provided in sections 23 (cc) (2) relating to certain expenditures in the development of mines, and 23 (ff) (2) relating to deductions for mine exploration, are not to be taken into account in determining the adjusted basis for property for the purpose of computing a deduction for depletion under section 114. See note under Schedule J for information to be submitted in the case of amounts expended for development and exploration of mines, and oil and gas wells.

**27. Amortization of emergency facilities.**—A corporation is entitled, provided an election is made as prescribed in section 124 A (b), to a deduction with respect to the amortization of the adjusted basis of an emergency facility, the construction, reconstruction, erection, or installation of which was completed after December 31, 1949, or the acquisition of which occurred after December 31, 1949, and with respect to which a certificate of necessity has been made, as provided by section 124A (d) (1). A statement of the pertinent facts should be filed with the taxpayer's election to take amortization deductions with respect to such facility. (See section 124A and the regulations thereunder.)

**28. Advertising.**—Enter in item 28 the total amount paid or incurred during the year for advertising. Expenditures for advertising, to be deductible, must be ordinary and necessary and bear a reasonable relation to the business activities in which the corporation is engaged.

**29 (a). Amounts contributed under a pension, annuity, stock bonus, or profit-sharing plan.**—Enter in item 29 (a) the total amount deductible under section 23 (p). A corporation claiming a deduction under section 23 (p) must submit with its return, in addition to the information specified in the regulations concerning such deduction, a statement with respect to each plan showing the type of plan, i. e., pension, annuity, profit-sharing, stock bonus, or other plan deferring the receipt of compensation, whether or not the plan is qualified under section 165 (a), and the method of funding, i. e., individual annuity or insurance contracts, group annuity contract, group permanent contract, or self-insured trust. If not funded, so indicate.

**29 (b). Amounts contributed under other employee benefit plans.**—Enter in item 29 (b) deductions for contributions to employee benefit plans other than those claimed in item 29 (a), such as insurance, health, or welfare plan. Submit with the return a schedule for each plan showing (1) the nature of benefits, i. e., group term life insurance, group permanent life insurance, non-insured death benefit, hospitalization, surgical, medical, sickness, accident, major medical expense, or other welfare benefits; (2) method of financing, i. e., insured, industry or area wide fund, self-insured fund, or direct benefit payments; (3) the amount of deduction; (4) the amount of employee contributions; (5) the number of employees covered; and (6) if a self-insured plan, the amount of benefits paid during the taxable year. Also show the number of employees employed by the corporation.

**30. Other Deductions authorized by law.**—Enter in item 30 any other authorized deductions for which no space is provided on the return. Any deduction claimed should be explained in Schedule J. See note under Schedule J for information to be submitted in case of amounts expended for development and exploration of mines, and oil and gas wells.

Do not deduct losses incurred in transactions which were neither connected with the corporation's trade or business nor entered into for profit.

No deduction is allowable for the amount of any item or part thereof allocable to a class of exempt income, other than interest. Items directly attributable to such exempt income shall be allocated thereto, and items directly attributable to any class of taxable income shall be allocated to such taxable income. If an item is indirectly attributable both to taxable income and exempt income, a reasonable proportion thereof determined in the light of all the facts and circumstances in each case, shall be allocated to each. Apportionments must in all cases be reasonable. A taxpayer receiving any exempt income, other than interest, or holding any property or engaging in any activity the income from which is exempt, shall submit with its return as a part thereof an itemized statement, in detail, showing (1) the amount of each class of exempt income, and (2) the amount of expense items allocated to each such class (the amount allocated by apportionment being shown separately).

In the case of mutual savings banks, cooperative banks, and domestic building and loan associations, any amounts paid to, or credited to the accounts of depositors or holders of accounts as dividends on their deposits or withdrawable accounts, if such amounts may be withdrawn on demand subject only to customary notice of intention to withdraw, are allowable deductions in computing net income.

A special deduction in computing net income is allowed a mutual savings bank not having capital stock represented by shares, a

## PAGE 6

domestic building and loan association, or a cooperative bank without capital stock organized and operated for mutual purposes and without profit for repayment during the taxable year of loans made before December 1, 1951, by the United States or its wholly owned agencies, or by a mutual fund established under the authority of State law. (See section 3797 (a) for definition of the term "domestic building and loan association.")

**33. Net operating loss deduction.**—In determining the net operating loss deduction for any taxable year, the aggregate of the net operating loss carry-overs and carry-backs to such year is reduced by the excess of the net income for the year computed with the adjustments described in (a), (b), and (c), below, over the normal-tax net income computed without regard to the net operating loss deduction, without the credit for dividends paid on certain preferred stock of a public utility and without the credit allowable to Western Hemisphere trade corporations under section 26 (i). The net operating loss deduction claimed on a return is computed without regard to carry-backs from succeeding years (a claim must be filed with respect to such carry-backs). Section 122 provides detailed rules for the computation of the net operating loss deduction.

A net operating loss is the excess of the deductions allowed by Chapter 1 over the gross income, taking into consideration the following adjustments:

(a) The deduction for depletion shall not exceed the amount which would be allowed if computed without reference to discovery value or to percentage depletion under section 114 (b) (2), (3), or (4);

(b) There shall be included in computing gross income the amount of interest received which is wholly exempt from the taxes imposed by chapter 1, decreased by the amount of interest paid or accrued which is not allowed as a deduction by section 23 (b), relating to interest on indebtedness incurred or continued to purchase or carry certain tax-exempt obligations;

(c) No net operating loss deductions shall be allowed; and

(d) For taxable years ended before July 1, 1950, there shall be allowed as a deduction the amount of World War II excess profits tax paid or accrued within the year (subject to the rules specified in section 122 (d) (6)).

If the taxable year in which the net operating loss is sustained begins on or after January 1, 1942, and before January 1, 1948, the net operating loss is carried back to the two preceding taxable years and carried over to the two succeeding taxable years, except that in the case of a corporation commencing business on or after January 1, 1946, the net operating loss for taxable years beginning on or after January 1, 1947, and before January 1, 1948, is carried back to the two preceding taxable years and carried over to the three succeeding taxable years. If the taxable year in which the net operating loss is sustained begins on or after January 1, 1948, and before January 1, 1950, the net operating loss is carried back to the two preceding taxable years and carried over to the three succeeding taxable years. The net operating loss is carried back first to the earliest year to which it may be carried and to the extent that it exceeds the net income of such year is, in general, carried to the next earliest year, etc. If the taxable year in which the net operating loss is sustained begins on or after January 1, 1950, the net operating loss is carried back first to the preceding taxable year and to the extent that it exceeds the net income of such year is carried over to the five succeeding taxable years.

In determining the amount of net operating loss not used in an earlier year but available to be carried to another year, the net income of the earlier year is computed (1) with the adjustment described in (a), (b), and (d), above, and (2) by determining the net operating loss deduction for such earlier year without regard to such net operating loss and without regard to the reduction described in the first paragraph of instruction 33. Only the portion of a net operating loss which is not used as a carry-back may be carried over. For example, a net operating loss sustained in the calendar year 1949 must first be carried back to 1947 and the unused portion, if any, carried back to 1948. The portion unused as carry-backs to 1947 and 1948 may be carried over to 1950, 1951, and 1952.

Section 362 (b) provides that no net operating loss deduction shall be allowed in the case of a regulated investment company.

Every corporation claiming a net operating loss deduction for any taxable year shall file with its return for such year a detailed schedule showing the computation of the net operating loss deduction.

If the corporation desires prompt payment for refund attributable to a net operating loss carry-back an application for a tentative adjustment should be filed on Form 1139 within 12 months after the close of the taxable year in which the net operating loss is sustained.

**34. Net income.**—Under the provisions of section 47 (c) (1), if a corporation changes its accounting period, the net income for the short period between the close of the old accounting period and the date designated as the close of the new period shall be placed on an annual basis by multiplying the amount thereof by 12 and dividing by the number of months in the short period. The tax shall be such part of the tax computed on such annual basis as the number of months in the short period is of 12 months. Section 47 (c) (2) provides, however, that a taxpayer may file an application to reduce the tax by establishing the amount of its actual net income for the period of 12 months beginning with the first day of the short period, computing the tax on such net income, and taking as the tax such part of the tax so computed as the income determined for the short period is of the income for the 12 months, or if a corporation prior to the end of the 12-month period distributed substantially all its assets, then, in order to determine an actual 12-month income experience, there shall be used the 12-month period ending with the last day of the short period. A taxpayer using the 12-month period ending with the last day of the short period may claim in its return the benefits of section 47 (c) (2), provided an application has been filed. The tax cannot be reduced below the amount of tax which would be due if the income for the short period was not placed on an annual basis.

**36. Credit for taxes.**—If, in accordance with section 131 (a), a credit is claimed by a domestic corporation in item 36, page 1, on account of income, war-profits and excess-profits taxes paid or accrued to a foreign country or a possession of the United States, Form 1118 should be submitted with the return, together with the receipt for each such tax payment. In case credit is sought for taxes accrued but not paid, the form must have attached to it a certified copy of the return on which each such accrued tax was based, and the Commissioner may require a bond on Form 1119 as a condition precedent to the allowance of a credit for such accrued taxes. Foreign corporations, domestic corporations entitled to the benefits of section 251, and corporations organized under the China Trade Act, 1922, are not allowed this credit.

## TAX COMPUTATION INSTRUCTIONS

**1. Normal-tax income.**—The term "normal-tax net income" means the adjusted net income minus the sum of the following credits:

(a) The credit for dividends received provided in section 26 (b). The dividends-received credit is an amount equal to the sum of—

(1) 85 percent of all dividends received from a domestic corporation subject to the income tax, other than dividends received on the preferred stock of a public utility;

(2) 62 percent of the amount received as dividends on the preferred stock of a public utility which is subject to the income tax; and

(3) 85 percent of dividends received from certain foreign corporations. Section 26 (b) provides for a dividends received credit in the case of dividends received from a foreign corporation (other than a foreign personal holding company) which is subject to the income tax if, (1) for an uninterrupted period of not less than 36 months (or the entire period the foreign corporation was in existence if such period is less than 36 months) ending with the close of the foreign corporation's taxable year in which such dividends are paid, the foreign corporation has been engaged in trade or busi-

ness within the United States, and (2) during such period, 50 percent or more of the gross income of the foreign corporation has been derived from sources within the United States.

The amount of the allowable credit is 85 percent of the amount received as dividends from (a) earnings and profits of the taxable year (computed as of the close of the taxable year without diminution by reason of any distribution made during the taxable year), without regard to the amount of the earnings and profits at the time the distribution was made or (b) that portion of earnings and profits accumulated after February 28, 1913, which represents earnings and profits accumulated after the beginning of the portion of the uninterrupted period ending at the beginning of the taxable year. However, the amount of the credit allowed under clause (a) is limited to an amount which bears the same ratio to 85 percent of the amount received as dividends from such earnings and profits as the gross income of the foreign corporation for the taxable year from sources within the United States bears to the gross income from all sources for the taxable year. Under clause (b) the amount of the credit is limited to an amount which bears the same ratio to 85 percent of the amount received as dividends from such accumulated earnings and profits as the gross income

from sources in the United States for the portion of the uninterrupted period bears to the gross income from all sources for the portion of the uninterrupted period.

In no event is the total credit allowed by section 26 (b) to exceed 85 percent of the adjusted net income computed without regard to the net operating loss deduction provided in section 23 (s). For the purpose of computing the dividends-received credit, the whole or any part of a dividend received in property other than money will be considered as a dividend to the extent of the adjusted basis of such property in the hands of the distributing company at the time of distribution increased in the amount of gain or decreased in the amount of loss recognized to the distributing company by reason of such distribution, subject, however, to the applicable limitations provided in section 26 (b). The credit allowed by 26 (b) may not be allowed in respect of dividends received from a corporation organized under the China Trade Act, 1922, or from a corporation which under section 251 is taxable only on its gross income from sources within the United States by reason of its receiving a large percentage of its gross income from sources within a possession of the United States.

(b) In the case of a public utility, the credit for dividends paid on its preferred stock provided in section 26 (h). The credit under section 26 (h) is an amount equal to 27 percent of the lesser of (1) the amount of dividends paid on the preferred stock of a public utility company, or (2) the excess of the adjusted net income of the public utility company over its dividends-received credit provided in section 26 (b).

(c) In the case of a Western Hemisphere trade corporation (as defined in section 109), the credit provided in section 26 (i). A credit is allowed equal to 27 percent of the normal-tax net income of the Western Hemisphere trade corporation computed without regard to the credit provided in section 26 (i).

2. Rates on normal-tax net income.—Section 13 (b) provides a normal tax of 30 percent upon the normal-tax net income of every corporation (except (1) those expressly exempt from taxation; (2) insurance companies; (3) nonresident foreign corporations; and (4) regulated investment companies).

3. Surtax net income.—The term "corporation surtax net income" means the net income minus the sum of the credits allowable against adjusted net income in computing the normal-tax net income (see paragraph 1 (a), (b), and (c) of this part of instructions).

4. Rates on surtax net income.—Section 15 (b) imposes a surtax of 22 percent upon the corporation surtax net income of every corporation (except (1) those expressly exempt from taxation; (2) insurance companies; (3) nonresident foreign corporations; (4) regulated investment companies).

Section 141 provides that in any case in which a consolidated return is made or required to be made, the surtax imposed under section 15 shall be increased by 2 percent of the consolidated corporation surtax net income of the affiliated group of includible corporations. However, in the case of an affiliated group of corporations including one or more Western Hemisphere trade corporations filing a consolidated return, the 2 percent additional tax is applied on the amount by which the consolidated corporation surtax net income of the affiliated group exceeds the portion of the consolidated corporation surtax net income attributable to the Western Hemisphere trade corporation. If the consolidated surtax net income of the Western Hemisphere trade corporation is less than zero, the 2 percent additional tax is applied against the consolidated corporation surtax net income of the entire affiliated group, including the Western Hemisphere trade corporations.

For disallowance of the \$25,000 exemption from surtax in cases in which the major purpose of the transfer of property was to obtain such exemption and the \$25,000 minimum excess profits credit, see General Instructions G-(3) and G-(4).

5. Insurance companies other than life or mutual.—All insurance companies (other than life or mutual insurance companies or foreign insurance companies not carrying on an insurance business within the United States), including mutual marine insurance companies, and mutual fire insurance companies issuing perpetual policies, are subject to the taxes imposed by section 204 (a) (1) at the rates specified in section 13 (b) and in section 15 (b). The net income of such insurance companies is defined in section 204 (b) (2), and differs from the net income of other corporations. For what constitutes normal-tax net income, see section 13 (a) (2). For the definition of surtax net income, see section 15 (a). In computing the normal-tax net income and corporation surtax net income, the credits provided in section 26 shall be allowed in the manner and to the extent provided in section 13 (a) and section 15 (a).

6. Life insurance departments of mutual savings banks.—A mutual savings bank authorized under State law to conduct a life insurance business and which conducts such business in a separate department the accounts of which are maintained separately from the other departments of the bank is taxable under section 110 provided the life insurance department would, if it were treated as a separate corporation, qualify as a life insurance company under section 201 (b).

The tax consists of the sum of—(1) a partial tax computed under sections 13 and 15 upon the net income of the bank determined without regard to any items of income or deductions properly allocable to the life insurance department; and (2) a partial tax upon the net income (computed as provided in section 201 (c)) of the life insurance department determined without regard to any items of income or deductions not properly allocable to such department at the rates and in the manner provided in Supplement G with respect to life insurance companies.

**Tax computation.**—A mutual savings bank for the purpose of computing the first partial tax should use form 1120 filing in all applicable items (except items 38 and 39, page 1) and schedules. The first partial tax should be computed by using the Tax Computation schedule on page 3 of Form 1120. For the purpose of computing the second partial tax Form 1120L should be used as a schedule filling in all applicable items and schedules. The tax so computed should be entered in item 38, page 1, Form 1120, as the second partial tax striking out the present wording of that item and inserting appropriate identification. The sum of items 37 and 38, page 1, Form 1120, will constitute the tax due. Form 1120L properly filled in should be attached to and made a part of Form 1120 and properly identified as an accompanying schedule. However, any Form 1120L so used need not be executed under the penalty of perjury.

7. Resident foreign corporations.—Section 231 (b) provides for a tax on foreign corporations engaged in trade or business within the United States computed at the rates provided in sections 13 (b) and 15 (b). See paragraphs 2 and 4 of this part of instructions.

## TAX ON REGULATED INVESTMENT COMPANIES

**Method of taxation.**—An investment company satisfying the requirements of section 361, and filing with its return an election to be a regulated investment company, will be taxable under Supplement Q if it distributes during the taxable year to its shareholders as taxable dividends, other than capital gain dividends, an amount not less than 90 percent of its net income for the taxable year computed without regard to net long-term and net short-term capital gains, and complies for such year with prescribed rules and regulations for the purpose of ascertaining the actual ownership of its outstanding stock.

**Supplement Q net income.**—The term "Supplement Q net income" means the adjusted net income (computed by excluding the excess, if any, of the net long-term capital gain over the net short-term capital loss, and without the net operating loss deduction provided in section 23 (s)), minus the basic surtax credit (excluding capital gain dividends) computed under section 27 (b) without the application of paragraphs (2) and (3). For the purposes of this paragraph, the net income shall be computed without regard to section 47 (c) (relating to income placed on an annual basis).

**Supplement Q surtax net income.**—The term "Supplement Q surtax net income" means the net income (computed by excluding the excess, if any, of the net long-term capital gain over the net short-term capital loss, and without the net operating loss deduction provided in section 23 (s)), minus the dividends (other than capital gain dividends) paid during the taxable year increased by the consent dividends credit provided by section 28. For the purposes of this paragraph the amount of dividends paid shall be computed in the same manner as provided in subsections (d), (e), (f), (g), (h), and (i) of section 27 for the purpose of the basic surtax credit provided in section 27; and the net income shall be computed without regard to section 47 (c) (relating to income placed on an annual basis).

**Capital gain dividend.**—Section 362 (b) (7) defines the term "Capital gain dividend" as any dividend or part thereof which is designated by the company as a capital gain dividend in a written notice mailed to its shareholders at any time prior to the expiration of 30 days after close of its taxable year. If the aggregate amount so designated with respect to a taxable year of the company is greater than the excess of the net long-term capital gain over the net short-term capital loss of the taxable year, the portion of each distribution which shall be a capital gain dividend shall be only

## PAGE 8

that proportion of the amount so designated which such excess of the net long-term capital gain over the net short-term capital loss bears to the aggregate amount so designated. Submit a copy of written notice to stockholders.

**When dividends are considered paid.**—For the purposes of subsection (b) of section 362, any dividend or portion thereof which is declared after the close of the taxable year and prior to the time for the filing of the return for such taxable year (including the period of any extension of time granted for filing such return) shall, to the extent the company so elects in its return, be treated

as having been paid during such taxable year provided that the distribution of such dividend (the entire dividend declared, and not merely the portion covered by the election) is actually made to its shareholders within the 12-month period following such taxable year and not later than the date of the first regular dividend payment made after such declaration.

**Tax computation.**—A regulated investment company should compute its tax by using a computation schedule similar to the one shown below in lieu of the computation schedule on page 3 of Form 1120:

1. Adjusted net income computed under section 362 (b) (1) (item 32, page 1, less the sum of items 10 (a), 10 (b), and 13 (b), Form 1120).....	\$.....	
2. Less: Basic surtax credit (excluding capital gain dividends) computed without regard to paragraphs (2) and (3) of section 27 (b).....		
3. Supplement Q net income.....	\$.....	
4. Normal tax (30 percent of line 3).....	\$.....	
5. Net income computed under section 362 (b) (2) (item 32, page 1, less item 13 (b), page 1, Form 1120).....	\$.....	
6. Less: Dividends (other than capital gain dividends) paid, including consent dividends credit.....		
7. Supplement Q surtax net income.....	\$.....	
8. Surtax (22 percent of the excess of line 7 over \$25,000).....	\$.....	
9. Excess of net long-term capital gain over net short-term capital loss (item 13 (b), page 1, Form 1120).....	\$.....	
10. Less: Capital gain dividends paid.....		
11. Excess subject to tax.....	\$.....	
12. Tax (25 percent of line 11).....	\$.....	
13. Total tax in lines 4, 8, and 12. (Enter as item 35, page 1, Form 1120).....	\$.....	

**SCHEDULE D (Form 1120)**

20. Tax liability (line 18 or 19, whichever is lesser). Enter here and as line 9, page 3, Form 1120	\$ .....

**(2) PROPERTY OTHER THAN CAPITAL ASSETS**

1. Description of property	2. Date acquired Mo. Day Year	3. Date sold Mo. Day Year	4. Gross Sales Price (Contract price)	5. Depreciation Allowed (or allowable) Since Acquisition or March 1, 1913 (Furnish details)	6. Cost or Other Basis and Cost of Improvements Subsequent to Acquisition or March 1, 1913	7. Expense of Sale	8. Gain or Loss (columns 4 plus columns 5 less the sum of columns 6 and 7)
1. ....			\$ .....	\$ .....	\$ .....	\$ .....	\$ .....
2. Total net gain (or loss). Enter here and as item 13 (c), page 1, Form 1120							\$ .....

State with respect to each item of property reported in Schedule D (1) and (2): (1) how property was acquired ..... (2) whether at time of sale or exchange (a) purchaser owned directly or indirectly more than 50 percent in value of your outstanding stock, (b) where purchaser was a corporation, more than 50 percent in value of its capital stock and 50 percent in value of your capital stock was owned directly or indirectly by or for the same individual or his family, and (c) where purchaser was a corporation, whether more than 50 percent in value of its capital stock was owned directly or indirectly by you .....

If so, state name and address of purchaser .....

**Instructions For Insurance Companies Using This Schedule**

Companies taxable under section 204 and having losses from capital assets sold or exchanged in order to obtain funds to meet abnormal insurance losses, etc., shall attach a schedule corresponding to Schedule D, Form 1120M.

For companies taxable under section 204 or section 207 (a) (1) or (3), "net capital loss" means the amount by which the losses for the taxable year from sales or exchanges of capital assets exceed the sum of the gains from such sales or exchanges and the lesser of (1) the corporation surtax net income (computed without regard to gains or losses from sales or exchanges of capital assets) or (2) losses from the sale or exchange of capital assets sold or exchanged to obtain funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders.

For companies taxable under section 207 (a) (1) or (3), all references to "item" or "line" numbers, Form 1120, shall be considered as references to the appropriate "item" or "line" in Form 1120M. It will be necessary for such companies to substitute for lines 14, 15, and 16 of the above alternative tax computation, a computation conforming to that on page 2 of Form 1120M.

## INSTRUCTIONS

(References are to the Internal Revenue Code)

Gains and losses from sales or exchanges of capital assets and other property.—Report sales or exchanges of capital assets and sales or exchanges of property other than capital assets in Schedule D on other side. Every sale or exchange of property, even though no gain or loss may be indicated, must be reported in detail.

Losses from sales or exchanges of capital assets shall be allowed only to the extent of gains from such sales or exchanges. However, the amount of a net capital loss sustained in any taxable year may be carried over to each of the five succeeding taxable years and treated in each such five succeeding taxable years as a short-term capital loss to the extent not allowed as a deduction against any net capital gains of any taxable year intervening between the taxable year in which the net capital loss was sustained and the taxable year to which carried.

**Definition of capital assets.**—The term "capital assets" means property held by the taxpayer (whether or not connected with his trade or business), but does not include (a) stock in trade of the taxpayer or other property of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or property held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business, or (b) property used in the trade or business, of a character which is subject to the allowances for depreciation, provided in section 23 (1), or real property used in the trade or business of the taxpayer; or (c) a copyright, a literary, musical, or artistic composition, or similar property; or (d) an obligation of the United States or any of its possessions, or of a State or Territory, or any political subdivision thereof, or of the District of Columbia issued on or after March 1, 1941, on a discount basis and payable without interest at a fixed maturity date not exceeding 1 year from the date of issue.

**Classification of capital gains and losses.**—The phrase "short-term" applies to the category of gains and losses arising from the sale or exchange of capital assets held for 6 months or less, the phrase "long-term" to the category of gains and losses arising from the sale or exchange of capital assets held for more than 6 months.

Enter full description of each item of property sold or exchanged, even though no gain or loss may be indicated. Such description should include the following facts: (a) For real estate, location and description of land, description of improvements, details explaining depreciation (column 5 of Schedule D); (b) for bonds or other evidences of indebtedness, name of issuing corporation, description of the particular issue, denomination, and amount; (c) for stocks, name of issuing corporation, class of stock, number of shares, and capital changes affecting basis (nontaxable stock dividends, other nontaxable distributions, stock rights, etc.);

The "basis" for the property is not subject to the same rule for reporting gains as for losses, if the property was acquired before March 1, 1913. If the property sold or exchanged was acquired prior to March 1, 1913, the basis of determining GAIN is the cost or the fair market value as of March 1, 1913, adjusted as provided in section 113 (b), whichever is greater, but in determining LOSS the basis is cost so adjusted. If property was acquired after February 28, 1913, basis for both gain and loss is the cost of such property, except as otherwise provided by section 113. The exceptions arise chiefly where property was acquired by gift, bequest, tax-free exchange, involuntary conversion, or wash sale of stock; and in such cases section 113 provides the basis that shall be used. If the amount shown as the basis is other than actual cash cost of the property sold or exchanged, full details must be furnished regarding the acquisition of the property.

Enter in column 5 of separate Schedule D the amount of depreciation, exhaustion, wear and tear, obsolescence, and depletion in respect of the property. This amount shall be the sum of the following:

(a) The amount of depreciation, exhaustion, wear and tear, obsolescence, and depletion which has been allowed (but not less than the amount allowable) in respect of such property since date of acquisition, or since February 28, 1913, if the property was acquired before that date. For any period after December 31, 1951, the amount of depreciation, etc., allowed (and which is in excess of the amount allowable) shall be disregarded to the extent that such excess does not result in a reduction for any taxable year of the taxpayer's income or excess profits taxes. In respect of any period after February 28, 1913, and before January 1, 1952, the taxpayer may disregard depreciation, etc., which was in excess of the amount allowable and which did not result in reduction of income or excess profits taxes only if an election is made in accordance with regulations. See section 113(b)(1)(B).

(b) The amount of depreciation, exhaustion, wear and tear, obsolescence, and depletion actually sustained prior to March 1, 1913, if the property was acquired before that date.

Subsequent improvements include expenditures for additions, improvements, renewals, and replacements made to restore the property or prolong its useful life. Do not deduct ordinary repairs, interest, or taxes in computing gain or loss.

**Losses on securities becoming worthless.**—If any securities (as defined below) become worthless within the taxable year and are capital assets, the loss resulting therefrom shall, in the case of a taxpayer other than a bank, as defined in section 104, be considered as a loss from the sale or exchange, on the last day of such taxable year, of capital assets. (See section 23 (k) (2).)

**Definition of securities.**—As used for the purpose of determining capital losses under section 23 (k), the term "securities" means bonds, debentures, notes, or certificates, or other evidences of indebtedness, issued by any corporation (including those issued by a government or political subdivision thereof), with interest coupons or in registered form. However, securities issued by any corporation affiliated with the taxpayer shall not be deemed capital assets. (See section 23 (k) (3) and (5).)

**Losses on stocks or stock rights becoming worthless.**—If any shares of stock in a corporation (except stock in a corporation affiliated with the taxpayer), or rights to subscribe for or to receive such shares, become worthless during the taxable year and are capital assets, the loss resulting therefrom shall be considered as a loss from the sale or exchange, on the last day of such taxable year, of capital assets. (See section 23 (k) (2) and (4).)

**Losses not allowable.**—No loss shall be recognized in any sale or other disposition of shares of stock or securities where there has been acquired substantially identical stock or securities or there has been entered into a contract or option to acquire substantially identical stock or securities within 30 days before or after the date of such sale or disposition, except in cases of dealers in stocks and securities and with respect to transactions made in the ordinary course of such business.

No deduction shall be allowed in respect of losses from sales or exchanges of property, directly or indirectly (except in the case of distributions in liquidation), between an individual and a corporation in which such individual owns, directly or indirectly, more than 50 percent in value of the outstanding stock, or (except in

the case of distributions in liquidation) between two corporations more than 50 percent in value of the outstanding stock of each of which is owned, directly or indirectly, by or for the same individual, if either one of such corporations, with respect to the taxable year of the corporation preceding the date of the sale or exchange was, under the laws applicable to such taxable year, (1) a personal holding company, as defined in section 501, or (2) a foreign personal holding company, as defined in section 331. (See paragraph (1) (B) and (C) of section 24 (b).) (For the purpose of determining the ownership of stock, in applying this paragraph, see section 24 (b) (2).)

**Gain on sales by a "controlled" corporation.**—If (1) property is sold or exchanged after May 3, 1951, by a corporation to one or more of its shareholders, and (2) the property in the hands of such shareholder is depreciable property, and (3) such shareholders, their spouses, and their minor children and minor grandchildren own more than 80 percent in value of the outstanding stock of the corporation, then any gain on such sale or exchange shall not be treated as gain from the sale or exchange of property which is a capital asset or of property which is described in section 117 (1).

**Gains and losses from involuntary conversion and from the sale or exchange of certain property used in the trade or business.**—The term "property used in the trade or business" as used in section 117 (j) means property used in the trade or business, of a character which is subject to the allowance for depreciation provided in section 23 (1), held for more than 6 months, and real property used in the trade or business, held for more than 6 months, which is not (a) property of a kind which would properly be includible in the inventory of the taxpayer if on hand at the close of the taxable year or (b) property held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business. Such term also includes timber or coal with respect to which section 117 (k) (1) or (2) is applicable as well as unharvested crops sold with the land to which section 117 (j) (3) applies. Such term also includes livestock (but not poultry) held for draft, breeding, or dairy purposes and held for 12 months or more from the date of acquisition.

Section 117 (j) provides special treatment for the gains and losses upon the sale or exchange of depreciable property and of land, held for more than 6 months, and for the gains and losses upon the compulsory or involuntary conversion of such depreciable property and land and of capital assets held for more than 6 months.

The method prescribed in section 117 (j) (2) is to treat such gains and losses during the taxable year as gains and losses from the sale or exchange of capital assets held for more than 6 months, if the aggregate of such gains exceeds the aggregate of such losses. If, however, the aggregate of such gains does not exceed the aggregate of such losses, such gains and losses shall not be treated as gains and losses from the sale or exchange of capital assets held for more than 6 months.

In determining whether gains do or do not exceed losses, it is necessary to include the gains and losses to the extent that they would be included if they were all ordinary gains and losses. The limitations of section 117 (d) on the deductibility of capital losses do not operate to exclude any such losses from the computation as to the excess of gains over losses, but all such losses are included in full.

For special treatment of gain or loss upon the cutting of timber, or upon the disposal of timber or coal under a contract by which the owner retains an economic interest in such timber or coal, see section 117 (k).

**Alternative tax.**—If for any taxable year the net long-term capital gain exceeds the net short-term capital loss or in case of only a net long-term capital gain, section 117 (c) imposes an alternative tax in lieu of the normal tax and surtax imposed upon net income, if and only if such tax is less than the tax imposed by sections 13 and 15 (relating to normal tax and surtax on corporations), sections 204 and 207 (a) (1) or (3) (relating to normal tax and surtax on insurance companies, other than life insurance companies), section 421 (relating to taxation of business income of certain section 501(c)(3) organizations), and section 500 (relating to surtax on personal holding companies). The alternative tax is the sum of (1) a partial tax, computed at the normal tax and surtax rates on the net income decreased by the amount of the excess of the net long-term capital gain over the net short-term capital loss, and (2) 26 percent of such excess.

If the total dividends received credit (line 2, page 3, Form 1120) is limited to an amount not in excess of 85 percent of the adjusted net income, such credit, for the purpose of the alternative tax, should be recomputed by using an amount equal to 85 percent of the adjusted net income computed without taking into account the excess of the net long-term capital gain over the net short-term capital loss. The surtax net income to be entered on line 11 on other side should reflect any change in the total dividends received credit.

**Bonds, etc., losses of banks.**—In the case of a bank, as defined in section 104, if the losses of the taxable year from sales or exchanges of bonds, debentures, notes, or certificates, or other evidences of indebtedness, issued by any corporation (including one issued by a government or political subdivision thereof) with interest coupons in registered form, exceed the gains from such sales or exchanges, such excess shall be considered as an ordinary loss and deductible in full against other income.

**Dealers in securities. Capital gains and ordinary losses.**—Under the provisions of section 117 (n), gain by a dealer in securities from the sale or exchange of a security, as defined in section 117 (n) (3) shall in no event be considered as gain from the sale or exchange of a capital asset unless (a) the security is, prior to the expiration of the thirtieth day after its acquisition or after October 20, 1951, whichever is later, clearly identified in the dealer's records as a security held for investment; and (b) the security is not, at any time after the expiration of such thirtieth day, held by the dealer primarily for sale to customers in the ordinary course of the trade or business. A loss from the sale or exchange of a security shall, if section 117 (n) is not applicable, be considered a capital loss if at any time after the thirtieth day following the date of enactment of such act the security was clearly identified in the dealer's record as a security held for investment.

**Short sales of capital assets.**—For specific rules relating to the tax consequences of certain short sales of stock or other securities, transactions in stock or securities on a "when issued" basis, and transactions in commodities in futures, see section 117 (g) and (1) and the regulations issued thereunder.

**Collapsible corporations.**—Gain from the sale or exchange of stock of a collapsible corporation as defined in section 117 (m) (2), which otherwise would be treated as a long-term capital gain, will be treated under the provisions of section 117 (m) as gain from the sale or exchange of property which is not a capital asset.

34. Number of months in each taxable year falling in either (a) base period, or (b) the alternative period					
35. Number of months (a total of 36) selected					
36. Line 33 multiplied by line 35 (fiscal year taxpayers using alternative period, see instructions)	\$	\$	\$	\$	\$
37. Sum of amounts on line 36					\$
38. Average base period net income—General average (amount on line 37 divided by 3)					\$
Lines 39 through 48 for use ONLY by taxpayers claiming average base period net income based on growth. (Available only to a taxpayer which commenced business prior to the end of its base period)					
39. Total assets at beginning of base period					\$
Fill in line 40 (a), (b), and (c) only if line 39 is \$20,000,000 or less.					
40. (a) Last half of base period	\$				\$
(b) First half of base period	\$				\$
(c) Percentage which line (a) is of line (b)		%			%
Fill in lines 41 through 48 only if line 40 (c), column 1, is 130 percent or more, or column 2 is 150 percent or more, or if the test regarding products not generally available prior to 1946 is met (see instructions).					
41. Excess profits net income for last 24 months in base period					\$
42. Line 41 divided by 2					\$
43. Excess profits net income for last 12 months in base period					\$
44. Weighted excess profits net income for first 6 months of 1950 (see instructions)					\$
45. Excess profits net income for last 6 months of 1949 (see instructions)					\$
46. Sum of lines 44 and 45					\$
47. Average base period net income—Alternative based on growth (line 42, 43, or 46 whichever is largest)					\$
48. 83 percent of line 47					\$
49. 83 percent of line 32 or 38, whichever is applicable					\$
50. 12 percent of base period capital addition (line 15, Schedule EP-2 (A))					\$
51. Total of lines 49 and 50					\$
52. Line 48 or line 51, whichever is applicable					\$
53. 12 percent of net capital addition for the taxable year (line 20, Schedule EP-2 (B))					\$
54. Total of lines 52 and 53					\$
55. 12 percent of net capital reduction for the taxable year (line 24, Schedule EP-2 (B))					\$
56. Excess profits credit based on income (line 54 minus line 55). Enter on line 27, Schedule EP-1					\$

## Schedule EP-2 (A).—BASE PERIOD CAPITAL ADDITION

For use only in computing excess profits credit based on income. This schedule not to be used if average base period net income is based on growth (section 435 (e)) or is computed under section 443, 444, 445, or 446. For use of this schedule in connection with sections 442 and 459, see instructions

Line No.	1. FIRST TAXABLE YEAR ENDING AFTER JUNE 30, 1950	2. FIRST PRECEDING TAXABLE YEAR	3. SECOND PRECEDING TAXABLE YEAR
1. Total assets at beginning of year.....	\$.....	\$.....	\$.....
2. Total liabilities at beginning of year.....	\$.....	\$.....	\$.....
3. Equity capital at beginning of year (line 1 minus line 2).....	\$.....	\$.....	\$.....
4. 75 percent of borrowed capital at beginning of year.....	\$.....	\$.....	\$.....
5. Total of lines 3 and 4.....	\$.....	\$.....	\$.....
6. Adjustment for interest on borrowed capital.....	\$.....	\$.....	\$.....
7. 75 percent of line 6.....	\$.....	\$.....	\$.....
8. 75 percent of loans to members of controlled groups at beginning of year.....	\$.....	\$.....	\$.....
9. Inadmissible assets held at beginning of year reduced by 25 percent of the excess, if any, of the inadmissible assets over the amount on line 3 (see instructions).....	\$.....	\$.....	\$.....
10. Total of lines 7, 8, and 9, but not more than amount on line 5.....	\$.....	\$.....	\$.....
11. Yearly base period capital (line 5 minus line 10).....	\$.....	\$.....	\$.....
12. Excess, if any, of column 1, line 11, over the higher of: (a) column 2, line 11; or (b) column 3, line 11.....	\$.....	\$.....	\$.....
13. 50 percent of excess, if any, of (a) column 1, line 11, or (b) column 2, line 11, whichever is lower, over column 3, line 11.....	\$.....	\$.....	\$.....
14. Base period capital addition (sum of lines 12 and 13).....	\$.....	\$.....	\$.....
15. 12 percent of line 14. Enter on line 50, Schedule EP-2.....	\$.....	\$.....	\$.....

## Schedule EP-2 (B).—TAXABLE YEAR CAPITAL ADDITION OR REDUCTION

For use only in computing excess profits credit based on income. For computation in connection with sections 443, 445, and 459, or in the case of a decrease in inadmissible assets accompanied by an increase in operating assets (section 435 (g)), see instructions

Line No.	1. Equity capital at beginning of first taxable year ending after June 30, 1950:		
	(a) Total assets.....	\$.....	\$.....
	(b) Less: Total liabilities.....	\$.....	\$.....
2. Equity capital at beginning of the taxable year:			
	(a) Total assets.....	\$.....	\$.....
	(b) Less: Total liabilities.....	\$.....	\$.....
3. Borrowed capital at beginning of first taxable year ending after June 30, 1950.....		\$.....	\$.....
4. Average daily amount of borrowed capital for the taxable year (attach statement).....		\$.....	\$.....
5. Average daily amount of money and property paid in during the taxable year for stock, or as paid-in surplus, or as a contribution to capital (attach statement).....		\$.....	\$.....
6. Excess, if any, of line 2 over line 1.....		\$.....	\$.....
7. 75 percent of excess, if any, of line 4 over line 3.....		\$.....	\$.....
8. Average daily capital addition (sum of lines 5, 6, and 7).....		\$.....	\$.....
9. Average daily amount of distributions during the taxable year not out of earnings and profits of such year (attach statement).....		\$.....	\$.....
10. Excess, if any, of line 1 over line 2.....		\$.....	\$.....
11. 75 percent of excess, if any, of line 3 over line 4.....		\$.....	\$.....
12. Average daily amount of increase in certain inadmissible assets held by member of controlled group.....		\$.....	\$.....
13. 75 percent of average daily amount of increase in loans to member of controlled group.....		\$.....	\$.....
14. Average daily capital reduction (sum of lines 9, 10, 11, 12, and 13).....		\$.....	\$.....
15. Total inadmissible assets at beginning of first taxable year ending after June 30, 1950.....		\$.....	\$.....
16. Average daily amount of inadmissible assets for the taxable year (attach statement).....		\$.....	\$.....
17. Excess, if any, of line 8 over line 14.....		\$.....	\$.....
18. (a) Excess, if any, of line 16 over the sum of lines 12 and 15 (see instructions).....	\$.....	\$.....	\$.....
	(b) Line 17 minus line 7.....	\$.....	\$.....
	(c) Excess, if any, of line 1a over line (b).....	\$.....	\$.....
	(d) 25 percent of line (c).....	\$.....	\$.....
	(e) Line (a) minus line (d).....	\$.....	\$.....
19. Net capital addition for the taxable year (line 17 minus line 18 (e)).....		\$.....	\$.....
20. 12 percent of line 19. Enter on line 53, Schedule EP-2.....		\$.....	\$.....
21. Excess, if any, of line 14 over line 8.....		\$.....	\$.....
22. (a) Excess, if any, of line 15 over line 18.....	\$.....	\$.....	\$.....
	(b) Line 21 minus sum of lines 11 and 13.....	\$.....	\$.....
	(c) Excess, if any, of line (a) over line (b).....	\$.....	\$.....
	(d) 25 percent of line (c).....	\$.....	\$.....
	(e) Line (a) minus line (d).....	\$.....	\$.....
23. Net capital reduction for the taxable year (line 21 minus line 22 (e)).....		\$.....	\$.....
24. 12 percent of line 23. Enter on line 55, Schedule EP-2.....		\$.....	\$.....

## Schedule EP-3.—ALTERNATIVE EXCESS PROFITS CREDIT OF REGULATED PUBLIC UTILITIES (Section 448)

Line No.	1. Equity capital at beginning of the taxable year:		
	(a) Total assets.....	\$.....	\$.....
	(b) Less: Total liabilities.....	\$.....	\$.....
2. Average daily amount of money and property paid in during the taxable year for stock, or as paid-in surplus, or as a contribution to capital (attach statement).....		\$.....	\$.....
3. Recent loss adjustment (attach statement).....		\$.....	\$.....
4. Total of lines 1, 2, and 3.....		\$.....	\$.....
5. Average daily amount of distributions during the taxable year not out of earnings and profits of such year (attach statement).....		\$.....	\$.....
6. Line 4 minus line 5.....		\$.....	\$.....
7. Adjusted invested capital based upon prescribed uniform system of accounts:			
	(a) Average outstanding capital stock for the taxable year (attach statement).....	\$.....	\$.....
	(b) Add: Capital surplus and earned surplus at beginning of the taxable year.....	\$.....	\$.....
8. Average daily amount of borrowed capital for the taxable year (attach statement).....		\$.....	\$.....
9. Sum of line 6 or line 7, whichever is applicable, and line 8.....		\$.....	\$.....
10. Applicable rate under section 448.....		%	%
11. Line 9 multiplied by percentage on line 10.....		\$.....	\$.....
12. Reduction for interest on borrowed capital for the taxable year (attach statement).....		\$.....	\$.....
13. Line 11 minus line 12.....		\$.....	\$.....
14. Average daily amount of inadmissible assets for the taxable year.....	\$.....	\$.....	\$.....
15. Average daily amount of total assets for the taxable year (attach statement).....	\$.....	\$.....	\$.....
16. Percentage which line 14 is of line 15.....		%	%
17. Line 13 multiplied by percentage on line 16.....		\$.....	\$.....
18. Line 13 minus line 17.....		\$.....	\$.....
19. Federal income tax (Item 35, page 1, Form 1120).....		\$.....	\$.....
20. Excess profits credit (line 18 plus line 19). Enter on line 27, Schedule EP-1.....		\$.....	\$.....

## Schedule EP-4.—EXCESS PROFITS CREDIT BASED ON INVESTED CAPITAL

Page 4

Line No.	Description	Amount	Percentage
<b>Lines 1 through 27 for taxpayers using "asset" method.</b>			
1.	Equity capital at beginning of the taxable year:		
(a)	Total assets	\$	
(b)	Less: Total liabilities	\$	
2.	Average daily amount of money and property paid in during the taxable year for stock, or as paid-in surplus, or as a contribution to capital (attach statement)	\$	
3.	(a) Average daily amount of borrowed capital for the taxable year (attach statement)	\$	
(b)	75 percent of line 3 (a)	\$	
4.	Recent loss adjustment (see instructions)	\$	
5.	Total of lines 1, 2, 3 (b), and 4	\$	
6.	Average daily amount of distributions during the taxable year not out of earnings and profits of such year (attach statement)	\$	
7.	Line 5 minus line 6	\$	
<b>Lines 8 through 27 for use only if amount on line 7 is over \$5,000,000.</b>			
8.	Equity capital at beginning of first taxable year ending after June 30, 1950:		
(a)	Total assets	\$	
(b)	Less: Total liabilities	\$	
9.	Excluded capital paid in after beginning of first taxable year ending after June 30, 1950, and prior to the taxable year	\$	
10.	Borrowed capital at beginning of first taxable year ending after June 30, 1950	\$	
11.	Excluded borrowed capital at beginning of first taxable year ending after June 30, 1950 (see instructions)	\$	
12.	Average daily amount of excluded borrowed capital for the taxable year (attach statement)	\$	
13.	Average daily amount of excluded capital paid in during the taxable year (attach statement)	\$	
14.	Excess, if any, of line 2 over line 13	\$	
15.	(a) Excess, if any, of line 1 over line 9	\$	
(b)	Excess, if any, of line 15 (a) over line 8	\$	
16.	(a) Excess, if any, of line 3 (a) over line 10	\$	
(b)	Excess, if any, of line 12 over line 11	\$	
(c)	75 percent of excess, if any, of line 16 (a) over line 16 (b)	\$	
17.	Average daily new capital addition (sum of lines 14, 15 (b), and 16 (c))	\$	
18.	Average daily amount of distribution shown on line 6 above	\$	
19.	(a) Line 8 plus line 9	\$	
(b)	Excess, if any, of line 19 (a) over line 1	\$	
20.	75 percent of excess, if any, of line 10 over line 3 (a)	\$	
21.	Average daily new capital reduction (sum of lines 18, 19 (b), and 20)	\$	
22.	Total inadmissible assets at beginning of first taxable year ending after June 30, 1950	\$	
23.	Average daily amount of inadmissible assets for the taxable year (attach statement)	\$	
24.	Excess, if any, of line 17 over line 21 (see instructions)	\$	
25.	(a) Excess, if any, of line 23 over line 22	\$	
(b)	Excess, if any, of line 24 over line 16 (c)	\$	
(c)	Sum of line 20 and line 24	\$	
(d)	25 percent of excess, if any, of line (a) over line (b) or line (c), whichever is applicable	\$	
(e)	Line (a) minus line (d)	\$	
26.	Net new capital addition (excess, if any, of line 24 over line 25 (e))	\$	
27.	Line 7 minus line 26	\$	
<b>Lines 28 through 66 for taxpayers electing the "historical" method.</b>			
<b>Equity Invested Capital at the Beginning of the Taxable Year</b>			
28.	Money paid in for stock, or as paid-in surplus, or as a contribution to capital	\$	
29.	Property paid in for stock, or as paid-in surplus, or as a contribution to capital	\$	
30.	Distributions of earnings and profits in stock of the corporation	\$	
31.	(a) Accumulated earnings and profits	\$	
(b)	Adjustment for transferor's deficit under section 458 (f) (4)	\$	
(c)	Increase or decrease under section 472 (d) (1) on account of intercorporate liquidation	\$	
(d)	Accumulated earnings and profits (line 31 (a) as adjusted by line 31 (b) and (c))	\$	
32.	Increase on account of intercorporate liquidation under section 472 (d) (2)	\$	
33.	Deficit in earnings and profits of another corporation under section 458 (d) (5)	\$	
34.	Total of lines 28 to 33	\$	
35.	Less: Distributions made prior to the taxable year not out of accumulated earnings and profits	\$	
36.	Earnings and profits of another corporation required to be deducted by section 458 (e) (3)	\$	
37.	Decrease on account of intercorporate liquidation under section 472 (d) (2)	\$	
38.	Deficit included in invested capital of another corporation (section 458 (e) (4))	\$	
39.	Total of lines 35 to 38	\$	
40.	Equity invested capital at beginning of the taxable year (line 34 minus line 39)	\$	
<b>Average Addition to Equity Invested Capital During the Taxable Year</b>			
41.	Money paid in for stock, or as paid-in surplus, or as a contribution to capital	\$	
42.	Property paid in for stock, or as paid-in surplus, or as a contribution to capital	\$	
43.	Distributions of earnings and profits (other than earnings and profits of the taxable year) in stock of the corporation (see line 49, below)	\$	
44.	Increase on account of intercorporate liquidation under section 472 (d) (2)	\$	
45.	Deficit in earnings and profits of another corporation under section 458 (d) (5)	\$	
46.	Total additions in lines 41 to 45	\$	
47.	Total of lines 40 and 46	\$	
<b>Average Reduction in Equity Invested Capital During the Taxable Year</b>			
48.	Distributions not out of earnings and profits of the taxable year	\$	
49.	Stock distributions from accumulated earnings and profits at beginning of year (see line 43, above)	\$	
50.	Decrease on account of intercorporate liquidation under section 472 (d) (2)	\$	
51.	Deficit in earnings and profits included in invested capital of another corporation (section 458 (e) (4))	\$	
52.	Total reductions in lines 48 to 51	\$	
53.	Equity invested capital (line 47 minus line 52)	\$	
54.	75 percent of average borrowed capital	\$	
55.	Average invested capital (line 53 plus line 54)	\$	
56.	Line 7 or line 27, whichever is applicable (or line 55 if the taxpayer elects the "historical" method)	\$	
57.	Portion of line 56 not over \$5,000,000	\$	Enter 12 percent
58.	Portion of line 56 over \$5,000,000 but not over \$10,000,000	\$	Enter 10 percent
59.	Portion of line 56 over \$10,000,000	\$	Enter 8 percent
60.	Total of lines 57, 58, and 59	\$	
61.	Average daily amount of inadmissible assets for the taxable year	\$	
62.	Average daily amount of total assets for the taxable year (attach statement)	\$	
63.	Percentage which line 61 is of line 62	%	
64.	Reduction on account of inadmissible assets (line 60 multiplied by percentage on line 63)	\$	
65.	Line 60 minus line 64	\$	
66.	If line 7 is more than \$5,000,000, enter 12 percent of line 26 (applicable only to "asset" method)	\$	
67.	Excess profits credit based on invested capital (line 65 plus line 66). Enter on line 27, Schedule EP-1	\$	

## AVERAGE BASE PERIOD NET INCOME COMPUTED ON BASIS OF INDUSTRY RATE OF RETURN

Page 6

Schedules EP-5 (C) through (E) should be used only by a taxpayer which commenced business on or before the first day of its base period

## Schedule EP-5 (C).—CHANGE IN PRODUCTS OR SERVICES (Section 443)

- (a) Attach statement setting forth in detail all grounds upon the basis of which this application for the benefits of section 443 is made.
- (b) Include in such statement full details concerning the nature and effect of the change or changes in the taxpayer's products or services upon which this application is based.
- (c) Indicate the date upon which the taxpayer's gross receipts first reflected such change or changes .....
- (d) List the three taxable years immediately preceding the year with respect to which taxpayer claims qualification under section 443, and check year in which substantial change in products or services furnished by the taxpayer first occurred:

Beginning ..... Ending ..... ☐..... ☐..... ☐

Line No.	1. (a) Designate the taxable year with respect to which taxpayer claims qualification under section 413 (a):	1. TOTAL FOR YEAR	2. AMOUNT DUE TO NEW PRODUCTS OR SERVICES	3. COLUMN 2 AS A PERCENTAGE OF COLUMN 1
	Beginning ..... and ending .....			
(b)	Gross income .....	\$ .....	\$ .....	% .....
(c)	Net income .....	\$ .....	\$ .....	% .....

Fill in lines 2, 3, and 4 only if column 3, line 1 (b) is more than 40 percent, or if column 3, line 1 (c) is more than 33 percent.

2.	1. AMOUNT	2. NUMBER OF MONTHS	3. MONTHLY AVERAGE
Excess profits net income for taxable year designated on line 1 (a). (See instructions) .....	\$ .....		\$ .....
Aggregate excess profits net income (or deficit) for those taxable years ending within the base period and prior to taxable year in which first change occurred. (From line 28, Schedule EP-2) .....	\$ .....		\$ .....
4. 125 percent of column 3, line 3 .....			\$ .....

Fill in lines 5 through 10 only if column 3, line 2, exceeds line 4.

5. Total assets at end of taxable year designated on line 1 (a), or at end of last taxable year ending prior to July 1, 1950, whichever is later .....	\$ .....
6. Taxpayer's industry classification (see instructions) .....; Base period rate of return .....	% .....
7. Line 5 multiplied by percentage on line 6 .....	\$ .....
8. Reduction for interest (see instructions) .....	\$ .....
9. Average base period net income (line 7 minus line 8) .....	\$ .....
10. 83 percent of line 9. Enter on line 51, Schedule EP-2 .....	\$ .....

## Schedule EP-5 (D).—INCREASE IN CAPACITY FOR PRODUCTION OR OPERATION (Section 444)

- (a) Attach statement setting forth in detail all grounds upon the basis of which this application for the benefits of section 444 is made.
- (b) If application is based upon increase in capacity for production or operation resulting from replacement of or addition to facilities (section 444 (b) (1)), or upon such an increase in capacity in conjunction with an increase in the aggregate adjusted basis of total facilities of the taxpayer (section 444 (b) (2)), include in such statement a detailed description of the method used in determining capacity at the beginning and end of the 36-month period involved and a schedule showing the adjusted basis of facilities held at the beginning and the adjusted basis of facilities held at the end of such period.
- (c) If application is based upon increase in capacity for production or operation evidenced by an increase in the aggregate unadjusted basis of total facilities of the taxpayer (section 444 (b) (3)), include in such statement a schedule showing the unadjusted basis of facilities held at the beginning and the unadjusted basis of facilities held at the end of the 36-month period involved.

Line No.	1. LAST DAY OF TWELFTH MONTH IN BASE PERIOD	2. LAST DAY OF FORTY- EIGHTH MONTH IN BASE PERIOD	3. COLUMN 2 AS A PERCENTAGE OF COLUMN 1
1. Capacity for production or operation. (Do not include in column 2 any increase over column 1 not due to replacements or additions to facilities) .....			% .....
Indicate unit of measurement .....			
2. Adjusted basis of total facilities .....	\$ .....	\$ .....	% .....
3. Unadjusted basis of total facilities .....	\$ .....	\$ .....	% .....
Fill in lines 4 through 9, only if (a) column 3, line 1, is 200% or more; or (b) column 3, line 1, and column 3, line 2, are both 150% or more; or (c) column 3, line 3, is 200% or more.			
4. Total assets at end of last taxable year ending prior to July 1, 1950 .....	\$ .....		
5. Taxpayer's industry classification (see instructions) .....; Base period rate of return .....			% .....
6. Line 4 multiplied by percentage on line 5 .....	\$ .....		
7. Reduction for interest (see instructions) .....	\$ .....		
8. Average base period net income (line 6 minus line 7) .....	\$ .....		
9. 83 percent of line 8. Enter on line 51, Schedule EP-2 .....	\$ .....		

## Schedule EP-5 (E).—DEPRESSED INDUSTRY SUBGROUPS (Section 446)

- (a) Attach statement setting forth in detail all grounds upon the basis of which this application for the benefits of section 446 is made.
- (b) Include in such statement the amount of taxpayer's gross receipts for each of the taxable years beginning with or within the base period and the amount of such receipts attributable to the depressed industry subgroup of which the taxpayer is a member. Include a complete description of the products or services the gross receipts from which are attributed to a depressed industry subgroup.

Year ended	1946	1947	1948	1949	1950
Line No.					
1. Total assets at end of each taxable year ending after the beginning of the base period and before July 1, 1950 .....	\$ .....	\$ .....	\$ .....	\$ .....	\$ .....
2. Interest paid or accrued for each taxable year for which an entry is made on line 1 .....	\$ .....	\$ .....	\$ .....	\$ .....	\$ .....
3. Average of amounts on line 1 .....	\$ .....				
4. Taxpayer's industry subgroup (see instructions) .....; Adjusted rate of return .....					% .....
5. Line 3 multiplied by percentage on line 4 .....	\$ .....				
6. Interest adjustment (aggregate of amounts on line 2, multiplied by 12 and divided by total number of months in taxable years for which entries are made on line 1) .....	\$ .....				
7. Average base period net income (line 5 minus line 6) .....	\$ .....				
8. 83 percent of line 7. Enter on line 51, Schedule EP-2 .....	\$ .....

# U. S. Corporation Excess Profits Tax

on Schedule EP (Form 1120)

## GENERAL INSTRUCTIONS

**A. GENERAL STATEMENT.**—The excess profits tax is imposed on corporations and is applicable to taxable years ending after June 30, 1950. The normal tax, surtax, and excess profits tax on corporations are to be reported on the corporation income tax return (Form 1120) and are treated as one tax for all purposes, including assessment, collection, payment, period of limitations, and the consolidated return privilege.

A corporation with excess profits net income of \$25,000 or less, is, in general, not liable for an excess profits tax although it may be required to file Schedule EP (Form 1120), which is provided for the computation of excess profits net income and excess profits tax. Schedule K on Form 1120 provides a test by which a corporation may determine whether it is required to file Schedule EP (Form 1120) for the taxable year. In the event that such test discloses that a corporation is required to file, Schedule EP (Form 1120) shall be filled with, and as a part of, its return on Form 1120.

**B. CORPORATIONS WHICH MUST FILE SCHEDULE EP (FORM 1120).**—(1) *General rule.*—Every corporation (except an exempt corporation described in (2), below) required by section 52 to make an income tax return must file with, and as a part of, such return a Schedule EP (Form 1120) unless the amount shown on line 8, Schedule K on Form 1120, is \$25,000 or less. However, see specific instruction 29 and 30, Schedule EP-1, for cases in which the filing of Schedule EP (Form 1120) may be required even though the amount on line 8, Schedule K, on Form 1120 is \$25,000 or less.

(2) *Exempt corporations.*—The following corporations, except as otherwise provided with respect to members of an affiliated group of corporations filing a consolidated return under section 141, are exempt from the excess-profits tax:

(a) Corporations exempt from tax under section 101 (whether or not subject to tax under Supplement U);

(b) Foreign personal holding companies as defined in section 331;

(c) Regulated investment companies as defined in section 361 without the application of section 361 (b) (4);

(d) Personal holding companies as defined in section 501;

(e) Foreign corporations not engaged in trade or business within the United States;

(f) Domestic corporations satisfying the following conditions:

(1) 95 percent or more of the gross income of such domestic corporation for the 3-year period immediately preceding the close of the taxable year (or for such part of such period during which the corporation was in existence) was derived from sources other than sources within the United States, and

(2) 50 percent or more of its gross income for such period or such part thereof was derived from the active conduct of a trade or business;

(g) Any corporation subject to the provisions of Title IV of the Civil Aeronautics Act of 1938 in the gross income of which, for the taxable year for which the return is being filed, there is includible compensation received from the United States for the transportation of mail by aircraft if, after excluding from its gross income such compensation, its adjusted excess profits net income for such year is zero or less.

A corporation which claims exemption from excess profits tax under paragraphs (b), (c), or (e), above, shall file with its return a statement setting forth the facts upon which it relies.

A corporation which claims exemption from excess profits tax under paragraph (f), above, shall attach to its return a statement showing for the 3-year period immediately preceding the close of the taxable year (or for such part thereof during which the corporation was in existence) (1) its total gross income from all sources, (2) the amount thereof derived from the active conduct of a trade or business, (3) a description of such trade or business and the facts upon which the corporation relies to establish that such trade or business was actively conducted by it, and (4) the amount of its gross income from sources within the United States.

The gross income from sources within the United States shall be determined as provided in section 119 and the provisions of the regulations relating thereto.

A corporation which claims exemption from excess profits tax under paragraph (g), above, shall attach to its return a statement showing (1) that it is subject to the provisions of Title IV of the Civil Aeronautics Act of 1938, (2) the amount of the compensation included in the gross income of the corporation that consists of compensation received from the United States for the transportation of mail by aircraft, and (3) the amount of its gross income, net income, excess profits net income, and adjusted excess profits net income, after excluding from its gross income the amount of such compensation. Such exclusion from gross income for such year shall also be made in computing the unused excess profits credit adjustment for any other taxable year, but only for the purpose of determining whether the corporation is exempted by section 454 from excess profits tax for such other taxable year.

(h) Any mutual savings bank not having capital stock represented by shares; any domestic building and loan association, domestic saving and loan association, or Federal savings and loan association, substantially all the business of which is confined to making loans to members; and any cooperative bank without capital stock organized and operated for mutual purposes and without profit.

**C. CONSOLIDATED RETURNS.**—(1) *Privilege to file consolidated income tax (including excess profits tax) return.*—Section 141 gives to an affiliated group of corporations the privilege of making a consolidated return in lieu of separate returns. See 1952 instructions for Form 1120.

Paragraphs (7) and (8) of section 141 (e) relate to the definition of "includible corporation." Paragraph (7) excludes from the definition of "includible corporation" a personal service corporation, a personal holding company, certain domestic corporations deriving 95 percent or more of their gross income from sources without the United States, and certain corporations transporting mail by aircraft, unless such corporation has filed a consent to be treated as an includible corporation. Paragraph (8) excludes from the definition of "includible corporation" a regulated public utility entitled to compute its excess profits credit under section 448, unless such public utility has filed a consent to compute its excess profits credit without regard to section 448.

An affiliated group of corporations, all the members of which are regulated public utilities, may nevertheless file a consolidated return, provided that each such utility has made and filed a consent to compute its excess profits credit under section 448 only.

**D. PERSONAL SERVICE CORPORATIONS.**—(1) *Taxation of personal service corporations.*—A personal service corporation is subject to the excess profits tax the same as any other domestic corporation unless it elects not to be subject to such tax. A new election must be made for each taxable year and may be made only in its return for such year. Such an election may not be exercised by a corporation which is a member of an affiliated group of corporations filing a consolidated return. If a corporation is exempt by reason of the exercise of such an election, the provisions of Supplement S (sections 391 through 396) shall apply to the shareholders who were shareholders on the last day of the taxable year of the corporation. Accordingly, the undistributed Supplement S net income is required to be included in the gross income of the persons who were shareholders on such last day. The amount of the undistributed Supplement S net income shall be considered as paid in to the corporation as of the close of the taxable year as paid-in surplus or as a contribution to capital, and the amount of accumulated earnings and profits as of the close of the year shall be correspondingly reduced if such amount or any portion thereof is required to be included as a dividend in the gross income of the shareholder.

(2) *Definition of personal service corporation.*—The term "personal service corporation" means a domestic corporation in which capital is not a material income-producing factor and the

## PAGE 2

income of which is to be ascribed primarily to the activities of shareholders who (a) are regularly engaged in the active conduct of the affairs of the corporation and (b) are the owners, throughout the entire taxable year, of at least 70 percent in value of each class of stock of the corporation. If stock is owned by the spouse or minor child of an individual or owned by the guardian or trustee of such spouse or child, such stock is treated as being owned by such individual.

If 50 percent or more of the gross income of a corporation consists of gains, profits, or income derived from trading as a principal, such corporation cannot be considered to be a personal service corporation. As to corporations in which less than 50 percent of the gross income is derived from trading as a principal, see instructions for Schedule PS (Form 1120).

(3) **Returns.**—A personal service corporation should obtain Schedule PS (Form 1120) from the director and file it with, and as a part of Form 1120.

**E. SPECIAL METHODS FOR COMPUTING INCOME.**—(1) **Installment basis taxpayers.**—Section 455 provides that a corporation which reports income on the installment basis, or whose principal business consists of purchasing installment sales obligations, may elect in its return for the purpose of excess profits tax to compute its income from installment sales, or installment sales obligations, on the basis of the taxable period for which such income is accrued. The election shall be made by a statement attached to the return or by the use of figures on the return which clearly reflect the election. The election is irrevocable and applies to all taxable years to which the excess profits tax is applicable. If the corporation so elects, the income from installment sales, or installment sales obligations, for each taxable year subject to the excess profits tax will, for the purpose of computing the excess profits tax for all taxable years (including prior taxable years), be adjusted to conform to such election. No amount will be included, however, in computing excess profits net income for any excess profits tax taxable year on account of installment sales made in a taxable year ending before July 1, 1950. For conforming adjustments to income for taxable years in the base period, see section 433 (b) (7); for adjustment in determining invested capital, the net new capital addition, the base period capital addition, and the net capital addition or reduction, see section 441 (h).

(2) **Corporations with income from long-term contracts.**—Any corporation computing income from contracts the performance of which requires more than 12 months may elect in its return for the taxable year, for the purpose of the excess profits tax, to compute such income upon the percentage of completion method of accounting. The election shall be made by a statement attached to the return or by the use of figures on the return which clearly reflect the election. The election is irrevocable and applies to all taxable years to which the excess profits tax is applicable. If the corporation so elects, the income from long-term contracts for each year subject to the excess profits tax will, for the purpose of computing the excess profits tax for all taxable years (including prior taxable years), be adjusted to conform to such election. For conforming adjustments to income for taxable years in the base period, see section 433 (b) (8); for adjustment in determining invested capital, the net new capital addition, the base period capital addition, and the net capital addition or reduction, see section 441 (h).

**F. DEALERS IN CERTAIN GOVERNMENT SECURITIES.**—Section 440 (c) provides, in general, that dealers in Government securities which are wholly or partially exempt from tax, may elect to include the interest on such securities in excess profits net income and to treat such Government obligations as admissible assets rather than inadmissible assets for the purpose of computing the

invested capital credit and for computing the amounts of capital additions or reductions. Such election may be made for any taxable year by a statement attached to the return for such year or by the use of figures on the return which clearly reflect the election.

**G. EXCESS PROFITS CREDIT.**—There are three different credits available for computing the excess profits tax: (a) The credit based on income (including the provisions of sections 442 through 446 and section 459); (b) the credit based on invested capital; and (c) in the case of certain regulated public utilities, the credit provided in section 448. The taxpayer is to use that credit which produces the lowest excess profits tax. For computation of (a) the credit based on income, see Schedule EP-2; (b) the credit based on invested capital, see Schedule EP-4; and (c) the credit provided in section 448, see Schedule EP-3.

**H. RULES FOR DETERMINING CREDIT IN CASE OF CERTAIN REORGANIZATIONS, LIQUIDATIONS, AND TAXABLE ACQUISITIONS.**—(a) **Credit based on Income.**—(1) **Reorganizations and certain tax-free liquidations.**—Sections 461 through 465 provide rules for determining the credit based on income in the case of a corporation (other than a foreign corporation) which during or subsequent to the base period was a party to any of the transactions described in section 461 (a), relating to certain tax-free exchanges. In general, it is provided that such a corporation shall, if a component corporation as defined in section 461 (b), compute its average base period net income under the rules laid down in section 461 (c) and (d). If, however, such a corporation is an acquiring corporation as defined in section 461 (a), the rules for determining average base period net income, and the conditions under which sections 435 (e), 442, 443, 444, 445, and 446 may be available to the corporation are set forth in sections 461 and 462. In the case of certain of these transactions, the application to the acquiring corporation of the provisions relating to capital changes subsequent to the base period and capital changes in the base period is determined by reference to sections 463 and 464. For the effect of the above rules where stock of the component corporation was acquired for other than stock of the acquiring corporation, see section 462 (j). The circumstances under which transactions involving partnerships and sole proprietorships are subject to these provisions are set forth in sections 461 (b) (5) and (6), 461 (f), and 462 (k).

(2) **Taxable acquisitions.**—Section 474 provides rules for determining the credit based on income in the case of a corporation which before December 1, 1950, purchased substantially all of the assets of another corporation or partnership or substantially all the assets of a business of another corporation, partnership, or sole proprietorship. In general, it is provided that such a corporation, if a purchasing corporation as defined in section 474 (a), may compute its average base period net income under the method prescribed in section 435 (d) with reference to the excess profits net income of the corporation, partnership, or business owned by a sole proprietorship which was purchased. Section 474 also provides limitations on the availability of the benefits of the section, and provides for regulations for the determination of capital changes, for the elimination of duplication, and for other computations consistent with the principles of sections 461 through 465, inclusive, wherever appropriate.

(b) **Invested capital.**—For the purposes of computing invested capital (other than historical invested capital), section 470 provides rules to be used in determining the adjusted basis of assets acquired in an intercorporate liquidation. Adjustments with respect to historical invested capital, in the case of certain exchanges and liquidations, are contained in sections 471 and 472.

## SPECIFIC INSTRUCTIONS

The following instructions are numbered to correspond with line numbers on each schedule

### SCHEDULE EP-1—EXCESS PROFITS NET INCOME AND TAX COMPUTATION

#### EXCESS PROFITS NET INCOME

1. **Net income before net operating loss deduction.**—Enter the amount which appears in item 32, page 1, Form 1120. In the case of a corporation electing to report income from installment sales, or installment sales obligations on the accrual method, or income from long-term contracts on the percentage of completion method, recompute net income accordingly and enter such amount on line 1. For explanation of the adjustment necessary, see general instruction E (1) and (2).

2. **Adjustment for interest on borrowed capital.**—The adjustment on line 2 adds back the amount computed under (a) or (b) below, whichever is appropriate upon the basis of the excess profits credit applicable to the taxable year. No adjustment is required on this line by a regulated public utility computing its excess profits credit under section 448.

(a) **Income credit.**—In general, section 433 (a) (1) (O) adds back an amount which bears the same ratio to the total interest on borrowed capital as 75 percent of the net increase in borrowed capital bears to the average borrowed capital for the taxable year. This computation may be made by multiplying the total amount of interest on borrowed capital for the taxable year by the excess of the amount on line 7 of Schedule EP-2 (B) over the amount on line 13, Schedule EP-2 (B), and dividing the result by the amount on line 4, Schedule EP-2 (B).

(b) **Invested capital credit.**—Section 433 (a) (1) (N) adds back an amount which is 75 percent of the interest on borrowed capital.

3. **Deductions on account of retirement or discharge of bonds, etc.**—If during the taxable year the taxpayer retires or discharges any bond, debenture, note, or certificate, or other evidence of in-

debtedness, if the obligation of the taxpayer has been outstanding for more than 6 months, the following deductions for such taxable year shall not be allowed:

(a) The deduction allowable under section 23 (a) for expenses paid or incurred in connection with such retirement or discharge;

(b) The deduction for losses allowable by reason of such retirement or discharge; and

(c) In case the issuance was at a discount, the amount deductible for such year solely because of such retirement or discharge.

In making this adjustment, the deduction allowable for any premium paid on bonds when called for redemption shall be disallowed, but the deduction allowable for any discount amortized up to the date of the retirement or discharge shall not be disallowed. Expenses incurred in issuing bonds which are amortized shall be treated in the same manner as discounts.

4. Deductions attributable to a grant or loan by a governmental agency to encourage mining of certain minerals.—The adjustment on line 4 is the sum of any expenditures described below deducted in arriving at the amount on line 1. The adjustment on line 21 is the amount of any income described below included in computing line 1.

Section 433 (a) (1) (P) provides that an amount paid to a taxpayer by the United States (or any agency or instrumentality thereof), whether by grant or loan and whether or not repayable, for the encouragement of exploration, development, or mining of critical and strategic minerals or metals pursuant to or in connection with any undertaking approved by the United States (or any of its agencies or instrumentalities) and for which an accounting is made or required to be made to an appropriate governmental agency, and the forgiveness or discharge of any such amount, shall be excluded in computing excess profits net income; and any expenditures (other than expenditures made after the repayment of such grant or loan) attributable to such grant or loan shall not be deductible by the taxpayer as an expense and shall not increase the basis of the taxpayer's property either for determining gain or loss on sale, exchange, or other disposition or for computing depletion or depreciation, but upon the repayment of any portion of such grant or loan which has been expended in accordance with the terms thereof such deductions and such increase in basis shall to the extent of such repayment be allowed as if made at the time of such repayment.

5. Deductions under reserve method for bad debts, in the case of banks.—The adjustment on line 5 is the addition to the bad debt reserve deducted in arriving at the amount on line 1. The adjustment on line 19 is the amount of those debts which actually became worthless during the taxable year.

Section 433 (a) (1) (L) provides that in the case of a bank (as defined in section 104) using the reserve method of accounting for bad debts, there shall be allowed, in lieu of the amount allowable under the reserve method for bad debts, a deduction for debts which became worthless within the taxable year, in whole or in part, within the meaning of section 23 (k).

6. Federal income and excess profits taxes paid by lessee under long-term lease.—The adjustment on line 6 is to disallow the deduction by a lessee of an amount of Federal income taxes paid on behalf of a lessor. The adjustment on line 18 is to exclude this amount from income in the case of a lessor.

If under a lease for a term of more than 20 years, entered into prior to December 1, 1950, the lessee is required to pay any portion of the tax imposed by chapter 1 upon the lessor with respect to the rentals derived by such lessor from such lessee, or is obligated to reimburse the lessor for any portion of the tax imposed by chapter 1 upon the lessor with respect to the rentals derived by such lessor from such lessee, such payment or reimbursement of the tax imposed by chapter 1 shall be excluded by the lessor and a deduction therefor shall not be allowed to the lessee. For treatment of certain leases of railroad properties containing renewal clauses, see section 433 (a) (1) (K).

7. Deductions attributable to technical services rendered to related foreign corporations.—The adjustment on line 7 is the sum of any expenditures described below deducted in arriving at the amount on line 1. The adjustment on line 22 is the amount of any income described below included in computing line 1.

Section 433 (a) (1) (R) provides that in the case of a domestic corporation which renders to a related foreign corporation technical assistance, engineering services, scientific assistance, or similar services (such services or assistance being related to the production or improvement of products of the type manufactured by such domestic corporation), there shall be excluded the remuneration for such services or assistance if such remuneration constitutes income derived from sources without the United States. Any deductions in connection with or properly allocable to the rendering of such services or assistance shall not be allowed. For this purpose, a foreign corporation shall be considered a "related foreign corporation" if 10 percent or more of its outstanding stock is owned by the domestic corporation.

8. Adjustment for interest on certain Government obligations.—Section 433 (a) (1) (S) provides that, in the case of a dealer in certain Government obligations which makes the election provided by section 440 (c), the excess profits net income shall be increased by the excess of the amount of interest received or accrued on such obligations during the taxable year over the sum of (a) the amount of interest paid or accrued during such year which is not allowed as a deduction under section 23 (b), and (b) the amount of the adjustments required for the taxable year under section 22 (o) (relating to the adjustment for certain bond premiums) but not in excess of the amount of interest received or accrued during the taxable year on Government obligations to which such section is applicable. For this purpose, the term "Government obligations" means obligations described in section 22 (b) (4) any part of the interest from which is excludible from gross income or allowable as a credit against net income; but such term shall include only such obligations as in the hands of the taxpayer are property described in section 117 (a) (1) (A).

10. Partially tax-exempt interest.—Enter on this line the sum of the amounts reported in items 10 (a) and 10 (b), page 1, Form 1120. The purpose of this adjustment is to exclude from excess profits net income interest on certain obligations of the Government.

11. Dividends received.—The purpose of this adjustment is to exclude dividends, except dividends (actual or constructive) on stock of foreign personal holding companies and dividends on stock which is not a capital asset. In the case of a dividend in kind, the amount to be excluded shall not exceed the adjusted basis of the property so distributed in the hands of the distributing corporation at the time of the distribution, increased in the amount of gain or decreased in the amount of loss recognized to the distributing corporation by reason of such distribution.

12. Net operating loss deduction for excess profits tax purposes.—The amount to be entered on line 12, is the amount of the net operating loss deduction otherwise prescribed in sections 23 (s) and 122, computed in accordance with the following modifications as provided in section 433 (a) (1) (J):

(a) In computing the net operating loss for any taxable year under section 122 (a) and the net income for any taxable year under section 122 (b), the deduction for interest shall be reduced by the amount of any reduction under section 433 (a) (1) (N) or (O) (relating to interest adjustment with respect to borrowed capital), whichever is applicable upon the basis of the excess profits credit for such taxable year; and

(b) In lieu of the reduction provided in section 122 (c), such reduction shall be in the amount by which the excess profits net income computed with the exceptions and limitations specified in section 122 (d) (1), (2), (3), and (4), and computed without regard to section 433 (a) (1) (C) (relating to gains and losses from sale or exchange of capital assets), without regard to any credit for dividends received, and without regard to any credit for interest received provided in section 26 (a) (relating to interest on obligations of the United States and its instrumentalities), exceeds the excess profits net income (computed without the net operating loss deduction); and

(c) If the taxpayer for its first taxable year ending after June 30, 1950, computed its excess profits credit under section 435 (relating to the excess profits credit based on income) or section 436 (a) by use of the historical invested capital determined under section 458, and elected in its return (by a statement attached thereto) for such taxable year to compute its net operating loss deduction for the purposes of section 433 (a) (1) (J) for all taxable years by treating an amount equal to the base period loss adjustment (as defined in clause (d)) as a net operating loss carry-over from the last taxable year ending before July 1, 1950, then the net income computed under section 122 (b) for any taxable year ending before July 1, 1950, shall be determined without regard to such carry-over;

(d) For the purposes of clause (c), the base period loss adjustment shall be the amount of the recent loss adjustment determined under section 437 (f), using the base period as the recent loss period, and computed by limiting the amount of the net operating loss for any taxable year beginning before January 1, 1948, to an amount equal to the net operating loss carry-over from such taxable year to the taxable year immediately succeeding such taxable year; and

(e) If the taxpayer has made the election described in clause (c), the net operating loss deduction for the purposes of section 433 (a) (1) (J) for each taxable year ending after June 30, 1950 (whether or not the credit for such taxable year is computed under section 435), shall be computed without regard to the net operating loss for any taxable year ending before July 1, 1950, and the net operating loss carry-over specified in clause (c) shall not be allowed as a net operating loss carry-over to any taxable year for which the excess profits credit is not computed under section 435 (relating to the excess profits credit based on income) and is not

## PAGE 4

computed under section 436 (a) by use of the historical invested capital determined under section 458.

13. Net gain from sale or exchange of capital assets.—Section 433 (a) (1) (C) provides for the exclusion of gains and losses from sales or exchanges of capital assets. Accordingly, the amount to be entered on line 13 is the sum of items 13 (a) and 13 (b), page 1, Form 1120.

14. Income from retirement or discharge of bonds, etc.—Section 433 (a) (1) (D) provides for the exclusion of income derived from the retirement or discharge by the taxpayer of any bond, debenture, note, or certificate or other evidence of indebtedness, if the obligation of the taxpayer has been outstanding for more than 6 months, including, in case the issuance was at a premium, the amount includible in income for the taxable year solely because of such retirement or discharge. Do not exclude the accrued amortization of bond premium for that portion of the year preceding such retirement or discharge.

15. Refunds and interest on Agricultural Adjustment Act taxes.—Section 433 (a) (1) (E) provides for the exclusion of income attributable to a refund of tax paid under the Agricultural Adjustment Act of 1933, as amended, and interest upon any such refund.

16. Income from recovery of certain bad debts.—Section 433 (a) (1) (G) provides for the exclusion of income attributable to the recovery of a bad debt if the deduction of such debt was allowable from gross income for any taxable year beginning before January 1, 1940, or for any taxable year beginning after December 31, 1945, and ending before July 1, 1950, or if such debt was properly charged to a reserve for bad debts during any such taxable year.

17. Nontaxable income of certain industries with depletable resources.—Sections 433 (a) (1) (I) and 453 provide that in the case of a producer of minerals, or a producer of logs or lumber from a timber block, or a lessor of mineral property, or if a timber block, there shall be excluded nontaxable income from exempt excess output of mines and timber blocks; in the case of a natural gas company, there shall be excluded nontaxable income from exempt excess output; and, in the case of a producer of minerals or a producer of logs or lumber from a timber block, there shall be excluded nontaxable bonus income. A corporation described in section 453 (c) (2) shall be deemed a producer of minerals with respect to nontaxable bonus income.

The election under section 453 (d) made by a taxpayer receiving income attributable to bonus payments (section 453 (c)) shall be indicated in the supporting statement attached to the return.

18. Federal income and excess profits taxes received by lessor under long-term lease.—See instruction 6.

19. Debts which actually became worthless during the year, in case of banks.—See instruction 5.

20. Adjustment for blocked foreign income.—Section 433 (a) (1) (M) provides for the exclusion of income derived from sources within any foreign country to the extent that such income would, but for monetary, exchange, or other restrictions imposed by such foreign country, have been includible in the gross income of the taxpayer for any taxable year which preceded its first taxable year ended after June 30, 1950. Where such income is includible (without regard to section 433 (a) (1) (M)) in a taxable year succeeding the first taxable year ended after June 30, 1950, and, but for such restrictions, would have been includible in the gross income of the taxpayer for its first taxable year ended after June 30, 1950, the exclusion provided, in case such first taxable year began prior to July 1, 1950, shall be reduced to an amount which is the same proportion of the blocked income as the number of days in such taxable year prior to July 1, 1950, is of the total number of days in such taxable year. Deductions properly chargeable and allocable to such income shall not be allowed.

21. Income attributable to a grant or forgiveness of a loan by a governmental agency to encourage mining of certain minerals.—See instruction 4.

22. Income attributable to technical services rendered to related foreign corporations.—See instruction 7.

25. Deductions applicable to life insurance companies.—Section 433 (a) (1) (H) provides that, in the case of a life insurance company computing its excess profits credit under section 435 (based on income), there shall be deducted from the normal-tax net income the excess of (a) the product of (1) the figure 0.87 and (2) the excess profits net income computed without regard to section 433 (a) (1) (H) over (b) the adjustment for certain reserves provided in section 202 (c). If the excess profits credit is computed under section 436 (based on invested capital), there shall be deducted from the normal-tax net income only 50 percent of the amount determined under the preceding sentence.

26. Excess profits net income—short taxable years.—Section 433 (a) (2) provides that, in lieu of the provisions of section 47 (c), if the taxable year is a period of less than 12 months, the excess profits net income for such taxable year (referred to in this

paragraph as the "short taxable year") will be placed on an annual basis by multiplying the amount thereof by the number of days in the 12 months ending with the close of the short taxable year and dividing by the number of days in the short taxable year. The excess profits tax will be such part of the tax computed on such annual basis as the number of days in the short taxable year is of the number of days in the 12 months ending with the close of the short taxable year. (See also section 433 (a) (2) (B).)

## TAX COMPUTATION

## 27. Excess profits credit.—

(a) In general.—In the case of a domestic corporation, the excess profits credit for any taxable year is the amount determined under section 435 (relating to excess profits credit based on income) or the amount determined under section 436 (relating to excess profits credit based on invested capital) whichever amount results in the lesser excess profits tax for the taxable year. For computation of excess profits credit based on income, see Schedule EP-2 and instructions. For computation of credit based on invested capital, see Schedule EP-4 and instructions. For computation of alternative credit in case of certain regulated public utilities, see Schedule EP-3 and instructions.

(b) Railroad lessor-lessee corporations.—If substantially all the railroad properties of a railroad corporation subject to Part I of the Interstate Commerce Act have been leased for a term of more than 20 years to another such railroad corporation pursuant to an agreement or agreements entered into prior to December 1, 1950, which agreement or agreements require the lessee or lessees to pay the taxes of the lessor, the aggregate of the excess profits credit and the unused excess profits credit adjustment of each such corporation may be equitably apportioned by agreement, if approved in accordance with regulations prescribed by the Secretary, among the lessor and each of the lessee corporations so required to pay the taxes of the lessor. The term of a lease of railroad properties entered into prior to December 1, 1950, shall include the years for which such release may be renewed or continued. See section 434 (d).

(c) Section 459. Miscellaneous provisions.—In general.—Section 459 provides special computations of average base period net income in the case of taxpayers meeting certain eligibility requirements with respect to (1) transition from war production and increase in peacetime capacity, (2) base period catastrophe, (3) consolidation of newspaper operations, (4) television broadcasting companies, and (5) preserving defense capacity and increasing capacity for manufacturing peacetime products from certain strategic and critical metals. There is no separate schedule provided for computation of average base period net income under section 459. A taxpayer computing average base period net income under any provision of this section shall attach to its return a schedule showing the computation of such average base period net income and in the case of a taxpayer computing a credit by reference to section 459 (d) any adjustments to the capital additions or reductions required under that section. The taxpayer shall also submit with its return a full and complete statement showing the basis upon which each requirement of the particular subsection of section 459 is satisfied and all the facts upon which the taxpayer relies. For definition of adjusted basis and unadjusted basis as used in section 459, see section 459 (e).

(1) Transition from war production and increase in peacetime capacity.—Section 459 (a) provides for computation of an alternative average base period net income in the case of a taxpayer engaged primarily in manufacturing and which commenced business before January 1, 1940. In general, the taxpayer must establish that—

(i) the adjusted basis of its facilities at the beginning of its base period (including the facilities of all members of the taxpayer's affiliated group) did not exceed \$10,000,000;

(ii) the unadjusted basis of its facilities at the end of its base period was 250 percent or more of the unadjusted basis of its facilities at the beginning of its base period;

(iii) the taxpayer's gross income derived from certain contracts with the United States and related subcontracts constituted (A) at least 70 percent for certain years during World War II, (B) less than 20 percent for certain years ending after 1945;

(iv) the average monthly excess profits net income for taxable years ending in the last half of its base period and for the taxable year immediately preceding the base period are each 300 percent or more of the average monthly excess profits net income for the taxable years ending in the first half of the base period.

If section 459 (a) is applicable, the taxpayer may compute its average base period net income under section 435 (e) (2) (G) (i) and (ii) using lines 44 through 48 and lines 52 through 56 of Schedule EP-2 as a guide but substituting the excess profits net income of the last 6 months of 1948 in lieu of the excess profits net income for the last 6 months of 1949 on line 45. If the aver-

age base period net income is computed under section 459 (a), no base period capital addition is allowed.

(2) *Base period catastrophe.*—Section 459 (b) provides two alternative methods of computing the average base period net income which are, in general, available to a taxpayer, engaged primarily in manufacturing, which suffered a catastrophe by fire, storm, explosion, or other casualty during the last 36 months of its base period which destroyed or rendered inoperative a production facility constituting a complete plant or plants having an adjusted basis equal to 15 percent or more of the adjusted basis of all the taxpayer's production facilities. The taxpayer's normal production or operation must have been interrupted for a period of more than 12 consecutive months as a result of such catastrophe, and such production facility replaced prior to the end of its base period.

If section 459 (b) is applicable, the taxpayer may compute its average base period net income using whichever of the following methods results in the lesser excess profits tax:

(i) the average base period net income may be computed under section 435 (d) (relating to the general average method) by substituting for the excess profits net income for each month in the taxable year in which the catastrophe occurred an amount equal to the aggregate, divided by the number of months in the base period preceding such taxable year, of the excess profits net income for each month (computed under section 435 (d) (1)) in the base period preceding such taxable year. A taxpayer computing its average base period net income in this manner should use lines 33 through 38 and lines 49 through 56 of Schedule EP-2, and should enter on line 33 (a) of Schedule EP-2 for the year in which the catastrophe occurred an amount computed by aggregating the excess profits net income as shown on line 33 (a) for each month in the base period preceding such taxable year and dividing such aggregate by the number of months in the base period preceding such taxable year.

(ii) the taxpayer may compute its average base period net income under section 435 (e) (2) (G) (i) and (ii) using lines 44 through 48 and lines 52 through 56 of Schedule EP-2 as a guide but substituting on line 45 of Schedule EP-2 the excess profits net income for the last 6 months of 1948 in lieu of the excess profits net income for the last 6 months of 1949.

If the average base period net income is computed under (ii), no base period capital addition is allowed.

(3) *Consolidation of newspaper operations.*—Section 459 (c) provides, in general, for a special computation of the average base period net income of a taxpayer engaged primarily in the newspaper publishing business which, after the first half of its base period and prior to July 1, 1950, consolidated its mechanical, circulation, advertising, and accounting operations with such operations of another newspaper in the same area, and such consolidation was continued throughout the taxable year.

The taxpayer must establish that for the period ending with the close of the first taxable year beginning after the consolidation, the consolidation resulted in substantial reductions in expenses paid or incurred in connection with its mechanical, circulation, advertising, and accounting operations, and that either—

(i) the deductions of the taxpayer under section 23 for its first taxable year beginning after the consolidation, computed without regard to the net operating loss deduction and without regard to certain circulation expenditures, were not in excess of 80 percent of the average of such deductions for the two taxable years preceding the taxable year of consolidation, or

(ii) the excess profits net income of the taxpayer, computed under section 433 (b), for the first taxable year beginning after the consolidation was 125 percent or more of the average base period net income computed under section 435 (d).

If section 459 (c) is applicable, the taxpayer may compute an average base period net income by ascertaining the amount under section 435 (d) (line 32 or line 38, EP-2, whichever is applicable) and by adding thereto an amount equal to the excess of the average expenses paid or incurred in the conduct of the newspaper operations during the two taxable years immediately preceding the year of consolidation over the total of such expenses during the first taxable year after the consolidation. In making this determination proper adjustment shall be made for increases in the cost of labor and newsprint (due to wage and price increases) following such consolidation. Proper adjustment shall also be made for any case in which any taxable year used in the computation of the average base period net income is a period of less than 12 months.

The amount computed under this section should be used in lieu of the amount on line 32 or 38 in determining the amount to be entered on line 49 of Schedule EP-2. Lines 53 through 56 should then be completed.

(4) *Television broadcasting companies.*—Section 459 (d) provides an alternative method of computing the income credit in the case of a taxpayer engaged in television broadcasting throughout

a period beginning before January 1, 1951, and ending with the close of the taxable year. Under this provision, the average base period net income consists, in general, of the sum of—

(i) an average base period net income, determined under the general average method, for any business of the taxpayer other than the television broadcasting business, and

(ii) an average base period net income for the television broadcasting business determined by applying to the adjusted basis of television assets at the end of the base period either the base period rate of return for the industry classification which includes radio broadcasting or, if the taxpayer was engaged in radio broadcasting during the base period, an "individual rate of return" based on the taxpayer's actual radio broadcasting experience during the base period, whichever rate of return produces the lesser tax.

Special rules are provided for a taxpayer which acquired its television broadcasting business after the close of its base period and before January 1, 1951, for the computation of the base period capital addition and the net capital addition or reduction, and for the avoidance of duplication.

A taxpayer computing its income credit by reference to section 459 (d) should, if it was engaged in any business other than television broadcasting during its base period, determine an average base period net income for such non-television business, using Schedule EP-2 (lines 1 through 38) as a guide. In making this determination, there should be excluded from each item on lines 1 through 30 any income, deductions, losses, or other items attributable to the television broadcasting business. In the case of items such as administrative expenses, depreciation, or other items which may be attributable in part both to the television and non-television business, proper allocation of the item should be made in accordance with regulations.

If the taxpayer was not engaged in the radio broadcasting business during the base period but was engaged in the television broadcasting business during such period, the average base period net income for the television business shall be determined by multiplying the adjusted basis of such portion of its assets, determined as of the last day of the base period, as was attributable to television broadcasting, by the base period rate of return prescribed under section 447 (c) for the industry classification which includes radio broadcasting. The amount thus determined is reduced by such portion of the interest paid or incurred by the taxpayer, for the period of 12 months following the close of the base period, as was attributable to the television broadcasting business.

If the taxpayer was engaged in both the radio and television broadcasting business during the base period, the average base period net income for the television business may be determined either by use of the base period rate of return as described in the preceding paragraph, or by multiplying the adjusted basis of such portion of its assets, determined as of the last day of the base period, as was attributable to television broadcasting, by the taxpayer's individual rate of return. The individual rate of return is computed under section 459 (d) (4), in general, by determining the average of the taxpayer's assets attributable to the radio broadcasting business for the last day of each month in the base period, by ascertaining the average yearly excess profits net income attributable to the radio broadcasting business, and by dividing the average amount of such assets by such excess profits net income.

If the taxpayer acquired its television broadcasting business after the close of its base period and prior to January 1, 1951, the average base period net income for the television business is computed by reference to the adjusted basis of its television properties as of the last day of the calendar month in which it first engaged in such business. If such a taxpayer uses the industry rate of return in lieu of the individual rate of return, the adjustment for interest paid or incurred is made with respect to interest for the 12 months following the month in which it first engaged in the television broadcasting business.

If the average base period net income is determined under section 459 (d), the base period capital addition is available only with respect to the non-television business. Such base period capital addition may be computed using Schedule EP-2 (A) as a guide, but excluding from the entries on that schedule such items as are determined under regulations to be attributable to the television broadcasting business.

A taxpayer using section 459 (d) should compute its net capital addition or reduction on Schedule EP-2 (B), making such adjustments in the computation as may be required by regulations.

If any assets of the taxpayer used in computing the television portion of the credit under section 459 (d) were acquired, directly or indirectly through the use of assets attributable at any time during the base period to the non-television business of the taxpayer, the average base period net income determined for the non-television business shall be properly adjusted by eliminating from the excess profits net income for each month prior to such acquisition, such portion thereof as is attributable to the assets

## PAGE 6

used for such acquisition. For this purpose, the excess profits net income for any month shall be attributed to such assets on the basis of the ratio, as of the beginning of the day of such acquisition, of such assets to the total non-television assets of the taxpayer.

For application of Part II in the computation of a credit under section 459 (d), see regulations.

For definition of "assets" see instruction 7, Schedule EP-5.

(5) *Companies preserving defense capacity and increasing capacity for manufacturing peacetime products from certain strategic and critical metals.*—Section 459 (f) provides for the computation of an alternative average base period net income in the case of certain taxpayers which commenced business on or before January 1, 1936, and since such date have been primarily engaged in manufacturing. In general, a taxpayer must establish that—

(i) the percentage of its purchases of raw strategic and critical metals was 80 percent or more for each of the taxable years beginning with or within its base period;

(ii) its average monthly excess profits net income, computed as provided in section 443 (e), for the period comprising all taxable years ending with or within the first 24 months of its base period was 250 percent or more of its average monthly excess profits net income, computed as provided in section 443 (e), for the period comprising all taxable years ending with or within the last 24 months of its base period;

(iii) the adjusted basis of its total facilities at the beginning of its base period (including the facilities of all members of the taxpayer's affiliated group) did not exceed \$10,000,000; and

(iv) the adjusted basis of its total facilities on the last day of its base period was 180 percent or more of the adjusted basis of its total facilities on the first day of its base period.

For the purpose of section 459 (f), the term "strategic and critical metals" means copper and zinc (including scrap containing such metals).

If section 459 (f) is applicable, the taxpayer may compute its average base period net income under section 435 (e) (2) (E) and (F) using lines 44 through 48 and lines 52 through 56 of Schedule EP-2 as a guide but substituting for the excess profits net income for the last six months of 1949 (line 45) an amount computed by multiplying the excess profits net income for the last six months of 1946 by the percent determined by dividing the adjusted basis of its total facilities on December 31, 1948, by the adjusted basis of its total facilities on the first day of its base period. The average base period net income as so computed is limited, however, to an amount which is not in excess of 80 percent of the excess profits tax net income for its first taxable year ending after June 30, 1950.

If the average base period net income is computed under section 459 (f), no base period capital addition is allowed.

(d) Corporations which were parties to certain reorganizations, exchanges, and liquidations and acquisitions.—Rules are provided for the computation of the excess profits credit based on income in the case of certain reorganizations, exchanges, and liquidations. See sections 461 through 465. Sections 470 through 472 contain rules with respect to the computation of the excess profits credit based on invested capital in case of certain reorganizations, exchanges, and liquidations. Section 474 provides rules with respect to the computation of a credit for purposes of section 435 (d) in the case of certain taxable acquisitions occurring before December 1, 1950.

(e) Foreign corporations.—A foreign corporation engaged in trade or business within the United States which was in existence on January 1, 1946, may compute its excess profits tax using either the income method or the invested capital method if such corporation's first excess profits tax taxable year began on or before July 1, 1950, and if it was engaged in trade or business within the United States at some time during each taxable year which began or ended in the base period. If a foreign corporation does not meet the foregoing requirements, the excess profits credit for any taxable year must be computed under the invested capital method. See sections 435 and 436 for special rules with respect to the excess profits credit of a foreign corporation.

(f) Corporations entitled to the benefits of section 251.—A corporation entitled to the benefits of section 251 may compute its excess profits credit by using either the income method under section 435 or the invested capital method under section 436 (b).

28. Unused excess profits credit adjustment.—Section 432 provides that the unused excess profits credit for any taxable year ending after June 30, 1950, is the excess of the corporation's excess profits credit for such taxable year over its excess profits net income for such year computed without regard to the net operating loss deduction. If the taxable year is less than 12 months, the unused excess profits credit will be that portion of the unused excess profits credit determined under the general rules as the number of days in the taxable year is of the number of days in the 12-month period ending with the close of the taxable year. If the taxable year began

before July 1, 1950, and ended after June 30, 1950, the unused excess profits credit will be an amount which is such portion of the unused excess profits credit determined under the general rule as the number of days in the taxable year after June 30, 1950, is of the total number of days in such taxable year. If the taxable year begins before July 1, 1953, and ends after June 30, 1953, the unused excess profits credit will be an amount which is such portion of the unused excess profits credit determined under the general rule as the number of days in the taxable year before July 1, 1953, is of the total number of days in such taxable year. There shall be no unused excess profits credit for any taxable year for which the taxpayer is exempt under section 454.

The unused excess profits credit determined under section 432 (b) will first be carried back to the first preceding taxable year as an unused excess profits credit carry-back. The balance of the unused credit may then be carried over to the five succeeding taxable years as an unused excess profits credit carry-over. The unused excess profits credit carry-over to the first succeeding taxable year will be the excess of the unused credit over the adjusted excess profits net income of the preceding taxable year. The adjusted excess profits net income for such preceding taxable year will be determined by computing the unused excess profits credit adjustment for such preceding taxable year without regard to the unused credit carry-back and without regard to the last sentence of section 431 providing for a minimum excess profits credit plus unused excess profits credit adjustment of \$25,000.

If the preceding taxable year began prior to July 1, 1950, and ended after June 30, 1950, the amount by which the unused credit is reduced for the purpose of computing the carry-over is an amount which is such part of the reduction, or such part of the unused excess profits credit carry-back for such preceding taxable year, whichever is the lesser, as the number of days in such taxable year after June 30, 1950, is of the total number of days in such taxable year.

In determining the unused excess profits credit carry-over to the second, third, fourth, and fifth taxable years, the unused excess profits credit is reduced by the adjusted excess profits net income for each of the intervening taxable years. For such purpose, the adjusted excess profits net income for any intervening taxable year is determined (1) by computing the unused excess profits credit adjustment for such intervening year without regard to such unused credit and without regard to any unused excess profits credit for any year subsequent to the year of such unused credit, and (2) by disregarding the last sentence of section 431 providing for a minimum excess profits credit plus unused excess profits credit adjustment of \$25,000.

For the purpose of computing the unused excess profits credit carry-over, an unused excess profits credit will not be decreased by reference to any taxable year ending prior to July 1, 1950. Furthermore, there will be no unused excess profits credit carry-back to any taxable year ended prior to July 1, 1950. For computation of unused excess profits credit for year of liquidation, see section 432 (e).

29 and 30. Adjusted excess profits net income.—The term "adjusted excess profits net income" is defined by section 431 as the excess profits net income computed under section 433 (a) minus the sum of (a) the amount of the excess profits credit allowed under section 434 and (b) the unused excess profits credit adjustment computed under section 432. If the sum of the excess profits credit and the unused excess profits credit adjustment is less than \$25,000, such sum is increased to \$25,000.

Under certain circumstances described in section 15 (c) the minimum excess profits credit of \$25,000 is not allowed or may be reduced to a lesser figure.

Section 15 (c) provides that if a corporation on or after January 1, 1951, transfer all or part of its property (other than money) to another corporation which was created for the purpose of acquiring such property or which was not actively engaged in business at the time of such acquisition and if after such transfer the transferor corporation or its stockholders, or both, are in control of such transferee corporation during any part of the taxable year of such transferee corporation, the transferee corporation shall not for such taxable year be allowed either the \$25,000 exemption from surtax or the \$25,000 minimum excess profits credit provided in the last sentence of section 431, unless such transferee corporation shall establish by a clear preponderance of the evidence that the securing of such exemption or credit was not a major purpose of such transfer. For this purpose, control means the ownership of stock possessing at least 80 percent of the total combined voting power of all classes of stock entitled to vote or at least 80 percent of the total value of shares of all classes of stock of the corporation. Rules are provided for the determination of the ownership of stock for the purposes of the section. For allocation of the surtax exemption and minimum excess profits credit in certain cases, see section 129 (b).

31 and 32. **Computation—General rule.**—Section 430 provides that the excess profits tax shall be the lesser of the following:

- (a) 30 percent of the adjusted excess profits net income, or
- (b) 18 percent of the excess profits net income.

In the case of an affiliated group of includible corporations making or required to make a consolidated return for the taxable year under section 141, the amount to be entered on line 32 shall be reduced by an amount which bears the same ratio (but not in excess of 100 percent) to the increase of 2 percent in the surtax imposed by reason of section 141 (c) as the amount of the consolidated excess profits net income bears to the amount of the consolidated corporation surtax net income.

33. **Maximum tax for new corporations.**—Section 430 (e) provides an additional alternative computation of the excess profits tax in the case of certain taxpayers which commenced business after July 1, 1945, and whose fifth taxable year ends after June 30, 1950. Under section 430 (e) the maximum tax is computed as follows: (a) by applying a special rate, depending on the taxable year of the corporation, to the first \$300,000 of excess profits net income, and (b) by adding to the amount thus determined 18 percent of the excess over \$300,000. For the first five taxable years of the corporation, counting as the first year the year of commencement of business, the special rates on the first \$300,000 of excess profits net income are as follows:

First taxable year.....	5%
Second taxable year.....	5%
Third taxable year.....	8%
Fourth taxable year.....	11%
Fifth taxable year.....	14%

The taxpayer shall indicate on line 33 for which taxable year of its first five taxable years the return is being filed and shall insert on line 33 (a) the percentage rate applicable to such year. The amount of excess profits tax computed on the excess profits net income not in excess of \$300,000 shall be entered on line 33 (b). Enter on line 33 (c) the amount of excess profits net income in excess of \$300,000 multiplied by 18 percent.

The alternative computation of the maximum excess profits tax for new corporations is not available to a taxpayer which derives more than 50 percent of its gross income (determined without regard to dividends and without regard to gains from sale or exchange of capital assets) for the taxable year from contracts and subcontracts to which the provisions of Title I of the Renegotiation Act of 1951 (or the provisions of any prior renegotiation act) are applicable.

In determining the taxable year of the taxpayer for the purpose of the maximum tax on new corporations, the taxpayer shall be considered to have commenced business as of the date of commencement of business of certain related corporations described in section 430 (e) (2) (B).

34. **Proration of tax.**—In the case of a taxable year beginning before July 1, 1953, and ending after June 30, 1953, the excess profits tax will be an amount equal to that portion of a tentative tax determined under section 430 (a) as the number of days in such year prior to July 1, 1953, bears to the total number of days in such year.

35. (a) **Mutual insurance companies.**—Section 430 (d).—In the case of a mutual insurance company other than life or marine, if the gross amount received from interest, dividends, rents, and premiums (including deposits and assessments) is over \$75,000 but less than \$125,000, the excess profits tax will be an amount which bears the same proportion to the amount otherwise ascertained under section 430 as the excess over \$75,000 of such gross amount bears to \$50,000.

(b) **Corporations engaged in mining of strategic minerals.**—Section 450.—In the case of any domestic corporation engaged in the mining of a strategic mineral, named in section 450 (b) (1) or certified by proper authority, the portion of the adjusted excess profits net income attributable to such mining in the United States will be exempt from the excess profits tax. The tax on the remaining portion of the adjusted excess profits net income is an amount which bears the same ratio to the tax computed without regard to section 450 as such remaining portion bears to the entire adjusted excess profits net income.

In determining the portion of the adjusted excess profits net income which is attributable to the mining of a mineral which is a strategic mineral by reason of a certification made during the taxable year by proper authority, such portion is an amount which bears the same ratio to the portion of the adjusted excess profits net income, determined without regard to section 450, attributable to such mining during the entire taxable year as the number of days for which the corporation held the mineral property during the taxable year and after the date of the making of the certification bears to the number of days for which the corporation held the property during such taxable year.

(c) **Abnormalities in income in taxable period.**—Section 456.—The Act provides an adjustment for certain abnormalities in

income for the taxable year but only to the extent that the "net abnormal income" is attributable to other taxable years. Income includible in the gross income for the taxable year is treated as "abnormal income" if it is abnormal for the corporation to derive income of a particular class, or if the taxpayer normally derives income of a particular class but the amount includible in gross income for the taxable year is in excess of 115 percent of the average amount of gross income of the same class for the four previous taxable years, or so much of the four previous taxable years during which the corporation was in existence.

Abnormal income is to be determined by considering classes of income and not merely particular items.

Separate classes of income are defined in section 456 (a) (2) as follows:

(1) Income arising out of a claim, award, judgment, or decree, or interest on any of the foregoing;

(2) Income resulting from exploration, discovery, or prospecting, or any combination thereof, extending over a period of more than 12 months;

(3) Income from sale of patents, formula, or processes, or any combination thereof, developed over a period of more than 12 months; and

(4) Income includible in gross income for the taxable year, rather than for a different taxable year by reason of a change in the corporation's method of accounting.

Classification of income not included in the separately defined classes is subject to regulations.

Section 456 is to be applied only for the purpose of computing the excess profits tax for the current taxable year (including such amount of excess profits tax resulting from attributing the net abnormal income to a prior excess profits tax taxable year) or for a future taxable year. The computation of base period net income and the excess profits credit is not affected.

(d) **Contracts under Merchant Marine Act.**—Section 457 (a).—The law provides for an alternative tax in the case of a corporation which has been certified by the Federal Maritime Board to the Secretary as having completed within the taxable year any contracts or subcontracts subject to the provisions of section 505 (b) of the Merchant Marine Act of 1936, as amended.

The alternative tax is in lieu of the excess profits tax computed under section 430 but only if such alternative tax is less than the tax under such section. Such alternative tax (computed as provided in section 457 (b)) is the excess of (1) a tentative tax computed under section 430 with the normal-tax net income increased by the amount of any payments made, or to be made, to the Board with respect to contracts or subcontracts the completion of which during the taxable year has been certified to the Secretary by the Board over (2) the amount of such payments.

A corporation claiming the benefit of the alternative tax provided under section 457 (a) shall attach to its return (1) a certificate of the Board showing each contract or subcontract subject to the provisions of section 505 (b) of the Merchant Marine Act which the corporation has completed within the taxable year, and (2) a statement showing the amount of payments made, or to be made, to the Board with respect to such contracts or subcontracts.

36. **Foreign tax credit.**—If a credit for income taxes paid to a foreign country or United States possession is allowed against the corporation normal tax and surtax, the portion of such foreign tax not used as a credit against the normal tax and surtax by reason of the limitations of section 131 (b) will be available for credit against the excess profits tax. The amount thus made available as a credit against the excess profits tax is subject to further limitations provided in section 131 (j).

38. **Position inconsistent with prior income tax liability.**—(a) In general.—Section 452 authorizes an adjustment to the excess profits tax in certain cases in which the treatment of an item or transaction for excess profits tax purposes is inconsistent with prior erroneous treatment of such item or transaction for income tax purposes and correction of the error is prevented by some provision or rule of law such as the statute of limitations or res judicata.

(b) **Circumstances of adjustment.**—Generally, an adjustment with respect to a position inconsistent with prior income tax liability is made if (1) in determining at any time the excess profits tax of the corporation an item affecting the excess profits credit is treated in a manner inconsistent with the treatment accorded such item in the determination of the income tax liability of such corporation or a predecessor for a taxable year or years ending before July 1, 1950; and (2) the treatment of such item in the prior taxable year or years consistently with the determination for the purposes of the excess profits tax would effect an increase or decrease in the amount of the income taxes determined for the prior taxable year or years; and (3) on the date of such determination of the excess profits tax, correction of the effect of the inconsistent treatment in any one or more of the prior taxable years is prevented (except for the provisions of section 3801) by

## PAGE 8

the operation of any law or rule of law (other than section 3761, relating to compromises).

In case the net effect of the adjustment would be a decrease in the income taxes previously determined for such year or years, the adjustment will be made only if there is adopted in the determination a position maintained by the Secretary. In case the net effect of the adjustment would be an increase in the income taxes previously determined for such year or years, the adjustment will be made only if there is adopted in the determination a position maintained by the taxpayer with respect to whom the determination is made. However, either position must be inconsistent with

the treatment accorded such item in the prior taxable year or years which was not correct under the law applicable to such year.

(c) Method and effect of adjustment.—The amount of adjustment authorized under the provisions of section 452 is to be ascertained as provided in section 452 (d). In general, the difference between the aggregate of the increases, plus the interest attributable to each, and the aggregate of the decreases, plus the interest attributable to each, will be the increase or decrease, as the case may be, which is added to, or subtracted from, the excess profits tax otherwise computed for the taxable year with respect to which the inconsistent position is adopted.

## SCHEDULE EP-2.—EXCESS PROFITS CREDIT—BASED ON INCOME

In general, the excess profits credit based on income for a domestic corporation is the sum of the following:

- (a) 83 percent of the average base period net income;
  - (b) 12 percent of the amount of the base period capital addition, computed under section 435 (f), if the average base period net income is the amount determined under section 435 (d) (relating to the general average) or, in certain cases under section 442 (relating to abnormalities in base period); and
  - (c) 12 percent of the net capital addition for the taxable year, as defined in section 435 (g) (1).
- From the sum so determined there is subtracted 12 percent of the net capital reduction for the taxable year, as defined in section 435 (g) (2).

The average base period net income may be determined under section 435 (d), and in such case is the average of the taxpayer's excess profits net income for the three best years in the base period. For certain fiscal year corporations the average base period net income under section 435 (d) may be computed by reference to the 48 months ending March 31, 1950.

Section 435 (e) provides alternative methods of computing the average base period net income of a corporation whose growth during the base period is demonstrated primarily by increased gross receipts or payroll during the last half of the base period. These alternative methods are also available to corporations meeting certain tests with respect to sales of a product, or class of products, of a kind not generally available to the public at any time prior to January 1, 1946.

In certain cases the average base period net income may be computed under section 442 (relating to abnormalities in the base period), section 443 (relating to changes in products or services), section 444 (relating to increase in capacity), section 445 (relating to new corporations), or section 446 (relating to depressed industry subgroups. For computation under these sections, see Schedule EP-5. Section 459 contains miscellaneous provisions providing for computation of average base period net income applicable to certain classes of taxpayers. (See instruction 27 (c), Schedule EP-1.)

The base period is the period January 1, 1946, through December 31, 1949, except in the case of a taxpayer whose first taxable year ending after June 30, 1950, was preceded by a taxable year which began before January 1, 1950, and ended January 31, February 28, or March 31, 1950. In the latter cases the base period is the 48 consecutive months ending with the close of January, February, or March, 1950.

Schedule EP-2 has, for convenience, been drawn up in columnar form and provides five columns. If necessary, appropriate changes should be made in the column headings. If additional columns are required, attach a separate schedule.

Section 433 (b) provides that for the purposes of computing the average base period net income, the excess profits net income for any taxable year shall be the normal-tax net income, as defined in section 13 (a) (2) as in effect for such taxable year, increased or decreased by certain adjustments.

In the case of a corporation which has been a party to a transaction described in section 461 (a), the credit should be computed with reference to sections 461 through 465. For rules applicable in the determination of the credit under section 435 (d) in the case of certain taxable acquisitions, see section 474.

In the case of a foreign corporation, the excess profits credit based on income is 83 percent of the average base period net income without any adjustment for capital changes.

1. Normal-tax net income.—The normal-tax net income for each taxable year to be entered on line 1 for the purpose of computing the average base period net income should be the amount shown in item 35, page 1, Form 1120, for 1946 and 1947, and on line 5, page 3, Form 1120, for 1948 and 1949, taking into consideration any subsequent adjustments. If for a taxable year beginning in 1945 a credit for income subject to excess profits tax has been deducted in computing the normal-tax net income, the amount to be entered on line 1 should be computed without the deduction of such credit.

In the case of a corporation electing to report income from installment sales or installment sales obligations on the accrual method, or income from long-term contracts on the percentage of completion method, recompute base period net income accordingly and enter such amount on line 1. For detailed explanation of the adjustments necessary, see general instruction E (1) and (2).

2. Net operating loss deduction.—Section 433 (b) (1) provides that the net operating loss deduction provided by section 23 (s) shall not be allowed in determining the excess profits net income for any taxable year in the base period. Enter on line 2 any net operating loss deduction used in computing the amount on line 1.

3. Net loss to which section 117 (j) is applicable.—Section 433 (b) (2) provides that there shall be excluded gains and losses from sales or exchanges of capital assets and gains and losses to which section 117 (j) is applicable. A net loss to which section 117 (j) is applicable (the excess of all section 117 (j) losses over all section 117 (j) gains) should be entered on line 3. No adjustment for a net capital loss sustained is necessary since such a loss was not allowable in computing normal-tax net income. Provision for the subtraction of a net gain from the sale or exchange of capital assets, including a net gain to which section 117 (j) is applicable (the excess of all section 117 (j) gains over all section 117 (j) losses), is made on line 21.

4. Deductions on account of retirement or discharge of bonds, etc.—If during the taxable year the taxpayer retires or discharges any bond, debenture, note, or certificate, or other evidence of

indebtedness, if the obligation of the taxpayer has been outstanding for more than 6 months, the following deductions for the taxable year shall not be allowed:

- (a) The deduction allowable under section 23 (a) for expenses paid or incurred in connection with such retirement or discharge;
- (b) The deduction for losses allowable by reason of such retirement or discharge; and
- (c) In case the issuance was at a discount, the amount deductible for such year solely because of such retirement or discharge.

In making the adjustments provided in section 433 (b) (4), the deduction allowable for any premium paid on bonds when called for redemption shall be disallowed, but the deduction allowable for any discount amortized up to the date of retirement or discharge shall not be disallowed. Expenses incurred in issuing bonds which are amortized shall be treated in the same manner as discounts.

5. Deductions under reserve method for bad debts, in case of banks.—In the case of banks using the reserve method of accounting for bad debts, there shall be allowed, in lieu of the amount allowable under the reserve method for bad debts, a deduction for debts which became worthless within the taxable year, in whole or in part, within the meaning of section 23 (k). A bank using the reserve method of accounting for bad debts will enter on line 5 the amount of the deduction used in computing line 1. The amount of the debts which actually became worthless during the taxable year should be entered on line 24.

6. Federal income taxes paid by lessee under long-term lease.—The adjustment on line 6 is to disallow the deduction by a lessee of an amount of Federal income taxes paid on behalf of a lessor. The adjustment on line 23 is to exclude this amount from income in the case of a lessor.

If under a lease for a term of more than 20 years, entered into prior to December 1, 1950, the lessee is required to pay any portion of the tax imposed by chapter 1 upon the lessor with respect to the rentals derived by such lessor from such lessee, or is obligated to reimburse the lessor for any portion of the tax imposed

by chapter 1 upon the lessor with respect to the rentals derived by such lessor from such lessee, such payment or reimbursement shall be excluded by the lessor and a deduction therefor shall not be allowed to the lessee. For treatment of certain leases of railroad properties containing renewal clauses, see section 433 (b) (11).

7. Repayment of processing tax to vendees.—The deduction under section 23 (a), for any taxable year, for expenses shall be decreased by an amount which bears the same ratio to the amount deductible on account of any repayment or credit by the corporation to its vendee of any amount attributable to any tax under the Agricultural Adjustment Act of 1933, as amended, as the excess of the aggregate of the amounts so deductible in the base period over the aggregate of the amounts attributable to taxes under such Act collected from its vendees, which were includible in the corporation's gross income in the base period and which were not paid, bears to the aggregate of the amounts so deductible in the base period.

8. Dividends received credit.—Section 26 (b) provides for the allowance of a dividends received credit to the extent indicated in the various sections imposing tax, while section 433 (b) (6) provides that the credit for dividends received shall apply without limitation (except the limitation relating to dividends in kind) to all dividends on stock of all corporations, except that no credit for dividends received shall be allowed with respect to dividends (actual or constructive) on stock of foreign personal holding companies or dividends on stock which is not a capital asset. The dividends received credit used in computing the amount entered on line 1 should be entered on line 8. Provision for the subtraction of the amount of the dividends received is made on line 20. As indicated above in this paragraph, the dividends received do not, for the purpose of the adjustment on line 20, include dividends received on stock of a personal holding company or dividends on stock which is not a capital asset and the amount is subject to the limitation relating to dividends in kind.

9 through 12. Abnormal deductions.—In general, sections 433 (b) (9) and (10) provide that if for any taxable year within or beginning or ending within, the base period, any class of deductions for the taxable year exceeded 115 percent of the average amount of deductions of such class for the four previous taxable years, the deductions of such class shall be disallowed in an amount equal to such excess. If a single extraordinary event gives rise to deductions of the same class for more than one taxable year, then, in determining whether the deductions of such class arising from such extraordinary event exceed 115 percent of the average deductions of that class for the four previous taxable years, such average shall be computed without reference to any deductions attributable to the particular extraordinary event.

Each of the following groups of deductions shall constitute a class of deductions:

(a) Deductions attributable to claims, awards, judgments, and decrees against the taxpayer, and interest on the foregoing.

(b) Deductions attributable to intangible drilling and development costs paid or incurred in or for drilling of wells or the preparation of wells for the production of oil or gas, and for development costs in the case of mines.

(c) Deductions under section 23 (f) for losses arising from fires, storms, shipwreck, or other casualty, or from theft, or arising from demolition, abandonment, or loss of useful value of property, not compensated for by insurance or otherwise. This class of deductions does not include losses from the sale or exchange of capital assets or losses to which section 117 (j) is applicable.

Classification of deductions not included in the separately defined classes is subject to regulations.

Deductions of any class for any taxable year shall not be disallowed unless—

(a) The amount of deductions of such class to be disallowed for such year exceeds 5 percent of the average excess profits net income for the taxable years within, or beginning or ending within, the base period (computed without the disallowance of any such class of deductions), and

(b) The taxpayer establishes that the increase in such deductions is not a cause or a consequence of an increase in the gross income of the taxpayer in its base period or a decrease in the amount of some other deduction in its base period, which increase or decrease is substantial in relation to the amount of the increase in the deductions of such class, and

(c) The taxpayer establishes that the increase in such deductions is not a consequence of a change at any time in the type, manner of operation, size, or condition of the business engaged in by the taxpayer.

The amount of deductions of any class to be disallowed with respect to any taxable year in the base period shall not exceed the amount by which the deductions of such class for such taxable year exceed the deductions of such class for the taxable year for which excess profits tax is being computed.

If in computing excess profits net income for any taxable year in the base period, the taxpayer claims the disallowance under section 433 (b) (9) and (10) of any amount previously allowed as a deduction, there shall be submitted a full and complete statement showing the computation of the amount to be disallowed, the basis upon which each requirement of section 433 (b) (9) and (10) is satisfied, and all the facts upon which the taxpayer relies.

13. Adjustment of assessments paid by banks to Federal Deposit Insurance Corporation.—In the case of a bank, the deduction for the assessment by the Federal Deposit Insurance Corporation for any taxable year in the base period shall be reduced to an amount which is such part thereof as the net assessment (after credits applicable thereto) for the taxable year for which excess profits tax is being computed is of the gross assessment for the taxable year for which excess profits tax is being computed.

14. Capitalization of expenditures for advertising or promotion of good will.—Under the provisions of section 451 any taxpayer may elect, in a statement attached to its return or filed within 6 months after the date prescribed by law for filing its return for its first taxable year ending after June 30, 1950, to charge to capital account deductions based upon expenditures for taxable years in its base period on account of advertising or the promotion of good will, to the extent that such expenditures may be regarded as capital investments. The election is applicable only with respect to expenditures to establish, maintain, or increase the circulation of a newspaper, magazine, or other periodical.

15. Deductions attributable to technical services.—The adjustment on line 15 is the sum of any deductions described below deducted in arriving at the amount on line 1. The adjustment on line 25 is the amount of any income described below included in computing line 1.

Section 433 (b) (16) provides that in the case of a domestic corporation which renders to a related corporation technical assistance, engineering services, scientific assistance, or similar services (such services or assistance being related to the production or improvement of products of the type manufactured by such domestic corporation), there shall be excluded the remuneration for such services or assistance if such remuneration constitutes income derived from sources without the United States. Any deductions in connection with or properly allocable to rendering of such services or assistance shall not be allowed. For this purpose, a foreign corporation shall be considered a "related foreign corporation" if 10 percent or more of its outstanding stock is owned by the domestic corporation.

16. Adjustment for interest.—Section 433 (b) (17) provides that, in the case of a dealer in certain Government obligations which makes the election provided by section 440 (c), the excess profits net income shall be increased by the excess of the amount of interest received or accrued on such obligations during each taxable year in the base period reduced (but not below zero) by the amount of interest paid or accrued during such year which is not allowed as a deduction under section 23 (b). In the case of a taxable year ending after June 30, 1950, such interest shall further be reduced by the amount of the adjustment required under section 22 (o) (relating to the adjustment for certain bond premiums) but not by an amount greater than the amount of interest received or accrued during the taxable year on Government obligations to which such section is applicable. For this purpose the term "Government obligation" means obligations described in section 22 (b) (4) any part of the interest from which is excludible from gross income or allowable as a credit against net income; but such term shall include only such obligations as in the hands of the taxpayer are property described in section 117 (a) (1) (A).

17. Adjustment for base period losses from branch operations.—Section 433 (b) (18) provides that, in certain cases, the excess profits net income, otherwise determined, for each year in the base period may be increased with respect to losses sustained in the base period arising from branch operations by the taxpayer. Such an adjustment is authorized only if—

(a) the branch is located at a separate place from the taxpayer's other business activities;

(b) the branch was operated at a loss during two or more taxable years in the base period;

(c) the character of the products or services produced by the branch differs substantially from the other business of the taxpayer, i. e., the branch is of a type classifiable by the Standard Industrial Classification Manual in a different major industry group or in a different subgroup of the taxpayer's major group; and

(d) the aggregate net losses of the branch during the base period exceed 15 percent of the aggregate excess profits net income of the taxpayer during the base period. The term "aggregate excess profits net income" means the sum of the excess profits net income for all years in the base period, increased by the sum of the net losses of such branch during the base period.

## PAGE 10

If section 433 (b) (18) is applicable, the excess profits net income for any taxable year beginning or ending in the base period shall be increased by the amount of the excess of (i) the loss sustained in the operation of the branch in such year over (ii) the loss, if any, incurred by such branch during the taxable year for which excess profits tax is being computed. If section 433 (b) (18) is applicable, submit statement of pertinent facts and schedule of computation.

18. Adjustment for deposits under Merchant Marine Act.—Section 457 (c) provides that the excess profits net income for any base period year shall be increased by an amount equal to the excess of (1) the tax deferred deposits of earnings, made in or accrued to reserve funds under section 607 of the Merchant Marine Act, 1936, with respect to such base period year, over (2) the amount of such deposits of earnings for the taxable year for which excess profits tax is being computed. Proper adjustment shall be made of deposits made in or accrued to the reserve funds for any taxable year so as to exclude therefrom any amounts payable for such year as reimbursement of operating-differential subsidy. If section 457 (c) is applicable, submit statement of pertinent facts and schedule of computation.

20. Dividends received.—See instruction 8.

21. Net gain from sale or exchange of capital assets.—See instruction 3.

22. Income from retirement or discharge of bonds, etc.—There shall be excluded in the case of any taxpayer, income derived from the retirement or discharge by the taxpayer of any bond, debenture, note, or certificate or other evidence of indebtedness, if the obligation of the taxpayer has been outstanding for more than 6 months, including, in case the issuance was at a premium, the amount includible in income for such year solely because of such retirement or discharge.

23. Federal income taxes received by lessor under long-term lease.—See instruction 6.

24. Debts which actually became worthless during the year, in the case of banks.—See instruction 5.

25. Income attributable to technical services.—See instruction 15.

26. Adjustment for certain coal royalties.—Section 433 (d) provides that the excess profits net income for taxable years in the base period shall be computed as if the provisions relating to the disposal of coal contained in section 117 (j) and section 117 (k) (2) were a part of the law applicable to the taxable year in the base period for which an excess profits net income is being computed. Enter on this line the excess of—

(a) the difference between amounts received upon the disposal of coal in the taxable year and the adjusted depletion basis thereof, over

(b) the excess of the allowance for percentage depletion provided for in section 114 (b) (4) with respect to such coal for such year over the amount allowable for cost depletion.

29. Deductions applicable to life insurance companies.—In the case of a life insurance company there shall be deducted from the normal-tax net income the excess of (a) the product of (1) the figure determined and proclaimed under section 202 (b) and (2) the excess profits net income computed without regard to this deduction, over (b) the adjustment for certain reserves provided in section 202 (c).

31 through 38. Average base period net income—General average.—(a) Lines 31 and 32 provide a computation which is applicable only to a taxpayer whose base period, as defined in general instructions for this schedule, consists of four 12-month taxable years which are either the calendar years 1946 through 1949 or fiscal years ending on the last day of January, February, or March, 1947, through 1950. The aggregate excess profits net income for the three highest years, as shown on line 30, is divided by 3 to obtain the average base period net income.

(b) Lines 33 through 38 are for the use of all other taxpayers. A taxpayer which had a taxable year beginning in 1949 and ending after March 31, 1950, may compute an average base period net income under the general average method either for (1) its base period as defined in general instructions for this schedule, or (2) an alternative period consisting of 48 consecutive months ending March 31, 1950, whichever produces the lesser excess profits tax. Lines 33 through 38 are adapted for computation of average base period net income for either period. A taxpayer with a taxable year beginning in 1949 and ending after March 31, 1950, should indicate immediately preceding line 33 which period is used in the computation of the average base period net income.

33. (a). For purposes of line 33 (a) the amounts of excess profits net income as shown on line 30 are divided by the number of full calendar months in the respective taxable years. If a taxpayer was not in existence throughout the entire 48 months of its base period, its excess profits net income for any month during no part of which it was in existence shall be zero.

33. (b). This line is to be used in computing an average base

period net income by a taxpayer electing the alternative period described above in lieu of its base period. Such a taxpayer should enter in column 5 on this line the same amount appearing in column 5, line 33 (a) if the taxable year in this column ended after March 31, 1950, and before July 1, 1950; 90 percent of such amount if such taxable year ended after June 30, 1950, and before October 1, 1950; or 80 percent of such amount if such taxable year ended after September 30, 1950, and before December 31, 1950.

34. Enter in each column of line 34 the number of months during any part of which the taxpayer was in existence which fall within its base period, or within the alternative period if the taxpayer is computing an average base period net income by reference to the alternative period.

35. The number of months to be entered on line 35 should total 36 and should be the 36 months which produce the highest aggregate excess profits net income determined in either of the following ways: (a) the 12 consecutive months with the lowest aggregate excess profits net income may be eliminated, or (b) the 36 consecutive months which produce the highest aggregate excess profits net income may be retained.

If the alternative period is used in lieu of the base period, then in determining the 36 months to be entered on this line the average monthly excess profits net income for the months of January, February, and March, 1950, included in the total number of months shown in column 5, line 34, will be the weighted monthly average on line 33 (b), and the average monthly excess profits net income for the preceding months in such taxable year will be the monthly average shown in column 5, line 33 (a).

36. Enter in each column of line 36 the respective products of lines 33 (a) and 35 except that if the alternative period is used, the amount on line 33 (b) should be substituted for the amount on line 33 (a) with respect to the months of January, February, and March, 1950, if such months are included in the number of months entered on line 35.

39 through 48. Average base period net income—Alternative based on growth.—A taxpayer which commenced business prior to the end of its base period, if it meets certain requirements, is entitled to an alternative average base period net income computed, in general, upon the basis of the average income of the last 12 months of the base period, or the last 24 months of the base period, or an adjusted average for the 12 months ended June 30, 1950, whichever is highest.

A taxpayer computing average base period net income by using an alternative based on growth shall submit with its return a full and complete statement showing the basis upon which each requirement of section 435 (e) is satisfied and all the facts upon which the taxpayer relies.

(a) Eligibility requirements—General rule.—Eligibility is established if total assets on the first day of the base period (including the assets of all members of taxpayer's affiliated group) did not exceed \$20,000,000, and either—

(1) The total payroll for the last half of the base period is 130 percent or more of the total payroll for the first half of the base period; or

(2) The gross receipts for the last half of the base period are 150 percent or more gross receipts for the first half of the base period.

(b) Eligibility requirements—Products not generally available prior to 1946.—A taxpayer is also entitled to use as its average base period net income the alternative based on growth if it commenced business before the end of its base period and if it meets the following tests:

(1) The amount of the taxpayer's net sales for the period beginning January 1, 1950, and ending June 30, 1950, when multiplied by 2, equals or exceeds 150 percent of its average net sales for the calendar years 1946 and 1947; and

(2) 40 percent or more of the taxpayer's net sales for the calendar year 1950 is attributable to a product, or class of products (including any article in which such product or class of products is the principal component and including any article which is a component of such product or class of products), of a kind not generally available to the public at any time prior to January 1, 1946, and

(3) The amount of the taxpayer's net sales which is attributable to such product or class of similar products for the calendar year 1946 is 5 percent or less of the amount of its net sales so attributable for the calendar year 1949.

A product which is a modification of an old product, such as an improvement or change in style, is not a product of the type referred to. A product which was generally available prior to 1946, although not available at all times prior thereto is also not covered.

For the purposes of these tests, the term "net sales" with respect to any period means the total amount received or accrued during such period from the sale, exchange, or other disposition of stock in trade of the taxpayer or other property of a kind which would

properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or property held by the taxpayer primarily for sale to customers in the ordinary course of its trade or business; reduced by the amount of discounts, returns, and allowances paid or incurred for such period.

39. Total assets as of first day of base period.—Enter on this line total assets of the taxpayer as of the first day of its base period computed by aggregating the cash and property other than cash held by the taxpayer on such day for the purpose of the business. Property shall be included for the purpose of this computation in an amount equal to its adjusted basis for determining gain upon sale or exchange. If the taxpayer is a member of an affiliated group which has the privilege under section 141 of filing a consolidated return for its first taxable year ending after June 30, 1950, there shall also be included the total assets of the affiliated group whether or not a consolidated return is filed, and such total assets shall be determined in a manner consistent with the principles applicable with respect to consolidated returns.

40. Total payroll and gross receipts.—For the purpose of determining the amount to be entered on lines 40 (a) and (b), the term "total payroll" means the sum of the salaries, wages, commissions, and other compensation paid or incurred by the taxpayer during such period for personal services actually rendered by employees, excluding the amount thereof which is allowable as a deduction under section 23 (p) and excluding any compensation paid in any medium other than cash.

The term "gross receipts" means the sum of—

(a) The total amount received or accrued during such period from the sale, exchange, or other disposition of stock in trade of the taxpayer or other property of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or property held by the taxpayer primarily for sale to customers in the ordinary course of its trade or business, and

(b) The gross income, attributable to a trade or business regularly carried on by the taxpayer, received or accrued during such period excluding therefrom—

Gross income derived from the sale, exchange, or other disposition of property;

Gross income derived from discharge of indebtedness of the taxpayer;

Dividends on stocks of corporations; and

Income attributable to recovery of bad debts.

In the event that a taxable year falls partly within the period, there shall be allocated to the portion of the year within the period an amount of the total payroll, or total gross receipts, for such year in the same proportion as the number of months in the year within the period bears to the total number of months in the year.

41 and 43. Excess profits net income.—The excess profits net income for each of the months to be included in the aggregates to be entered on the lines 41 and 43 is the excess profits net income for the taxable year in which such month falls divided by the number of full calendar months in such year but in no case shall the excess profits net income for any month be less than zero.

44. Weighted excess profits net income.—The weighted excess profits net income for any month after December 1949 shall be the "weighted excess profits net income" for the taxable year in which the month falls divided by the number of full calendar months in such year, but in no case shall the weighted excess profits net income for any month be less than zero. The weighted excess profits net income for any taxable year beginning before July 1, 1950, shall be—

(a) 100 percent of the excess profits net income for any taxable year ending before July 1, 1950;

(b) 90 percent of the excess profits net income for any taxable year ending after June 30, 1950, and before October 1, 1950;

(c) 80 percent of the excess profits net income for any taxable year ending after September 30, 1950, and before April 1, 1951; and

(d) 70 percent of the excess profits net income for any taxable year ending after March 31, 1951.

The aggregate of the weighted excess profits net income for each of the 6 months, January through June 1950, should be entered on line 44.

45. Excess profits net income for last 6 months of 1949.—If the taxpayer is entitled to the benefits of section 435 (e), the aggregate of the excess profits net income for each of the 6 months July through December 1949, should be entered on line 45.

If the taxpayer meets the eligibility requirements with respect to products not generally available prior to 1946, and if its excess profits net income for the calendar year 1949 is not more than 25 percent of its excess profits net income for the calendar year 1948, the aggregate of the excess profits net income for each of the 6 months, July through December 1948, should, if higher, be substituted for the aggregate of the excess profits net income for each of the last 6 months of 1949 on line 45 and the substitution indicated.

50. Base period capital addition.—If the average base period net income is the general average (line 32 or line 38) or, in certain cases, is determined with reference to abnormalities in the base period (section 442) or with reference to section 459, the excess profits credit based on income includes 12 percent of the base period capital addition as computed on Schedule EP-2 (A).

53 and 55. Adjustment on account of the net capital addition or reduction for the taxable year.—In determining the excess profits credit based on income under section 435 it is necessary to make adjustments for capital changes after the beginning of the first taxable year. No capital adjustments are permitted or required in the case of a foreign corporation. If the average base period net income is determined under section 443 or section 445, the net capital addition or reduction is the amount computed after giving effect to the provisions of section 443 (d) or section 445 (e). For capital additions and reductions in case of certain exchanges, see part II of the excess profits tax law (sections 461 through 465), and in the case of certain taxable acquisitions, see part IV (section 474).

## SCHEDULE EP-2 (A)—BASE PERIOD CAPITAL ADDITION

In general, section 435 (a) (1) (B) provides that, if the average base period net income of the taxpayer is determined under the general average method, there shall be included as part of the excess profits credit 12 percent of the amount of the base period capital addition, computed under section 435 (f). No adjustment to reflect a net decrease in base period capital is required.

If the average base period net income is based on growth (lines 39 through 48, Schedule EP-2); or is computed under provisions of the law relating to new corporations (Schedule EP-5 (A)); change in products or services (Schedule EP-5 (C)); increase in capacity for production or operation (Schedule EP-5 (D)); or depressed industry subgroups (Schedule EP-5 (E)); then no base period capital addition is allowed. If average base period net income is computed under provisions of law relating to abnormalities during base period (Schedule EP-5 (B)), see instructions for that schedule. If the average base period net income is computed by reference to section 459, see instruction 27 (c), Schedule EP-1.

In the case of installment basis taxpayers and taxpayers with income from long-term contracts electing under section 455, see general instructions E (1) and (2).

The base period capital addition is, in general, the sum of the net addition to capital for the taxpayer's last taxable year ending before July 1, 1950, plus one-half the net addition to capital for the immediately preceding taxable year. In determining the net addition to capital, the full increase in equity capital and 75 percent of the increase in borrowed capital are taken into account, subject to adjustments for interest on borrowed capital for increases or decreases in inadmissible assets, and for increases or decreases in loans to members of a controlled group of which the taxpayer is a member.

1 and 2. Total assets and liabilities at beginning of taxable year.—The amount of assets to be entered on line 1 is the sum of the cash and other property, held by the taxpayer in good faith for the purposes of the business, at the beginning of the first day of each taxable year. Property shall be included in an amount equal to its adjusted basis for determining gain upon sale or exchange, except that the adjusted basis of secret processes and formulas, good will, trade-marks, trade brands, franchises, and other like property shall be determined without regard to value as of March 1, 1913. In determining the sum of cash and other property, so much of the distributions to shareholders made during the first 60 days of any taxable year (other than the first taxable

year ending after June 30, 1950) as does not exceed the accumulated earnings and profits at the beginning thereof shall be considered to have been made on the last day of the preceding taxable year (see section 441 (e)). In the case of an insurance company (other than mutual and other than life or marine), 50 percent of its reserves required by law (other than reserves used in computing borrowed capital under section 439 (b) (2)), as well as its organization expenses, shall be included in assets. For special rule in the case of improvements by a lessee to properties of a lessor railroad corporation, see section 441 (j).

See section 470 for rules applicable in determining the adjusted basis of assets acquired in an intercorporate liquidation.

## PAGE 12

The amount of liabilities on line 2 shall include all liabilities of the corporation which are absolute and not contingent. In the case of assets subject to a mortgage or other lien, the amount of the indebtedness secured by such mortgage or lien shall be considered as a liability of the taxpayer whether or not the taxpayer assumed or agreed to pay such indebtedness. In the case of a bank (as defined in section 104) its reserves for bad debts shall not (a) reduce assets, or (b) be treated as liabilities.

4. 75 percent of borrowed capital at beginning of year.—Borrowed capital at the beginning of any year shall be determined as of the first day of the year. Borrowed capital as of any day shall be determined as of the beginning of such day and shall be the amount of the outstanding indebtedness (not including interest) of the taxpayer, incurred in good faith for the purposes of the business, which indebtedness is evidenced by a bond, note, bill of exchange, debenture, certificate of indebtedness, mortgage, deed of trust, bank-loan agreement, or conditional sales contract. In the case of property of the taxpayer subject to a mortgage or other lien, the amount of indebtedness secured by such mortgage or lien shall be considered as an indebtedness of the taxpayer whether or not the taxpayer assumed or agreed to pay such indebtedness. Insurance companies and face-amount certificate companies, see section 439 (b) (2), (3), and (4).

6. Adjustment for interest on borrowed capital.—The amount to be entered on line 6 is determined by (a) multiplying any indebtedness of the taxpayer which constitutes borrowed capital for the first day of the taxable year by the annual rate of interest payable upon such indebtedness during such taxable year, and (b) multiplying the total of the amounts so ascertained by 100 and dividing the product by 12.

8. Adjustment for loans to members of controlled groups at beginning of year.—Controlled group means one or more chains of corporations connected through stock ownership with a common parent corporation if (a) more than 50 percent of the total combined voting power of all classes of stock entitled to vote, or more than 50 percent of the total value of shares of all classes of stock, of each of the corporations (except the common parent corporation) is owned directly by one or more of the other corporations and (b) the common parent corporation owns directly more than 50 percent of the total combined voting power of all classes of stock entitled to vote, or more than 50 percent of the

total value of shares of all classes of stock, of at least one of the other corporations.

If on the first day of any taxable year the taxpayer was a member of a controlled group, enter 75 percent of the amount of the indebtedness to the taxpayer of any other members of the controlled group. For this purpose, the term "indebtedness" means indebtedness which constitutes borrowed capital, defined in section 439 (b) (1), of such other member of the controlled group for such day.

9. Inadmissible assets adjustment.—The term "inadmissible assets" includes—

(a) Stock in corporations, except stock in a foreign personal holding company, and except stock which is not a capital asset;

(b) Obligations described in section 22 (b) (4) any part of the interest from which is excludible from gross income or allowable as a credit against net income; and

(c) In the computation of the tax for a taxable year ending after December 31, 1950, the economic interest referred to in the provisions of section 117 (k) (2) relating to coal if the taxpayer is subject to such provisions with respect to the income from such coal.

In the case of dealers in Government securities, certain tax-exempt and partially tax-exempt securities may be treated as admissible assets if an election is made under section 440 (c) to include the interest thereon in excess profits net income. See General Instruction F.

In the computation of the tax for a taxable year beginning on or after October 20, 1951, the adjustment for inadmissible assets in the case of banks must be made under section 435 (f) (6) which provides a proportionate adjustment with respect to inadmissible assets. Under this provision the amount to be entered on line 9 is an amount which bears the same ratio to the excess of the amount on line 5 over the sum of amounts on lines 7 and 8 as the amount of the inadmissible assets held at the beginning of such year bears to the total of admissible and inadmissible assets as of such date. If the taxpayer elects by a statement attached to its return, the adjustment for inadmissible assets under section 435 (f) (6) may be made applicable in the computation of the tax for all taxable years beginning before October 20, 1951. A taxpayer using the adjustment for inadmissible assets provided in section 435 (f) (6) should so indicate on the return and should submit a schedule showing computation.

### SCHEDULE EP-2 (B)—TAXABLE YEAR CAPITAL ADDITION OR REDUCTION

In general, section 435 (a) provides that the excess profits credit based on income shall be increased by 12 percent of the net capital addition for the taxable year or reduced by 12 percent of the net capital reduction for the taxable year.

The net capital addition (or reduction), in general, consists of the net increase (or decrease) in equity and borrowed capital determined by comparing the equity and borrowed capital for the taxable year with the equity and borrowed capital at the close of the last taxable year ending before July 1, 1950. For this purpose borrowed capital is taken into account at 75 percent. Under certain circumstances an adjustment is made with respect to inadmissible assets and loans to members of a controlled group of corporations of which the taxpayer is a member.

A net capital addition may be allowed, or the amount otherwise determined may be increased, in certain cases described in section 435 (g) (9) where a decrease in inadmissible assets (in excess of the capital reduction, if any) is accompanied by a corresponding increase in operating assets. For this purpose an increase in operating assets is taken into account only to the extent that it exceeds the net capital addition as adjusted under section 435 (g) (9). The term "operating assets," in general, includes depreciable property and land used in the taxpayer's trade or business, as well as stock in trade or property held primarily for sale to customers, but does not include cash, securities, or intangible property. If section 435 (g) (9) is applicable to the taxpayer, the net capital addition may be determined (1) by computing a tentative net capital addition or reduction using Schedule EP-2 (B) as a guide but disregarding the adjustment for inadmissible assets on line 22, and (2) by making the following additional computations:

(a) Fill in line 22, whether or not an amount appears on line 21, limiting the amount on line 22 (d) to an amount not greater than 25 percent of the amount by which (i) the excess of line 14 over line 8 (disregarding for this purpose the 75-percent limitation appearing on lines 11 and 13), exceeds (ii) the amount on line 22 (b). The amount of the decrease in inadmissible assets (in excess of the capital reduction, if any) is the excess of the amount thus computed on line 22 (c) over the amount, if any, on line 21. In the case of a bank, the amount of the decrease in inadmissible assets to be taken into account is computed by reference to section 435 (g) (9) (B).

(b) Compute the excess of the average daily amount of operating assets for the taxable year over the amount of operating assets as of the first day of the first taxable year ending after June 30, 1950. For this purpose the adjusted basis of operating assets shall be used.

(c) Recompute the amount on line 19, disregarding for this purpose the 75-percent limitation appearing on lines 7, 11, and 13.

(d) Add to the tentative net capital addition, if any, whichever of the following amounts is the lesser: (i) the amount computed under (a), or (ii) the excess of the amount computed under (b) over the amount computed under (c). The amount to be added to the tentative net capital addition, if any, may also be subject to adjustment to the extent that an increase in operating assets is determined to be a result of an increase in indebtedness other than borrowed capital.

A taxpayer computing a net capital addition by reference to section 435 (g) (9) should attach a schedule showing computation and include a detailed statement of operating assets.

If average base period net income is computed under the provisions relating to change in products or services (Schedule EP-5 (C)), or new corporations (Schedule EP-5 (A)), see instructions for those schedules. If average base period net income is computed under section 459, see instruction 27 (c), Schedule EP-1.

In the case of installment basis taxpayers and taxpayers with income from long-term contracts electing under section 455, see general instructions E (1) and (2).

1 and 2. Equity capital.—See instructions 1 and 2, Schedule EP-2 (A).

3. Borrowed capital at beginning of first taxable year ending after June 30, 1950.—The amount to be entered on line 3 is the total amount of borrowed capital at the beginning of the first tax-

able year ending after June 30, 1950. See instruction 4, Schedule EP-2 (A).

4. Average daily amount of borrowed capital for the taxable year.—The average daily amount of borrowed capital for the taxable year is the aggregate of the borrowed capital as of the

beginning of each day of the taxable year, divided by the number of days in the taxable year. See instruction 4, Schedule EP-2 (A).

5. Average daily amount of money and property paid in during the taxable year for stock, or as paid-in surplus, or as a contribution to capital.—For each day of the taxable year, the daily amount of money and property paid in during the taxable year for stock, or as paid-in surplus, or as a contribution to capital, is the total amount of money and property so paid in during such year and prior to such day. The average daily amount of money and property paid in is the aggregate of the daily amount for each day of the taxable year, divided by the number of days in the taxable year.

For the purpose of determining the amount of property paid in for stock, or as paid-in surplus, or as a contribution to capital, such property shall be included in an amount equal to its basis (unadjusted) for determining gain upon sale or exchange. In the case of intangible property, the basis (unadjusted) and the adjusted basis for determining gain upon sale or exchange shall be determined without regard to the value as of March 1, 1913. For the purposes of this paragraph, the term "intangible property" means secret processes and formulas, good will, trade-marks, trade brands, franchises, and other like property. If the unadjusted basis of the property is a substituted basis, such basis shall be adjusted, with respect to the period before the property was paid in, by an amount equal to the adjustments proper under section 113 (b) (2).

For the purpose of determining the amount of money and property paid in for stock, or as paid-in surplus, or as a contribution to capital, there shall be included only money and property paid in good faith for the purposes of the taxpayer's business.

A distribution by a corporation of its stock or rights to acquire its stock shall not be regarded as money or property paid in for stock, or as paid-in surplus, or as a contribution to capital.

For the purpose of determining the amount of property paid in for stock, or as paid-in surplus, or as a contribution to capital—

(a) If the basis (unadjusted) of the property for determining gain upon a sale or exchange is determined by reference to the basis of the property in the hands of the transferor, proper adjustment shall be made for the amount of any liability of the transferor assumed upon the exchange and of any liability subject to which such property was so received, for the amount of any other liability of the taxpayer constituting consideration for the property so received, and for the aggregate of the amount of money and the fair market value of other property (other than such stock and other than such liabilities) transferred to the transferor.

(b) If an indebtedness of the taxpayer is canceled or released in exchange for stock, or as paid-in surplus, or as a contribution to capital, the amount paid in shall be considered equal to the amount of the indebtedness.

(c) For special rule in the case of improvements by a lessee to the properties of a lessor railroad corporation, see section 441 (j).

9. Average daily amount of distributions during the taxable year not out of earnings and profits of such year.—For each day of the taxable year, the daily amount of distributions not out of earnings and profits is the total amount of such distributions made during the year and prior to such day. The average daily amount of such distributions is the aggregate of the daily amount for each day of the taxable year, divided by the number of days in the taxable year. A distribution by a corporation of its stock or rights to acquire its stock shall not be considered as a distribution.

In determining whether a distribution is out of the earnings and profits of any taxable year, such earnings and profits shall be computed as of the close of such taxable year without diminution by reason of any distribution made during such taxable year or by reason of the tax under chapter 1 for such year and the determination shall be made without regard to the amount of earnings and profits at the time the distribution was made.

So much of the distributions to shareholders made during the first 60 days of any taxable year (other than the first taxable year ending after June 30, 1950) as does not exceed the accumulated earnings and profits at the beginning thereof shall be considered to have been made on the last day of the preceding taxable year. See section 441 (e).

12. Average daily amount of increase in certain inadmissible assets held by member of controlled group.—For definition of controlled group, see instruction 8, Schedule EP-2 (A).

The amount required to be included in the daily capital reduction, under section 435 (g) (4) (D), for any day of the taxable year, on account of an increase in certain inadmissible assets held by a member of a controlled group, shall be the amount determined under (a) or (b) below, whichever is the lesser:

(a) The excess of the aggregate of the adjusted basis (for determining gain upon sale or exchange) of stock in such other corporation (or if more than one, in such other corporations) held

by the taxpayer at the beginning of such day over the aggregate of the adjusted basis (for determining gain upon sale or exchange) of stock in such other corporation (or if more than one, in such other corporations) held by the taxpayer at the beginning of its first taxable year ending after June 30, 1950.

(b) The excess of the aggregate of the adjusted basis (for determining gain upon sale or exchange) of inadmissible assets held by the taxpayer at the beginning of such day, over the aggregate of the adjusted basis (for determining gain upon sale or exchange) of inadmissible assets held by the taxpayer at the beginning of its first taxable year ending after June 30, 1950.

The amount to be entered on line 12 is the aggregate of the amount determined for each day of the taxable year, divided by the number of days in the taxable year.

13. 75 percent of average daily amount of increase in loans to member of controlled group.—The daily amount of increase in loans to a member of a controlled group on any day of the taxable year shall be the excess of the amount of the indebtedness of such other corporation (or if more than one, such other corporations) to the taxpayer at the beginning of such day over the amount of the indebtedness of such other corporation (or if more than one, such other corporations) to the taxpayer at the beginning of its first taxable year ending after June 30, 1950. See instruction 4, Schedule EP-2 (A), for definition of indebtedness.

The average daily amount of such increase is the aggregate of such increase for each day of the taxable year, divided by the number of days in the taxable year.

15. Total inadmissible assets at beginning of first taxable year ending after June 30, 1950.—See instruction 9, Schedule EP-2 (A), for definition of inadmissible assets.

16. Average daily amount of inadmissible assets for the taxable year.—The average daily amount of inadmissible assets for the taxable year is the aggregate of the total inadmissible assets for each day of the taxable year, divided by the number of days in the taxable year.

17. Excess, if any, of average daily capital addition over average daily capital reduction.—If the average daily capital addition (line 8) exceeds the average daily capital reduction (line 14), the excess of line 8 over line 14 should be entered on line 17. This is the amount of the net capital addition before adjustment for any increase in inadmissible assets. If an amount is entered on line 17, lines 18, 19, and 20 should be completed but no entry should be made on lines 21 through 24.

18. Adjustment for increase in inadmissible assets.—This line provides for computation of the adjustment for any increase in inadmissible assets required by section 435 (g) (1) in determining the net capital addition. The increase in inadmissible assets (the excess, if any, of line 16 over line 15) is reduced on line 18 (a) for any increase in the daily capital reduction (line 12) attributable to an increase in certain inadmissible assets held by a member of a controlled group. (Section 435 (g) (4) and (6).) Lines 18 (b), (c), and (d) provide an adjustment which is required where the adjusted increase in inadmissible assets exceeds that part of the amount of the net capital addition which is attributable to an increase in equity capital.

An alternative computation of the adjustment for inadmissible assets is provided under section 435 (g) (8) (A) in the case of a bank which has an increase in total assets for the taxable year in excess of the amount on line 17. Under this provision the amount of the adjustment for inadmissible assets on line 18 (e) may not be greater than an amount which bears the same ratio to the increase in inadmissible assets for the taxable year (excess of line 16 over line 15) as the amount on line 17 bears to the increase in total assets for the taxable year. The increase in total assets is determined by computing the excess of the average total assets for the taxable year over the total assets of the taxpayer for the first day of the first taxable year ending after June 30, 1950. If the taxpayer uses the alternative adjustment for inadmissible assets, enter the amount so determined on line 18 (e), indicate that such substitution has been made, and submit schedule showing computation.

21. Excess, if any, of average daily capital reduction over average daily capital addition.—If the average daily capital reduction (line 14) exceeds the average daily capital addition (line 8), the excess of line 14 over line 8 should be entered on line 21. This is the amount of the net capital reduction before adjustment for any decrease in inadmissible assets.

22. Adjustment for decrease in inadmissible assets.—This line provides for the computation of the adjustment for any decrease in inadmissible assets required by section 435 (g) (2) in determining the net capital reduction. The decrease in inadmissible assets (the excess, if any, of line 15 over line 16) is entered on line 22 (a). Lines 22 (b), (c), and (d) provide an adjustment which is required where the decrease in inadmissible assets exceeds that part of the amount of the net capital reduction which is attributable to a decrease in equity capital.

An alternative computation of the adjustment for inadmissible

## PAGE 14

assets is provided under section 435 (g) (8) (B) in the case of a bank which has a decrease in total assets for the taxable year in excess of the amount on line 21. Under this provision the amount of the adjustment for inadmissible assets on line 22 (c) may not be greater than an amount which bears the same ratio to the decrease in inadmissible assets (excess of line 15 over line 16) as the amount on line 21 bears to the decrease in total assets. The de-

crease in total assets is determined by computing the excess of the total assets of the taxpayer for the first day of the first taxable year of the taxpayer ending after June 30, 1950, over the average total assets for the taxable year. If the taxpayer uses the alternative adjustment for inadmissible assets, enter the amount so determined on line 22 (c), indicate that such substitution has been made, and submit schedule showing computation.

### SCHEDULE EP-3.—ALTERNATIVE EXCESS PROFITS CREDIT OF REGULATED PUBLIC UTILITIES (Section 448)

Section 448 provides an alternative excess profits credit for certain regulated public utilities. This credit, in general, consists of the amount of the corporation's normal tax and surtax plus an amount determined as follows:

(a) By computing 6 percent or 7 percent (depending upon the type of utility) of the sum of the adjusted invested capital and the average borrowed capital for the taxable year;

(b) By reducing the amount determined under (a) by the amount of interest on indebtedness included in borrowed capital. The amount computed under (a), as reduced by (b), is subject to an adjustment for inadmissible assets.

For the purpose of this credit, adjusted invested capital for any year includes generally the sum of (1) the excess of assets over liabilities at the beginning of the year, (2) the average amount of money and property paid in for stock, or as paid-in surplus, or as a contribution to capital during the taxable year, and (3) the recent loss adjustment; reduced by the average amount of distributions made during the taxable year not out of current earnings and profits. In the case of certain public utilities specified in section 448 (c) (1) (A) and (B), (c) (2), and (c) (4), however, the adjusted invested capital is the sum of the average outstanding common and preferred capital stock accounts for the taxable year and the capital surplus and earned surplus accounts at the beginning of the taxable year as recorded on corporate books of account if such books are maintained in accordance with specified systems of accounts.

The use of the alternative credit is limited to corporations deriving 80 percent or more of their gross income (computed without regard to dividends and capital gains and losses) from certain regulated sources.

If an affiliated group filing a consolidated return includes any corporation which is not a regulated public utility, the alternative credit provided by section 448 may not be used. An affiliated group consisting only of regulated public utilities may file a consolidated return using the alternative credit.

1. Equity capital at beginning of the taxable year.—See instructions 1 and 2, Schedule EP-2 (A).

2. Average daily amount of money and property paid in during the taxable year for stock, or as paid-in surplus, or as a contribution to capital.—See instruction 5, Schedule EP-2 (B).

3. Recent loss adjustment.—Section 437 (f) provides that the recent loss adjustment for any taxable year shall be the excess of the aggregate of the net operating loss for each taxable year in the recent loss period over the aggregate of the net income for each taxable year in such period. For this purpose, the term "recent loss period" means either the base period or the period beginning January 1, 1940, and ending December 31, 1949, whichever results in a higher recent loss adjustment. The net operating loss for any taxable year means the net operating loss as defined in section 122 (a), determined under the law applicable to such taxable year, and the net income for any taxable year means the net income computed with the exceptions, additions, and limitations provided in section 122 (d) (other than paragraph (6) of section 122 (d)), under the law applicable to such taxable year.

See section 437 (f) (3) for special rules in case only part of a taxable year is included in the recent loss period and in the case of recent losses of a component corporation as defined in section 461 (b).

5. Average daily amount of distributions during the taxable year not out of earnings and profits for such year.—See instruction 9, Schedule EP-2 (B).

7. Adjusted invested capital based upon prescribed uniform system of accounts.—If, in the case of a corporation described in section 448 (c) (1) (A), (c) (1) (B), (c) (2), or (c) (4) (see instruction 10), the corporate books of account are maintained in accordance with a system of accounts prescribed by an appropriate regulatory body (or, if not so prescribed, are maintained in accordance with the uniform systems of accounts prescribed by the Federal Power Commission or the National Association of Railway and Utility Commissioners), the adjusted invested capital for such year shall be the sum of the average outstanding common and preferred capital stock accounts for such taxable year and the capital surplus and earned surplus accounts at the beginning of such taxable year as properly recorded on such corporate books of account.

A statement shall be attached setting out all facts relied on in qualifying under this method of computing adjusted invested capital.

(a) Average outstanding capital stock for the taxable year.—The average outstanding capital stock for the taxable year is the aggregate of the outstanding common and preferred stock accounts for each day of the year, divided by the number of days in the taxable year.

(b) Capital surplus and earned surplus at beginning of the taxable year.—Enter the total amount of the capital surplus and earned surplus accounts as recorded on the corporate books of account as of the beginning of the first day of the taxable year.

8. Average daily amount of borrowed capital for the taxable year.—See instruction 4, Schedule EP-2 (B).

10. Applicable rate under section 448.—Section 448 (c) provides that the applicable rate shall be:

(1) 6 percent in the case of a corporation engaged in the furnishing or sale of—

(A) Electric energy, gas, water, or sewerage disposal services, or

(B) Transportation (not included in paragraph (3)) on an intrastate, suburban, municipal, or interurban electric railroad, on an intrastate, municipal, or suburban trackless trolley system, or on a municipal or suburban bus system, or

(C) Transportation (not included in subparagraph (B)) by motor vehicle—

if the rates for such furnishing or sale, as the case may be, have been established or approved by a State or political subdivision thereof, by an agency or instrumentality of the United States, or by a public service or public utility commission or other similar body of the District of Columbia or of any State or political subdivision thereof;

(2) 6 percent in the case of a corporation engaged as a common carrier in the furnishing or sale of transportation of gas by pipeline, if subject to the jurisdiction of the Federal Power Commission;

(3) 6 percent in the case of a corporation engaged as a common carrier (A) in the furnishing or sale of transportation by railroad, if subject to the jurisdiction of the Interstate Commerce Commission, or (B) in the furnishing or sale of transportation of oil or other petroleum products (including shale oil) by pipeline, if subject to the jurisdiction of the Interstate Commerce Commission or if the rates for such furnishing or sale are subject to the jurisdiction of a public service or public utility commission or other similar body of the District of Columbia or of any State;

(4) 7 percent in the case of a corporation engaged in the furnishing or sale of telephone or telegraph service, if the rates for such furnishing or sale meet the requirements of paragraph (1);

(5) 7 percent in the case of a corporation engaged in the furnishing or sale of transportation as a common carrier by air, subject to the jurisdiction of the Civil Aeronautics Board; and

(6) 6 percent in the case of a corporation engaged in the furnishing or sale of transportation by common carrier by water, subject to the jurisdiction of the Interstate Commerce Commission under Part III of the Interstate Commerce Act, or subject to the jurisdiction of the Federal Maritime Board under the Intercoastal Shipping Act, 1933.

12. Reduction for interest on borrowed capital for the taxable year.—Enter on line 12 the amount of the deduction allowable for the taxable year with respect to interest on indebtedness included in the borrowed capital used in computing the average daily amount of borrowed capital on line 8.

14. Average daily amount of inadmissible assets for the taxable year.—Enter on line 14 the average inadmissible assets for the taxable year determined in the manner set out in instruction 16, Schedule EP-2 (B). In the case of a corporation which has computed its adjusted invested capital on line 7 of this schedule, the amount attributable to inadmissible assets shall be determined according to the corporate books of account.

15. Average daily amount of total assets for the taxable year.—The total assets to be entered on line 15 is the aggregate of all assets for each day of the taxable year, divided by the number of days in the taxable year. In the case of a corporation which has computed its adjusted invested capital on line 7 of this schedule, the amount attributable to each asset shall be determined according to the corporate books of account.

## SCHEDULE EP-4.—EXCESS PROFITS CREDIT—BASED ON INVESTED CAPITAL

The excess profits credit based on invested capital is, in general, an amount equal to the sum of—

- (a) 12 percent of the first \$5,000,000 of invested capital,
- (b) 10 percent of the next \$5,000,000 of invested capital, and
- (c) 8 percent of additional amounts of invested capital.

Invested capital for any year determined under the "asset" method consists generally of the sum of (1) the excess at the beginning of the year of total assets over total liabilities, (2) 75 percent of the average amount of borrowed capital for the year, and (3) the recent loss adjustment. The sum thus determined is increased by the average amount of money and property paid in for stock, or as paid-in surplus, or as a contribution to capital during the taxable year and is reduced by distributions made during the year, which are not out of earnings and profits of the current year. An adjustment is made in the case of a corporation having an invested capital of more than \$5,000,000 in order that capital added after the beginning of its first taxable year ending after June 30, 1950, will be included in invested capital at the 12-percent rate. No such adjustment is necessary where the invested capital does not exceed \$5,000,000 since the 12-percent rate is applied to the entire invested capital.

The "historical" method for determining invested capital is similar to the method used in the invested capital credit under the World War II excess profits tax law. The historical method, in substance, includes in invested capital money and property previously paid in for stock, or as paid-in surplus, or as a contribution to capital, plus the accumulated earnings and profits of the corporation as of the beginning of the taxable year.

A taxpayer is required to use the asset method in determining its invested capital credit unless it elects the historical method in its return for the taxable year. The election once made is irrevocable with respect to the taxable year for which made. If the historical method is used on the return in determining excess profits tax liability, the taxpayer will be deemed to have elected the historical method. A taxpayer which computes its excess profits tax on its return on the basis of a credit other than the invested capital credit may nevertheless elect the historical method for such year, in the event that the invested capital credit should subsequently become significant in the determination of its excess profits tax liability for such year, by attaching a statement to its return for the taxable year electing the historical method.

1. Equity capital at beginning of the taxable year.—The equity capital at the beginning of the taxable year is the total of the assets held by a taxpayer at the beginning of the first day of the taxable year reduced by the total of its liabilities at that time. For determination of amounts to be included in total assets and total liabilities, see instructions 1 and 2, Schedule EP-2 (A).

2. Average daily amount of money and property paid in during the taxable year for stock, or as paid-in surplus, or as a contribution to capital.—See instruction 5, Schedule EP-2 (B).

3. Average daily amount of borrowed capital for the taxable year.—The average daily amount of borrowed capital for the taxable year is the aggregate of the borrowed capital as of the beginning of each day of the taxable year, divided by the number of days in the taxable year. See instruction 4, Schedule EP-2 (A), for definition of borrowed capital.

4. Recent loss adjustment.—Section 437 (f) provides that the recent loss adjustment for any taxable year shall be the excess of the aggregate of the net operating loss for each taxable year in the recent loss period over the aggregate of the net income for each taxable year in such period. For this purpose, the term "recent loss period" means either the base period or the period beginning January 1, 1940, and ending December 31, 1949, whichever results in a higher recent loss adjustment. The net operating loss for any taxable year means the net operating loss as defined in section 122 (a), determined under the law applicable to such taxable year, and the net income for any taxable year means the net income computed with the exceptions, additions, and limitations provided in section 122 (d) (other than paragraph (6) of section 122 (d)), under the law applicable to such taxable year.

See section 437 (f) (3) for special rules in case only part of the taxable year is included in the recent loss period and in the case of recent losses of a component corporation as defined in section 461 (b).

6. Average daily amount of distributions during the taxable year not out of earnings and profits of such year.—See instruction 9, Schedule EP-2 (B).

8. Equity capital at beginning of first taxable year ending after June 30, 1950.—For determination of amounts to be included in total assets and total liabilities, see instructions 1 and 2, Schedule EP-2 (A).

9. Excluded capital paid in after beginning of first taxable year ending after June 30, 1950, and prior to the taxable year.—Section 438 (e) defines "excluded equity capital" as the amount of money or property paid in for stock, or as paid-in surplus, or as a contribution to capital, to the taxpayer—

(a) By a corporation in an exchange to which section 112 (b) (3), (4), (5), or (10), or so much of section 112 (c), (d), or (e) as refers to section 112 (b) (3), (4), (5), or (10), is applicable (or would be applicable except for section 371 (g)), or would have been applicable if the term "control" had been defined in section 112 (h) to mean the ownership of stock possessing more than 50 percent of the total combined voting power of all classes of stock entitled to vote or more than 50 percent of the total value of shares of all classes of stock;

(b) By a transferor corporation if immediately after such transaction the transferor and the taxpayer are members of the same controlled group. For definition of controlled group, see instruction 8, Schedule EP-2 (A).

10. Borrowed capital at beginning of first taxable year ending after June 30, 1950.—For definition of borrowed capital, see instruction 4, Schedule EP-2 (A).

11. Excluded borrowed capital at beginning of first taxable year ending after June 30, 1950.—Section 438 (f) provides that the "excluded borrowed capital" for any day of any taxable year shall be so much of the daily borrowed capital for such day as consists of outstanding indebtedness to a member of a controlled group which includes the taxpayer. For definition of borrowed capital, see instruction 4, Schedule EP-2 (A). For definition of controlled group, see instruction 8, Schedule EP-2 (A).

12. Average daily amount of excluded borrowed capital for the taxable year.—The average daily amount of excluded borrowed capital for the taxable year is the aggregate of the excluded borrowed capital at the beginning of each day of the taxable year, divided by the number of days in the taxable year. See instruction 11 for definition of excluded borrowed capital.

13. Average daily amount of excluded capital paid in during the taxable year.—The average daily amount of excluded equity capital paid in during the taxable year is the aggregate of the excluded equity capital at the beginning of each day of the taxable year, divided by the number of days in the taxable year. See instruction 9 for definition of excluded equity capital.

22. Total inadmissible assets at beginning of first taxable year ending after June 30, 1950.—See instruction 9, Schedule EP-2 (A), for definition of inadmissible assets.

23. Average daily amount of inadmissible assets for the taxable year.—The average daily amount of inadmissible assets for the taxable year is the aggregate of the total inadmissible assets for each day of the taxable year, divided by the number of days in such year. For definition of inadmissible assets, see instruction 9, Schedule EP-2 (A).

24 and 25.—An alternative computation of the adjustment for inadmissible assets is provided under section 438 (g) in the case of a bank which has an increase in total assets for the taxable year in excess of the amount on line 24. Under this provision the amount of the adjustment for inadmissible assets on line 25 (e) may not be greater than an amount which bears the same ratio to the increase in inadmissible assets for the taxable year (excess of line 23 over line 22) as the amount on line 24 bears to the increase in total assets for the taxable year. The increase in total assets is determined by computing the excess of the average total assets for the taxable year over the total assets of the taxpayer for the first day of the first taxable year ending after June 30, 1950. If the taxpayer uses the alternative adjustment for inadmissible assets, enter the amount so determined on line 25 (e), indicate that such substitution has been made, and submit schedule showing computation.

## INSTRUCTIONS 28 THROUGH 55 APPLY ONLY TO THE HISTORICAL METHOD

28. Money paid in for stock, or as paid-in surplus, or as a contribution to capital.—The amount to be entered on line 28 is the total amount of money paid in prior to the beginning of the taxable year. The fact that the money paid in has been lost, destroyed, or otherwise disposed of shall not reduce the invested capital, except as such facts are reflected in the earnings and profits as of the beginning of the taxable year. The term "money

## PAGE 16

paid in" does not include amounts received as premiums by an insurance company subject to taxation under section 204.

29. Property paid in for stock, or as paid-in surplus, or as a contribution to capital.—The amount to be entered on line 29 is the total amount of property paid in prior to the taxable year. The amount of any property paid in is the unadjusted basis to the taxpayer for determining loss upon sale or exchange under the law applicable to the taxable year for which the invested capital is being computed. If the property was disposed of after February 28, 1913, and before such taxable year, such unadjusted basis shall be determined under the law applicable to the year of disposition, but without regard to the value of the property as of March 1, 1913. If the property was disposed of before March 1, 1913, its unadjusted basis shall be considered to be its fair market value at the time paid in.

If the basis to the taxpayer is cost and stock was issued for the property, the cost is the fair market value of such stock at the time of its issuance. If the stock had no established market value at the time of the exchange, the fair market value of the assets of the company at that time should be determined and the liabilities deducted. The resulting net worth will be deemed to represent the total value of the outstanding stock. In determining net worth for the purpose of fixing the fair market value of the stock at the time of the exchange, the property paid in for such stock shall be included in the assets at its fair market value at that time.

If stock having no established market value is issued for intangible property, and it is necessary to determine the fair market value of such property, the following factors, among others, may be taken into consideration in determining such value: (a) The earnings attributable to such intangible assets while in the hands of the predecessor owner; and (b) any cash offers for the purchase of the business, including the intangible property, at or about the time of its acquisition. A corporation claiming a value for intangible property paid in for stock shall file with its return a full statement of the facts relating to such valuation.

If the property was acquired after December 31, 1920, by a corporation from a shareholder as paid-in surplus or from any person as a contribution to capital, then the basis shall be the same as it would have been in the hands of the transferor if the transfer had not been made. See section 113 (a) (8). If so acquired prior to January 1, 1921, the basis is the fair market value of the property at the time it was paid in. Where the basis is the transferor's basis, those adjustments shall be made to such basis with respect to the period before the property was paid in as are proper under section 115 (1) for determining earnings and profits.

The fact that the property paid in has been lost, destroyed, or otherwise disposed of, shall not reduce the invested capital, except as such facts are reflected in the earnings and profits as of the beginning of the taxable year.

The term "property paid in" does not include amounts received as premiums by an insurance company subject to taxation under section 204.

The fair value of additions and betterments made by the lessee to the physical properties of a lessor railroad corporation which have become the property of the lessor corporation by rejection of its lease (such fair value being determined as of the date such additions and betterments became the property of the lessor) shall be considered as a contribution to capital. Where the value of such improvements cannot be accurately determined by the old records thereof, because lost, incomplete, or inaccurate, the value of such improvements determined by the Interstate Commerce Commission for rate-making purposes shall be used in lieu of such fair value.

30. Distributions of earnings and profits in stock of the corporation.—The amount of distributions in stock of the taxpayer or in rights to acquire stock of the taxpayer made prior to the beginning of the taxable year, to the extent to which such distributions are considered to be out of earnings and profits, should be entered on line 30. In determining whether such a distribution is out of the earnings and profits of any taxable year, so much of the distributions (taken in the order of time) made during the first 60 days of the year as does not exceed the accumulated earnings and profits at the beginning of the year (computed without regard to this rule) shall be considered to have been made on the last day of the preceding taxable year. This rule shall not apply with respect to distributions made during the first 60 days of the taxpayer's first taxable year ending after June 30, 1950. In determining whether a distribution is out of the earnings and profits of any taxable year, such earnings and profits shall be computed as of the close of such taxable year without diminution by reason of any distribution made during such taxable year or by reason of the tax imposed by chapter 1 for such year and the determination shall be made without regard to the amount of earnings and profits at the time the distribution was made. If a stock dividend is paid out of capital and not out of earnings and profits, or is of such a character as not to be subject to tax in the hands of a distributee

because exempt as a stock dividend either by statute or otherwise, it is not deemed to constitute a distribution and does not reduce the earnings and profits account. See section 115 (h).

31. (a) Accumulated earnings and profits.—The accumulated earnings and profits as of the beginning of the taxable year should be entered on line 31 (a). In general, the concept of accumulated earnings and profits for the purpose of the invested capital credit under the historical method is the same as for all other purposes of chapter 1. Sec, for example, section 115 and the regulations prescribed thereunder. In computing accumulated earnings and profits as of the beginning of the taxable year, a taxpayer keeping its books and making its income tax returns on the accrual basis shall subtract the income taxes for the preceding taxable year. If there is a deficit in the accumulated earnings and profits as of the beginning of the taxable year, such deficit shall not be taken into account and the earnings and profits as of the beginning of the taxable year shall be considered to be zero, but subsequent earnings and profits shall be applied against such deficit. Unrealized appreciation in value of property is not a factor in determining earnings and profits. For rules governing the determination of the source of distributions, see instruction 30.

31. (b) Adjustment for transferor's deficit under section 458 (f) (4).—If a corporation (hereinafter called "transferor") transfers substantially all its property to another corporation formed to acquire such property (hereinafter called "transferee"), and if—

(1) the sole consideration for the transfer of such property is the transfer to the transferor or its shareholders of all the stock of all classes (except qualifying shares) of the transferee (in determining whether the transfer is solely for stock, the assumption by the transferee of a liability of the transferor or the fact that the property acquired is subject to a liability shall be disregarded); and

(2) the basis of the property in the hands of the transferee for the purposes of this subsection is determined by reference to the basis of the property in the hands of the transferor; and

(3) the transferor is forthwith completely liquidated in pursuance of the plan under which the acquisition of the property is made; and

(4) immediately after the liquidation the shareholders of the transferor own all such stock;

then for the purposes of this paragraph, in computing the equity invested capital for any day after the date of the acquisition of the property, the earnings and profits or deficit in earnings and profits of the transferee and the transferor shall be computed as if, immediately before the beginning of the taxable year in which such transfer occurs, the transferee had been in existence and sustained a recognized loss, and the transferor had realized a recognized gain, equal to the portion of the deficit in earnings and profits of the transferor attributable to such property.

31. (c) Increase or decrease under section 472 (d) (1) on account of intercorporate liquidation.—Where property is received by the transferee in an intercorporate liquidation, section 472 (d) (1) provides that in computing the equity invested capital of the transferee for any day following the completion of such intercorporate liquidation with respect to any share of stock in the transferor having in the hands of the transferee, immediately prior to the receipt of any property in such intercorporate liquidation, a basis determined to be a cost basis, the earnings and profits or deficit in earnings and profits of the transferee shall be computed as if on the day following the completion of such intercorporate liquidation the transferee had realized a recognized gain equal to the amount of the plus adjustment in respect of such share, or had sustained a recognized loss equal to the amount of the minus adjustment in respect of such share.

For the purpose of such adjustment, an intercorporate liquidation is defined by section 472 (a) as the receipt (whether or not after June 30, 1950) by a corporation of property in complete liquidation of another corporation to which—

(1) the provisions of section 112 (b) (6) or the corresponding provisions of a prior revenue law is applicable; or

(2) a provision of law is applicable prescribing the nonrecognition of gain or loss in whole or in part upon such receipt (including a provision of the regulations applicable to a consolidated income and excess profits tax return, but not including section 112 (b) (7), (9), or (10) or a corresponding provision of a prior revenue law), but only if none of such property so received is a stock or a security in a corporation the stock or securities of which are specified in the law applicable to the receipt of such property as stock or securities permitted to be received (or which would be permitted to be received if they were the sole consideration) without the recognition of gain. The amount of any plus or minus adjustment resulting from an intercorporate liquidation occurring prior to the taxable year should be entered on line 31 (c). For definition of "plus adjustment" and "minus adjustment," see section 472 (b).

32. Increase on account of intercorporate liquidation under section 472 (d) (2).—Where property is received by the trans-

feree in an intercorporate liquidation, section 472 (d) (2) provides that in computing the equity invested capital of the transferee for any day following the completion of such intercorporate liquidation with respect to any share of stock in the transferor having in the hands of the transferee, immediately prior to the receipt of any property in such intercorporate liquidation, a basis determined to be a basis other than a cost basis, there shall be treated as an amount includible in equity invested capital the amount of the plus adjustment with respect to such share, or equity invested capital shall be reduced by the amount of the minus adjustment with respect to such share. The amount of such a plus adjustment resulting from an intercorporate liquidation occurring prior to the taxable year should be entered on line 32. See instruction 31 (c).

33. Deficit in earnings and profits of another corporation under section 458 (d) (5).—In the case of a transferee, as defined in instruction 31 (b), there shall be included in equity invested capital an amount, determined as indicated in such instruction, equal to the portion of the deficit in earnings and profits of a transferor attributable to property received.

35. Distributions made prior to the taxable year not out of accumulated earnings and profits.—Section 458 (e) (1) provides that the equity invested capital shall be reduced for distributions made prior to the taxable year not out of accumulated earnings and profits. For rules governing the determination of the source of distributions, see instruction 30.

36. Earnings and profits of another corporation required to be deducted by section 458 (e) (3).—Equity invested capital shall be reduced by the amount of the earnings and profits of another corporation which at any prior date were included in accumulated earnings and profits by reason of a transaction described in section 112 (b) through (e), or in the corresponding provisions of a prior revenue law, or by reason of the transfer by such other corporation to the taxpayer of property the basis of which in the hands of the taxpayer is or was determined with reference to its basis in the hands of such other corporation or would have been so determined if the property had been other than money.

37. Decrease on account of intercorporate liquidation under section 472 (d) (2).—The amount of any minus adjustment resulting from an intercorporate liquidation occurring prior to the beginning of the taxable year should be entered on line 37. See instructions 31 (c) and 32.

38. Deficit included in invested capital of another corporation (section 458 (e) (4)).—In the case of a transferor, as defined in instruction 31 (b), equity invested capital shall be reduced by an amount, determined as indicated in such instruction, equal to the portion of the deficit in earnings and profits of the transferor attributable to property transferred. Any such amount resulting from a transfer occurring prior to the taxable year should be entered on line 38.

41. Money paid in for stock, or as paid-in surplus, or as a contribution to capital.—The amount to be entered on line 41 is the average daily amount of money paid in during the year. The average daily amount for the taxable year is the aggregate of money paid in as of the beginning of each day of the year, divided by the number of days in such year. See instruction 28.

42. Property paid in for stock, or as paid-in surplus, or as a contribution to capital.—The amount to be entered on line 42 is the average daily amount of property paid in during the year.

The average daily amount for the taxable year is the aggregate of the property paid in as of the beginning of each day of the taxable year, divided by the number of days in such year. See instruction 29.

43. Distributions of earnings and profits (other than earnings and profits of the taxable year) in stock of the corporation.—The amount to be entered on line 43 is the average daily amount of distributions made during the taxable year of earnings and profits (other than earnings and profits of the taxable year) in stock of the taxpayer or in rights to acquire stock of the taxpayer. The average daily amount is the aggregate of the distributions as of the beginning of each day of the taxable year, divided by the number of days in such year. For rules governing the determination of the source of distributions, see instruction 30.

44. Increase on account of intercorporate liquidation under section 472 (d) (2).—The average daily amount of any plus adjustment under section 472 (d) (2) resulting from an intercorporate liquidation occurring during the taxable year should be entered on line 44. See instructions 31 (c) and 32.

45. Deficit in earnings and profits of another corporation under section 458 (d) (5).—In the case of a transferee, as defined in instruction 31 (b), there should be entered on line 45 the average daily amount of the portion of the deficit in earnings and profits of the transferor attributable to the property received in a transfer described in section 458 (f) (4) occurring during the taxable year. See instructions 31 (b) and 33.

48. Distributions not out of earnings and profits of the taxable year.—Section 458 (e) (2) provides that the equity invested capital for any day in the taxable year shall be reduced for distributions previously made during such taxable year which are not out of the earnings and profits of such taxable year. For the purposes of Schedule EP-4, the average daily reduction is derived by aggregating the reduction for each day of the taxable year and dividing the aggregate by the number of days in the taxable year. For rules governing the determination of the source of distributions, see instruction 30.

49. Stock distributions from accumulated earnings and profits at beginning of year.—See instruction 43.

50. Decrease on account of intercorporate liquidation under section 472 (d) (2).—The average daily amount of any minus adjustment under section 472 (d) (2) resulting from an intercorporate liquidation occurring during the taxable year should be entered on line 50. See instructions 31 (c) and 32.

51. Deficit in earnings and profits included in invested capital of another corporation (section 458 (e) (4)).—The average daily amount of the portion of the deficit in earnings and profits of the transferor, as defined in instruction 31 (b), attributable to property transferred during the taxable year should be entered on line 51. See instruction 38.

54. 75 percent of average borrowed capital.—See instruction 3.

61. Average daily amount of inadmissible assets for the taxable year.—See instruction 9, Schedule EP-2 (A), for definition of inadmissible assets and instruction 16, Schedule EP-2 (B), for method of computing average daily amount of inadmissible assets.

62. Average daily amount of total assets for the taxable year.—The amount to be entered on line 62 is the average daily amount of total assets for the taxable year. For rules governing the assets to be taken into account, see instruction 1, Schedule EP-2 (A).

## SCHEDULE EP-5

Consisting of parts (A), (B), (C), (D), and (E).

### GENERAL INSTRUCTIONS

1. In general.—Sections 442 through 446 provide for the determination of an average base period net income computed, in general, on the basis of an industry rate of return, in lieu of the taxpayer's own experience, in certain cases which may be characterized as follows:

(a) A corporation commencing business after the beginning of its base period;

(b) A corporation experiencing certain types of abnormalities during its base period;

(c) A corporation making a substantial change in products or services during the last 3 years of its base period;

(d) A corporation making a substantial increase in its capacity for production or operation during the last 3 years of its base period; and

(e) A corporation which for its base period was a member of a depressed industry subgroup.

2. Application required.—Section 447 (e) provides that the excess profits tax for any taxable year shall be determined without regard to section 442, 443, 444, 445, or 446, unless an application for the benefits of such section, setting forth the grounds for the application of such section in such detail and in such manner as the Secretary may prescribe, is filed by the taxpayer—

(a) with its return for the taxable year, or

(b) within the period of time prescribed by section 322 (as extended under sections 446 (h) and 447 (d) in cases where a tentative rate of return or a tentative adjusted rate of return has been used and the use of a final rate of return results in a redetermination) for filing claim for credit or refund, and in such case the application of section 442, 443, 444, 445, or 446 shall be subject to the limitations as to the amount of credit or refund prescribed in section 322, or

(c) after the period described in (b) above, if within the period of limitations for the assessment of a deficiency (as extended under sections 446 (h) and 447 (d) in cases where a tentative rate of return or a tentative adjusted rate of return has been used and the use of a final rate of return results in a redetermination) in the tax imposed by chapter 1 of the Internal Revenue Code for the taxable year, and in such case the application of section 442, 443, 444, 445, or 446 shall not reduce the tax by an amount greater than the deficiency determined without regard to the application of such section,

except that if a petition is filed with the Tax Court for the redetermination of the tax under chapter 1 for the taxable year, the application shall be effective only if filed not later than the date on which the original petition is filed.

## PAGE 18

Section 447 (e) also provides that section 442, 443, 444, 445, or 446 shall not be applied upon the basis of any grounds other than those set forth in an application filed within the period prescribed in section 447 (e).

The application shall be made on Schedule EP-5 and, if made with the original return, shall be filed with and as a part of Form 1120 for the taxable year. If the application is not filed with the original return, it shall be filed with and as a part of an amended return, or where appropriate, with Form 843.

3. Industry classification.—For the purposes of sections 442 through 446, the industry groups and subgroups are defined in accordance with the specifications shown in the Standard Industrial Classification Manual prepared by the Division of Statistical Standards, Bureau of the Budget.

4. Industry rates of return.—For the purposes of sections 442 through 445, there are provided two types of industry rates of return. The first, for use when 12 or fewer months are to be adjusted under section 442, is designated as the base period yearly rate of return, and the second, for use in all other cases where section 442, 443, 444, or 445 is applicable, is described as the base period rate of return. For purposes of section 446, relating to depressed industry subgroups, an adjusted rate of return is provided.

5. Use of industry rates of return.—Base period yearly rates of return and base period rates of return proclaimed by the Secretary on June 3, 1952, are set forth for each industry classification in Appendix A. The adjusted rates of return proclaimed by the Secretary on June 3, 1952, for depressed industry subgroups are set forth in the instructions for Schedule EP-5 (E). The base period yearly rates of return, the base period rates of return, and the adjusted rates of return, proclaimed by the Secretary on June 3, 1952, relate back as though they had been in effect in place of the tentative rates previously proclaimed by the Secretary. Any application of section 442, 443, 444, 445, or 446 made in accordance with a tentative rate shall be redetermined in accordance with the final rate proclaimed, except that no redetermination is necessary in any case in which the final rate of return is the same as the tentative rate which was previously proclaimed and effective. The periods of limitation prescribed under section 322 and sections 275 and 276 with respect to overpayments or deficiencies in tax caused by such redetermination shall not begin to run prior to such time as the base period yearly rates of return, the base period rates of return, or the adjusted rates of return, as the case may be, are determined and proclaimed except that, if no redetermination is necessary, such periods of limitation are not extended, since no overpayment or deficiency in tax results from the determination of the final rates of return.

6. Average base period net income determined with reference to industry rates of return.—In general, where average base period net income (or a substitute excess profits net income for a period of 12 or fewer months) is computed under section 442, 443, 444, or 445, the taxpayer's total assets are multiplied by the applicable rate of return for the taxpayer's industry classification

and the resulting amount is reduced by an adjustment for interest paid or incurred by the taxpayer. Similarly, where average base period net income is determined under section 446 in the case of a member of a depressed industry subgroup, the taxpayer's total assets are multiplied by the adjusted rate of return for the taxpayer's depressed industry subgroup and the resulting amount is adjusted for interest paid or incurred.

7. Definition of total assets.—For purposes of sections 442 through 446, the term "total assets" for any day means the sum of the cash and other property (other than inadmissible assets and loans to members of a controlled group, as defined in section 435 (f) (4) held by the taxpayer at the end of such day in good faith for purposes of the business. The amount thus computed shall be reduced (but not below zero) by the amount of any indebtedness (other than borrowed capital) to a member of a controlled group which includes the taxpayer. For definition of "inadmissible assets," see instruction 9, Schedule EP-2 (A). For definition of "controlled group," see instruction 8, Schedule EP-2 (A). Property shall be included in an amount equal to its adjusted basis for determining gain upon sale or exchange, except that the adjusted basis of secret processes and formulas, good will, trademarks, trade brands, franchises, and other like property shall be determined without regard to value as of March 1, 1913. In determining total assets, so much of the distributions to shareholders made during the first 60 days of any taxable year (other than the taxpayer's first taxable year ending after June 30, 1950) as does not exceed the accumulated earnings and profits at the beginning of the year shall be considered to have been made on the last day of the preceding taxable year. For special rule in the case of improvements by a lessee to properties of a lessor railroad corporation, see section 441 (j).

In the case of a taxpayer electing to compute income from installment sales or installment sales obligations on the accrual method of accounting, or income from long-term contracts on the percentage of completion method of accounting, see section 441 (h).

8. Definition of base period.—For purposes of sections 442 through 446, the "base period" is the base period defined in section 435 (b) and is the period January 1, 1946, through December 31, 1949, except in the case of a taxpayer whose first taxable year ending after June 30, 1950, was preceded by a taxable year which began before January 1, 1950, and ended January 31, February 28, or March 31, 1950. In the latter cases the base period is the 48 consecutive months ending with the close of January, February, or March 1950. In the case of a corporation which is an acquiring corporation within the meaning of section 461 (a), such corporation is considered to have been in existence and to have had taxable years for any period during which it or any of its component corporations was in existence, and it is considered to have commenced business on the earliest date on which it or any of its component corporations commenced business. See section 461 (d).

#### SCHEDULE EP-5 (A)—NEW CORPORATIONS (Section 445)

A taxpayer which commenced business after the first day of its base period and which is not an ineligible corporation, is considered to be a new corporation and may apply for the benefits of section 445. For rules governing an application, see general instruction 2, Schedule EP-5. For definition of "base period," see general instruction 8, Schedule EP-5.

For special rules governing the application of section 445 in the case of an acquiring corporation, see section 462 (g), and in the case of a component corporation, see section 461 (c).

If a taxpayer, on or after December 1, 1950, and prior to the end of its third taxable year, acquires any properties in any of the transactions described in paragraphs (a), (b), or (c), below, it shall be deemed an "ineligible corporation" and it shall not, for the taxable year in which such acquisition occurs or for succeeding taxable years, be entitled to the benefits of section 445 except under the circumstances and subject to the limitations provided in section 462 (g). The transactions to which this paragraph applies are—

(a) The acquisition by the taxpayer from another corporation of properties the basis of which in its hands is determined by reference to the basis of such properties to the transferor; or

(b) The acquisition by the taxpayer of a substantial part of its assets from another corporation, or of a substantial part of the properties of another corporation, if 50 percent or more in value of the outstanding stock or outstanding voting stock of the taxpayer is directly or indirectly owned, at the time of such acquisition, by individuals owning directly or indirectly 50 percent or more in value of the outstanding stock, or outstanding voting stock of the transferor; or

(c) The acquisition by the taxpayer of a substantial part of the properties distributed on or after December 1, 1950, by another corporation, if such properties constituted a substantial part of the business assets of such other corporation, and if 50 percent or more in value of the outstanding stock or outstanding voting stock of the taxpayer is owned directly or indirectly by individuals who at the time of such distribution owned directly or indirectly 50 percent or more in value of the outstanding stock or outstanding voting stock of such other corporation.

For the purposes of (b) and (c) above, the provisions of section 503 are applicable in determining the ownership of stock.

The base period capital addition is not available to a taxpayer computing average base period net income under section 445; accordingly, no entry should be made on line 50, Schedule EP-2. The net capital addition or reduction as computed under section 435 (g) is, however, applicable to such a taxpayer in accordance with the following modifications:

(a) In the case of a taxpayer computing its average base period net income under section 445 for any of its first three taxable years, lines 1 through 10 of Schedule EP-5 (A) are applicable and the net capital addition or reduction, as computed on line 19 or 23 of Schedule EP-2 (B), should be entered on line 2 or 4 of Schedule EP-5 (A), whichever is applicable. In such case no entry should be made on line 53 or 55 of Schedule EP-2.

(b) In the case of a taxpayer computing its average base period net income under section 445 for its fourth taxable year, or for any taxable year subsequent thereto, lines 11 through 16 of Schedule EP-5 (A) are applicable. If the day following the close of the

taxpayer's third taxable year is later than the first day of its first taxable year ending after June 30, 1950, then the date used for determining the amount of equity capital on line 1, borrowed capital on line 3, and inadmissible assets on line 15 of Schedule EP-2 (B) is such later day. The same day should be used in lieu of the day otherwise specified in instructions 12 and 13 of Schedule EP-2 (B) in determining the amount to be entered on lines 12 and 13 of that schedule and in lieu of the day specified in the instructions for Schedule EP-2 (B), relating to an increase in the capital additions under section 435 (g) (9). Schedule EP-2 (B) should be altered accordingly and the amount so determined on line 20 or 24 of that schedule should be entered on line 53 or 55, whichever is applicable, of Schedule EP-2.

1. Total assets at end of last taxable year ending prior to July 1, 1950.—The total assets held by the taxpayer at the end of its last taxable year ending prior to July 1, 1950, should be entered on line 1. If the taxpayer's first taxable year ended after June 30, 1950, do not make an entry on this line. For definition of "total assets," see general instruction 7, Schedule EP-5.

2. Net capital addition for current taxable year.—For the purpose of line 2, the net capital addition may be computed using Schedule EP-2 (B) as a guide but with the following changes: (a) disregard the 75 percent limitation appearing on lines 7, 11, and 13, and (b) enter on line 19 the excess of line 17 over line 18 (a). The amount so computed on line 19 of Schedule EP-2 (B) should be entered on line 2 of this schedule. In certain cases the net capital addition may be further increased under the provisions of section 435 (g) (9) relating to a decrease in inadmissible assets. See general instructions for this schedule and instructions for Schedule EP-2 (B).

4. Net capital reduction for current taxable year.—For the purpose of line 4, the net capital reduction may be computed by using Schedule EP-2 (B) as a guide but with the following changes: (a) disregard the 75-percent limitation appearing on line 7, 11, or 13, and (b) enter on line 23 the excess of line 21 over line 22 (a). The amount entered on line 23 of Schedule EP-2 (B) should be entered on line 4 of this schedule. See general instructions for this schedule and instructions for Schedule EP-2 (B).

6. Taxpayer's industry classification and base period rate of return.—Enter on this line the industry classification to which is attributable the largest amount of the taxpayer's gross receipts for the taxable year. See Appendix A for list of industry classifications. For definitions of "gross receipts," see instruction 40,

Schedule EP-2. Also enter on line 6 the applicable base period rate of return for the taxpayer's industry classification.

8. Reduction for interest.—The amount to be entered on line 8 is the total interest paid or incurred by the taxpayer for the 12 months ending with the last day of the taxable year for which the return is filed. Such amount should include interest on all indebtedness, irrespective of whether it constitutes borrowed capital within the meaning of section 439 (b).

11. Total assets at end of last taxable year ending prior to July 1, 1950, or at end of taxpayer's third taxable year, whichever is later.—The total assets held by the taxpayer at the end of its last taxable year ending prior to July 1, 1950—or if the taxpayer's third taxable year ended on a later date, the total assets held by the taxpayer at the end of its third taxable year—should be entered on this line. For definition of "total assets," see general instruction 7, Schedule EP-5.

12. Taxpayer's industry classification and base period rate of return.—Enter on this line the industry classification to which is attributable the largest amount of the taxpayer's gross receipts for the taxpayer's third taxable year. See Appendix A for list of industry classifications. For definition of "gross receipts," see instruction 40, Schedule EP-2. Also enter on line 12 the base period rate of return for the industry classification applicable to the taxpayer for its third taxable year.

14. Reduction for interest.—The amount to be entered on line 14 is the total interest paid or incurred by the taxpayer for the 12 months ending with the day for which the taxpayer's total assets are computed for purposes of line 11. Such amount shall include interest on all indebtedness, irrespective of whether it constitutes borrowed capital within the meaning of section 439 (b).

#### SCHEDULE EP-5 (B).—ABNORMALITIES DURING BASE PERIOD (Section 442)

A taxpayer which commenced business on or before the first day of its base period may apply for the benefits of section 442 if it establishes that, for any taxable year within, or beginning or ending within, its base period—

(a) Normal production, output, or operation was interrupted or diminished because of the occurrence, either immediately prior to or during such taxable year, of events unusual and peculiar in its experience, or

(b) The business of the taxpayer was depressed because of temporary economic circumstances unusual in the case of such taxpayer. In general, if the excess profits net income of 12 or fewer of the 36 months selected in the base period is affected by an abnormality, a substitute excess profits net income computed on the basis of the industry rate of return may, under the conditions specified in section 442 (c), be used in lieu of the actual excess profits net income of such 12 or fewer months. If the excess profits net income of more than 12 of the 36 months is affected by an abnormality, an average base period net income computed on the basis of the industry base period rate of return may, under the conditions specified in section 442 (d), be substituted for the taxpayer's entire base period net income. Section 442 (h) provides, as an alternative to section 442 (c) or (d), that a substitute excess profits net income may be used for any 12 months of the 36 months selected in the base period, if such 12 months are preceded by an abnormality and if the excess profits net income of such 12 months is less than 35 percent of one half the aggregate excess profits net income for the remaining 24 months of the 36 selected. For rules governing an application, see general instruction 2, Schedule EP-5. For definition of "base period," see general instruction 8, Schedule EP-5.

For special rules governing the application of section 442 in the case of an acquiring corporation, see section 462 (d), and in the case of a component corporation, see section 461 (c).

For purposes of section 442, activities comprised within the meaning of production, output, or operation include the rendering of services if the taxpayer renders service rather than manufactures or markets tangible products. Normal production, output, or operation, means the level of production, output, or operation, customary for the taxpayer. The interruption or diminution must be a direct result of events unusual and peculiar in the experience of the taxpayer, such events occurring in or immediately prior to such taxable year.

Only those economic circumstances which were temporary in the sense that they had little perceptible long-range effect on the taxpayer's business, and which affected the taxpayer unusually, as distinguished from those economic events which were of a chronic or continuing character, are within the scope of section 442.

The base period capital addition, in the case of a taxpayer computing its average base period net income under section 442, is subject to the following rules:

(a) If more than 12 of the 36 months in the period subject to adjustment (more than 12 of the months entered on line 4, Schedule EP-5 (B)) fall within taxable years the excess profits net income of which was adversely affected by an abnormality, the base period capital addition is zero.

(b) If 12 or fewer of the 36 months in the period subject to adjustment (12 or fewer of the months entered on line 4, Schedule EP-5 (B)) fall within a taxable year or years the excess profits net income of which was adversely affected by an abnormality, and

(1) If a substitute excess profits net income (in excess of 110 percent of excess profits net income) is computed for any part of the taxpayer's first taxable year ending after June 30, 1950, or for any part of the immediately preceding taxable year, the base period capital addition is zero;

(2) If a substitute excess profits net income (in excess of 110 percent of excess profits net income) is computed for any part of the earlier of the taxpayer's two taxable years immediately preceding its first taxable year ending after June 30, 1950, the base period capital addition shall be the excess of the amount in column 1, line 11, Schedule EP-2 (A) over the amount in column 2, line 11, of that schedule. Twelve percent of such amount should be entered on line 50, Schedule EP-2.

(3) If neither (1) nor (2) applies, the base period capital addition is the amount determined on line 14, Schedule EP-2 (A).

(c) If the taxpayer computes an average base period net income by reference to section 442 (h), the rules stated in (b) (1), (2), and (3), above, without regard to the 110 percent qualification therein, shall be applicable in determining the base period capital addition.

## PAGE 20

The net capital addition or reduction, computed under section 435 (g) in Schedule EP-2 (B), is applicable to a taxpayer computing its average base period net income under section 442, and the amount so determined on line 20 or 24 of that schedule should be entered on line 53 or 55, whichever is applicable, of Schedule EP-2.

1. Excess profits net income or deficit.—The amount to be entered on line 1 is the amount of excess profits net income, or deficit in excess profits net income, shown on line 28, Schedule EP-2, for each taxable year within, or beginning or ending within, the taxpayer's base period.

2. Monthly average.—The monthly average to be entered is the excess profits net income (or deficit in excess profits net income) for each taxable year for which an entry is made on line 1, divided by the number of months in such taxable year.

3. Number of months after December 31, 1945, and before January 1, 1950, in each taxable year.—Where the base period consists of the 48 months beginning January 1, 1946, and ending December 31, 1949, the number of months to be entered on line 3 is the number of months within such 48-month period falling within each taxable year for which an entry is made on line 1. In a case where the base period is the 48-month period ending January 31, February 28, or March 31, 1950, the number of months to be entered in line 3 is the number of months, within the applicable 48-month period, falling within each of the taxable years for which an entry is made on line 1. For definition of "base period," see general instruction 8, Schedule EP-5.

4. Enter from 3 the highest 36 consecutive months or the 36 months remaining after eliminating lowest 12 consecutive months.—The number of months to be entered on line 4 should total 36 and should consist of either (a) the 36 consecutive months entered on line 3 the retention of which will produce the highest aggregate excess profits net income (or the lowest aggregate deficit in excess profits net income), or (b) the 36 months remaining after eliminating from the months entered on line 3 the 12 consecutive months the elimination of which will produce the highest aggregate excess profits net income (or the lowest aggregate deficit in excess profits net income). For the purpose of determining the number of months in each taxable year to be entered on this line, deficits in excess profits net income should not be increased to zero.

5. Number of months on line 4 in a taxable year the excess profits net income of which was adversely affected by an abnormality.—The number of months to be entered on line 5 should be those months entered on line 4 which fall within a taxable year the excess profits net income of which was reduced (or the deficit in excess profits net income of which was increased) by an event or circumstance included in the grounds upon which the application for the benefits of section 442 is based. If the total number of months entered on line 5 is 12 or less, the taxpayer should complete lines 7 through 17. If the total number of months entered on line 5 is more than 12, the taxpayer should complete lines 22 through 29.

6. Eligibility to use section 442 (h).—A taxpayer may determine eligibility to use section 442 (h) by selecting a period of 12 months, as shown in (a) below, and by ascertaining whether the requirements set forth in (b) below are met.

(a) The 12 months for the purposes of section 442 (h) may be determined by selecting from the months appearing on line 4, either the 12 consecutive months the elimination of which produces the highest aggregate excess profits net income (or lowest aggregate deficit in excess profits net income) or the 12 months which remain after eliminating the 24 months with the highest aggregate excess profits net income or lowest aggregate deficit. For the purpose of making this selection only, the 36 months on line 4 shall be considered a period of 36 consecutive months.

(b) In order to qualify for the benefits of section 442 (h), it must be shown that the aggregate excess profits net income for the 12 months thus selected is less than 35 percent of one-half of the aggregate excess profits net income for the 24 months remaining after such selection. It must also be shown that normal production, output, or operation was interrupted or diminished because of the occurrence of events unusual or peculiar in the experience of the taxpayer, within 12 months preceding either—

- (i) the first day of the 12 month period selected, or
- (ii) if the 12 months selected are not consecutive, the first day of any period of 6 or more of such months which are consecutive.

If the taxpayer is eligible for application of section 442 (h), enter on line 6 the 12 months selected as shown above.

7. Total assets at end of each taxable year for which an entry is made on line 5 or 6.—The total assets held by the taxpayer at the end of the taxable year or years for which a number (other than zero) was entered on line 5 or 6, whichever is applicable, should be entered in the appropriate column on line 7, except that if an entry was made on line 5 or 6 for a number of months in a taxable year ending after June 30, 1950, the date for which the taxpayer's total assets should be ascertained with respect to such number of months is the last day of its last taxable year ending before July 1, 1950.

For definition of "total assets," see general instruction 7, Schedule EP-5.

8. Taxpayer's industry classification and base period yearly rate of return for each taxable year for which an entry is made on line 7.—Enter on this line the industry classification to which is attributable the largest amount of the taxpayer's gross receipts for the taxable year within which falls the last month for which a substitute excess profits net income is determined. See Appendix A for list of industry classifications. For definition of "gross receipts" see instruction 40, Schedule EP-2. Also enter on line 8 the applicable base period yearly rate of return for the taxpayer's industry classification. In the case of a taxable year beginning in 1945 and ending in 1946, the base period rate of return for 1946 shall be used. In the case of a taxable year beginning in 1949 and ending in 1950, the base period rate of return for 1949 shall be used. In the case of any other taxable year of the taxpayer, the base period rate of return for the year in which falls the greater number of days in such taxable year of the taxpayer shall be used.

10. Reduction for interest.—For each amount entered on line 9 there should be entered on line 10 an amount equal to the total interest paid or incurred by the taxpayer for the 12 months beginning with the first day of the taxable year within which fall the months entered on line 5 or 6, whichever is applicable. Such amount should include interest on all indebtedness, irrespective of whether it constitutes borrowed capital within the meaning of section 439 (b).

13. 110 percent of line 2.—The amount to be entered on line 13 is an amount equal to 110 percent of the amount of monthly average excess profits net income shown on line 2 (only for years for which an entry is made on line 5). In the event that the applicable amount on line 2 is a deficit in excess profits net income such deficit should be increased to zero.

14. Substitute excess profits net income.—For any taxable year with respect to which an entry has been made on line 5 and the amount shown on line 12 exceeds the amount shown on line 13, the substitute excess profits net income may be used in lieu of the actual excess profits net income. The substitute excess profits net income is derived in any such case by multiplying the amount shown on line 12 for such taxable year by the number of months entered for that year on line 5.

18 through 21. Alternative average base period net income under section 442 (h).—Lines 18 through 21 are for the use of a taxpayer computing an alternative average base period net income under section 442 (h). See instruction 6.

Enter on line 18 the substitute excess profits net income for the 12 months selected for adjustment and entered on line 6. This amount is the product of line 12 multiplied by line 6.

Enter on line 19 the product of line 2 (substituting zero for any deficit) multiplied by the excess of line 4 over line 6. This amount is the excess profits net income for the 24 months remaining after selection of the 12 months entered on line 6.

Enter on line 20 the aggregate of the amounts on lines 18 and 19 divided by three. The amount on line 20 shall not be in excess of 50 percent of the aggregate of the amounts entered on line 19.

22. Total assets at end of each taxable year ending before July 1, 1950.—The amount to be entered on line 22 is the total assets held by the taxpayer on the last day of each of its taxable years ending after the beginning of its base period and prior to the first day of its first taxable year ending after June 30, 1950. For definition of "total assets," see general instruction 7, Schedule EP-5.

23. Interest paid or accrued for each taxable year for which an entry is made on line 22.—The amount to be entered on line 23 is the total interest paid or incurred by the taxpayer for each of the taxable years for which an amount of total assets was entered on line 22. Such amount should include interest on all indebtedness, irrespective of whether such indebtedness constitutes borrowed capital within the meaning of section 439 (b).

24. Average of total assets.—Enter the aggregate of the amounts on line 22, divided by the number of such amounts.

25. Taxpayer's industry classification and base period rate of return.—Enter on this line the industry classification to which is attributable the largest amount of the taxpayer's gross receipts for its last taxable year beginning within its base period. See Appendix A for list of industry classifications. For definition of "gross receipts," see instruction 40, Schedule EP-2. Also enter on line 25 the applicable base period rate of return for the taxpayer's industry classification.

27. Interest adjustment.—The amount to be entered on line 27 is the average yearly amount of interest paid or incurred by the taxpayer for all taxable years for which the taxpayer's total assets

were determined on line 22. The average yearly amount of interest is computed by aggregating the amounts entered on line 23, dividing by the total number of months in the taxable years involved, and multiplying the quotient by 12.

29. 110 percent of average base period net income computed under section 435 (d).—Section 442 (d) shall have no applica-

tion unless the amount of the average base period net income determined under section 442 (d) is in excess of 110 percent of the taxpayer's average base period net income computed under the general average method. If line 28 exceeds line 29, the taxpayer's average base period net income is the amount on line 28.

#### SCHEDULE EP-5 (C)—CHANGE IN PRODUCTS OR SERVICES (Section 443)

A taxpayer which commenced business on or before the first day of its base period and which establishes with respect to any taxable year that—

(a) during so much of its three immediately preceding taxable years as falls within the 36-month period ending on the last day of its base period, there was a substantial change in the products or services furnished by the taxpayer, and

(b) more than 40 percent of its gross income or more than 33 percent of its net income for such taxable year is attributable to one or more of the new products or services, and

(c) its average monthly excess profits net income for such taxable year exceeds 125 percent of its average monthly excess profits net income for the taxable years ending within its base period and prior to the taxable year in which occurred the first change to which gross income or net income is attributed for the purpose of the requirements stated in (b), may, for the earliest taxable year with respect to which the foregoing requirements are satisfied (and for subsequent taxable years), apply for the benefits of section 443. For rules governing such an application, see general instruction 2, Schedule EP-5. For definition of "base period," see general instruction 8, Schedule EP-5. If a change in products or services is considered to have occurred on the last day of the base period by reason of a commitment described in section 443 (f) (2), include in statement submitted with respect to application of section 443 full details concerning facilities constructed for the production of the new product and a copy of the contract evidencing the commitment.

For special rules governing the application of section 443 in the case of an acquiring corporation, see section 462 (e), and in the case of a component corporation, see section 461 (c).

Requirements (a), (b), and (c), above, must all be met with respect to a single taxable year.

For purposes of requirement (a), the change in products or services must be substantial. It must take the form of a product or a service which is new to the taxpayer and not a mere improvement or change in style. The discontinuance of a product or service previously furnished by the taxpayer is not a change in products or services for purposes of section 443.

For purposes of requirement (b), if more than one substantial change in products or services occurred during the prescribed period, the gross income or net income attributable to new products or services may be aggregated in determining whether the amount attributable to new products or services meets the stated percentages of total gross income or total net income, as the case may be.

For purposes of requirement (c), the average monthly excess profits net income for any year shall be computed by making the adjustments provided in section 433 (b) as though section 433 (b) were applicable to all taxable years, and by dividing by the number of months in the year. The average monthly excess profits net income for any period of two or more taxable years is the aggregate of the excess profits net income (computed by making the adjustments provided in section 433 (b) as though section 433 (b) were applicable to all taxable years) for all taxable years within the period, less the amount of any deficits in excess profits net income (similarly computed) for all taxable years within the period, divided by the number of months in the taxable years in the period. The average monthly excess profits net income determined for any period shall in no case be less than zero.

The base period capital addition is not available to a taxpayer computing average base period net income under section 443; accordingly, no entry should be made on line 50, Schedule EP-2. The net capital addition or reduction as computed under section 435 (g), however, is applicable to such a taxpayer in accordance with the following modifications:

(1) If the taxable year in which the taxpayer first meets requirements (a), (b), and (c), above, is a year ending after June 30, 1950, no net capital addition or reduction will be applicable in computing the excess profits credit based on income for that taxable year. Accordingly, no entry is to be made on line 53 or 55 of Schedule EP-2.

(2) In determining the net capital addition or reduction under section 435 (g) for a taxable year subsequent to the year in which the taxpayer first met requirements (a), (b), and (c), above, the date used for determining the amount of equity capital, on line 1, borrowed capital on line 3, and inadmissible assets on line 15, of Schedule EP-2 (B) should be the first day of the taxable year immediately following such year in which the requirements were first met, or the first day of the taxpayer's first taxable year ending after June 30, 1950, whichever is later. The same day should be used in lieu of the day otherwise specified in instructions 12 and 13, Schedule EP-2 (B), in determining the amount to be entered on lines 12 and 13 of that schedule and in lieu of the day specified in the instructions for Schedule EP-2 (B) relating to an increase in the capital addition under section 435 (g) (9). Schedule EP-2 (B) should be altered accordingly and the amount so determined on lines 20 or 24 of that schedule should be entered on line 53 or 55, whichever is applicable, of Schedule EP-2.

1. Allocation of gross income and net income for the taxable year with respect to which taxpayer claims qualification under section 443 (a).—The taxable year with respect to which the taxpayer claims qualification should be designated on line 1 (a). This year must be the earliest year with respect to which the taxpayer meets the requirements of section 443 (a) with respect to gross income or net income attributable to a substantial change in products or services which occurred within one or more of its three immediately preceding taxable years and within the last 36 months of the base period. Such year must also reflect a 25 percent increase in average monthly excess profits net income over the average monthly excess profits net income of the taxable years ending within the base period but prior to the year in which occurred the first change in products or services upon which the taxpayer relies. The amount to be entered in column 1 of line 1 (b) is the total amount of gross income for the taxable year without adjustment under section 433 (a). The amount allocated to the new products or services should be similarly determined and the allocation should be made in conformity with good accounting practice. The amount to be entered in column 1 of line 1 (c) is the net income for the year determined under section 21. In column 2 of line 1 (c) there should be entered the amount of net income for the taxable year attributable to the new products or services, such allocation also being made in conformity with good accounting practice.

2 through 4. Increase in average monthly excess profits net income.—The amount of the taxpayer's excess profits net income for the taxable year with respect to which qualification under

section 443 (a) is claimed should be entered on line 2 and the monthly average thereof computed and entered in column 3 of that line. The monthly average excess profits net income for the taxable years ending within the base period and prior to the taxable year or years in which occurred the first change in products or services upon which the taxpayer relies, should be entered on line 3 and the monthly average thereof computed and entered in column 3 of that line.

5. Total assets at end of taxable year designated on line 1 (a) or at end of last taxable year ending prior to July 1, 1950, whichever is later.—For definition of "total assets," see general instruction 7, Schedule EP-5.

6. Taxpayer's industry classification and base period rate of return.—Enter on this line the industry classification to which is attributable the largest amount of the taxpayer's gross receipts for the taxable year which includes the day for which the amount of the taxpayer's total assets were determined on line 5. See Appendix A for list of industry classifications. For definition of "gross receipts," see instruction 40, Schedule EP-2. Also enter on line 6 the base period rate of return for the taxpayer's industry classification.

8. Reduction for interest.—The amount to be entered on line 8 is the total interest paid or incurred by the taxpayer for the 12 months ending with the day for which the taxpayer's total assets were determined for purposes of line 5. Such amounts should include interest on all indebtedness, irrespective of whether it constitutes borrowed capital within the meaning of section 439 (b).

## PAGE 22

## SCHEDULE EP-5 (D)—INCREASE IN CAPACITY FOR PRODUCTION OR OPERATION (Section 444)

A taxpayer which commenced business on or before the first day of its base period and which establishes that during the 36-month period ending on the last day of its base period there was an increase in its capacity for production or operation, as defined in section 444 (b), may apply for the benefits of section 444. For rules governing an application, see general instruction 2, Schedule EP-5. For definition of "base period," see general instruction 8, Schedule EP-5.

For special rules governing the application of section 444 in the case of an acquiring corporation, see section 462 (f), and in the case of a component corporation, see section 461 (c).

For the purposes of section 444, an increase in capacity for production or operation is deemed to have occurred if the taxpayer establishes that it made an addition (or additions) to its facilities or replaced all (or a part of) its existing facilities, and that—

(a) As a result of such additions or replacements, its capacity for production or operation on the last day of its base period was 200 percent or more of its capacity for production or operation on the last day of the twelfth month of its base period, or

(b) (1) As a result of such additions or replacements, its capacity for production or operation on the last day of its base period was 150 percent or more of its capacity for production or operation on the last day of the twelfth month of its base period, and (2) the adjusted basis for determining gain upon sale or exchange of its total facilities on the last day of its base period was 150 percent or more of the adjusted basis for determining gain upon sale or exchange of its total facilities on the last day of the twelfth month of its base period, or

(c) The basis (unadjusted) for determining gain upon sale or exchange of its total facilities on the last day of its base period was 200 percent or more of the basis (unadjusted) for determining gain upon sale or exchange of its total facilities on the last day of the twelfth month of its base period.

The term "facilities" means real property and depreciable tangible property held by the taxpayer in good faith for the purposes of the business.

For the purposes of (a) and (b), above, the term "capacity for production or operation" means the capacity to produce or to operate rather than the level of production or operation actually achieved.

For the purposes of (b) and (c), above, the adjusted basis or the unadjusted basis of all "facilities" is to be included, both at the beginning and at the end of the 36-month period, irrespective of whether the facility is one directly involved in any determination of capacity for production or operation.

If an increase in capacity is considered to have occurred on the last day of the base period by reason of a commitment described in section 444 (f) (2), include in the statement submitted with respect to the application of section 444 full details with respect to the facilities completed after the last day of the base period and during the first excess profits tax year, and circumstances evidencing the commitment.

The base period capital addition determined under section 435 (f) is not available to a taxpayer computing its average base period net income under section 444. Accordingly, no entry should be made on line 50, Schedule EP-2. The net capital addition or reduction computed on Schedule EP-2 (B), however, is applicable to such a taxpayer and the amount so determined on line 20 or 24 of that schedule should be entered on line 53 or 55, whichever is applicable, of Schedule EP-2.

1. Capacity for production or operation.—Enter in columns 1 and 2 of line 1 the total capacity for production or operation as of the last day of the twelfth month in the base period and as of the last day of the base period. Use the same unit of measurement (tons, gallons, yards, etc.) in computing capacity for each date.

2 and 3. Basis of total facilities.—For definition of the term "facilities," see general instructions for this schedule.

4. Total assets at end of last taxable year ending prior to July 1, 1950.—The amount to be entered on line 4 is the total amount of the assets held by the taxpayer at the close of its last taxable year ending prior to July 1, 1950. For definition of "total assets," see general instruction 7, Schedule EP-5.

5. Taxpayer's industry classification and base period rate of

return.—Enter on this line the industry classification to which is attributable the largest amount of the taxpayer's gross receipts for its last taxable year ending before July 1, 1950. See Appendix A for list of industry classifications. For definition of "gross receipts," see instruction 40, Schedule EP-2. Also enter on line 5 the base period rate of return for the taxpayer's industry classification.

7. Reduction for interest.—The amount to be entered on line 7 is the total interest paid or incurred by the taxpayer for the twelve months ending with the last day of the taxpayer's last taxable year ending before July 1, 1950. Such amount should include interest on all indebtedness, irrespective of whether it constitutes borrowed capital within the meaning of section 439 (b).

## SCHEDULE EP-5 (E)—DEPRESSED INDUSTRY SUBGROUPS (Section 446)

A taxpayer which commenced business on or before the first day of its base period and which is a member of a depressed industry subgroup may apply for the benefits of section 446. For rules governing an application, see general instruction 2, Schedule EP-5. For definition of "base period," see general instruction 8, Schedule EP-5.

For special rules governing the application of section 446 in the case of an acquiring corporation, see section 462 (h), and in the case of a component corporation, see section 461 (c). For purposes of section 446, a taxpayer is a member of a depressed industry subgroup if more than 50 percent of the aggregate of its gross receipts for the taxable years beginning with or within its base period is attributable to such subgroup.

The base period capital addition determined under section 435 (f) is not available to a taxpayer computing its average base period net income under section 446 and no entry should be made on line 50, Schedule EP-2. The net capital addition or reduction computed on Schedule EP-2 (B), however, is applicable to such a taxpayer and the amount so determined on line 20 or 24 of that schedule should be entered on line 53 or 55, whichever is applicable, of Schedule EP-2.

The depressed industry subgroups and the final adjusted rates of return are—

**Aircraft and parts**—Standard Industrial Classification groups 3721, 3722, 3723, and 3729.—(1) Manufacturing or assembling complete aircraft such as airplanes, gliders, dirigibles, and balloons; (2) manufacturing aircraft engines and engine parts such as engine mount parts, air scoops, turbo superchargers, lubricating systems, cooling systems, exhaust systems, nonelectric starters, and aircraft engine pumps; (3) manufacturing aircraft propellers and propeller parts; (4) manufacturing aircraft parts such as air frame assemblies, wing assemblies, flaps and dive brakes, elevators, fins, rudders, other empennage assemblies, and alighting assemblies; and (5) manufacturing auxiliary equipment, such as de-icing equipment, bomb racks, turrets and turret drives, parachutes, targets, link trainers, and other auxiliary equipment specifically adapted for aircraft. *This industry subgroup does not include manufacturing aeronautical instruments or manufacturing aeronautical electrical equipment.*

The adjusted rate of return for this industry subgroup is 11.3 percent.

**Engines and turbines, except automotive, aircraft, and railway**—Standard Industrial Classification groups 3511 and 3519.—Manufacturing steam engines (*except locomotives*), steam turbines, water wheels, and water turbines; and manufacturing Diesel or semi-Diesel engines, or other internal combustion engines, *except aircraft engines and automobile engines.*

The adjusted rate of return for this industry subgroup is 12.8 percent.

**Metalworking machinery, including machine tools**—Standard Industrial Classification groups 3541, 3542, and 3543.—(1) Manufacturing power-driven machine tools that shape metal by grinding or progressively cutting away chips (such as boring, broaching, drilling, gear-cutting and finishing, grinding, milling and planing machines; lathes, shapers, and slotters; honing and lapping, polishing and buffing, sawing and cutting-off, contour-sawing and filing, tapping, threading, and rifling machines, and replacement and repair parts for machine tools); (2) rebuilding of machine tools; (3) manufacturing machinery for shaping, pressing, forging, or bending metal where the shaping action of such machines is not dependent upon a cutting tool (such as

bending machines; can forming and soldering, and other sheet-metal working machinery; die-casting machines; forging machines, such as drop hammers (impression die), forging hammers (flat die), forging presses, bulldozers, and upsetters; portable power-driven metalworking tools, and flexible-shaft machines; presses (forming, stamping, and punch); riveting machines (not portable); rod and wire forming and fabricating machines; rolling mill machinery and equipment; shears; spring winding and forming machines; acetylene welding and cutting apparatus; wire-drawing machines; and replacement and repair parts); and (4) manufacturing attachments and accessories for machine tools and other metalworking machinery. *This industry subgroup does not include manufacturing hand tools (except power-driven) or manufacturing electric welding apparatus.*

The adjusted rate of return for this industry subgroup is 16.8 percent.

**Ship and boat building and repairing**—Standard Industrial Classification groups 3731 and 3732.—Building and repairing all types of ships, barges, canal boats, lighters, motorboats, sailboats, rowboats, lifeboats, and canoes. *This industry subgroup does not include fabricating structural assemblies or components for ships, or subcontractors engaged in ship painting, joinery, carpentry work, electrical wiring installations, etc.*

The adjusted rate of return for this industry subgroup is 10.4 percent.

**Wines**—Standard Industrial Classification group 2084.—Manufacturing both dry and sweet wines. *This industry subgroup does not include bottling purchased wines.*

The adjusted rate of return for this industry subgroup is 7.8 percent.

**Photographic studios, including commercial photography**—Standard Industrial Classification groups 7231 and 7232.—Portrait photography for the general public; and photography for advertising agencies, publishers, and other industrial users. *This industry subgroup does not include film developing or print processing for the trade or for the general public, or motion picture film processing.*

The adjusted rate of return for this industry subgroup is 8.6 percent.

**Telegraph communication (wire and radio)**—Standard Industrial Classification group 4821.—Furnishing telegraphic communication service by transmitting nonvocal record communications intended for receipt by designated persons.

The adjusted rate of return for this industry subgroup is 1.5 percent.

**Transportation by air**—Standard Industrial Classification groups 4512, 4513, 4521, 4582, and 4583.—Carriers; operation and maintenance of airports and flying fields; and furnishing coordinated handling services for air freight or passengers at airports.

The adjusted rate of return for this industry subgroup is 3.0 percent.

1. Total assets at end of each taxable year ending after the beginning of the base period and before July 1, 1950.—For definition of "total assets," see general instruction 7, Schedule EP-5.

2. Interest paid or accrued for each taxable year for which an entry is made on line 1.—The amount to be entered on line 2 for each taxable year is the total amount of interest paid or incurred by the taxpayer for such year. Such amount should include interest on all indebtedness, irrespective of whether such indebtedness constitutes borrowed capital within the meaning of section 439 (b).

3. Average of total assets.—Enter the aggregate of the amounts of line 1, divided by the number of such amounts.

4. Taxpayer's industry subgroup and adjusted rate of return.—Enter on this line the industry subgroup, to which is attributable more than 50 percent of the aggregate of the taxpayer's gross receipts for the taxable years beginning with or within the taxpayer's base period. For definition of "gross receipts," see instruction 40, Schedule EP-2. Also enter on line 4 the adjusted rate of return for the industry subgroup of which the taxpayer is a member.

6. Interest adjustment.—The amount to be entered on line 6 is the average yearly amount of interest paid or incurred by the taxpayer for all taxable years for which its total assets were determined on line 1. The average yearly amount of interest is computed by aggregating the amounts entered on line 2, dividing such aggregate by the total number of months in the taxable years involved, and multiplying the quotient by 12.

## GROSS INCOME

## 1. Interest on:

- (a) Obligations of a State, Territory, or political subdivision thereof, or the District of Columbia, or United States possessions  
(b) Obligations of Federal land banks, joint stock land banks, and Federal intermediate credit banks issued prior to March 1, 1941  
(c) Obligations of the United States issued on or before September 1, 1917  
(d) Treasury Notes issued prior to December 1, 1940, Treasury Bills and Treasury Certificates of Indebtedness issued prior to March 1, 1941  
(e) United States Savings Bonds and Treasury Bonds owned in the principal amount of \$5,000 or less issued prior to March 1, 1941  
(f) United States Savings Bonds and Treasury Bonds owned in excess of the principal amount of \$5,000 issued prior to March 1, 1941  
(g) Obligations of instrumentalities of the United States (other than obligations to be reported in line (b) above) issued prior to March 1, 1941  
(h) Treasury Notes issued on or after December 1, 1940, and obligations issued on or after March 1, 1941, by the United States or any agency or instrumentality thereof. (Submit schedule)....  
(i) Loans, notes, mortgages, bank deposits, etc.

Totals

## 2. Dividends on stock of:

- (a) Domestic corporations subject to taxation under Chapter 1 of the Internal Revenue Code\*  
(b) Public utility corporations subject to taxation under Chapter 1 of the Internal Revenue Code  
(c) Foreign corporations  
(d) Other corporations

## 3. Rents. (Attach schedule).

## 4. Total Income in items 1 to 3

## DEDUCTIONS

5. Interest wholly exempt from tax (item 1 (a), (b), (c), (d), (e), column 4)....  
6. Investment expenses. (Attach schedule)....  
7. Taxes....  
8. Real estate expenses....  
9. Depreciation. (Attach schedule)....  
10. Total Deductions in Items 5 to 9  
11. Net income (item 4 minus item 10).

\*Except dividends received on certain preferred stock of public utility corporations which should be entered in item 2 (b), and dividends received from corporations organized under the China Trade Act, 1922, and from corporations entitled to the benefits of section 251 of the Internal Revenue Code, which dividends should be included in item 2 (d).

## COMPUTATION OF TAX

12. Net income (item 11).....  
13. Less: Interest partially exempt from tax (item 1 (f) and (g), column 4).....  
14. Adjusted net income.....  
15. Less: Dividends received credit—  
(a) Enter 85 percent of item 2 (a).....  
(b) Enter 62 percent of item 2 (b).....  
(c) Enter 85 percent of dividends received from certain foreign corporations.....  
(d) Total dividends received credit. Enter sum of (a), (b), and (c), but not to exceed 85 percent of item 14.....  
16. Normal tax net income.....  
17. Adjustment for certain non-life insurance reserves (applicable only to contracts other than life insurance or annuity contracts)—  
(a) 3¼ percent of mean of unearned premiums and unpaid losses on such other contracts at beginning and end of year.....  
(b) 3¼ percent of 25 percent of net premiums on such other contracts written during year.....  
(c) 3¼ percent of mean of unpaid losses on such other contracts at beginning and end of year.....  
(d) Item (b) plus item (c).....  
(e) Item (a) or (d), whichever is greater.....  
(f) Item (e) multiplied by 8.....  
18. Sum of items 16 and 17 (f).....  
19. Less: Reserve interest credit (from line 6, Schedule C).....  
20. 1952 adjusted normal tax net income.....  
21. Tax. If amount in item 20 is:  
Not over \$200,000, enter 3¾ percent of item 20.....  
Over \$200,000, enter \$7,500 plus 6¼ percent of excess over \$200,000.....  
22. Less: Credit for income taxes paid to a foreign country or United States possession allowed a domestic corporation. (Attach Form 1118).....  
23. Balance of income tax due.....  
24. Excess profits tax due (line 39, page 1, Schedule EP (Form 1120)).....  
25. Total income and excess profits tax due (item 23 plus item 24).....

## DECLARATION (See Instruction E)

We, the undersigned, president (or vice president, or other principal officer) and treasurer (or assistant treasurer, or chief accounting officer) of the corporation for which this return is made each for himself declares under the penalties of perjury that this return (including any accompanying schedules and statements) has been examined by him and is, to the best of his knowledge and belief, a true, correct, and complete return, made in good faith, for the taxable year stated, pursuant to the Internal Revenue Code and the regulations issued thereunder.

## Schedule A.—DATA FOR RESERVE AND OTHER POLICY LIABILITY CREDIT FOR THE SUCCEEDING TAXABLE YEAR (See instruction for Schedule A)

1. Nature of Reserve (Life, Annuity, Etc.)	2. Assumed Mortality or Mortality Table	3. Assumed Interest Rate	4. Method of Computation (Normal, Standard, Etc.)	5. Amount of Adjusted Reserve at Beginning of Taxable Year	6. Amount of Adjusted Reserve at End of Taxable Year	7. Mean of Columns (5) and (6)	8. Column (3) Times Column (7)
1. ....				\$ .....	\$ .....	\$ .....	\$ .....
2. ....							
3. ....							
4. ....							
5. ....							
6. TOTALS						\$ .....	\$ .....
7. Average rate of interest assumed in computing life insurance reserves (total of column 8 above divided by total of column 7 above)							7% 7% 2.1125% 7%
8. 35 percent of line 7							
9. 2.1125 percent (65 percent of 3 1/4 percent)							
10. Reserve earnings rate (line 8 above plus line 9 above)							
11. Total of column 7 multiplied by line 10 above							\$ .....
12. 2 percent of the reserve held for deferred dividends							\$ .....
13. Interest paid							\$ .....
14. Total of lines 11, 12, and 13 above							\$ .....
15. Net income (item 11, page 1)							\$ .....
16. Interest wholly exempt from tax (item 5, page 1)							\$ .....
17. Adjustment for unearned premiums and unpaid losses on non-life insurance reserves (item 17 (a), page 1)							\$ .....

\*In the case of reserves computed on a preliminary term basis, 107% of the amount of the reserve.

Schedule B.—INVESTED ASSETS BOOK VALUES (See instruction 6)  
(Schedule B need not be filed in if no deduction is claimed for any general expenses that are allocated to investment income)

	1. Beginning of taxable year	2. End of taxable year
1. Real estate	\$ .....	\$ .....
2. Mortgage loans		
3. Collateral loans		
4. Policy loans, including premium notes		
5. Bonds of domestic corporations		
6. Stocks of domestic corporations		
7. Government obligations, etc.:		
(a) Obligations of a State, Territory, or political subdivision thereof, or the District of Columbia, or United States		
(b) Obligations of Federal land banks, joint stock land banks, and Federal intermediate credit banks issued prior to March 1, 1941		
(c) Obligations of the United States issued on or before September 1, 1917		
(d) Treasury Notes issued prior to December 1, 1940, Treasury Bills and Treasury Certificates of Indebtedness issued prior to March 1, 1941		
(e) United States Savings Bonds and Treasury Bonds owned in the principal amount of \$5,000 or less issued prior to March 1, 1941		
(f) United States Savings Bonds and Treasury Bonds owned in excess of the principal amount of \$5,000 issued prior to March 1, 1941		
(g) Obligations of instrumentalities of the United States (other than obligations to be reported in line (b) above) issued prior to March 1, 1941		
(h) Treasury Notes issued on or after December 1, 1940, and obligations issued on or after March 1, 1941, by the United States or any agency or instrumentality thereof		
8. Bank deposits bearing interest		
9. Other interest-bearing assets (attach statement)		
10. Totals of lines 1 to 9	\$ .....	\$ .....
11. Total of columns 1 and 2, line 10	\$ .....	\$ .....
12. Mean of the invested assets for the taxable year (one-half of line 11)	\$ .....	\$ .....
13. One-fourth of 1 percent of the mean of the invested assets	\$ .....	\$ .....
14. Income base (item 4, page 1, minus the sum of items 7, 8, and 9, page 1)	\$ .....	\$ .....
15. 3 3/4 percent of line 12	\$ .....	\$ .....
16. Excess (if any) of line 14 over line 15	\$ .....	\$ .....
17. One-fourth of line 16	\$ .....	\$ .....
18. Limit on deduction for investment expenses (line 13 plus line 17)	\$ .....	\$ .....

## Schedule C.—RESERVE INTEREST CREDIT (See instruction 19)

1. Net income computed without deduction for wholly tax-exempt interest (sum of items 5 and 11, page 1)	\$ .....
2. 50 percent of item 17 (a), page 1	\$ .....
3. Adjusted net income for purpose of reserve interest credit (line 1 minus line 2)	\$ .....
4. Required interest—	
(a) Total of column 8, (line 6), Schedule A	\$ .....
(b) 2 percent of reserve for deferred dividends	\$ .....
(c) Interest paid	\$ .....
(d) Sum of lines (a), (b), and (c)	\$ .....
5. Line 3 divided by line 4 (d). Enter percentage	% .....
6. Reserve interest credit—If percentage on line 5 is:	
105 or more, enter zero	\$ .....
100 or less, enter 50 percent of item 16, page 1	\$ .....
more than 100 but less than 105, enter % of item 16, page 1	% .....

\*Multiply by 10 the difference between 105 percent and percentage on line 5 and enter percentage thus obtained.

## Schedule D.—COMPUTATION TO DETERMINE NECESSITY FOR FILING EXCESS PROFITS TAX SCHEDULE

1. Net income (item 11, page 1)	\$ .....
2. Less: Partially tax-exempt interest from item 13, page 1	\$ .....
3. Dividends received (total of item 2, page 1, less (a) adjustment for dividends received in kind, (b) dividends received from foreign personal holding companies, and (c) dividends received on stock which is not a capital asset)	\$ .....
4. Line 1 minus sum of lines 2 and 3	\$ .....

If line 4 is \$25,000 or less, Schedule EP (Form 1120) need not be filed with this return. If line 4 is over \$25,000, Schedule EP (Form 1120) must be filed.

1. Did the company file a return under the same name for the preceding taxable year?	
2. State amount of deferred dividend funds at end of taxable year, exclusive of any amount held for payments in following taxable year: \$ .....	
3. Is this a consolidated return? (If so, procure from the director of internal revenue for your district Form 851, Affiliations Schedule, which shall be filed in, and filed as a part of this return.)	
4. If this is not a consolidated return (a) did the company at any time during the taxable year own 50 percent or more of the voting stock of another corporation either domestic or foreign? (b) did any corporation, individual, partnership, trust, or association at any time during the taxable year own 50 percent or more of your voting stock? (If either answer is "yes," attach separate schedule showing (1) Name and address, (2) percentage of stock owned, (3) date stock was acquired, and (4) the director's office in which the income tax return of such corporation, individual, partnership, trust, or association for the last taxable year was filed.)	
5. Did the company make a return of information on Forms 1096 and 1099 or Form W-2a for the calendar year 1952 (see General Instruction H)? (Answer "yes" or "no.")	
6. Did the company at any time during the taxable year own directly or indirectly any stock of a foreign corporation? (If answer is "yes," attach statement required by General Instruction J.)	
7. Did the company file with the director of internal revenue a copy of the annual statement for the preceding year as required by General Instruction K? (Answer "yes" or "no.") If answer is "yes," state director's office in which statement was filed	
8. If a copy of the annual statement required by General Instruction K does not accompany this return, state reason why the statement is not attached	
9. If the company is a burial or funeral benefit insurance company, state whether it is engaged directly in the manufacture of funeral supplies or in the performance of funeral service	

## INSTRUCTIONS FOR FORM 1120 L

1952

## U. S. LIFE INSURANCE COMPANY INCOME TAX RETURN

1952

(References are to the Internal Revenue Code, unless otherwise noted)

Taxpayers will find it helpful to read the General Instructions A to L before commencing to fill in their returns

## GENERAL INSTRUCTIONS

**A. Companies required to file a return.**—Every domestic life insurance company and every foreign life insurance company carrying on an insurance business within the United States (if with respect to its United States business it would qualify as a life insurance company), which is engaged in the business of issuing life insurance and annuity contracts (either separately or combined with health and accident insurance) or noncancellable contracts of health and accident insurance, and the life insurance reserves, plus unearned premiums and unpaid losses on noncancellable life, health, or accident policies not included in life insurance reserves, of which comprise more than 50 percent of its total reserves, shall file a return on this form. (See section 201.)

Receivers, trustees in dissolution, trustees in bankruptcy, and assignees, operating the property or business of corporations, must make returns of income for such corporations. If a receiver has full custody of and control over the business or property of a corporation, he shall be deemed to be operating such business or property, whether he is engaged in carrying on the business for which the corporation was organized or only in marshaling, selling, and disposing of its assets for purposes of liquidation.

**B. Period covered.**—The return shall be for the calendar year ended December 31, 1952, and the net income computed on the calendar year basis in accordance with the State laws regulating insurance companies.

**C. Basis of return.**—A return on this form shall be rendered on a cash receipts and disbursements basis or the accrual basis whichever conforms with the annual statement made to the State Insurance Department.

**D. Time and place for filing.**—The return must be sent to the director of internal revenue for the district in which the company's principal place of business or principal office or agency is located, so as to reach the director's office on or before March 15, 1953.

**E. Declaration.**—The return must be signed by the president, vice president, or other principal officer, and by the treasurer, assistant treasurer, or chief accounting officer.

Where the return is actually prepared by some person or persons other than officers or employees of the company, such person or persons must also sign the declaration at the foot of page 2.

**F. Payment of tax.**—The tax should be paid by sending with the return a check or money order drawn to the order of "Director of Internal Revenue." Do not send cash by mail, nor pay it in person except at the director's office.

The tax must be paid in full when the return is filed, or in four installments, as follows: The first installment equal to 40 percent of the tax shall be paid on or before March 15, 1953; the second installment equal to 40 percent of the tax on or before June 15, 1953; the third installment equal to 10 percent of the tax on or before September 15, 1953; and the fourth installment equal to 10 percent of the tax on or before December 15, 1953.

If any installment is not paid on or before the date fixed for its payment, the whole amount of the tax unpaid shall be paid upon notice and demand by the director.

**G. Penalties.**—For failure to make and file a return on time.—Five percent to 25 percent of the amount of the tax, unless such failure is due to reasonable cause, and, in addition, where failure is willful, a fine of not more than \$10,000, or imprisonment for not more than 1 year, or both, together with the costs of prosecution.

For willfully attempting to evade or defeat payment of the tax.—Not more than \$10,000, or imprisonment for not more than 5 years, or both, together with the costs of prosecution.

For deficiency due to negligence or fraud.—Five percent of the amount of the deficiency if due to negligence or intentional disregard of rules and regulations without intent to defraud, or 50 percent of the amount of the deficiency if due to fraud.

**H. Information at source.**—Every insurance company shall make a return on Forms 1096 and 1099 with respect to amounts paid, credited, or distributed during the calendar year as (a) salaries or other compensation for personal services, totaling \$600 or more in the case of a citizen or resident, or (b) interest, rent, premiums, annuities, or other fixed or determinable income totaling \$600 or more to a fiduciary, a domestic or resident partnership, or a citizen or resident. A report on Form 1099 is not required with respect to wage payments included on Form W-2, provided copies of withholding statements on Form W-2a are furnished. If a portion of such wage payments was reported on a Withholding Statement (Form W-2), only the remainder must be reported on Form 1099. The return on Forms 1096 and 1099 shall also include dividend payments amounting to \$10 or more during the calendar year to each shareholder who is an individual (citizen or resident of the United States), a resident fiduciary, or a resident partnership any member of which is a citizen or resident.

**1. Information by corporations.**—1. *Contemplated dissolution or liquidation.*—Every corporation shall, within 30 days after the adoption by the corporation of a resolution or plan for the dissolution of the corporation or for the liquidation of the whole or any part of its capital stock, render a correct return on Form 966 to the Commissioner, setting forth the terms of such resolution or plan. (See section 148 (d).)

2. *Distributions in liquidation.*—Every corporation shall, when required by the Commissioner, render a correct return, of its distributions in liquidation, stating the name and address of each shareholder, the number and class of shares owned by him, and the amount paid to him or, if the distribution is in property other than money, the fair market value (as of the date the distribution is made) of the property distributed to him. (See section 148 (e).)

**J. Stock ownership in foreign corporations.**—If the company owned any stock of a foreign corporation (including less than 5 percent of the stock of a foreign personal holding company), it should attach to its return a statement setting forth the name and address of each such company and the total number of shares of each class of outstanding stock owned by it during the taxable year. This statement should be furnished in addition to the schedule required by Specific Instruction 2. If the company owned stock at any time during the taxable year in a foreign personal holding company, as defined in section 331, it must include in its return as a dividend the amount required to be included in its gross income by section 337. If the company owned 5 percent or more in value of the outstanding stock of such foreign personal holding company, it should set forth in an attached statement in complete detail the information required by section 337 (d).

**K. Annual statement.**—A copy of the annual statement for life insurance companies adopted by the National Convention of Insurance Commissioners for the year 1952, as filed with the Insurance Department of the State, Territory, or District of Columbia, which shows the reserves used in computing the net income reported on the return, together with copies of Schedule A (real estate) and Schedule D (bonds and stocks), must accompany the return. Similar copies for the preceding year must also be furnished, if not filed for such year. In the case of a foreign life insurance company carrying on a life insurance business within the United States, the copies submitted shall be those relating to the United States business of the company.

**L. List of attached schedules.**—Attach a list of the schedules accompanying the return, giving for each a brief title and the schedule number. Place name and address of company on each schedule.

## SPECIFIC INSTRUCTIONS

The following instructions are numbered to correspond with item numbers on the first page of the return

**1. Interest.**—Enter interest received from all sources during the taxable year. Interest on bonds is considered income when due and payable. The gross amount of interest reported as gross income shall be decreased by the amortization of premium and increased by the accrual of discount attributable to the taxable year on bonds, notes, debentures, or other evidences of indebtedness, determined (1) in accordance with the method regularly employed, if reasonable, or (2) in accordance with regulations prescribed by the Commissioner with the approval of the Secretary. (Attach statement showing method and computation.)

**2. Dividends.**—Enter as item 2 (a) the amount received as dividends from a domestic corporation which is subject to taxation under Chapter 1, except dividends on certain preferred stock of a public utility, dividends received from a corporation entitled to the benefits of section 251 and from a corporation organized under the China Trade Act, 1922. Enter as item 2 (b) dividends received on certain preferred stock of a public utility which is subject to taxation under Chapter 1. Enter as item 2 (c) dividends from foreign corporations. Enter as item 2 (d) dividends from all other corporations, including dividends on share accounts in Federal savings and loan associations issued on or after March 28, 1942. Enter in item 1 (g) dividends on share accounts in Federal savings and loan associations issued prior to March 28, 1942. Submit schedule, itemizing all dividends received during the year, stating the names and addresses of the corporations declaring the dividends and amounts received from each.

**3. Rents.**—Enter rents received from tenants.

**5. Interest wholly exempt from tax.**—Enter the amount of interest which is wholly exempt from taxation under the provisions of section 22 (b) (4).

See Specific Instruction 12 with respect to partially tax-exempt interest which is allowed as a credit against net income.

**6. Investment expenses.**—Enter expenses paid which are properly chargeable to investment expenses, the total amount of which, if there be any allocation of general expenses to investment expenses, should not exceed one-fourth of 1 percent of the mean of the invested assets reported on line 12, Schedule B, plus, in cases where the net income computed without any deduction for (1) investment expenses and (2) tax-free interest, exceeds  $3\frac{3}{4}$  percent of the book value of such mean of the invested assets, one-fourth of such excess. Submit a schedule showing the nature and amount of the items included herein, the minor items being grouped in one amount. (See section 201 (c) (7) (B).)

**7. Taxes.**—Enter taxes paid exclusively upon real estate owned by the company and taxes assessed against individual shareholders and paid by the company without reimbursement as provided in section 201 (c) (7) (C). Do not include taxes assessed against local benefits of a kind tending to increase the value of the property assessed, as for paving, sewers, etc. (For limitation on deduction, see Instruction 10 (b).)

**8. Real estate expenses.**—Enter all ordinary and necessary building expenses, such as fire insurance, heat, light, labor, etc., and the cost of incidental repairs which neither materially add to the value of the property nor appreciably prolong its life, but keep it in an ordinarily efficient operating condition. Do not include any amount paid out for new buildings or for permanent improvements or betterments made to increase the value of any property or any amount expended on foreclosed property before such property is held forth for rental purposes. (For limitation on deduction, see Instruction 10 (b).)

9. **Depreciation.**—The amount deductible on account of depreciation is an amount reasonably measuring the portion of the investment in depreciable property by reason of exhaustion, wear and tear, or obsolescence, which is properly chargeable against the operations of the year. In any event the deduction is limited to the depreciation on the property that is used, and to the extent used, for the purpose of producing the income specified in section 201 (c) (1). If the property was acquired by purchase on or after March 1, 1913, the amount of depreciation should be determined upon the basis of the original cost (not replacement cost) of the property, and the probable number of years remaining of its expected useful life. In case the property was purchased prior to March 1, 1913, the amount of depreciation will be determined in the same manner, except that it will be computed on its original cost, less depreciation sustained prior to March 1, 1913, or its fair market value as of that date, whichever is greater. If the property was acquired in any other manner than by purchase, see section 114. The capital sum to be recovered should be charged off ratably over the useful life of the property. Whatever plan or method of apportionment is adopted must be reasonable, must have due regard to operating conditions during the taxable year, and should be described in the return.

If a deduction is claimed on account of depreciation, a schedule should be filed with the return showing: (1) Kind of property; (2) date acquired; (3) cost or other basis; (4) depreciation allowed (or allowable) in prior years; (5) remaining cost or other basis to be recovered; (6) estimated life used in accumulating depreciation; (7) estimated remaining life from beginning of year; and (8) depreciation allowable for the taxable year. In case obsolescence is included, state separately amount claimed and basis upon which it is computed. Cost or value of land must not be included in the schedule, and where land and buildings were purchased for a lump sum the cost of the building subject to depreciation must be established.

The adjusted property accounts and the accumulated depreciation shown in the schedule should be reconciled with those accounts as reflected on the books of the taxpayer.

Stocks, bonds, and like securities are not subject to depreciation within the meaning of the law. (See sections 23(l), 114, and 201(c) (7) (D).)

For limitation on deduction, see Instructions 10 (b) below.

10. **Total deductions.**—(a) Enter the total of items 5 to 9, inclusive.

(b) **Limitation on deductions relating to real estate owned and occupied.**—The deduction included in items 7 to 9 on account of real estate owned and occupied in whole or in part by the company shall be limited to an amount which bears the same ratio to such deduction (computed without regard to subsection (d) of section 201) as the rental value of the space not so occupied bears to the rental value of the entire property. (Submit detailed schedule.)

(c) **Items not deductible.**—No deduction is allowable for the amount of any item or part thereof allocable to a class of exempt income, other than interest. Items directly attributable to such exempt income shall be allocated thereto, and items directly attributable to any class of taxable income shall be allocated to such taxable income. If an item is indirectly attributable to both taxable income and exempt income, a reasonable proportion thereof, determined in the light of all the facts and circumstances in each case, shall be allocated to each. Apportionments must in all cases be reasonable. A taxpayer receiving any exempt income, other than interest, or holding any property or engaging in any activity the income from which is exempt shall submit with its return as a part thereof an itemized statement, in detail, showing (1) the amount of each class of exempt income, and (2) the amount of items allocated to each such class (the amount allocated by apportionment being shown separately).

12 through 23. **Computation of tax.**—In general.—All life insurance companies (including foreign life insurance companies carrying on a life insurance business within the United States) are subject to the tax imposed by section 201 (a) (1), as amended. For taxable years beginning in 1952, section 201 (a) (1), as amended, provides for a tax equal to 3¾ percent of the first \$200,000 of 1952 adjusted normal tax net income and 6½ percent of the amount in excess of \$200,000. No consideration is to be given in the computation of the tax to any amount of the reserve and other policy liability credit provided in section 203 (b). The term "1952 adjusted normal tax net income" is defined as the normal tax net income plus eight times the amount of the adjustment for certain non-life insurance reserves provided in section 202 (c) and minus the reserve interest credit, if any, as defined in section 203A (b). The normal tax net income of a foreign life insurance company carrying on a life insurance business within the United States consists of that portion of its net income from the United States business (shown on the form approved for life insurance companies by the National Association of Insurance Commissioners) computed under the provisions of section 201.

15. **Dividends received credit.**—The dividends received credit is the sum of: (a) 85 percent of dividends received from certain domestic corporations subject to the income tax, other than dividends received on certain preferred stock of a public utility; (b) 62 percent of the amount received as dividends on certain preferred stock of a public utility which is subject to the income tax; and (c) 85 percent of dividends received from certain foreign corporations subject to the income tax. For the purpose of this credit, dividends received from a corporation organized under the China Trade Act, 1922, or from a corporation entitled to the benefits of section 251, should be entered in item 2 (d). In no event is the total dividends received credit allowed by section 26 (b) to exceed 85 percent of the adjusted net income.

Section 311 of the Revenue Act of 1951, amending section 26 (b), provides for a dividends received credit in the case of dividends received from a foreign corporation (other than a foreign personal holding company) which is subject to the income tax if, (1) for an uninterrupted period of not less than 36 months (or the entire period the foreign corporation was in existence if such period is less than 36 months) ending with the close of the foreign corporation's taxable year in which such dividends are paid, the foreign corporation has been engaged in trade or business within the United States, and (2) during such period, 50 percent or more of the gross income of the foreign corporation has been derived from sources within the United States.

In such a case the amount of the allowable credit is 85 percent of the amount received as dividends from (a) earnings and profits of the taxable year (computed as of the close of the taxable year without diminu-

tion by reason of any distribution made during the taxable year), without regard to the amount of the earnings and profits at the time the distribution was made or (b) that portion of earnings and profits accumulated after February 28, 1913, which represents earnings and profits accumulated after the beginning of the portion of the uninterrupted period ending at the beginning of the taxable year. However, the amount of the credit allowed under clause (a) is limited to an amount which bears the same ratio to 85 percent of the amount received as dividends from such earnings and profits as the gross income of the foreign corporation for the taxable year from sources within the United States bears to the gross income from all sources for the taxable year. Under clause (b) the amount of the credit is limited to an amount which bears the same ratio to 85 percent of the amount received as dividends from such accumulated earnings and profits as the gross income from sources in the United States for the portion of the uninterrupted period bears to the gross income from all sources for the portion of the uninterrupted period.

17. **Adjustment for certain non-life insurance reserves.**—For companies writing contracts other than life insurance or annuity contracts (either separately or combined with noncancellable health and accident insurance) add to the normal-tax net income ¾ percent of the unearned premiums and unpaid losses on such other contracts which are not included in life insurance reserves, but not less than ¾ percent of unpaid losses plus ¾ percent of 25 percent of the net premiums written during the taxable year on such other contracts. Section 203A (a) provides that there shall be added to normal-tax net income an amount equal to eight times the amount of the adjustment for certain reserves provided in section 202 (c).

19. **Reserve interest credit.**—Schedule C on page 2 should be used to compute the amount of the reserve interest credit. The reserve interest credit is allowed in instances in which the relationship between adjusted net income and required interest is such that the adjusted net income is less than 105 percent of the required interest. The term "adjusted net income" is defined as the net income computed without any deduction for tax-free interest minus 50 percent of the amount of the adjustment for certain non-life insurance reserves. The term "required interest" means the total of—

(1) The sum of amounts obtained by multiplying (a) each rate of interest assumed in computing the life insurance reserves by (b) the means of the amounts of the adjusted reserves computed at that rate at the beginning and end of the taxable year,

(2) Two percent of the reserve for deferred dividends, and

(3) Interest paid.

If the adjusted net income is 105 percent or more of the required interest, the reserve interest credit is stated as zero. If the adjusted net income is 100 percent or less of the required interest, the reserve interest credit is determined as an amount equal to 50 percent of the normal-tax net income. If the adjusted net income is more than 100 percent but less than 105 percent of the required interest, the reserve interest credit is computed by multiplying the normal-tax net income by ten times the difference between 105 percent and the actual percentage established. The percentage established by comparing adjusted net income to the required interest should be carried to at least the nearest one-tenth of a percentage point with the result that the multiplication by ten of the difference between 105 percent and such percentage will be productive of a more accurately graduated figure than would be possible were no such fractional percentage to be allowed.

22. **Credit for income taxes paid to a foreign country or United States possession.**—If, in accordance with section 131 (a), a credit is claimed by a domestic corporation in item 22, on account of income, war-profits and excess-profits taxes paid or accrued to a foreign country or a possession of the United States, Form 1118 should be submitted with the return, together with the receipt for each such tax payment. In case credit is sought for taxes accrued but not paid, the form must have attached to it a certified copy of the return on which each such accrued tax was based, and the Commissioner may require a bond on Form 1119 as a condition precedent to the allowance of a credit for such accrued taxes. A foreign company is not entitled to claim this credit.

**SCHEDULE A.—DATA FOR RESERVE AND OTHER POLICY LIABILITY CREDIT FOR THE SUCCEEDING TAXABLE YEAR**

**Data for succeeding taxable year.**—The following data shall be furnished in Schedule A by every life insurance company for the computation of the figure, for the succeeding year, to be proclaimed by the Secretary to determine the reserve and other policy liability credit:

(1) **Reserves (lines 1 to 6, inclusive).**—List data pertaining to life insurance reserves. Describe fully the nature of the reserve, the method of computation, the interest rate used, and the amount of each such reserve at the beginning and end of the taxable year. Include mortality and morbidity reserves on noncancellable life, health, or accident contracts. Do not include pro rata unearned premiums or unpaid losses on cancellable accident and health contracts. For reserves computed on a modified basis, such as Illinois Standard, or Select and Ultimate, list 107 percent of the amount of such reserves. (For definition of life insurance reserves, see section 29.201-4 of the regulations.) (For reserves computed on a modified basis, see section 29.201-6 of the regulations.)

(2) **Reserve earnings rate.**—Reserve earnings rate means a rate computed by adding 2.1125 percent (65 percent of 3¼ percent) and 35 percent of the average rate of interest assumed in computing life insurance reserves. Enter as line 10.

(3) **Reserve for deferred dividends.**—Enter in line 12 an amount equal to 2 percent of the reserve held at the end of the taxable year for deferred dividends the payment of which is deferred for a period of not less than 5 years from the date of the policy contract. Do not include in such reserve dividends payable during the following taxable year.

(4) **Interest paid.**—Enter in line 13 the amount of interest paid during the taxable year on the company's indebtedness, except on indebtedness incurred or continued to purchase or carry obligations (other than obligations of the United States issued after September 24, 1917, and originally subscribed for by the taxpayer) the interest upon which is wholly exempt from taxation, and all amounts in the nature of interest, whether or not guaranteed, paid within the taxable year on insurance contracts (or contracts arising out of insurance contracts) which do not involve, at the time of payment, life, health, or accident contingencies. Interest paid on dividends held on deposit and surrendered during the taxable year should be included in this item. Do not include any interest paid on deferred dividends which were included under (3) above.

Instruction No.GROSS INCOME  
(Under Section 207 (a) (1) AND (3))

## 1. Interest on:

- (a) Obligations of a State, Territory, or political subdivision thereof, or the District of Columbia, or United States possessions
- (b) Obligations of Federal land banks, joint stock land banks, and Federal intermediate credit banks issued prior to March 1, 1941
- (c) Obligations of the United States issued on or before September 1, 1917
- (d) Treasury Notes issued prior to December 1, 1940, Treasury Bills and Treasury Certificates of Indebtedness issued prior to March 1, 1941
- (e) United States Savings Bonds and Treasury Bonds owned in the principal amount of \$5,000 or less, issued prior to March 1, 1941
- (f) United States Savings Bonds and Treasury Bonds owned in excess of the principal amount of \$5,000 issued prior to March 1, 1941
- (g) Obligations of instrumentalities of the United States (other than obligations to be reported in line (b) above) issued prior to March 1, 1941
- (h) Treasury Notes issued on or after December 1, 1940, and obligations issued on or after March 1, 1941, by the United States or any agency or instrumentality thereof (submit schedule)
- (i) Loans, notes, mortgages, bank deposits, etc.

TOTALS

## 2. Dividends on stock of:

- (a) Domestic corporations subject to taxation under Chapter 1 of the Internal Revenue Code\*
- (b) Public utility corporations subject to taxation under Chapter 1 of the Internal Revenue Code
- (c) Foreign corporations
- (d) Other corporations

## 3. Rents (attach schedule).

## 4. Net gain from sale or exchange of capital assets (from separate Schedule D (Form 1120)).

## 5. TOTAL INCOME IN ITEMS 1 TO 4

## DEDUCTIONS

## 6. Interest wholly exempt from tax (item 1 (a), (b), (c), (d), and (e), col. 4).

## 7. Investment expenses (attach schedule).

## 8. Taxes.

## 9. Real estate expenses.

## 10. Depreciation (attach schedule).

## 11. Interest.

## 12. Other capital losses (from Schedule E).

## 13. TOTAL DEDUCTIONS IN ITEMS 6 TO 12

## 14. Net income (item 5 minus item 13).

## 15. Less: Interest partially exempt from tax (item 1 (f) and (g), col. 4).

## 16. Adjusted net income.

## 17. Less: Dividends received credit—

(a) Enter 85 percent of item 2 (a)

(b) Enter 62 percent of item 2 (b)

(c) Enter 85 percent of dividends received from certain foreign corporations

(d) Total dividends received credit. Enter sum of (a), (b), and (c), above, but not to exceed 85 percent of item 16

## 18. Normal-tax net income

\*Except dividends received on preferred stock of public utility corporations which should be entered in item 2 (b), and dividends received from corporations organized under the China Trade Act, 1922, and from corporations entitled to the benefits of Section 2031 of the Internal Revenue Code, which dividends should be included in item 2 (d).

## GROSS AMOUNT OF INCOME (under section 207 (a) (2))

## 19. Total gross income in items 1 to 3, inclusive.

## 20. Net premiums.

## 21. Total gross amount of income from interest, dividends, rents, and net premiums (item 19 plus item 20).

## 22. Less: Dividends to policyholders

## 23. Interest wholly exempt from tax (item 1 (a), (b), (c), (d), and (e), col. 4).

## 24. Gross amount of income (item 21 minus the sum of items 22 and 23).

## TOTAL TAX

## 25. Total income tax (line 30, page 2).

## 26. Less: Credit for income taxes paid to a foreign country or United States possession allowed a domestic corporation.

## 27. Balance of income tax due.

## 28. Excess profits tax due (line 39, Schedule EP (Form 1120)).

## 29. Total income and excess profits tax due (item 27 plus item 28).

8. Line 4 minus line 7.....	\$.....

If line 8 is \$25,000 or less, Schedule EP (Form 1120) need not be filed with this return. If line 8 is over \$25,000, Schedule EP (Form 1120) must be filed.

## QUESTIONS

1. Did the company file a return under the same name for the preceding taxable year? .....
2. Did the company at any time during the taxable year own 50 percent or more of the voting stock of another corporation, either domestic or foreign? ..... (Answer "yes" or "no.") If the answer is "yes," attach separate schedule showing: (1) Name and address; (2) percentage of stock owned; (3) date stock was acquired; and (4) the director's office in which the income tax return of such corporation for the last taxable year was filed.
3. Did the company make a return of information on Forms 1096 and 1099, or Form W-2a for the calendar year 1952? (See General Instruction H.) ..... (Answer "yes" or "no.")
4. Did the company at any time during the taxable year own directly or indirectly any stock of a foreign corporation? ..... (Answer "yes" or "no.") If answer is "yes," attach statement required by General Instruction J.
5. Did the company file with the director of internal revenue a copy of the annual statement for the preceding year as required by General Instruction K? ..... (Answer "yes" or "no.") If answer is "yes," state director's office in which statement was filed .....
6. If a copy of the annual statement required by General Instruction K does not accompany this return, state reason why the statement is not attached .....
7. Is this return made on the basis of cash receipts and disbursements? ..... If not, describe fully in separate statement.

1952

INSTRUCTIONS FOR FORM 1120 M

## U. S. MUTUAL INSURANCE COMPANY INCOME TAX RETURN

1952

(References are to the Internal Revenue Code, unless otherwise noted)

Taxpayers will find it helpful to read the General Instructions A to L before commencing to fill in their returns

## GENERAL INSTRUCTIONS

**A. Companies Required To File a Return.**—Every mutual insurance company other than a life or marine insurance company and other than a fire insurance company subject to the tax imposed by section 204 (except a foreign mutual insurance company other than a life or marine insurance company or a fire insurance company subject to the tax imposed by section 204—not carrying on an insurance business within the United States) with gross amount received from interest, dividends, rents, and premiums (including deposits and assessments), in excess of \$75,000, shall file a return on this form. (See section 161 (11).)

Receivers, trustees in dissolution, trustees in bankruptcy, and assignees, operating the property or business of corporations, must make returns of income for such corporations. If a receiver has full custody of and control over the business or property of a corporation, he shall be deemed to be operating such business or property, whether he is engaged in carrying on the business for which the corporation was organized or only in marshaling, selling, and disposing of its assets for purposes of liquidation.

**B. Period Covered.**—The return shall be for the calendar year ended December 31, 1952, and the net income computed on the calendar year basis in accordance with the State laws regulating insurance companies.

**C. Basis of Return.**—A return on this form shall be rendered on a cash receipts and disbursements basis or the accrual basis whichever conforms with the annual statement made to the State Insurance Department.

**D. Time and Place for Filing.**—The return must be sent to the director of internal revenue for the district in which the company's principal place of business or principal office or agency is located, so as to reach the director's office on or before March 15, 1953.

**E. Declaration.**—The return must be signed by the president, vice president, or other principal officer, and by the treasurer, assistant treasurer, or chief accounting officer.

Where the return is actually prepared by some person or persons other than officers or employees of the company, such person or persons must sign the declaration at the foot of page 1.

**F. Payment of Tax.**—The tax should be paid by sending with the return a check or money order drawn to the order of "Director of Internal Revenue." Do not send cash by mail, nor pay it in person except at the collector's office.

The tax must be paid in full when the return is filed, or in four installments, as follows: The first installment equal to 40 percent of the tax shall be paid on or before March 15, 1953; the second installment equal to 40 percent of the tax on or before June 15, 1953; the third installment equal to 10 percent of the tax on or before September 15, 1953; and the fourth installment equal to 10 percent of the tax on or before December 15, 1953.

If any installment is not paid on or before the date fixed for its payment, the whole amount of the tax unpaid shall be paid upon notice and demand by the director.

**G. Penalties.**—For failure to make and file a return on time.—Five percent to 25 percent of the amount of the tax, unless such failure is due to reasonable cause, and, in addition, where failure is willful, a fine of not more than \$10,000, or imprisonment for not more than 1 year, or both, together with the costs of prosecution.

For willfully attempting to evade or defeat payment of the tax.—A fine of not more than \$10,000, or imprisonment for not more than 5 years, or both, together with the costs of prosecution.

For deficiency due to negligence or fraud.—Five percent of the amount of the deficiency if due to negligence or intentional disregard of rules and regulations without intent to defraud, or 50 percent of the amount of the deficiency if due to fraud.

**H. Information at Source.**—Every insurance company shall make a return on Forms 1095 and 1099 with respect to amounts paid, credited, or distributed during the calendar year (a) as salaries or other compensation for personal services, totaling \$600 or more in the case of a citizen or resident, or (b) as interest, rent, premiums, annuities, or other fixed or determinable income totaling \$600 or more to a fiduciary, a domestic or resident partnership, or a citizen or resident. A report on Form 1099 is not required with respect to wage payments, included on Form W-2, provided copies of withholding statements on Form W-2a are furnished. If a portion of such salary or wage payments was reported on a Withholding Statement (Form W-2), only the remainder must be reported on Form 1099.

**I. Information by Corporations.**—1. *Contemplated dissolution or liquidation.*—Every corporation shall, within 30 days after the adoption by the corporation of a resolution or plan for the dissolution of the corporation or for the liquidation of the whole or any part of its capital stock, render a correct return on Form 956, to the Commissioner, setting forth the terms of such resolution or plan. (See section 148 (d).)

2. *Distributions in liquidation.*—Every corporation shall, when required by the Commissioner, render a correct return of its distributions in liquidation, stating the name and address of each shareholder, the number and class of shares owned by him, and the amount paid to him or, if the distribution is in property other than money, the fair market value (as of the date the distribution is made) of the property distributed to him. (See section 148 (e).)

**J. Stock Ownership in Foreign Corporations.**—If the company owned any stock of a foreign corporation (including less than 5 percent of the stock of a foreign personal holding company), it should attach to its return a statement setting forth the name and address of each such company and the total number of shares of each class of outstanding stock owned by it during the taxable year. This statement should be furnished in addition to the schedule required by Specific Instruction 2. If the company owned stock at any time during the taxable year in a foreign personal holding company, as defined in section 331, it must include in its return as a dividend the amount required to be included in its gross income by section 337. If the company owned 5 percent or more in value of the outstanding stock of such foreign personal holding company, it should set forth in an attached statement in complete detail the information required by section 337 (d).

**K. Annual Statement.**—A copy of the annual statement for mutual insurance companies adopted by the National Convention of Insurance Commissioners for the year 1952, as filed with the Insurance Department of the State, Territory, or District of Columbia, together with copies of Schedule A (real estate) and Schedule D (bonds and stocks), must accompany the return. Similar copies for the preceding year must also be furnished, if not filed for such year.

**L. List of Attached Schedules.**—Attach a list of the schedules accompanying the return, giving for each a brief title and the schedule number. Place name and address of company on each schedule.

## SPECIFIC INSTRUCTIONS

The following instructions are numbered to correspond with item numbers on page 1 of the return

1. **Interest.**—Enter interest received or accrued from all sources during the taxable year. Interest on bonds is considered income when due and payable. The gross amount of interest reported as gross income shall be decreased by the amortization of premiums and increased by the accrual of discount attributable to the taxable year on bonds, notes, debentures or other evidences of indebtedness, determined (1) in accordance with the method regularly employed, if reasonable, or (2) in accordance with regulations prescribed by the Commissioner with the approval of the Secretary. (Attach statement showing method and computation.)

2. **Dividends.**—Enter as item 2 (a) the amount received or accrued as dividends from a domestic corporation which is subject to taxation under Chapter 1, except dividends on certain preferred stock of a public utility corporation, and dividends received from a corporation entitled to the benefits of section 251 and from a corporation organized under the China Trade Act, 1922. Enter as item 2 (b) dividends received on certain preferred stock of a public utility which is subject to tax under Chapter 1. Enter as item 2 (c) dividends from foreign corporations. Enter as item 2 (d) dividends from all other corporations including dividends on share accounts in Federal savings and loan associations issued on or after March 28, 1942. Enter in item 1 (g) dividends on share accounts in Federal savings and loan associations issued prior to March 28, 1942. Submit schedule, itemizing all dividends received during the year, stating the names and addresses of the corporations declaring the dividends and amounts received from each.

3. **Rents.**—Enter rents received or accrued from tenants.

4. **Gains and Losses From Sales or Exchanges of Capital Assets.**—Report sales or exchanges of capital assets in separate Schedule D (Form 1120) (but see Schedule F, page 4). Every sale or exchange of a capital asset, even though no gain or loss may be indicated, must be reported in detail.

Losses from sales or exchanges of capital assets (except losses from capital assets sold or exchanged in order to obtain funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders) shall be allowed to the extent of gains from such sales or exchanges, with respect to companies taxable under section 207 (a) (1) or (3). The net capital loss for such companies shall be the amount by which losses for such year from sales or exchanges of capital assets exceed the sum of the gains from such sales or exchanges and losses from sales or exchanges of capital assets. (1) the corporation surtax net income (computed without regard to gains or losses from sales or exchanges of capital assets) or (2) losses from the sale or exchange of capital assets sold or exchanged to obtain funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders, whichever is the lesser. However, the amount of a net capital loss sustained in any taxable year may be carried over to each of the five succeeding taxable years and treated in each such succeeding taxable year as a short-term capital loss to the extent not allowed as a deduction against any net capital gains of any taxable year intervening between the taxable year in which the net capital loss was sustained and the taxable year to which carried.

**Definitions of capital assets.**—The term "capital assets" means property held by the taxpayer (whether or not connected with his trade or business), but does not include stock in trade of the taxpayer or other property of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or property held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business, or property used in the trade or business, of a character which is subject to the allowance for depreciation provided in section 23 (b), or

a copyright, a literary, musical, or artistic composition, or similar property, or an obligation of the United States or any of its possessions, or of a State or Territory, or any political subdivision thereof, or of the District of Columbia, issued on or after March 1, 1941, on a discount basis and payable without interest at a fixed maturity date not exceeding one year from the date of issue, or real property used in the trade or business of the taxpayer.

**Classification of capital gains and losses.**—The phrase "short-term" applies to the category of gains and losses arising from the sale or exchange of capital assets held for 6 months or less; the phrase "long-term" to the category of gains and losses arising from the sale or exchange of capital assets held for more than 6 months.

Enter full description of each item of property sold or exchanged, even though no gain or loss may be indicated. Such description should include the following facts: (a) for real estate, location and description of land, description of improvements, details explaining depreciation (column 6 of Schedule C); (b) for bonds or other evidences of indebtedness, name of issuing corporation, description of the particular issue, denomination, and amount; (c) for stocks, name of issuing corporation, class of stock, number of shares, and capital changes affecting basis (nontaxable stock dividends, other nontaxable distributions, stock rights, etc.).

The "basis" for the property is not subject to the same rule for reporting gains as for losses. If the property was acquired before March 1, 1913, the basis for determining GAIN is the cost or the fair market value as of March 1, 1913, adjusted as provided in section 113 (b), whichever is greater, but in determining LOSS the basis is cost so adjusted. If property was acquired after February 28, 1913, basis for both gain and loss is the cost of such property, except as otherwise provided by section 113. The exceptions arise chiefly where property was acquired by gift, bequest, tax-free exchange, involuntary conversion, or wash sale of stock; and in such cases section 113 provides the basis that shall be used. If the amount shown as the basis is other than actual cash cost of the property sold or exchanged, full details must be furnished regarding the acquisition of the property.

Enter in column 5 of separate Schedule D (Form 1120) the amount of depreciation, exhaustion, wear and tear, obsolescence, and depletion in respect of the property. This amount shall be the sum of the following: (a) The amount of depreciation, exhaustion, wear and tear, obsolescence, and depletion which has been allowed (but not less than the amount allowable) in respect of such property since date of acquisition, or since February 28, 1913, if the property was acquired before that date. For any period after December 31, 1951, the amount of depreciation, etc., allowed (and which is in excess of the amount allowable) shall be disregarded to the extent that such excess does not result in a reduction for any taxable year of the taxpayer's income or excess profits taxes. In respect of any period after February 28, 1913, and before January 1, 1952, the taxpayer may disregard depreciation, etc., which was in excess of the amount allowable and which did not result in reduction of income or excess profits taxes only if an election is made in accordance with regulations. (See section 113 (b) (1) (B).) (b) The amount of depreciation, exhaustion, wear and tear, obsolescence, and depletion actually sustained prior to March 1, 1913, if the property was acquired before that date.

Subsequent improvements include expenditures for additions, improvements, renewals, and replacements made to restore the property or prolong its useful life. Do not deduct ordinary repairs, interest, or taxes in computing gain or loss.

**Losses on securities becoming worthless.**—If any securities (as defined below) become worthless within the taxable year and are capital assets, the loss resulting therefrom shall, in the case of a taxpayer other than a bank, as defined in section 104, be considered as a loss from the sale or exchange, on the last day of such taxable year, of capital assets. (See section 23 (k) (2).)

**Definition of securities.**—As used for the purpose of determining capital losses under section 23 (k), the term "securities" means bonds, debentures, notes, or certificates, or other evidences of indebtedness, issued by any corporation (including those issued by a government or political subdivision thereof), with interest coupons or in registered form. However, securities issued by any corporation affiliated with the taxpayer shall not be deemed capital assets. (See section 23 (k) (5).)

**Losses on stocks or stock rights becoming worthless.**—If any shares of stock in a corporation (except stock in a corporation affiliated with the taxpayer), or rights to subscribe for or to receive such shares, become worthless during the taxable year and are capital assets, the loss resulting therefrom shall be considered as a loss from the sale or exchange, on the last day of such taxable year, of capital assets. (See section 23 (g) (2) and (4).)

**Losses not allowable.**—No loss shall be recognized in any sale or other disposition of shares of stock or securities where there has been acquisition of substantially identical stock or securities or there has been entered into a contract or option to acquire substantially identical stock or securities within 30 days before or after the date of such sale or disposition, except in cases of dealers in stocks and securities and with respect to transactions made in the ordinary course of such business.

**Gains and losses from involuntary conversion and from the sale or exchange of certain property used in the trade or business.**—The term "property" used in the trade or business as used in section 117 (j) means property used in the trade or business, of a character which is subject to the allowance for depreciation provided in section 23 (l), held for more than 6 months, and real property used in the trade or business, held for more than 6 months, which is not (a) property of a kind which would properly be includible in the inventory of the taxpayer if on hand at the close of the taxable year, or (b) property held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business. Such term also includes timber or coal with respect to which section 117 (k) (1) or (2), is applicable as well as unharvested crops sold with the land with respect to which section 117 (j) (3) is applicable. Such term also includes livestock (but not poultry) held for draft, breeding, or dairy purposes and held for 12 months or more from the date of acquisition.

Section 117 (j) provides special treatment for the gains and losses upon the sale or exchange of depreciable property and of land, held for more than 6 months, and for the gains and losses upon the compulsory or involuntary conversion of such depreciable property and land and of capital assets held for more than 6 months.

The method prescribed in section 117 (j) (2) is to treat such gains and losses during the taxable year as gains and losses from the sale or exchange of capital assets. If for more than 6 months, if the aggregate of such gains exceeds the aggregate of such losses. If, however, the aggregate of such gains does not exceed the aggregate of such losses, such gains and losses shall not be treated as gains and losses from the sale or exchange of capital assets held for more than 6 months.

In determining whether gains do or do not exceed losses, it is necessary to include the gains and losses to the extent that they would be included if they were all ordinary gains and losses. The limitation of section 117 (d) on the deductibility of capital losses does not operate to exclude any such losses from the computation as to the excess of gains over losses, but all such losses are included in full.

For special treatment of gain or loss upon the cutting of timber, or upon the disposal of timber or coal under a contract by which the owner retains an economic interest in such timber, see section 117 (k).

**Alternative tax.**—If for any taxable year the net long-term capital gain exceeds the net short-term capital loss, section 117 (e) imposes an alternative tax in lieu of the normal tax and surtax imposed upon net income, if and only if such tax is less than the tax imposed by sections 13 and 15 (relating to normal tax and surtax on corporations), sections 204 and 207 (a) (1) or (3) (relating to normal tax and surtax on insurance companies, other than life insurance companies), and section 500 (relating to tax on personal holding companies). The alternative tax is the sum of (1) a partial tax, computed at the normal tax and surtax rates on the net income decreased by the net long-term capital loss, and (2) 26 percent of such excess.

**6. Interest Wholly Exempt From Tax.**—Enter the amount of interest which is wholly exempt from taxation under the provisions of section 22 (b) (4).

See Specific Instruction 15 with respect to partially tax-exempt interest which is allowed as a credit against net income.

**7. Investment Expenses.**—Enter expenses paid or accrued which are properly chargeable to investment expenses, the total amount of which, if there be any allocation of general expenses to investment expenses, should not exceed one-fourth of 1 percent of the mean of the invested assets reported on line 12, Schedule A, plus, in cases where the net income computed without any deduction for (1) investment expenses and (2) tax-free interest, exceeds 3½ percent of the book value of such mean of the invested assets, one-fourth of such excess. Submit a schedule showing the nature and amount of the items included herein, the minor items being grouped in one amount. (See section 207 (b) (4) (B).)

**8. Taxes.**—Enter taxes paid or accrued exclusively upon real estate owned by the company and taxes assessed against individual shareholders and paid by the company without reimbursement as provided in section 207 (b) (4) (C). Do not include taxes assessed against local benefits of a kind tending to increase the value of the property assessed, as for paving, sewers, etc. For limitation on deduction, see Instruction 13 (b) below.

**9. Real Estate Expenses.**—Enter all ordinary and necessary building expenses, paid or accrued, such as fire insurance, heat, light, labor, etc., and the cost of incidental repairs which neither materially add to the value of the property nor appreciably prolong its life, but keep it in an ordinarily efficient operating condition. Do not include any amount paid out for new buildings or for permanent improvements or betterments made to increase the value of any property or any amount expended on foreclosed property before such property is held forth for rental purposes. For limitation on deduction, see Instruction 13 (b) below.

**10. Depreciation.**—The amount deductible on account of depreciation is an amount reasonably measuring the portion of the investment in depreciable property by reason of obsolescence, physical wear and tear, or obsolescence, which is properly chargeable against the operations of the year. In any event the deduction is limited to the depreciation on the property that is used, and to the extent used, for the purpose of producing the income specified in section 207 (b) (1). If the property was acquired by purchase on or after March 1, 1913, the amount of depreciation should be determined upon the basis of the original cost (not replacement cost) of the property, and the probable number of years remaining of its expected useful life. In case the property was purchased prior to March 1, 1913, the amount of depreciation will be determined in the same manner, except that it will be computed on its original cost, less depreciation sustained prior to March 1, 1913, or its fair market value as of that date, whichever is greater. If the property was acquired in any other manner than by purchase, see section 114. The capital sum to be recovered should be charged off ratably over the useful life of the property. Whatever plan or method of apportionment is adopted must be reasonable, must have due regard to operating conditions during the taxable year, and should be described in the return.

If a deduction is claimed on account of depreciation, a schedule should be filed with the return showing: (1) Kind of property; (2) date acquired; (3) cost or other basis; (4) depreciation allowed (or allowable) in prior years; (5) remaining cost or other basis to be recovered; (6) estimated life used in accumulating depreciation; (7) estimated remaining life from beginning of year; and (8) depreciation allowable for the taxable year. In case obsolescence is included, state separately amount claimed and basis upon which it is computed. Cost or value of land must not be included in the schedule, and where land and buildings were purchased for a lump sum the cost of the building subject to depreciation must be established.

The adjusted property accounts and the accumulated depreciation shown in the schedule should be reconciled with those accounts as reflected on the books of the taxpayer.

Stocks, bonds, and like securities are not subject to depreciation within the meaning of the law. (See sections 23 (l), 114, and 207 (b) (4) (D).)

For limitation on deduction, see Instruction 13 (b) below.

**11. Interest.**—Enter the amount of interest paid or accrued during the taxable year on the company's indebtedness, except on indebtedness incurred or continued to purchase or carry obligations (other than obligations of the United States issued after September 24, 1917, and originally subscribed for by the taxpayer) the interest upon which is wholly exempt from taxation.

**12. Other Capital Losses.**—Enter as item 12 losses from capital assets sold or exchanged to provide funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders. Capital assets shall be considered as sold or exchanged to provide for such funds or payments to the extent that the gross receipts from their sale or exchange are not greater than the excess, if any, for the taxable year of the sums of dividends and similar distributions paid to policyholders, and losses and expenses paid over the sum of interest, dividends, rents, and net premiums received. (See Schedule E.)

**13. Total Deductions.**—(a) Enter the total of items 6 to 12, inclusive.

(b) **Limitation on deductions relating to real estate owned and occupied.**—The deduction included in items 8 to 10 on account of real estate owned and occupied in whole or in part by the company shall be limited to an amount which bears the same ratio to such deduction (computed without regard to subsection (c) of section 207, as the rental value of the space not so occupied bears to the rental value of the entire property. (Submit detailed schedule.)

(c) **Items not deductible.**—No deduction is allowable for the amount of any item or part thereof allocable to a class of exempt income, other than interest. Items directly attributable to such exempt income shall be allocated thereto, and items directly attributable to any class of taxable income shall be allocated to such taxable income. If an item is indirectly attributable to both taxable income and exempt income, a reasonable proportion thereof, determined in the light of all the facts and circumstances in each case, shall be allocated to each. Apportionments must in all cases be reasonable. A taxpayer receiving any exempt income, other than interest, or holding any property or engaging in any activity the income from which is exempt shall submit with its return as a part thereof an itemized statement, in detail, showing (1) the amount of each class of exempt income, and (2) the amount of items allocated to each such class (the amount allocated by apportionment being shown separately).

**15. Interest Partially Exempt from Tax.**—Enter as item 15 the amount of interest included in gross income which is partially exempt from taxation and for which a credit is allowed under the provisions of section 26 (a).

**17. Dividends Received Credit.**—Enter as item 17, the sum of (a) 85 percent of dividends received from certain domestic corporations subject to the income tax (other than dividends received on certain preferred stock of a public utility); (b) 62 percent of the amount received as dividends on certain preferred stock of a public utility corporation which is subject to the income tax; and (c) 85 percent of dividends received from certain foreign corporations subject to the income tax. For the purpose of this credit, dividends received from a corporation organized under the China Trade Act, 1922, or from a corporation entitled to the benefits of section 251, should be entered in item 2 (d). In no event is the total credit allowed by section 26 (b) to exceed 85 percent of the adjusted net income.

Section 311 of the Revenue Act of 1951, amending section 26 (b), provides for a dividends received credit in the case of dividends received from a foreign corporation (other than a foreign personal holding company) which is subject to the income tax if, (1) for an uninterrupted period of not less than 36 months (or the entire period the foreign corporation was in existence if such period is less than 36 months) ending with the close of the foreign corporation's taxable year in which such dividends are paid, the foreign corporation has been engaged in trade or business within the United States, and (2) during such period, 50 percent or more of the gross income of the foreign corporation has been derived from sources within the United States.

The amount of the allowable credit is 85 percent of the amount received as dividends from (a) earnings and profits of the taxable year computed as of the close of the taxable year without diminution by reason of any distribution made during the taxable year, without regard to the amount of the earnings and profits at the time the distribution was made or (b) that portion of earnings and profits accumulated after February 28, 1913, which represents earnings and profits accumulated after the beginning of the portion of the uninterrupted period ending at the beginning of the taxable year. However, the amount of the credit allowed under clause (a) is limited to an amount which bears the same ratio to 85 percent of the amount received as dividends from such earnings and profits as the gross income of the foreign corporation for the taxable year from sources within the United States bears to the gross income from all sources for the taxable year. Under clause (b) the amount of the credit is limited to an amount which bears the same ratio to 85 percent of the amount received as dividends from such accumulated earnings and profits as the gross from sources in the United States for the portion of the uninterrupted period bears to the gross income from all sources for the portion of the uninterrupted period.

**20. Net Premiums.**—Enter as item 20 the amount of gross premiums (including deposits and assessments) written or received on insurance contracts during the taxable year, less return premiums and premiums paid or incurred for reinsurance. Amounts returned where the amount is not fixed in the insurance contract but depends upon the experience of the company or the discretion of the management are not to be included in return premiums but are to be treated as dividends to policyholders and included in item 22. (See section 207 (b) (2).)

**22. Dividends to Policyholders.**—Enter as item 22 dividends and similar distributions paid or declared (depending upon the method of accounting regularly employed) to policyholders. (See section 207 (b) (3).)

**26. Credit for Income Taxes Paid to a Foreign Country or United States Possession.**—If, in accordance with section 131 (a), a credit is claimed by a domestic corporation in item 26, on account of income, war-profits and excess profits taxes paid or accrued to a foreign country or a possession of the United States, Form 1118 should be submitted with the return, together with the receipt for each such tax payment. In case credit is sought for taxes accrued but not paid, the form must have attached to it a certified copy of the return on which each such accrued tax was based, and the Commissioner may require a bond on Form 1119 as a condition precedent to the allowance of a credit for such accrued taxes. A foreign company is not entitled to claim this credit.

11. Indicate separately:			
(a) Amount actually used during the taxable year covered by this return to pay or retire the indebtedness .....	\$	\$	\$
(b) Amount irrevocably set aside during the taxable year covered by this return to pay or retire the indebtedness, but not actually used during the taxable year for such purpose .....	\$	\$	\$
12. Portions of amounts entered on line 8 above, claimed as deductions for the taxable year covered by this return. (Enter portions of amounts here and total of such portions as item 13, first page) .....	\$	\$	\$

Indicate by check mark whether the deduction claimed in item 13, first page of this return, represents:

- A ☐ Amount actually used during the taxable year to pay or retire the indebtedness;  
B ☐ Amount irrevocably set aside during the taxable year to pay or retire the indebtedness; or  
C ☐ Combination of both A and B.

There must be furnished all of the facts and circumstances upon which the taxpayer relies to establish the reasonableness of the amount claimed as a deduction. Describe fully the plan for payment or retirement of the obligations, indicating date and method of adoption, and, where the plan is covered by a mandatory sinking fund agreement or similar arrangement, submit a copy of the indenture or agreement by which the fund was established and under which it is maintained.

If the amount claimed as a deduction in item 13, first page of this return, represents an amount irrevocably set aside to pay or retire the indebtedness, explain fully the circumstances and method by which it was irrevocably set aside.....

INSTRUCTIONS FOR FORM 1120H

1952

## U. S. RETURN OF PERSONAL HOLDING COMPANY

(Under Subchapter A, Chapter 2, Internal Revenue Code)

(References are to the Internal Revenue Code, unless otherwise noted)

Taxpayers will find it helpful to read General Instructions (A) to (J) before commencing to fill in their returns and to read the Specific Instructions in connection with filling in the items to which they refer.

## GENERAL INSTRUCTIONS

(A) **Corporations which must make return on Form 1120H.**—Every corporation which comes within the classification of a "personal holding company." Section 501 contains the following general provisions relating to the definition of a personal holding company:

(a) **GENERAL RULE.**—For the purposes of this subchapter and chapter 1, the term "personal holding company" means any corporation if—

(1) Gross income requirement.—At least 80 per centum of its gross income for the taxable year is personal holding company income as defined in section 502; but if the corporation is a personal holding company with respect to any taxable year beginning after December 31, 1936, then, for each subsequent taxable year, the minimum percentage shall be 70 per centum in lieu of 80 per centum; and a taxable year during the whole of the last half of which the stock ownership required by paragraph (2) does not exist, or until the expiration of three consecutive taxable years in each of which less than 70 per centum of the gross income is personal holding company income; and

(2) Stock ownership requirement.—At any time during the last half of the taxable year more than 50 per centum in value of its outstanding stock is owned, directly or indirectly, by or for not more than five individuals.

(b) **EXCEPTIONS.**—The term "personal holding company" does not include a corporation except from taxation under section 101, a bank as defined in section 104, a life insurance company, a surety company, a foreign personal holding company defined in section 531, a licensed personal finance company, or a lending company, defined in subsection (b) (6), a loan or investment company defined in subsection (b) (7), or a finance company defined in subsection (b) (8).

(c) **CORPORATION MAKING CONSOLIDATED RETURNS.**—If the common parent corporation of an affiliated group of corporations making a consolidated return under the provisions of section 141 satisfies the stock ownership requirement provided in section 501(a)(1), and the income of such affiliated group, determined as provided in section 141, satisfies the gross income requirements provided in section 501(a)(1), such affiliated group shall be subject to the surtax imposed by this subchapter. The preceding sentence shall apply only to the common parent corporation for a consolidated return of an affiliated group of railroad corporations which would be eligible to file consolidated returns under section 141 prior to its amendment by the Revenue Act of 1942.

A foreign corporation, whether resident or nonresident, which is classified as a personal holding company under section 501 (not including a foreign personal holding company as defined in section 531) is subject to the tax imposed by section 500 with respect to its income from sources within the United States even though such income is not fixed or determinable annual or periodical income specified in section 231(a). (See section 119.) The term "personal holding company" as used in subchapter A does not include a foreign corporation if (1) its gross income from sources within the United States for the period specified in section 119(a)(2)(B) is less than 60 percent of its total gross income from all sources and (2) all of its stock outstanding during the last half of the taxable year is owned by nonresident alien individuals, whether directly or indirectly through other foreign corporations.

**Personal holding company income.**—The term "personal holding company income" is defined by section 502 as the portion of the gross income which consists of:

(a) Dividends, interest (other than interest constituting rent as defined in subsection (g)), royalties (other than mineral, oil, or gas royalties), annuities.

(b) **STOCK AND SECURITIES TRANSACTIONS.**—Except in the case of regular dealers in stock or securities, gains from the sale or exchange of stock or securities.

(c) **COMMODITIES TRANSACTIONS.**—Gains from futures transactions in any commodity on or subject to the rules of a board of trade or commodity exchange. This subsection shall not apply to gains by a producer, processor, or handler of such commodity which arise out of bona fide trading transactions reasonably necessary to the conduct of its business in the manner in which such business is customarily and usually conducted by others.

(d) **RENTS AND TAXES.**—Amounts includible in computing the net income of the corporation under Supplement E of chapter 1, and gains from the sale or other disposition of any interest in an estate or trust.

(e) **PERSONAL SERVICE CONTRACTS.**—(1) Amounts received under a contract under which the corporation is to furnish personal services; if some person other than the corporation has the right to designate (by name or by description) the individual who is to perform the services, or if the individual who is to perform the services is designated (by name or by description) in the contract; and (2) amounts received from the sale or other disposition of such a contract. This subsection shall apply with respect to amounts received for services under a particular contract only if at some time during the taxable year 25 per centum or more in value of the outstanding stock of the corporation is owned, directly or indirectly, by or for the individual who has performed, is to perform, or may be designated (by name or by description) as the one to perform, such services.

(f) **USE OF CORPORATION PROPERTY BY SHAREHOLDERS.**—Amounts received as compensation (however designated and from whomsoever received) for the use of, or right to use, property of the corporation in any case where, at any time during the taxable year, 25 per centum or more in value of the outstanding stock of the corporation is owned, directly or indirectly, by or for the individual who is to use, or has used, or may be designated (by name or by description) as the one to use, such property.

(g) **RENTS.**—Rents, unless constituting less than 60 per centum of the gross income. For the purposes of this subsection the term "rents" means compensation, however designated, for the use of, or right to use, property, and the interest on debts owed to the corporation, to the extent such debts represent the price for which real property held primarily for sale to customers in the ordinary course of its trade or business was sold or exchanged by the corporation; but does not include amounts constituting personal holding company income under any other subsection.

(h) **MINERAL, OIL, OR GAS ROYALTIES.**—Mineral, oil, or gas royalties (unless (1) constituting 60 per centum or more of the gross income, and (2) the deductions allowable under section 213(a) (relating to expenses other than compensation for personal services rendered by shareholders, constitute 15 per centum or more of the gross income).

**Stock ownership.**—Section 503 contains the following provision with reference to stock ownership:

(a) **CONSTRUCTIVE OWNERSHIP.**—For the purpose of determining whether a corporation is a personal holding company, insofar as such determination is based on stock ownership under section 501(a)(2), section 502(c), or section 502(f)—

(1) Stock not owned by individual.—Stock owned, directly or indirectly, by or for a corporation, partnership, estate, or trust shall be considered as being owned proportionately by its shareholders, partners, or beneficiaries.

(2) **Family and partnership ownership.**—An individual shall be considered as owning the stock owned, directly or indirectly, by or for his family or by or for his partner. For the purposes of this paragraph the family of an individual includes only his brothers and sisters (whether by the whole or half blood), spouse, ancestors, and lineal descendants.

(3) **Options.**—If any person has an option to acquire stock such stock shall be considered as owned by such person. For the purposes of this paragraph an option to acquire such stock, and each one of a series of such options, shall be considered as an option to acquire such stock.

(4) **Application of family-partnership and option rules.**—Paragraphs (2) and (3) shall be applied—

(A) For the purpose of the stock ownership requirement provided in section 501(a)(2), if, but only if, the effect is to make the corporation a personal holding company;

(B) For the purpose of section 502(c) (relating to personal service contracts), or of section 502(f) (relating to the use of property by shareholders), if, but only if, the effect is to make the amounts therein referred to includible under such subsection as personal holding company income.

(c) **Constructive ownership as actual ownership.**—Stock constructively owned by a person by reason of the application of paragraph (1) or (3) shall, for the purpose of applying paragraph (1) or (3), be treated as actually owned by such person; but stock constructively owned by an individual shall apply such paragraph in order to make another the constructive owner of such stock.

(d) **Option rule in lieu of family and partnership rule.**—If stock may be considered as owned by an individual under either paragraph (2) or (3) it shall be considered as owned by him under paragraph (3).

(e) **CONVERTIBLE SECURITIES.**—Outstanding securities convertible into stock (whether or not convertible during the taxable year) shall be considered as outstanding stock—

(1) For the purpose of the stock ownership requirement provided in section 501(a)(2), but only if the effect of the inclusion of all such securities is to make the corporation a personal holding company;

(2) For the purpose of section 502(c) (relating to personal service contracts), but only if the effect of the inclusion of all such securities is to make the amounts therein referred to includible under such subsection as personal holding company income.

The requirement in paragraphs (1), (2), and (3) that all convertible securities must be included if any are to be included shall be subject to the exception that, where some of the outstanding securities are convertible only after a later date than in the case of others, the class having the earlier conversion date may be included although the others are not included, but no convertible securities shall be included unless all outstanding securities having a prior conversion date are also included.

(B) **Period to be covered by return.**—Returns shall be filed for the calendar year 1952 or fiscal year beginning in 1952 and ending in 1953. A fiscal year must end on the last day of a calendar month other than December.

The established accounting period must be adhered to for all years unless permission is received from the Commissioner to make a change. An application for a change should be made on Form 1128 and forwarded to the Commissioner of Internal Revenue, Washington 25, D. C., at least 60 days prior to the close of the fractional part of the year for which a return would be required to effect the change.

(C) **Basis of return.**—If your books of account are kept on the accrual basis, report all income accrued, even though it has not been actually received or entered on the books, and expenses incurred instead of expenses paid. If your books are not kept on the accrual basis, or if you keep no books, make your return on a cash basis and report all income received or constructively received, such as bank interest credited to your account and coupon bond interest matured, and report expenses actually paid.

(D) **When and where return must be filed.**—Returns must be filed on or before the 15th day of the third month following the close of the taxable year with the director for the district in which the corporation's principal place of business or principal office or agency is located. In the case of a foreign corporation engaged in business within the United States but not having an office or place of business therein, the return shall be filed on or before the 15th day of the sixth month following the close of the taxable year with the Director of Internal Revenue, Baltimore 2, Md.

(E) **Signatures and verification.**—The return must be signed by the president, vice president, or other principal officer, and by the treasurer, assistant treasurer, or chief accounting officer. Where the return is actually prepared by some person or persons other than officers or employees of the corporation, such person or persons must also sign the declaration at the foot of first page.

(F) **When and to whom tax must be paid.**—The tax must be paid in full when the return is filed, or in four installments, as follows: 40 percent on or before the 15th day of the third month; 40 percent on or before the 15th day of the sixth month; 10 percent on or before the 15th day of the ninth month; and 10 percent on or before the 15th day of the twelfth month following the close of the taxable year.

If any installment is not paid on or before the date fixed for its payment, the whole amount of the tax unpaid shall be paid upon notice and demand by the director.

The tax may be paid by sending or bringing with the return a check or money order drawn to the order of "Director of Internal Revenue." Do not send cash by mail, or pay it in person except at the director's office.

(G) **Penalties.**—For failure to make and file return on time.—Five percent to 25 percent of the amount of the tax, unless such failure is due to reasonable cause, and, in addition, where failure is willful, a fine of not more than \$10,000 or imprisonment for not more than 1 year, or both, together with the costs of prosecution.

For willfully attempting to evade or defeat payment of the tax.—Not more than \$10,000 or imprisonment for not more than 5 years, or both, together with the costs of prosecution.

For deficiency due to negligence or fraud.—Five percent of the amount of the deficiency if due to negligence or intentional disregard of rules and regulations without intent to defraud, or 50 percent of the amount of the deficiency if due to fraud.

(H) **Definition of Subchapter A Net Income.**—Section 505 defines the term "Subchapter A Net Income" for the purposes of subchapter A as the net income, with the following adjustments:

(a) **ADDITIONAL DEDUCTIONS.**—There shall be allowed as deductions—

(1) Federal income, war-profits, and excess-profits taxes paid or accrued during the taxable year to the extent not allowed as a deduction under section 22, but not including the tax imposed by section 102, section 300, or a section of a prior income-tax law corresponding to either of such sections.

(2) In lieu of the deductions allowed by section 213(a), contributions or gifts, payment of which is made within the taxable year to or for the use of donees described in section 25(c) for the purposes therein specified, to an amount which does not exceed 15 per centum of the taxpayer's net income, computed without the benefit of this paragraph and section 213(a), and without the deduction of the amount allowable under subsection (b) of this section. For the purposes of the preceding sentence, payment of any contribution or gift shall be considered as made within the taxable year if and only if it is considered for the purposes of section 25 (c) as made within such year. For disallowance of certain charitable, etc., deductions otherwise allowable under this paragraph, see sections 3613 and 3614 (c) (2).

(3) In the case of a corporation organized prior to January 1, 1936, to take over the assets and liabilities of the estate of a decedent, amounts paid in liquidation of any liability of the corporation to the estate of the decedent, or to the estate of the decedent, or to the estate of the decedent, or to the estate of the decedent, for the purposes therein specified, to the extent such liability of the decedent existed prior to January 1, 1936. No deduction shall be allowed under paragraph (2) of this subsection for a taxable year for which a deduction is allowed under this paragraph.

(b) **DEDUCTIONS NOT ALLOWED.**—The aggregate of the deductions allowed under section 213(a), relating to expenses, and section 213(b), relating to depreciation, which are allowable to the corporation and maintenance of property owned or operated by the corporation, shall be allowed only in an amount equal to the rent or other compensation received for the use of, or the right to use, the property, unless it is established (under regulations prescribed by the Commissioner with the approval of the Secretary) to the satisfaction of the Commissioner—

(1) That the rent or other compensation received was the highest obtainable, or, if none was received, that none was obtainable.

(2) That the property was held in the course of a business carried on bona fide for profit; and

(3) Either that there was reasonable expectation that the operation of the property would result in a profit, or that the property was necessary to the conduct of the business.

(c) **NET LOSS CARRY-OVER DISALLOWED.**—The deduction for net operating losses provided in section 213(a) shall not be allowed.

(d) **1941 CAPITAL LOSS CARRY-OVER DENIED.**—The net income shall be computed without regard to section 17(e)(2).

(e) **INCOME NOT PLACED ON ANNUAL BASIS.**—The net income shall be computed without regard to section 47(c).

(I) **Definition of undistributed subchapter A net income.**—Section 504 defines the term "undistributed subchapter A net income" as the subchapter A net income (as defined in section 505) minus—

(a) The amount of the dividends paid credit provided in section 277(b)(1), by the amount of paragraphs (3) and (4) thereof (computed without its reduction, under section 277(b)(1), by the amount of the credit provided in section 213(a), relating to interest on certain obligations of the United States and Government corporations); but, in the computation of the dividends paid credit for the purposes of this subchapter, the amount allowed under subsection (c) of this section or of section 485 of the Revenue Act of 1936 in the computation of the tax under this subchapter or under Title IA of the Revenue Act of 1936 for any preceding taxable year beginning after December 31, 1937, shall be considered as a dividend paid in such preceding taxable year and not in the year of distribution;

(b) Amounts used or irrevocably set aside to pay or to retire indebtedness of any kind incurred prior to January 1, 1934, if such amounts are reasonable with reference to the size and terms of such indebtedness.

(c) Dividends paid after the close of the taxable year and before the 15th day of the third month following the close of the taxable year, or claimed under this subsection in the return, but only to the extent to which such dividends would have been includible in the computation of the basic surtax credit for the taxable year if distributed during such taxable year; but the amount allowed under this subsection shall not exceed either—

(1) The undistributed subchapter A net income for the taxable year computed without regard to subsection (c); or

(2) 10 per centum of the sum of—

(A) The dividends paid during the taxable year (reduced by the amount allowed under this subsection in the computation of the tax under this subchapter for the taxable year preceding the taxable year), or, in the case of a taxable year beginning in 1939, by the amount allowed under section 485(c) of the Revenue Act of 1936 in the computation of the tax under Title IA of such Act for a taxable year beginning prior to January 1, 1939; and

(B) The unmet dividend credit for the taxable year.

18-57313-1

"(d) Amounts distributed before January 1, 1944, in redemption of preferred stock outstanding before January 1, 1934 (including any preferred stock issued after January 1, 1934, in lieu of such previously outstanding preferred stock) which distributions are made by a corporation the aggregate of whose gross sales and gross receipts arising from manufacturing, commercial, processing, and service operations during the four-year period immediately before January 1, 1934, exceeded the aggregate of its gross receipts from dividends, interest, royalties, annuities, and gains from the sale or exchange of stock or securities during such period."

(e) The amount by which the undistributed subchapter A net income determined without reference to this subsection exceeds the amount which would be distributed on the last day of the taxable year as a dividend (1) without violating any action, regulation, rule, order, or proclamation taken, promulgated, made, or issued by, or pursuant to the direction of, the President or any agency that he may designate, under the Trading with the Enemy Act of October 6, 1917, as

amended, or the First War Powers Act of 1941, and (2) not subject to a lien in favor of the United States.

(3) **Definition of gross income of certain insurance companies for personal holding company tax.**—The term "gross income," as used in subchapter A, means, in the case of an insurance company other than life or mutual, the gross income, as defined in section 204(b)(1), increased by the amount of losses incurred, as defined in section 204(b)(6), and the amount of expenses incurred, as defined in section 204(b)(7), and decreased by the amount deductible under section 204(c)(7) (relating to tax-free interest). (See section 507.)

#### SPECIFIC INSTRUCTIONS

The following instructions are numbered to correspond with item numbers on the first page of the return

1. **Net income.**—Enter the net income, for the taxable year computed in accordance with the provisions of chapter 1, but without regard to section 47(c) (relating to income placed on an annual basis). In the case of domestic and resident foreign corporations engaged in trade or business in the United States, this item, except as noted above, is the amount shown as item 34, page 1, Form 1120. In the event the net income in item 34 includes any amount with respect to coal royalties to which section 117(k)(2) is applicable, see section 117(k)(2) and the regulations thereunder.

In the case of a nonresident foreign corporation (not engaged in trade or business within the United States) which qualifies as a personal holding company under section 501 but not as a foreign personal holding company under section 331, the amount to be entered in item 1 as the net income must be computed under section 119 rather than under section 231(a). Net income so computed will reflect, in addition to income from all other sources within the United States, gains from sales or exchanges made within the United States of capital assets including stocks, securities, and commodities. Although such gains are not subject to normal tax under section 231(a), chapter 1, they are subject to the surtax imposed by section 500, subchapter A.

2. **Contributions or gifts deducted under section 23(g).**—Section 23(g) provides for the deduction of contributions or gifts paid within the taxable year to the extent of 5 percent of the net income computed without the benefit of such deduction while section 505 provides that in computing subchapter A net income the deduction allowed in item 2 of the deduction allowed by section 23(g) contributions or gifts of specified types paid within the taxable year to an amount which does not exceed 15 percent of the net income computed without the benefit of such deduction and the deduction allowed under section 23(g), and without the deduction of the amount disallowed under section 505(b). Provision for deduction of the larger allowance is made in item 6 and in order to show the amount of income upon which the increased limitation is based the amount allowed under section 23(g) and deducted in computing net income under chapter 1 (item 1) should be entered as item 2. (See Specific Instruction 6.)

3. **Excess of expenses and depreciation over income from property not allowable under section 505(b).**—If the corporation derived rent or other compensation for the use or right to use property which was less than the sum of the expenses incurred in connection therewith and deductible under section 23(a) and the depreciation allowable under section 23(l), Schedule A should be filled in and the excess of the expenses and depreciation over the rent or other compensation shown therein should be entered as item 3, first page of the return, unless the corporation is prepared to establish the propriety of the deduction to the satisfaction of the Commissioner.

The burden of proof will rest upon the taxpayer to sustain the deduction of the aggregate of the expenses allowed under section 23(a) and depreciation allowed under section 23(l) in excess of the rent or other compensation derived from the property. A corporation claiming such excess deductions shall, in lieu of filling in Schedule A, attach to the return a statement setting forth its claim for allowance of the deductions together with a complete statement of facts, circumstances, and arguments on which it relies in support of the deductions. Such statement shall include:

- A description of the property;
- The cost or other basis to the corporation and the nature and value of the consideration paid for the property;
- The name and address of the person from whom acquired and the date thereof;
- The name and address of the person to whom leased or rented, or the person permitted to use the property, and the number of shares of stock, if any, held by such person and the members of his family;
- The nature (cash, securities, services, etc.) and gross amount of the rent or other compensation received or accrued for the use of, or the right to use, the property during the taxable year and for each of the five preceding years and the amount of the expenses incurred with respect to, and the depreciation sustained on, the property for such years;
- Evidence that the rent or other compensation was the highest obtainable and if none was received or accrued, a statement of the reasons therefor;
- A copy of the contract, lease, or rental agreement;
- The purpose for which the property was used;
- The business carried on by the corporation with respect to which the property was held and the gross income, expenses, and net income derived from the conduct of such business for the taxable year and for each of the five preceding years;
- A statement of any reasons which existed for expectation that the operation of the property would be profitable, or a statement of the necessity for the use of the property in the business of the corporation and the reasons why the property was acquired;
- Any other information on which the corporation relies.

6. **Contributions or gifts deductible under section 505(a)(2).**—As noted under Specific Instruction 2 above, the amount deducted under section 23(g) in computing net income under chapter 1 is to be restored to income under item 2. Furnish in Schedule B details of the contributions or gifts paid within the taxable year to or for the use of donees described in section 23(g), and enter the total amount thereof as item 6 except where such total exceeds 15 percent of item 5 minus item 4, in which case the amount to be entered as item 6 is 15 percent of item 5 minus item 4.

If a deduction is claimed in item 3, no deduction is allowable in item 6. (See section 505(a)(3).)

7. **Federal income, war-profits, and excess-profits taxes.**—Section 605(a) (1) provides that there shall be allowed as additional deductions Federal income, war-profits, and excess-profits taxes paid or accrued during the taxable year to the extent not allowed as a deduction under section 23; but not including the tax imposed by section 102, section 500, or a section of a prior income-tax law corresponding to either of such sections.

Furnish details of such items in Schedule C and enter the total amount in item 7.

8. **Income and profits taxes of a foreign country or United States possession.**—The foreign tax credit permitted to domestic corporations by section 131 with respect to the taxes imposed by chapter 1 is not allowed as a credit with respect to the surtax imposed by section 500. However, the deduction under section 23(c)(2) of income, war-profits, and excess-profits taxes imposed by the authority of any foreign country or possession of the United States is permitted for the purpose of computing the undistributed subchapter A net income subject to the surtax imposed by section 500 even though the taxpayer claims a credit for such taxes against the taxes imposed by chapter 1.

Domestic corporations should enter in item 8 the amount of such taxes shown on line 4, Schedule M, Form 1120, where any portion thereof has been claimed as a credit in item 36, page 1, Form 1120, but if such corporations have claimed such taxes as deductions under section 23(c)(2) in computing net income subject to tax under chapter 1, no entry should be made in item 8.

Foreign corporations should treat such taxes as deductions to be allocated in accordance with section 119 in the computation of net income from sources within the United States and in such cases taxes of this nature will be reflected in the net income stated in item 1 instead of being stated separately as a deduction in item 9.

9. **Amounts paid in liquidation of liability of a corporation based on liability of a decedent to make contributions or gifts.**—Section 505(a)(3) provides, in the case of a corporation organized prior to January 1, 1934, to take over the assets and liabilities of the estate of a decedent, for a deduction representing amounts paid in liquidation of any liability of the corporation based on the liability of the decedent to make contributions or gifts to or for the use of donees described in section 23 (o) for the purposes therein specified, to the extent such liability of the decedent existed prior to January 1, 1934. No deduction shall be allowed under paragraph (2) of section 505 (a) for a taxable year for which a deduction is allowed under paragraph (3) of such section. (Paragraph (2) relates to the limited deduction for contributions or gifts paid. See Specific Instruction 6.)

Any deduction claimed under this provision of law must be fully explained in a statement attached to the return.

12. **Dividends paid credit.**—Enter as item 12 the amount of the dividends paid credit as computed in Schedule D. (See also General Instruction I.)

No duplication of credit allowances with respect to any "deficiency dividends" is permitted. If a corporation claims and receives the benefit of the provisions of section 506 based upon a distribution of "deficiency dividends," that distribution does not become a part of the basic surtax credit for the purposes of subchapter A of chapter 2.

13. **Amount used or irrevocably set aside to pay or retire indebtedness of any kind incurred prior to January 1, 1934.**—Enter as item 13 the total amount reflected in item 12 of Schedule E. Section 504(a) provides that in determining "undistributed subchapter A net income" there shall be deducted amounts used or irrevocably set aside to pay or to retire indebtedness of any kind incurred prior to January 1, 1934, if such amounts are reasonable with reference to the size and terms of such indebtedness.

**Indebtedness.**—The term "indebtedness" means an obligation, absolute and not contingent, to pay, on demand or within a given time, in cash or other medium, a fixed amount. The term "indebtedness" does not include the obligation of a corporation on its capital stock.

The indebtedness must have been incurred (or, if incurred by assumption, assumed) by the taxpayer prior to January 1, 1934. An indebtedness evidenced by bonds, notes, or other obligations issued by a corporation is ordinarily incurred as of the date such obligations are issued, and the amount of such indebtedness is the amount represented by the face value of the obligations. In the case of refunding, renewal, or other change in the form of an indebtedness, the giving of a new promise to pay by the taxpayer will not have the effect of changing the date the indebtedness was incurred.

**Amounts used or irrevocably set aside.**—The deduction is allowable, in any taxable year, only for amounts used or irrevocably set aside in that year. The use or irrevocable setting aside must be to effect the extinguishment or discharge of indebtedness. In the case of refunding, renewal or other change in the form of an indebtedness, the mere giving of a new promise to pay by the taxpayer will not result in an allowable deduction. If amounts are set aside in one year, no deduction is allowable for such amounts for a later year in which actually paid. As long as all other conditions are satisfied, the aggregate amount allowable as a deduction for any taxable year includes all amounts (from whatever source) used and, as well, all amounts (from whatever source) irrevocably set aside, irrespective of whether in cash or other medium. Double deductions are not permitted.

**Reasonableness of the amounts with reference to the size and terms of the indebtedness.**—The reasonableness of the amounts used or irrevocably set aside must be determined by reference to the size and terms of the particular indebtedness. Hence, all the facts and circumstances with respect to the nature, scope, conditions, amount, maturity, and other terms of the particular indebtedness must be shown in each case.

Ordinarily an amount used to pay or retire an indebtedness, in whole or in part, at or prior to the maturity and in accordance with the terms thereof will be considered reasonable, and may be allowable as a deduction for the year in which so used, if no adjustment is required by reason of an amount set aside in a prior year for payment or retirement of the same indebtedness.

All amounts irrevocably set aside for the payment or retirement of an indebtedness in accordance with and pursuant to the terms of the obligation, for example, the annual contribution to trustees required by a mandatory sinking fund agreement, will be considered as complying with the statutory requirement of reasonableness. To be considered reasonable, it is not necessary that the plan of retirement provide for a retroactive setting aside of amounts for years prior to that in which the plan is adopted. However, if a voluntary plan was adopted prior to 1934, no adjustment is allowable in respect of the amounts set aside in the years prior to 1934.

**General.**—The burden of proof will rest upon the taxpayer to sustain the deduction claimed. Therefore, the taxpayer must furnish the information required by Schedule E of the return and such other information as the Commissioner may require in substantiation of the deduction claimed.

15. **Dividends paid after close of taxable year, excluding deficiency dividends as defined in section 506(c).**—Enter as item 15 the amount of dividends paid after the close of the taxable year and before the fifteenth day of the third month thereafter, if claimed under section 504(c) in the return, but only to the extent, and subject to the limitations contained in that section. (See General Instruction I.)

No duplication of credit allowances with respect to any "deficiency dividends" is permitted. If a corporation claims and receives the benefit of the provisions of section 506 based upon a distribution of "deficiency dividends," that distribution is not made the basis of the 2½-month carry-back credit provided for in section 504(c).

20 to 31. **Alternative tax under section 117(c)(1).**—The provisions of section 117(c)(1) impose an alternative tax, determined in the manner set forth in such section, in lieu of the aggregate tax imposed by sections 13, 14, 15, 20, 207(a)(1), (2), and 500. In the event that item 1 includes any amount with respect to coal royalties to which section 117(k)(2) is applicable, see section 117(k)(2) and the regulations thereunder. In the case of a personal holding company having an excess of net long-term capital gain over net short-term capital loss included in undistributed subchapter A net income and such company is liable for normal tax and surtax under chapter 1, the following rules are applicable:

- Compute the tax imposed by chapter 1 and determine the effective rate applicable to the tax with respect to the excess of the net long-term capital gain over net short-term capital loss;
- The amount of tax thus computed is to be considered as chapter 1 tax;
- The tax liability computed under the alternative method with respect to the personal holding company return should be reduced by that portion of the chapter 1 tax attributable to the excess of such capital gain;
- The tax liability as so reduced will constitute the personal holding company surtax.
